- No. 57 Regulations respecting Rondeau Provincial Park, 1913. Presented to the Legislature, February 27th, 1914. *Printed.*
- No. 58 Return to an Order of the House of the 27th March, 1913, for a Return showing:—1. Copies of all correspondence between the Minister of Public Works or any other member of the Government or any official thereof, and any person or persons relating to the floods on the Grand River or any other river in the Province during the years 1908, 1909, 1910, 1911, 1912. 2. Copies of all petitions received during the said years by the Government or any Minister of the Government from any person or persons relating to the floods on the Grand River or any other river in the Province, or requesting the Government to take action towards the prevention of floods. 3. Copies of all reports made by any engineer or engineers employed on behalf of the Government or on behalf of the Hydro-Electric Power Commission, for the purpose of investigating the floods on the Grand River or any other river in the Province, or the means of preventing or mitigating such floods or of conserving and regulating the flow of such rivers or investigating the electrical power potentialities of such rivers. Presented to the Legislature, February 27th, 1914. Mr. Marshall. *Not Printed.*
- No. 59 Return to an Order of the House of the 22nd April, 1913, for a Return showing:—Copies of all correspondence between the Attorney-General or any other member of the Government or any official of the Government and any other person or persons relating to:—1. The prosecution of one Goodman, formerly Chief of Police at New Liskeard on November 12th last, for an offence against the Game Laws. 2. The conduct of one McKelvie, an overseer of the Game and Fisheries Department at

New Liskeard, Ont., or the dismissal of the said McKelvie from his position. 3. The prosecution of one Eli Tibbs in November, 1912, for illegal possession of furs. 4. The prosecution of any party or parties for illegal possession of furs seized by the said McKelvie from one Angus Wabi. Presented to the Legislature, February 27th, 1914. Mr. *Elliott*. *Not Printed*.

- No. 60 A Return to an Order of the House of the 15th April, 1913, for a Return showing:—1. In detail the persons to whom the sum of \$19,946.18, appearing on page 323 of the Public Accounts, 1912, was advanced by N. B. Colcock, and the purposes for which the same was advanced. 2. In detail the persons to whom the sum of \$11,060.85, appearing on page 372 of the Public Accounts was paid by N. B. Colcock, and the purposes for which the same was paid. Presented to the Legislature, March 3rd, 1914. Mr. *Anderson (Bruce)*. *Not Printed*.
- No. 61 Copies of Orders-in-Council authorizing payments out of Surrogate of the Counties of York and Simcoe in accordance with the provisions of the Surrogate Courts Act. Presented to the Legislature, March 10th, 1914. *Not Printed*.
- No. 62 Return to an Order of the House of the 11th March, 1913, for a Return showing for what Municipalities was the Report of the Lieutenant-Governor in Council in favour of, or against, building an electric railway for such Municipalities. Presented to the Legislature, March 16th, 1914. Mr. *Elliott*. *Printed*.
- No. 63 Copies of Orders in Council in accordance with the provisions of sec. 2, cap. 2, 2 George V, An Act for raising money on the Credit of the Consolidated Revenue Fund of Ontario. Presented to the Legislature, March 16th, 1914. *Not Printed*.
- No. 64 Return to an Order of the House of the 2nd March, 1914, for a Return showing:—1. What securities have been sold by the Province since October 31st, 1912. 2. What was the date of the sales. 3. What are the names of the purchasers. 4. What are the prices at which such securities were sold. Presented to the Legislature, March 16th, 1914. Mr. *Sinclair*. *Not Printed*.
- No. 65 Return to an Order of the House of the 27th February, 1914, for a Return showing:—1. What timber limits, or areas, have been sold by the Government since the first day of January, 1913, and the total area of each. 2. The price at which each such limit, or area, was sold. 3. The names of the respective purchasers and if any were sold at public auction. 4. And if any were so sold at auction, which limit or area was so sold, and the dates on which the several sales took place. Presented to the Legislature, March 18th, 1914. Mr. *Mageau*. *Not Printed*.

- No. 66 Return to an Order of the House of the 6th March, 1914, for a Return showing:—1. Application for license of William Smuck of the Township of Bayham in the electoral district of East Elgin for the year 1913-14; the granting thereof; the withdrawal of such application; all correspondence between the Department and any officer thereof and the said Smuck, or the License Inspector or other residents of East Elgin in reference thereto. 2. The application of the said Smuck to be appointed License Inspector for East Elgin, and all protests against his appointment. 3. All letters, reports or communications in reference to the health or work by the former License Inspector, Mr. W. R. Andrews. 4. The resignation of the former License Inspector or Notice of the Termination of his employment. 5. All protests or complaints during the years 1912, 1913 and 1914 from residents of Aylmer or other citizens of East Elgin in reference to the lack of enforcement of the License Law and the conduct of the hotels in Aylmer or of license officials of East Elgin. Presented to the Legislature, March 27th, 1914. Mr. Rowell. *Not Printed.*
- No. 67 Minutes of the Proceedings in Conference of the Representatives of the Provinces, October, 1913. Presented to the Legislature, March 19th, 1914. *Printed.*
- No. 68 Return to an Order of the House of the 2nd March, 1914, for a Return showing:—1. What amount was received by the Government from Messrs. Taylor, Scott & Co. for the work done by prisoners from Central Prison under its contract with Taylor, Scott & Co., dated 1st September, 1905, for each year during which the contract was in force. 2. How long was the contract in force. 3. What amounts were paid by the Government with or arising out of the said contract. 4. To whom were such amounts paid. 5. Was the agreement between Taylor, Scott & Co. and the Government changed after the agreement had been submitted to the House and approved by it. 6. If it were changed, were such changes embodied in an agreement in writing between the parties. 7. If it was changed, was such change or modified agreement submitted to the House for approval. Presented to the Legislature, March 23rd, 1914. Mr. Bowman. *Not Printed.*
- No. 69 Return to an Order of the House of the 18th March, 1914, for a Return showing:—1. The names of the license holders under the Liquor License Act in the City of Toronto for the year from 1st May, 1908, to 1st May, 1909, and the place or places of business in which each license holder carried on business. 2. The names of those license holders under the said Act, and the location of the premises in which they carried on business, whose licenses were cut off or were not renewed in the year

1909 in Toronto. 3. The names of the license holders in Toronto whose licenses were transferred with the approval of the Board of License Commissioners in the years 1909, 1910, 1911, 1912 and 1913; the places in which they carried on business; the names of the persons to whom licenses were transferred; and the locations of the premises in which the persons to whom the licenses were transferred carried on business. Presented to the Legislature, March 23rd, 1914. Mr. *Proudfoot*. *Not Printed*.

- No. 70 Return to an Order of the House of the 26th March, 1913, for a Return showing:—1. All the correspondence (including telegrams) passing between the Prime Minister, the Attorney-General, the Minister of Crown Lands or any other member or official of the Government and the Counsel or Solicitors for Keewatin Power Company, or the Counsel or Solicitors for the Hudson's Bay Company with reference to the action brought by these Companies against the Town of Kenora for a declaration that they and not the Crown were the owners of the water power on the East Branch of the Winnipeg River, and that the lease from the Crown to the Town of Kenora was invalid. 2. A copy of the telegram (if any) sent by the Prime Minister to the Counsel for the Keewatin Power Company advising him that the Government did not desire to defend its own title to the water power or be added as a party to the action. 3. All correspondence (including telegrams) passing between the Town of Kenora or the Counsel or Solicitors for the Town of Kenora, and the Government or any Minister or official thereof with reference to these actions, and particularly all communications requesting the Crown to take part in the defence of its own title to the water power. 4. Copies of all correspondence (including telegrams) passing between the Prime Minister, Attorney-General, the Minister of Crown Lands or any other Minister or official of the Government, and Mr. W. H. Hearst, acting as Counsel for the Government, in reference to these actions. 5. Copy of the judgments of the Trial Judge and the Court of Appeal. Presented to the Legislature, March 24th, 1914. Mr. *Rowell*. *Not Printed*.
- No. 71 Revised Rules, Orders and Forms of the Division Courts of the Province of Ontario. Presented to the Legislature March 26th, 1914. *Printed*.
- No. 72 Correspondence and Papers relating to timber in the Algonquin Park Forest Reserve. Presented to the Legislature, March 27th, 1914. *Printed*.
- No. 73 Whitson's Report upon Road Construction in Northern Ontario. Presented to the Legislature, March 30th, 1914. *Printed*.

- No. 74 Return to an Order of the House of the 27th February, 1914, for a Return showing:—1. The names of the tenderers for the supply of coal for Government Institutions, in Toronto, during the years 1910, 1911, 1912 and 1913, respectively. 2. The amount of each tender for each of such years. 3. The names of the contractor or contractors for each of such years. 4. The amount of coal supplied under each contract during each year. 5. The prices at which the coal was purchased. Presented to the Legislature, March 31st, 1914. Mr. *Bowman*. *Not Printed*.
- No. 75 Return to an Order of the House of the 27th February for a Return showing:—1. What buildings have been erected by the Province at the Prison Farm at Guelph. 2. What has been the total cost to the Province of each building. 3. Were any of these buildings built by prison labour in whole or in part. 4. If so, what buildings, and what class of prison labour was employed. 5. And if the statement of cost makes any allowance for the prison labour employed, if any. Presented to the Legislature, March 31st, 1914. Mr. *Atkinson*. *Not Printed*.
- No. 76 Return to an Order of the House of the 18th March, 1914, for a Return showing:—1. Whether the Minister of Agriculture or any officer or official of his Department, or the Minister of Education or any officer or official of his Department, communicated with the district representative of Agriculture within the County of Welland with reference to his attitude to the Canada Temperance Act or the vote to be taken thereon on the 29th January last. 2. And if any communication was made, was such communication verbal or in writing. 3. And who was the officer making the same, and what was the date thereof. Presented to the Legislature, March 31st, 1914. *Not Printed*.
- No. 77 Return to an Order of the House of the 27th March, 1914, for a Return showing:—1. The conditions upon which grants are made to rural public schools. 2. Were the grants to the rural public schools of Ontario in 1913 less per school in 1913 than they were in the year 1912. If so, how much. 3. Has the Department of Education notified the Boards of Public School Trustees of Rural Schools, or any of them, that they cannot pay the grant provided for by the regulations. 4. If such notice has been given, upon what their ground for refusing to pay the grants. 5. Has the Department of Education notified the School Boards of Rural Schools, or any of them, that the grants this year would be cut down 28 *per cent.*, or any amount whatever. If so, how much. Presented to the Legislature, April 1st, 1914. Mr. *Kohler*. *Not Printed*.
- No. 78 Return to an Order of the House of the 30th March, 1914, for a Return showing:—1. What was the estimated cost of the heating plant for the Toronto University. 2. What was the actual cost of the plant when fully completed. 3. Has the total amount

- been paid; if not, what amount, if any, is held in reserve. 4. And if the heating plant is giving satisfaction. Presented to the Legislature, April 1st, 1914. Mr. *Bowman*. *Not Printed*.
- No. 79 Return to an Order of the House of the 1st April, 1914, for a Return of copies of all correspondence, resolutions or other documents received by, or on behalf of any Member of the Government in any way relating to the Hamilton Athletic Association regarding which certain legislation is sought for during the current Session. Presented to the Legislature, April 2nd, 1914. Mr. *Studholme*. *Not Printed*.
- No. 80 Return to an Order of the House of the 1st April, 1914, for a Return showing:—1. What sum of money has Sir William Meredith, the Chief Justice of Ontario, received from the Government in addition to his salary as Chief Justice, since January 1st, 1909, to date. 2. In what capacity did Chief Justice Sir William Meredith receive such sum or sums; and what amount was received with respect to each capacity in which he received any sum or sums as aforesaid. Presented to the Legislature, April 2nd, 1914. Mr. *Anderson (Bruce)*. *Not Printed*.
- No. 81 Return to an Order of the House of the 27th March, 1914, for a Return showing:—1. If there was a deficit in the financial operations of the Provincial University for the fiscal year ending 1912. If so, how much. 2. Was there a deficit in the financial operations of the Provincial University for the fiscal year 1913. If so, how much. 3. If there have been deficits during the years 1912-13, or either of them, how have these deficits been provided for. 4. What is the estimated expenditure of the Provincial University for the current fiscal year. 5. What is the estimated revenue of the University for the current fiscal year. Presented to the Legislature, April 2nd, 1914. Mr. *Marshall*. *Not Printed*.
- No. 82 Return to an Order of the House of the 27th March, 1914, for a Return showing:—1. If there was an option given to the firm of Murray, Mather & Co. to purchase certain Government securities during the calendar year 1913. 2. If so, what was the date of the option, and what were the character, amount and price of the securities covered by it. 3. Was such option, if any, exercised; and if so, to what extent. Presented to the Legislature, April 3rd, 1914. Mr. *Sinclair*. *Not Printed*.
- No. 83 Return to an Order of the House of the 27th March, 1914, for a Return showing:—1. Copy of evidence of Mr. Taylor, of Messrs. Taylor, Scott & Co., given before the Dominion Penitentiary Investigation Commission, of which Mr. G. M. Macdonald, K.C., of Kingston, is Chairman, and which was taken in Shorthand by a Stenographer provided by Dr. Gilmour,

Warden of the Central Prison, such evidence or a copy thereof being now in the custody or control of the Provincial Secretary, or of some of the officers or officials of his Department, or of the institutions under the control of his Department. 2. Copies of all correspondence passing between the Provincial Secretary, or any officer or official of his Department, or any officer or official of any of the institutions under the charge of his Department, and Mr. Joseph Downey, in reference to the said evidence or the production thereof. Presented to the Legislature, April 3rd, 1914. Mr. *Bowman*. *Not Printed*.

- No. 84 Report of the Good Roads Commission. Presented to the Legislature, April 7th, 1914. *Printed*.
- No. 85 Copy of an Order-in-Council approved by His Honour the Lieutenant-Governor, under the provisions of 552 of sec. 18 of the Municipal Drainage Act. Presented to the Legislature, April 8th, 1914. *Printed*.
- No. 86 Return to an Order of the House of the 2nd March, 1913, for a Return showing:—1. Copies of all correspondence between the Minister of Education or any other member or official of the Government and any other person or persons during 1910, 1911 and 1912, relating to the investigation made by Dr. Merchant of the bi-lingual or French-English Schools in Ontario. 2. Copies of all correspondence between the Minister of Education or any other member or official of the Government and any other person or persons during the year 1912, relating to Regulation No. 17. Presented to the Legislature, April 9th, 1914. Mr. *Mageau*. *Not Printed*.
- No. 87 Return to an Order of the House of the 7th April, 1914, for a Return showing:—1. How much the Hydro-Electric Power Commission has spent in building the trunk line from Morrisburg to Prescott, and from Morrisburg to Winchester and Chertville. 2. Did the Hydro-Electric Power Commission enter into an agreement with the New York and Ontario Power Company, or any person on their behalf, for a supply of power for transmission on this line, to be developed at Waddington or elsewhere; and if so, what is the date of such agreement. 3. Was it a term of any such agreement that the Directors of the New York and Ontario Power Company became personally liable if power was not supplied within a certain defined time. 4. Has the Hydro-Electric Power Commission entered into any agreement with the Rapids Power Company for the supply of power; if so, what is the date of such agreement. Presented to the Legislature, April 9th, 1914. *Not Printed*.
- No. 88 Coles' Report, Mining Engineer, Timiskaming and Northern Ontario Railway Company. Presented to the Legislature, April 28th, 1914. *Printed*.

- No. 89 Return to an Order of the House of the 8th April, 1914, for a Return showing:—1. The number of convictions for intoxication in Local Option Municipalities. 2. Convictions for other offences against Local Option Law during the license year 1912-13. Presented to the Legislature, April 14th, 1914. Mr. McPherson. *Not Printed.*

- No. 95 Official Regulations of the Ontario Hospitals. Presented to the Legislature, April 17th, 1914. *Printed.*
- No. 96 Statement of Statute distribution for 1913. Presented to the Legislature, April 21st, 1914. *Not Printed.*
- No. 97 Return to an Order of the House of the 27th March, 1913, for a Return showing:—Copies of all Orders in Council passed under Section 8, of the Power Commission Act, as amended by the Power Commissions Act, 1912. Presented to the Legislature, April 21st, 1914. Mr. Mageau. *Not Printed.*
- No. 98 Return to an Order of the House of the 1st April, 1914, for a Return showing:—1. All the schools in the Province, both public and separate, from which the Government grant has been withheld during the years 1912 and 1913 respectively. 2. The grounds upon which such grants have been withheld from the said schools respectively. 3. The grounds upon which County Councils are required to withhold from schools the moneys raised by taxation from the people. Presented to the Legislature, April 21st, 1914. Mr. Racine. *Not Printed.*

- No. 99 Return to an Order of the House of the Twenty-first day of April instant for a Return of a Copy of the Letters, or Charter, of the "Ontario Homes Company, Limited," giving the Corporation license to promote a company for the purpose of engaging in the business of the purchase of real estate in manufacturing localitiés and showing what, if any, returns have been made to the Department and if the company is still doing business. Presented to the Legislature, April 22nd, 1914. Mr. *Studholme*. *Not Printed*.
- No. 100 Return to an Order of the House of the 16th April, 1914, for a Return showing:—The quantity of settlers' effects delivered over the T. & N. O. Railway at New Liskeard and Cochrane, respectively, and carried as such under the regulations of the said Railway, for the financial year ending October 31st, 1913. Presented to the Legislature, April 24th, 1914. Mr. *Atkinson*. *Not Printed*.
- No. 101 Return to an Order of the House of the 17th February, 1913, for a Return of: Copies of all correspondence between Bishop Fallon, of London, and the Provincial Secretary, the Minister of Public Works or any Member of the Government regarding the Bi-lingual Schools in the Province of Ontario, since the first day of May, 1910. Presented to the Legislature, April 24th, 1914. Mr. *Evanturel*. *Not Printed*.
- No. 102 Return to an Order of the House of the 17th February, 1913, for a Return of Copies of all correspondence between Bishop Scollard, of Sault Ste. Marie, and the Government, regarding the Bi-lingual Schools of the Province of Ontario, since the first day of March, 1907. Presented to the Legislature, April 24th, 1914. Mr. *Evanturel*. *Not Printed*.
- No. 103 Return to an Order of the House of the 16th April, 1914, for a Return showing:—1. All correspondence between the Department of Education and any officer or official thereof and the Board of Trustees of the Almonte High School. 2. All correspondence between the Department of Education and any officer or official thereof and any of the teachers in the Almonte High School. 3. All correspondence between the Department of Education and any officer or official thereof and Miss Eade with reference to an application by her for a position in the Almonte High School. Presented to the Legislature, April 28th, 1914. Mr. *Marshall*. *Not Printed*.
- No. 104 Return to an Order of the House of the 21st April, 1914, for a Return showing:—1. The present practice of the Department of Education in regard to the number of text-books authorized for use in each subject in the Course of Studies. 2. The number of text-books authorized for use in the elementary and secondary

schools of Ontario issued since the date of the last return laid before this House, March 20th, 1911, and the methods adopted to keep these books up to the requirements of the schools. 3. The cost to the Province of each of these books in the form of payments to authors, printers and electrotypers. 4. The estimated saving to purchasers of all text-books in elementary and secondary schools on all the books as compared with previous prices of the same. 5. The amount annually paid in royalties by the Department of Education to writers of authorized text-books. 6. The cost to the Province of the preparation, editing, and printing of supplementary readers authorized for use in the schools. 7. The amount paid annually by publishers to any official of the Department of Education on text-books authorized for use in the schools of this Province. 8. What Ontario books have been adopted in other Provinces. Presented to the Legislature, April 28th, 1914. Mr. *Musgrove*. Printed.

REPORT OF HOMEWOOD SANITARIUM, GUELPH—	
Voluntary Branch	121
Insane Branch	122

Report

Of Edwin R. Rogers, Inspector of Prisons and Public Charities for the year ending Oct. 31st, 1913.

GENERAL.

On Oct. 31st, 1913, exclusive of insane patients in the Homewood Sanatorium at Guelph, there were in the Hospitals for Insane of Ontario 5,912 insane persons divided as follows:

Males	2,881
Females	3,031
	<hr/>
	5,912

The net increase in the population for the year was 186.

MOVEMENTS OF PATIENTS.

The daily average number of patients in the Provincial Hospitals for the Insane during the year was 5,822. An increase of 140.

The total number of admissions was 1,337, an increase of 90.

The total number of deaths was 408, a decrease of 52.

The total number of discharges was 612, an increase of 42.

REVENUE.

There has been an increase in the revenue from paying patients as follows:

1912	\$189,096.93
1913	205,649.41
	<hr/>
Increase	\$16,582.48

There is also an increase collected from the Municipalities under the provision of 6 Edward VII., Chap. 8, as follows:

1912	\$116,896.70
1913	119,701.50
	<hr/>
Increase	\$2,804.80

DEPORTATION.

During the year 257 persons have been deported as follows:

Number of insane	44
Number of criminals	138
Number likely to become a public charge	75
	<hr/>

257

Owing to the increased number of the insane, it was impossible to provide the accommodation for all the applications.

At most of the Institutions, alterations and improvements are being made to provide for the accommodations required.

At Brockville the farm buildings were improved and the house was enlarged for working patients on the farm. The new admission Hospital is well under way, and it is hoped that it will be ready for occupation early in the coming fall.

At Hamilton the farm lands and buildings have been improved, the gardener's house completed and occupied and many general improvements were made.

At Mimico, the laundry has been completely overhauled and the drying-room removed, and the health of the working patients carefully looked after.

At Kingston the sewage house has been changed so that the overflow that goes into the river is now deprived of all danger of disease. Many other improvements have been made.

At London, many general improvements have been made.

At Penetanguishene the raw sewage has been turned on to the land and treated so that there is no danger from it going into the lake.

The work at Whitby has been pushed forward rapidly, and it is expected that in the early fall some patients will be placed in the new cottages now nearing completion.

EDWIN R. ROGERS,

Inspector.

N.B.—The above is a Comparative Statement of the cost of maintenance per patient per day for the twelve months ending 31st October, 1913, in the ten Hospitals for the Insane, as compared with the twelve months ending 31st October, 1912, based on actual consumption and calculated to two places of decimals of a cent. The figures in black-faced type represent totals.

Under the headings "Provisions" and "Clothing" is shown the actual consumption by patients—the value of such supplies to officers, attendants, nurses and employees being included in the account "Employees' Meals and Uniforms."

Where no charge is shown for light or water, these are included in the cost of coal.

The produce of the Farm and Garden consumed is included in the gross per capita cost. The total crop being deducted as shown, gives the net per capita cost per day.

No. 21—Continued.

per Day for the Twelve Months ending October 31st, 1913.—Continued.

NOTES ON PER CAPITA STATEMENT.

Attached hereto is a statement of the cost of maintenance per patient per day for the year ending October 31st, 1913, in the ten hospitals mentioned, as compared with the year 1912 being based on actual consumption.

It follows out the order of the sub-divisions of appropriations voted by the Legislature, and is calculated to two places of decimals of a cent. The figures in black-faced type represent totals.

Invoices for all purchases, properly certified by the Bursar and the Store-keeper, as to accuracy and receipt of goods, are checked in the Department before being submitted to the Treasury for payment.

A system of Daily Requisitions for all supplies, such as provisions, is carried out and these requisitions are forwarded to the Department semi-weekly. In case of coal, the amount consumed on each shift is weighed and weekly report of consumption made by the engineer.

Under headings "Provision" and "Clothing" is shown only consumption by patients—the value of such supplies to officers, attendants, nurses and employes being included in the account "Employees' Meals and Uniforms" under the heading "Salaries."

Quarterly inventories of stock are taken at each institution, and are checked with the ledger accounts of the Department.

Returns are made of all products of the Farm and Garden, as received, charges being made against the cost of maintenance, and the Farm and Garden given credit for the same; for this purpose a uniform price list is in use for all institutions, regardless of soil or fertility of farm. At the end of the year the value per patient per day of such products—fruits, vegetables, feed and fodder, meat and eggs—is deducted from the gross per capita cost and appears in the statement as "Farm Recoveries."

APPENDIX

TO FORTY-SIXTH ANNUAL REPORT UPON THE HOSPITALS FOR
THE INSANE AND CONTAINING THE ANNUAL REPORTS OF
THE MEDICAL SUPERINTENDENTS OF THE HOSPITALS IN
BROCKVILLE, COBOURG, HAMILTON, KINGSTON, LONDON,
MIMICO, PENETANGUISHENE, TORONTO, AND HOMEWOOD

Total number leaving the institution during the year.....				79	69	148
Total number remaining in Hospital on October 31st, 1913.....				349	368	717

ADMISSIONS.

During the past year we admitted to the hospital one hundred and sixty-six patients—seventy-nine men and eighty-seven women. Of this number seventy-two were single, eighty-four married, and ten widowed. Of the seventy-two single persons admitted, thirty-eight were males and thirty-four females—of the married thirty-eight were males and forty-six females—of the widowed three were males and seven females.

Over 50 per cent., as far as we could ascertain of all admissions, had an hereditary tendency. A number of others from whom it was impossible to obtain a correct history, should be placed in this class.

Thirty-five of those admitted were reported to be ill for a period less than one month, seventeen for less than two months, seventeen for less than three months, ten for less than four months, nine for less than five months, four for less than six months, sixteen for less than nine months, two for less than twelve months, two for less than eighteen months, seventeen for less than two years, eleven for less than three years, fourteen for less than ten years, eight for less than fifteen years, two for less than twenty years, and two over twenty years.

Over one-third of all admissions were in the chronic class before being sent in for treatment.

Two persons admitted during the year were only twelve years of age. The eldest admitted during the year was eighty years old. There were fifteen admissions under twenty-one years, thirty-one between twenty-one and thirty, thirty-three between thirty and forty, thirty-four between forty and fifty, twenty-six between fifty and sixty, nineteen between sixty and seventy, seven between seventy and eighty, and one over eighty.

The senile cases still come in large numbers. A number of these are very troublesome and difficult to nurse, and it would be impossible for many of them to be properly cared for at home, and, indeed, the patients of those looking after them in the institutions is severely tried.

Thirty of our admissions were diagnosed as senile or allied psychosis, 58 dementia præcox, 25 manic depressives, six paranoics, six pareties, nine exhaustion psychosis, four melancholics, one hysteria, nine alcoholics, seven epileptics, and eleven imbeciles.

We have been greatly embarrassed for room on the female side during the whole year. On the male side we always have vacancies owing to the room made at the Farm House for male patients.

DISCHARGES.

Seventy-six patients were discharged during the year. Forty-five were considered recoveries, twenty-four improved, and seven unimproved. Some of these discharged as improved have been reported to us since as having made a good recovery, so that our percentage of recoveries might have been placed much higher. Some of those discharged as recovered were considered at one time as incurable. One man particularly had been thought to be very dangerous. We have heard occasionally from him since leaving here and he is doing well. One man has been a resident for over ten years. He was a high-class moron, but as he became older he acquired more discretion and judgment and is now doing well for himself and has steady employment.

DEATHS.

Our death-rate was fairly high—twenty-eight men and thirty-five women died during the year. As usual a large number of the early transfers to this institution were in this list, and a number of old people who were admitted during the year. About thirty deaths were over sixty years of age, and two were over eighty. The death rate from tuberculosis was rather lower than last year—six women and six men died from this disease.

TREATMENT ACUTE CASES.

There is nothing new to be said on this line except that our treatment is more systematic and that the patients' welfare is more carefully looked after than ever before, as we have a nurse in each of our admission wards who has taken a post graduate course. We have also a special diet kitchen in connection with each of these wards under an efficient nurse.

We owe a great deal to our hydrotherapeutic treatment. This, in connection with massage, has accomplished a great deal for those under our care. The efficacy of these measures is demonstrated by gratifying results.

LABORATORY WORK.

Laboratory work in connection with the examination of the acute cases has been well kept up during the year by our medical staff.

TREATMENT CHRONIC CASES.

The care and treatment of the chronic insane is a very important portion of the work. This class is large in all our institutions, and it is very desirable that they not only be properly housed and cared for, but their life in the institution should be made as happy as possible. This has been done by giving all who are able steady employment in work that they are qualified to do. Every one physically and mentally fit to work has some regular employment. Occupation can be found for the men out-of-doors, and an Industrial Room has been opened which gives employment to a great many more females than formerly and takes them out of the wards for a portion of each day.

Summer and winter outdoor sports have also been provided in addition to the usual weekly dances, and special indoor entertainment in the winter.

The annual sports day each summer is looked forward to with much pleasure. This year it was a great success and the interest shown and the keen rivalry manifested between patients, nurses and attendants for first places in the various events was very gratifying. The day was greatly enjoyed by all those taking part and by visitors who were privileged to be present.

TRAINING SCHOOL.

Our training school was rather broken up during the later part of last season owing to the resignation of the two doctors from our medical staff in the early spring. The work had been carefully carried on through the winter. In spite of this, the nurses gave a good account of themselves at the examination and all that passed took excellent standing in the various subjects.

Our graduating exercises were held in the Grove, on the afternoon of July 4th, and were attended by a very large number of our citizens. Four nurses received their diplomas. Addresses were delivered by prominent speakers and refreshments served.

IMPROVEMENTS.

New Presco heaters were installed in connection with central heating plant in main building to adjoining cottages on both male and female sides, so that furnaces are no longer required in these cottages. Arrangements are being made to connect the remaining cottages to the central heating plant in a similar way.

New rooms have been provided for the nurses and attendants respectively, a piano has been placed in the room for the nurses, and a pool-table in the room for the attendants. Owing to the great pressure of outside work these rooms are not yet completed, but will be open in a short time.

A new cold storage and milk room with storage for fruit, etc., in the basement has been built and will be in use this winter, as soon as the ice supply is ready. It will assist those in charge of the kitchen very much in their work.

The new admission hospital, under contract, is making good progress. We do not expect it will be ready for patients for another year.

A new cement tramway with steel rails for the conveyance of food to the various cottages was put in, and new cement pavement and sidewalks put down where required.

The entire buildings have been wired ready for electric fixtures, which are to be put in shortly.

NEW FARM.

This farm, with the purchase made last year, comprises three hundred and twenty acres, and is situated some two miles from the institution. It has been thought by all that the work would be much better carried on if the person in supervision of the farm work was located on the grounds. The Department, in order to have the best work possible done, appointed Mr. C. H. Wilson, of Orillia, as resident farmer. A house and lot lying directly across the road from the farm was purchased and fitted up for Mr. Wilson, and he has had charge of all farm work since his appointment.

Last fall our herd of cows was transferred to the new farm, as better accommodation, pasture and winter food were provided for them there. The milk is drawn here both night and morning and this works out very satisfactorily.

A new cement silo has been added to the Barrigar barn, where the cows are kept.

We were unfortunate in having a fire at the Stagg Farm in August that destroyed the stables, barn and large quantity of hay and grain and farm implements. The fire was originated by a patient who has been privileged for fifteen years and who was assisting in the farm work. She did not appear to be at all depressed, but went out in the evening and deliberately set fire to her clothing for the purpose of taking her own life. She went behind the barn so as to be out of sight and the fire from her clothing ran through the dry grass and ignited the hay in the mow of the farm. The patient did not die for a few hours and was able to give some explanation of her conduct. In consequence of the fire an out-building at the Barrigar farm has been fitted up as a temporary horse stable, which has been made quite commodious and comfortable.

The building planned for patients on the Stagg Farm is under course of construction. The cellar and basement have been excavated and the foundation walls all put in and considerable drainage done.

Last year a survey was made for the drainage of all fields of the new farm, and 11½ miles of this drain had been completed and tile laid. The creek running through the Stagg Farm has also been straightened. All this entailed an immense amount of work.

RELIGIOUS SERVICES.

The religious services for the Protestant population have been held every Sunday morning.

A special service for the Roman Catholics is held on the first Saturday of each month, besides special sacramental services once a quarter.

View from Main Building overlooking St. Lawrence River.

We are greatly indebted to the clergymen of the various denominations for their kindness in giving us these services. We feel keenly that there should be some remuneration to them for this work. It is not the regular services only for which we feel indebted, but there are many special calls for the sick and dying, and the clergymen have always responded most cheerfully to calls made upon them.

CHANGES IN STAFF.

At the end of last year the late Mr. Ross, our genial storekeeper who had been here for some two years, resigned his position to take charge of a more remunerative one in the Customs in Brockville, and Mr. George McGookin was appointed in his place. Mr. McGookin has filled the position now for a year.

On March 15th our Assistant Superintendent, Dr. Neely, resigned his position to go into private practice in New Ontario. He was succeeded by Dr. Vrooman, who was Assistant Physician at Toronto. Dr. Vrooman came on duty the 1st of April.

Dr. Crawford, Assistant Physician, resigned on the 15th of April to obtain a larger hospital experience. We were left without an assistant physician until Dr. McLean came on to take charge of the work, July 3rd.

Thanking yourself and the Department most heartily for the consideration, advice and assistance so cheerfully and promptly given throughout the year.

I have the honour to be,

Sir,

Your obedient servant,

J. C. MITCHELL.

Medical Superintendent.

ANNUAL STATISTICAL REPORT OF THE OPERATIONS OF THE
HOSPITAL FOR INSANE, BROCKVILLE, FOR THE YEAR
ENDING OCTOBER 31st, 1913.

TABLE No. 1—BROCKVILLE.

Showing movements of patients in the Hospital for the official year ending October 31st, 1913.

—	Male.	Female.	Total.	Male.	Female.	Total.
Capacity of Hospital	356	348	704			
In Residence October 31st, 1912.....				349	350	699
Admitted during year 1913:						
By Warrant	11	6	17			
By Medical Certificate	68	81	149	79	87	166

HOSPITAL FOR THE INSANE, COBOURG.

ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT FOR THE YEAR ENDING
OCTOBER 31ST, 1913.

NOVEMBER 1ST, 1913.

TO EDWIN R. ROGERS, ESQ.,

Inspector of Hospitals for Insane, Toronto, Ont.

SIR,—I have the honour to submit for your consideration the report for the Hospital for the Insane, Cobourg, for the twelve months ending October 31st, 1913.

During the year nineteen patients were admitted to this institution, all of whom were transferred from the Hospitals for the Insane at Mimico and Toronto. The average age of the patients admitted is much lower than usual and for this reason the matter of caring for them means an increase of work and greater responsibility. We do not complain of that however as we find the care of younger patients much more interesting and we can look forward with the hope of discharging some of them from time to time, partially, if not completely restored to health. With a little alteration of our building and some addition to our equipment we would be able to give acute cases as careful and thorough treatment here as could be provided elsewhere. Under such conditions it would not be necessary to send patients from this district who might be suffering from mental disease to distant points for treatment, often at considerable expense and inconvenience to both patients and friends. It is quite true that we are obliged to transfer excited patients to other hospitals from time to time but this would not be necessary if we had additional single rooms. It is well known that one disturbed patient is likely to cause much annoyance and discomfort to others occupying the same dormitory and indeed at times serious accidents may follow from such conditions. The number of deaths has been less than usual and the general health of the patients has been excellent indeed. Not a single case of any infectious or contagious disease occurred during the year.

In addition to the usual repairs necessary to keep the buildings in proper condition a considerable amount of additional work has been done in the different departments. A new ash hoist has been installed in the boiler room and we find it very useful indeed. A large electric fan has been placed in the laundry and we are no longer troubled with the excessive moisture which made it almost impossible at times to carry on the work. A fan has also been placed in the kitchen and one in the Bursar's office. A number of the old closets which have been in use in the building for years were removed and replaced by new ones. A number of partitions have been torn down and the bathrooms repainted. New furniture and furnishings were provided for the different halls which are now as bright and cheerful as may be seen anywhere. Alterations were made by which the Superintendent's residence is now heated by hot water instead of by steam. This change has proven very satisfactory and inexpensive. The roof of the main building which has been leaking for some time has also been repaired. A new poultry house has been erected and our first year's experiment in the raising of chickens is on the whole satisfactory. At present we are engaged putting in tile for drainage of our land and when this is completed we expect to increase very largely the pro-

ducts of our farm and garden, and to be able to produce a very considerable part of the food required for our patients. The products of our farm and garden have been on the whole satisfactory, although the excessively dry summer interfered to some extent with their growth. We ourselves should produce at comparatively small cost the principal articles of a diet most suitable for our patients.

During the year a course of lectures were delivered to the nurses. We were not able to cover the whole ground but I am quite sure however that these instructions have helped materially to improve the work of nursing and caring for our patients, and after all this is our most important responsibility.

Dances and entertainments were provided for our patients more frequently and are much appreciated. It is a matter of regret that we have not better accommodation for such purposes. The Salvation Army Band treated us to a splendid musical concert on Christmas Day which was much enjoyed and for which we are very thankful.

We have had less difficulty than usual in obtaining help during the year. Shorter hours, increased wages and more congenial surroundings have helped to promote a feeling of contentment. There is very little discord amongst the members of our staff.

Before closing this brief report I wish to thank you for the kindly interest you have manifested in our work during the year just closed.

I have the honour to remain,

Your obedient servant,

THOS. J. MOHR,

Medical Superintendent.

Main Building, Cobourg.

ANNUAL STATISTICAL REPORT OF THE OPERATIONS OF THE
HOSPITAL FOR INSANE, COBOURG, FOR THE YEAR
ENDING OCTOBER 31st, 1913.

HOSPITAL FOR THE INSANE, HAMILTON.

DECEMBER 8, 1913.

E. R. ROGERS, Esq.,

*Inspector of Hospitals for Insane, Parliament Buildings,
Toronto, Ont.*

SIR.—In compliance with the statutes, I beg herewith to submit the 38th Annual Report regarding this Hospital, being for the official year ending Oct. 31st, 1913.

Our admissions numbered 224 and discharges of those fit to return home 91 and by deportation, transfer to other hospitals and death 113, or a total of 204.

The patients remaining on our roll at the end of the year numbered 1311.

CROPS.

As the season was a most favorable one, the returns from the garden and farm were considerably above anticipations.

Of the various fruits there was supplied to the several buildings or placed in storage for future use 188,811 lbs., and vegetables 263,433 lbs. (the latter having equalled ten tons to the acre).

We anticipate that in our root house trenches and cold storage there are enough vegetables, potatoes excepted, and apples to carry us through to the late spring or early summer.

DAIRY.

The returns herefrom have been most excellent, and our young stock raised from the best animals in the herd are showing the evidence of care in breeding and early life in that they are producing better records than their dams.

Seven of the pure bred Holsteins have been entered in the Record of Performance test conducted by the Department of Agriculture, Ottawa.

One, a mature cow, in 318 days gave 16,185 lbs. of milk yielding 685 lbs. of butter. Another junior 3 years old, in 360 days gave 20,436 lbs. or a daily average of 56.76 lbs.; while another mature cow, the dam of the second cow referred to, from Jan. 1st to Oct. 31st gave 21,397 lbs. or 70.3 lbs. per day and is still giving a fair amount (her best day's production was 91 lbs.).

NEW WORK DONE BY MASON, CARPENTER, ENGINEER, ETC.

The cement block silo, in size 20 x 35 feet, was completed and filled and bids fair to give every satisfaction.

A similar one should be erected without the barn at Hickory Farm to replace the 16 foot stone one now occupying most useful and necessary space within the dairy stable and loft.

Cement curbs and ash pits have been constructed about the Infirmary and Shack and the grounds levelled and much improved in appearance.

Main Building, Hamilton,

The stone driving and storage shed at the Main Barn has been completed and provides much needed shelter for waggons, sleighs, etc.

The storage shed and stable for the gardener is well under way as the stonework for the walls is completed and carpenter work well in hand.

The wind mill at Hickory Farm which was our sole power for pumping water required for domestic use as well as in the stables, was replaced by an electrically driven deep well pump which is giving the utmost satisfaction.

At Hickory Farm also the ice pond was pumped out and the accumulated weeds removed and walls straightened, and it is again almost full with as clean and pure a supply of spring water as can be obtained anywhere.

The new orchard on this farm, which has been so excellently arranged by Mr. Todd, the Farm Director, gives promise of developing satisfactorily as very few, comparatively speaking, of the hundreds of trees have been lost.

MOVEMENTS OF STAFF.

On Dec. 21st, 1912, Dr. Kenneth T. McLean who had been in the service from the previous March retired to take up general practice and on Sept. 5th, 1913, Dr. Austin Evans, who had rendered most efficient service from the previous October, resigned also to enter general practice.

A large number of changes have occurred among the nurses and attendants, especially the former, but at present we have one of the most interested and hard working classes of girls that it has been our good fortune to start in training.

RECREATION.

Lawn tennis, lawn bowling, football, skating and curling have been well patronized and appreciated and many interesting games with other clubs enjoyed.

Our soccer football team was exceptionally fortunate in that they played 31 consecutive games without a defeat, and in the whole season lost only one match and another friendly game—they were in consequence winners of the District Intermediate Championship, as also the Ontario Intermediate Championship cup.

We also enjoyed the unique experience for this district of playing a portion of the "District Cup Competition" in curling on the open ice of Hickory Farm Pond in January.

REQUIREMENTS.

Central Boiler House.

The matter of a central plant for heating the several buildings and officers' residences and shops again looms up prominently before us when we consider the extremely large coal accounts now incurred and the yearly overdrafts to be met.

We are convinced that the estimated expenditure for coal—\$25,000 for the year 1913-14—could be cut almost in half were the changes made, and also a much more efficient and satisfactory service rendered.

Main Building Kitchen.

In this kitchen the brass double jacketed and iron steam kettles used in cooking have been in service for well nigh thirty years and there are seven now in use that should be replaced; we would recommend that a steam roaster and two double-jacketed aluminium kettles be purchased during the coming year.

Engineer's Machinery

When we consider the large amount of pipe cutting that is done by our engineers in the replacing of steam, water and gas pipes, the renewal of the bath-rooms and lavatory fittings and new work in connection with dairy barns, fencing, etc., it becomes more and more evident that a power pipe cutting machine should be installed and we sincerely trust that our estimates for the same may meet with your approval.

Laundry.

The present drying section has passed its usefulness and even with the single modern drying section installed some two years ago, is utterly inadequate for our requirements.

In the laundry also much efficiency would be added if a half dozen or more electric irons with control boxes and pilot lights, etc., were installed.

An electrically driven hoist has been purchased to replace the hand apparatus and we hope to instal it during the coming winter.

Root Storage for Gardener.

Time did not afford for the commencement of the new root house for which elaborate and most complete plans have been prepared and it is hoped that early in the coming spring we may be enabled to start the work as the need for such accommodation is very great.

Road Work.

By the renting of a stone crusher in the spring we were enabled to obtain a large amount of broken stone, which besides providing road metal gave a considerable amount of screenings which did away with the purchase of gravel for cement work.

By an arrangement with the Council of Barton Township, we furnished patient and expert labor in laying, under the supervision of their engineer, over 2,000 feet of cement curb and gutter along a large portion of the mountain brow road, leading from the Incline Railway to our entrance gates, the intention being to remake entirely the macadamized road, but as the township authorities were unable to secure a steam roller when required the finishing of the work was laid over for another season.

In addition to the labor we agreed to furnish the necessary crushed stone and a couple of teams to assist in hauling it.

Greenhouses.

The erection of extensive greenhouses adjacent to the Gardener's residence is we believe advisable, and some provision should be made at an early date as the houses at present in use are entirely inadequate in size and falling to pieces.

Thanking you most sincerely for your always ready advice and assistance so freely and cordially given, I am,

Your obedient servant,

W. M. ENGLISH,

Medical Superintendent.

Orchard House, Hamilton.

ROCKWOOD HOSPITAL FOR INSANE, KINGSTON.

To INSPECTOR E. R. ROGERS,

Toronto.

SIR.—I have pleasure in submitting my report for Rockwood Hospital, Kingston, for the year ending October 31st, 1913:—

The results of the year's labors are most gratifying and satisfactory to all concerned.

Amongst the admissions were a great number from outside the Rockwood district.

Most satisfactory to us is the list of voluntary admissions. Twenty-seven patients came to Rockwood this year without medical certificates, and without pressure of any kind. They realized they were sick, they realized that we had the facilities for proper treatment, and they were willing to take advantage of same. On the whole we must say that the voluntary principle works very advantageously, and we feel certain that this principle will develop and be exercised more freely in the future. Indeed, to my mind, there is no reason why there should be any certificates of insanity issued throughout the province. Were the public once educated on the advantages of hospital treatment as practised in our Hospitals for the Insane, they would be as desirous of taking advantage thereof, and would accept the principle of voluntarily seeking treatment in a hospital for mental diseases as cheerfully as they would seek admission to a general hospital for physical ailments.

The number of warrant cases this year has reached twenty-two. Ten of these came from outside the Rockwood District. There is no reason whatever why, under the methods practised at Rockwood Hospital, there should be any case admitted by warrant. We are always free to accept patients at any time. If the case be urgent we do not wait for certificates, and we would be glad if our practitioners throughout the district would kindly assist us in doing away with the pernicious system of issuing a warrant for the arrest of a sick man.

Interesting has been our experience with what is ordinarily known as social work. Though we have not developed this important side to the extent desired, we have had sufficient experience to warrant its further application. I do not know of any method more efficacious in spreading the knowledge as to the cause, the treatment and the hopeful outlook of mental disease. By this means the nurse from the hospital visits the patients, when discharged, in their own homes, their surroundings are closely noted, their method of living directed, their friends are carefully instructed as to their attitude towards the patient, and thus, you see, a double mission is fulfilled, that of nursing the patients and instructing their friends.

For some time past we have been endeavoring to establish a research laboratory at Rockwood Hospital, that we may pursue and develop more steadily the principles of this interesting and valuable branch of medical science. In no department of medicine is research work and original investigation more necessary, and in few departments indeed has so little been done. Last year a member of our staff was engaged in some rather important experiments: the line of investigation was not very exhaustively pursued, yet, after all, some results were obtained which led a

Main Building, Kingston.

member of the British medical profession to consider it worthy of special mention before a gathering of England's most prominent professional men. The results of our pathological laboratory for this year as submitted by Dr. Cornell are as follows:—

I desire to submit a short resume of my work during the year closing October 31st, 1913.

During this period nine autopsies only have been held, it having proven difficult to secure necessary permission in many cases. In one of the cases, a general parietic, we have succeeded in finding the *spirochaete pallida* in the brain substance (superior frontal gyrus) by Levaditi's method. This method has proven very tedious and will, when opportunity affords, be supplemented by more rapid and direct method of examination.

Thirty-three blood specimens and twelve cerebro-spinal fluids have been examined for the Wasserman reaction (Noguchi's modification). A number of these were examined several times in an attempt to produce a negative reaction in the blood or the fluids, by repeated use of Salvarsan intravenously. It has proven difficult to obtain a continued negative reaction, even after fortnightly injections of Salvarsan running over a period of four to six months.

The twelve cerebro-spinal fluids above mentioned have also been examined for cell content and globulin.

Besides the usual examination of suspected tubercular sputums, typhoid blood, pus and tissue from operation cases, fifty-two urine samples have been specially examined. In one case such laboratory examination, by detection of marked acidosis, was the means of saving the life of the patient, showing symptoms now known to be those of acid intoxication.

Examination has been made on several occasions of the water supply. Only on one occasion was it found contaminated, and this was due to a temporary break-down in the chlorination plant. It is to be hoped that, when the sewage plant now being installed is in operation, even such temporary break-downs in chlorination need not occasion contamination of the water supply.

Our Nursing School has maintained its high place. During the year two of our nurses were requested to take charge of the new Hospital for the Insane, at Battleford, Sask., and we feel quite confident that they will uphold the high place that Rookwood Hospital Training School has filled in the medical life of this province.

The scarcity of labor has made it very difficult at times to secure a proper and efficient class of attendants for service on the male wards. A better class of men is desirable, and this can only be secured by a gradual process of training, and when trained the retention of their services by a proper wage. It is worthy of consideration whether it would not be advisable to erect cottages for our attendants, as an inducement to their remaining in the employment of the institutions. Many times during the past year, as soon as our attendants were of service to us they would leave, and we would be obliged to place our patients and our work in the hands of untried and inefficient men.

We have made considerable improvement in the interior of the building in the past year, and hope for still better things in the future. Our bath-rooms require improvement, floors are necessary in dormitories and rooms, our windows require to be lowered on the north side of the building, indeed there is a general improvement required all round if the hospital is to be made comfortable, home-like, and in keeping with the object we have in view.

We have secured from an efficient and thorough landscape gardener the plans for extensive improvements to our gardens and parks. We will commence the prosecution of these plans during the coming season. When completed, Rockwood Hospital will, without doubt, possess a charm and beauty all its own.

I have to speak once more of the loyalty and devotion of the staff of Rockwood Hospital, and of the faithful, painstaking way in which each department has done its work. The year has been a record one in many respects, and I think our results are quite unique in the history of mental disease in Canada. This could not have been accomplished without devotion and love for the work, and for this I feel grateful and thankful to all those who gave so cheerfully of their best to maintain the ever increasing reputation of Rockwood Hospital.

I have the honour to be,

Sir,

Your obedient servant,

E. RYAN,

Medical Superintendent.

One of the Corridors, Kingston.

ANNUAL STATISTICAL REPORT OF THE OPERATIONS OF THE
HOSPITAL FOR INSANE, KINGSTON, FOR THE YEAR
ENDING OCTOBER 31st, 1913.

TABLE No. 1—KINGSTON.

Showing movements of patients in the Hospital for the official year ending October 31st, 1913.

HOSPITAL FOR INSANE, LONDON.

Dec. 9th, 1913.

To INSPECTOR E. R. ROGERS,

Parliament Buildings, Toronto, Ont.

SIR.—I beg to present the forty-third Annual Report of the Hospital for Insane, London, for the year ending October 31st, 1913.

During this period our admissions number 203, our discharges 92, and the deaths 67. Although the admissions were slightly lower than in the previous year, our population increased by 38, due chiefly to a considerable diminution in the number of deaths. No suicides or accidental deaths occurred during the year.

TUBERCULOSIS.

17.9 per cent. of the deaths during the past year were caused by tuberculosis. This is slightly higher than the average of the past forty-two years, which was 16.3 per cent. A very pressing requirement of this hospital is a small building where patients suffering from this disease can be isolated.

With the exception of a slight outbreak of typhoid fever the general health of our patients has been exceptionally good during the year. The outbreak of this disease coincided with a break in one of our sewers and contamination of the Deep Well. The contamination of the well was probably due to a workman who was repairing the pump. One death occurred from this disease, although in this case the post-mortem showed advanced military tuberculosis.

WATER SUPPLY.

The deficiency of our water supply appears to have been permanently solved by the installation of a proper pump in the Deep Well. This well now supplies 75 per cent. of the water required for domestic purposes, leaving us at all times with a reservoir full in case of fire or any other emergency.

CANNING OPERATION.

The operation of our canning plant was again very successful and we were able to take care of a very large crop of tomatoes, plums, pears and apples. The operation of this plant is conducted entirely by our own employees and patients, and with comparatively small expense the out-put can be very greatly increased. In addition to supplying our own requirements, we will have about four thousand gallons to spare for sister institutions.

CHANGES IN STAFF.

Much to the regret of everyone connected with the institution, Dr. Stead, our second assistant physician, resigned from the service to take up the practice of his profession in Oakville. However, we are extremely fortunate in securing Dr. Neely, late of the Eastern Hospital, Brockville, as his successor.

Main Building, London

Mr. George Ross, Assistant Engineer, who had been in the service of the institution upwards of forty years, died in October after a short illness. He was one of our most valued employees and his death was greatly regretted by all.

Our thanks are especially due to the Protestant clergymen of the city who have so faithfully performed their duties in conducting divine service at our chapel every Sunday morning at nine o'clock, and to the Roman Catholic priests of the parish of St. Mary's, who have also been most faithful in the discharge of their duties towards the sick and dying inmates of their flock.

The following is a partial report of Dr. Edward Fidler, our pathologist:—

“The following report of laboratory work done for the Hospital for Insane, London, is respectfully submitted:—

WATER EXAMINATIONS.—A preliminary unrecorded examination of the reservoir was made in the early summer and showed the water there to be of good sanitary quality. Before the use of the Deep Well, in June, water taken from a tap leading directly from the well showed 40 bacteria per cc. and no evidence of colon bacilli in 10 cc. About June 25th, a broken sewer was discovered within less than 50 feet of the well. The pump was stopped and no water was used until after the sewer had been repaired and until examination proved the water to be fit for use. On June 30th, when the repairs to the sewer had been completed, it seemed best to examine the water left standing in the well. A sample was collected with due precautions from the surface. This showed a count of 1,000 bacteria per cc. with colon bacilli present in 1/100 cc. This contamination could come from two sources: 1, By possible seepage through the wall. 2, Through the tracking in of contaminated soil to the well-room during the repair of the sewer. The water from the well was not used for drinking purposes until a thorough pumping out and flushing had been made. In the meantime, water from the tap in the laboratory on two different occasions showed a count of 80 and 125 bacteria per cc. respectively, and colon bacilli present 1 cc. After the final flushing and while the well was being pumped out on July 7th, a sample was taken of the water passing over from the well to the sewer. This showed a count of 260 bacteria per cc. and colon bacilli still present in 1 cc. amounts. On July 14th, the first positive Widal reaction was obtained, roughly between two and three weeks from the discovery of the broken sewer and the contaminated water in the well. On July 18th, water from the tap in the laboratory showed about 200 bacteria per cc., but colon bacilli present only in 100 cc. amounts. On this same date, samples of water were taken from the discharge pipe of the pump after twelve hours operation and also from the drip occurring from this pipe back into the well and thought to be a possible source of contamination. Both of these samples showed practical absence of bacteria in 1 cc., though the same sample from the discharge pipe colon bacilli in 100 cc. amounts. Finally, on August 4th, water from the tap in the laboratory showed a count of 18 per cc. and colon bacilli were absent in 10 cc. amounts.”

The following tables illustrate the results of the various laboratory examinations in our Pathological Department:—

WIDAL EXAMINATION.

Name.	Date.	Result.	Name.	Date.	Result.

POST MORTEM EXAMINATION.

Name.	Date.	Autopsy Diagnoses.
B. K.	11. 13, 1912.	Carcinoma of sigmoid and rectum, with perforation. Pelvic peritonitis. Subacute nephritis, with fatty change. Pyelitis right. Acute vegetative and chronic sclerotic endocarditis. Fatty degeneration of the liver. Fibroid of the uterus. Arterio-sclerosis. Chronic leptomeningitis.
J. P.	11. 15, 1912.	Asthenia. Aspiration pneumonia. Edema of the brain. Chronic endocarditis. Arterio-sclerosis. Fatty degeneration of the liver. Old tuberculosis of the mesenteric glands. Chronic leptomeningitis.
F. B.	11. 27, 1912.	Senility. Chronic diffuse nephritis. Arterio-sclerosis. Brown atrophy of the heart. Gastric polypi. Old tuberculosis of the lungs and pleural adhesion. Cataract of the left lens.
M. L.	12. 6, 1912.	Senility. Chronic diffuse nephritis. Arterio-sclerosis. Edema of the brain. Chronic leptomeningitis. Old pleural adhesions. Gastric polypi.
R. H.	1. 2, 1913.	Fatty degeneration of the heart. Chronic diffuse nephritis. Arterio-sclerosis. Fatty degeneration of the liver. Old tuberculosis of the lungs. Old pleural adhesions.
W. G. M.	1. 17, 1913.	Atrophy of cerebral convolutions. Pia-arachnoiditis. Granular ependymitis. Early aspiration pneumonia. Edema of the lungs. Chronic endocarditis. Local organized pneumonia. Old pleural adhesions.
J. C.	4. 13, 1913.	Aspiration pneumonia. Carcinoma of the stomach. Chronic leptomeningitis.
A. D.	8. 12, 1913.	Arterio-sclerosis, with "atheromatous ulcers." Infarction of the bowel. General peritonitis. Infarction of the spleen.
J. S.	8. 21, 1913.	Broncho-pneumonia. Atrophy of cerebral convolutions. Pia-arachnoiditis. Granular ependymitis. Edema of the brain. Chronic cholecystitis and cholelithiasis. Chronic pancreatitis, with fat necroses. Arterio-sclerosis. Old pleural adhesions.

POST MORTEM EXAMINATION.—*Continued.*

Name	Date.	Autopsy Diagnoses.
C. S.	9, 18, 1913.	(Patient died in the epileptic state.) Infarction of the lungs. Fatty degeneration of the liver. Chronic focal tuberculosis of the lung Old pleural adhesions.
M. A. McC.		Myocarditis. Chronic endocarditis. Arterio-sclerosis. Chronic diffuse nephritis. Psammomata and osteomata of the dura Old pleural adhesions.
W.	11, 18, 1913.	Emphysema of the lungs. Broncho-pneumonia, with abscess. Purulent pleurisy, right fibrino. Pyelonephritis. Enlarged prostate. Arterio-sclerosis. Calcified bronchial glands. Old pleural adhesions. Healed deformed fracture of right femur.

I have the honour to be,

Sir,

Your obedient servant,

W. J. ROBINSON,

Medical Superintendent.

ANNUAL STATISTICAL REPORT OF THE OPERATIONS OF THE
HOSPITAL FOR INSANE, LONDON, FOR THE YEAR
ENDING OCTOBER 31st, 1913.

HOSPITAL FOR INSANE, MIMICO.

ANNUAL REPORT OF MEDICAL SUPERINTENDENT FOR YEAR ENDING OCTOBER 31ST,
1913.

To EDWIN R. ROGERS, Esq.

Inspector of Hospitals for Insane.
Toronto, Ont.

SIR,—In accordance with the requirements of the Statute I have the honor to enclose herewith the Nineteenth Annual Report of this hospital for the year ending October 31st, 1913.

Total number leaving the hospital during year.....				74	62	136
Total number remaining in hospital on October 31st, 1913.....				346	325	671

ADMISSIONS.

During the past year there were one hundred and eighty-three patients admitted, ninety-four by warrant and eighty-nine by medical certificate.

Of this number one hundred and seven were men and seventy-six were women. Ninety-two had been married and ninety-one were single: fourteen of this number had lost their helpmates. Of the ninety-one single persons admitted sixty-four were men and twenty-eight were women: while of the ninety-two married persons admitted forty-three were men and forty-nine were women. Among the men an hereditary tendency could be traced in twenty-one cases and among the women it was found to exist in eighteen cases amounting in all to about twenty per cent. of the total number of admissions.

Loss of friends, business troubles, mental strain, worry, privation and over-work accounted for forty-six cases, twenty being men and twenty-six being women.

Of the total number admitted sixty-two were reported to have been ill for a period less than two months prior to admission, while seventy had already entered the chronic state, having been ill for more than a year before they were brought to the hospital for treatment.

DISCHARGES.

During the past year seventy-six patients were discharged, forty-four men and thirty-two women; also two male patients were sent back to the Old Land, having been residents of this country less than two years. Of this number thirty-six had been under treatment for a period less than twelve months; the remaining forty had been under treatment during a much longer period, three of these forty having been in residence between five and ten years and one as long as fifteen years.

Seventy-six patients went home with their friends on probation during the year, forty-five men and thirty-one women. The majority of the seventy-six patients discharged had been given the privilege of a trial at home with their friends and after their improved condition had been demonstrated as established by their residence at home they were ultimately discharged and their names removed from the books of the Institution at the expiration of such term of probation. Of the total number who were allowed home during the year on probation only five were brought back to the Institution.

DEATHS.

During the past year forty deaths have occurred in this hospital, twenty-two being men and eighteen women. Of this number eight died at middle life, six between the ages of 50 and 60 years, four between 60 and 70 years, four between 70 and 80 years and one woman had attained the age of 90 years. Twenty-five per cent. of these deaths were due to pulmonary affections and senility, paresis, apoplexy, epilepsy and exhaustion accounted for the greater part of the remaining number.

VOLUNTARY ADMISSIONS.

During the past year the practice of admitting voluntary patients to this hospital has been continued with entirely satisfactory results. It not infrequently happens that a man may be ill mentally and may be so conscious of it that he may desire to have the care and protection of the hospital as well as to avail himself of the measures for treatment which the hospital provides and in some of these instances the patient applies in person and requests admission which of late years has been sometimes granted him. As the legislation stands at the present time an applicant for voluntary admission, no matter how pressing his claims, would have to be refused admission until he could be regularly certified and in some of these cases the suicide of the applicant would probably take place before the statutory conditions for his admission could be completed; voluntary admission in such cases would seem to be the only available remedy. The frequency of this experience is such that it would appear most desirable that there should be legislative enactment authorizing voluntary admission to our hospitals for the insane so that they may at least be on an equal footing in this respect with the private hospitals in the Province which have such privileges accorded them.

Main Building and Cottages, Mimico.

INCREASED ACCOMMODATION.

In the early part of the year owing to the accumulation of insane in the gaols of the district it became necessary to devise some means of providing additional accommodation in this hospital for a large number of men and women, and in order to meet these requirements the space which had heretofore been allotted to each person had somewhat to be curtailed and a reduction made in the cubic space heretofore allotted them. By this means and by an arrangement for the temporary occupation of the refreshment room in the Assembly Hall temporary accommodation was made for thirty men and thirty women, and this additional accommodation for the time being relieved the pressure from the gaols in the district.

The twenty men which are provided with sleeping accommodation are of the very quiet and safe class, who are not likely to become disturbed at night and who do not require so urgently night attendance as the average patient, and this lot of patients only receives attention at night from one of the night watches regularly stationed in one of the cottages.

TRANSFERS TO HOUSES OF INDUSTRY.

From time to time and for many years the subject of accommodating some of the patients of the hospitals who had become slightly demented in the county houses of industry has been considered and discussed, but the feasibility of the plan had never been put to a test until during the past year. The pressure from the outside for hospital accommodation had again become so great that in the month of October the expedient was given a test, and thirteen men and six women were sent from this hospital to houses of industry in the counties which comprise this hospital district. The patients selected for this transfer were quiet, harmless ones who had commonly passed through an acute attack of mental illness and who had thus been deprived of some of their original brightness and mental force, but who, upon recovering their acute attack could not be said to be quite well enough to be turned out upon the public without a limited degree of oversight. Thus far the experimental test has been entirely satisfactory as in no individual instance has anyone been returned to the hospital, which means that the facilities at the houses of industry have been equal to the provision of the necessary comforts of the inmates committed to them, and in this way some slight additional accommodation has been provided for those who are suffering from the more acute forms of mental disease.

TRAINING SCHOOL.

Notwithstanding the very large number of changes in the staff of nurses during the past three years there were five nurses, who after pursuing the whole course in training, passed the examinations and were awarded graduates' diplomas during the year. It is too soon to generalize upon a short experience, but it would seem that there exists in the minds of the graduate nurses a strong disinclination to remain in the hospital service after having pursued the course prescribed by the training school, and after having become through the efforts of the hospital staff as well qualified as possible for the performance of the highest type of pro-

fessional services. At the present time four of the foregoing five nurses who graduated in the spring have already severed their connection with the hospital and the fifth one has arranged to do so, thus depriving the hospital within a few months of the time of their graduation of their highly valued special and experienced services.

WORK ON GROUNDS.

A good deal of levelling and grading was done on the lake front during the summer and a trench twelve hundred feet in length was made for a new water pipe along the south side of the garden as far as the brick barn. This new four inch pipe will supply small pipes branching off northward into the garden space for the use of the gardener wherever he may require additional water for the vegetables. This pipe will also give a water supply to the new stables which will ultimately be situated near the brick barn. Besides the foregoing a good deal of grading was done on the ground north of the men's cottages and near the Assembly Hall, and this whole area is now taking on a very much improved appearance.

LOSS OF ORNAMENTAL TREES.

The prolonged period of unusually dry weather during the past summer was attended by the most serious loss of ornamental trees which has ever taken place here in one summer. Although the gardener endeavoured to avert the loss by a system of artificial irrigation about sixty or seventy healthy elms and maples perished. In former years a few trees have died but commonly their destruction has been traceable to the attacks of woodpeckers or to the influence of injurious insects, but during the past year these trees which have died and which since have been taken out by the roots show no internal evidence of any other cause operating on them than drought. New trees will replace the old ones in the spring but as the old ones had been growing nicely for twelve years and more their loss to the Park is a serious one.

FARM AND GARDEN.

During the past year there has been some re-arrangement of the farm staff so that now there is a herdsman who has charge of all the stock such as horses, cattle, pigs and so forth and this arrangement has been eminently satisfactory.

The yield of grain and hay and roots was somewhat above the average during the past summer notwithstanding the unusually dry weather, but the soil is of such a character that the dry weather did not seriously militate against an abundant crop. The garden products were also abundant and of excellent quality, the new garden plot giving greater facility to the gardener for the growth of roots and vegetables than heretofore. The small fruits such as strawberries, raspberries and currants suffered from the dry weather, as did also the apple crop, which was considerably below the average.

IMPROVED METHOD OF MILK DELIVERY.

Milk is divided at the dairy by straining into as many tins as there were objective points for delivery so that the milk could be delivered from the dairy at the farm to the Administration Building or kitchen or cottages, instead of being

Main Building and Cottages, Mimico (from the North).

delivered to the butcher shop, there to be divided into quantities requisitioned by these various places. Since this improved method of delivery has been adopted there is greater uniformity in the amount received by each cottage and the quality has always been first-class, as each objective point preserves its own supply. It may be added that not only has the quality of the milk been greatly improved by this method of delivery but during the past season the quantity of the milk from the same number of cows as were formerly in the stable has been greatly augmented.

REORGANIZATION OF LAUNDRY.

For some years past the old mangle in use at the laundry had been found to be quite inadequate for the requirements and representation of this fact had received your co-operation in the purchase of a larger and more efficient machine. While the mangle itself was too small the floor of the laundry had somewhat decayed with age, and as its supports were of timber and had not been originally constructed with the view of sustaining very heavy weight it was found impossible to instal the new mangle until a new floor had been constructed to take the place of the old decayed one. It therefore became necessary to put in steel girders and a cement floor throughout the whole laundry, and in order to do this all of the pipes composing the driers in the drying room had to be removed. The former laundry floor was so placed that there was no available working space between it and the tops of the boilers in the boiler house below it, and it was recommended that when the new floor was being made it should be raised about two feet so as to allow working space over the boilers and this recommendation of his was carried out.

This reorganization of the laundry with the addition of the new mangle which can now be installed with safety, because of the increased strength of the floor, will give the Institution a very much better service than ever has been possible under the old conditions.

ENGINEER'S NEW WORK SHOP.

In the process of reorganization of the laundry the inclusion of the Engineer's former work shop into the laundry made it necessary to make some provision for the engineer, and in order to do this some of the space formerly occupied by the carpenter shop and part of the hallway and another room in the carpenter shop were turned into one and fitted up for the engineer's work shop. After many years of reorganization and reconstruction in the centre building and carpenter shop the accommodation for the kitchen and employees' dining-room and laundry and engineer's and carpenter's work-shop is at the present time in very much better condition than at any prior date of the history of the Institution.

RENOVATING LAVATORIES.

The floors of the lavatories were much worn and required to be reconstructed in a more permanent way and this work, with the entire renewal of the interior fittings of the lavatory, has been carried out during the past year by the Public Works Department. The Institution mason and carpenter are assisting with this work and when completed it is to be hoped that the sanitary conditions will be entirely satisfactory.

CHANGES AMONG OFFICERS AND EMPLOYEES.

Late last year the chief female attendant and trained nurse Mrs. Alice Robertson resigned her position on account of ill health and her post was filled on the 22nd of November of the present official year by Mrs. Christina Brock.

The two assistant medical officers Doctor William Marshall and Doctor Edgar Leary who had given good service here for over a year also resigned. Doctor Allan Earle and Doctor Allan Parker were appointed to fill these vacancies; subsequently when Doctor Earle resigned Doctor Louis Yealland was appointed to fill his place.

In keeping with the records of the past several years there were many changes among the employees, one hundred and twenty-three new servants receiving employment, seventy-eight being men and forty-five women; a large proportion of the vacancies were created by the resignation of employees who found their interest better served by securing other occupation outside of the hospital.

Gratefully acknowledging your valuable counsel and support during the year in many perplexing problems.

I have the honor to be, Sir,

Your obedient servant,

N. H. BEEMER,

Medical Superintendent.

South Cottages, Mimico. (Women's Side.)

HOSPITAL FOR THE INSANE, PENETANGUISHENE.

ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT FOR THE YEAR ENDING
OCTOBER 31ST, 1913.

TO EDWIN R. ROGERS, ESQ.

Inspector of Hospitals for the Insane.

Parliament Buildings, Toronto.

SIRS,—In accordance with the Statutory requirements I have the honor to submit the Tenth Annual Statistical Report of the Hospital for Insane, Penetanguishene, for the year ending October 31st, 1913.

POPULATION.

At the beginning of the year there were 165 male and 204 female patients in residence. During the year we had eighteen deaths, four more than last year, but the average age of patients who died increased from 61.2 to 64.6, the oldest being 88 and the youngest 31, the latter being carried off by tuberculosis, which was the only case of infectious or contagious disease that we had during the year. We received 6 male and 18 female transfers from other institutions and transferred 3 men and 5 women who could not be accommodated here.

HEAT AND LIGHT.

In April finding it difficult to secure and keep a suitable engineer at our electric light plant, we made arrangements with the town of Penetanguishene, to supply electric light and power, and have an agreement with them to bring power over their own wire direct to the building, so that we will be able to instal motors, and use power at granary, bakeshop, carpenter shop and other places, at a cost much less than we can produce it. The use of this Hydro-Electric power will result in considerable saving of coal, none being used at power house, and having the power continuously we are using electric irons in laundry and sewing room, thus doing away with the use of coal for heating irons.

WORK DONE.

All hands were kept busy throughout the year; all necessary repairs were made, the coal dock was rebuilt and enlarged, a capacious double deck balcony was built on the north end of main building, the stable at farm was torn out and completely made over, giving us a thoroughly up-to-date stable, the rink was completed, steam heat was put in dressing rooms, and the heating system in Wards 1 and 4 was very much improved; an attempt to get water by boring near engine room proved a failure; the walls of the boiler house beneath the hill were rebuilt, a balcony on the Superintendent's residence was commenced, and the sewage disposal system was all but completed.

Main Building, Penetanguishene.

WANTS.

A start has been made towards improving a much felt want, viz., the water pressure, and we hope before another year passes to have one of the most up-to-date water systems in the service. One of the most pressing needs at this institution is the accommodation for acute and excited patients, and to this end I would strongly recommend extensions to Cottage A. and possibly the remodelling and extending of carpenter shop to provide room for female patients. This would necessitate increased dining-room accommodation, which might be had, by using the present kitchen and taking the cold storage building adjoining for a kitchen or by extending the present dining-room to the contemplated extension of Cottage A. A new pig pen, improvements to granary, a stable for calves, a new ice house, extension to greenhouse, balcony on Cottage A. fire escapes from Amusement Hall and to Cottage B. motors for carpenter shop, granary, bake-hop and boat, improvements to our root houses, together with the removal of two houses from sewage disposal farm, changes in the heating system Wards 2 and 3, and at the employees' cottage are our most pressing needs.

Now that the stable accommodation at the farm has been increased the old stables and sheds at Assistant Superintendent's house will be torn down in the early spring, and repairs to the house must be made unless the contemplated removal of this building to another part of the grounds is accomplished.

CHURCH SERVICES.

We have again to thank the clergy of the town of Penetanguishene for their services, and can assure them that their coming among our people is looked forward to and deeply appreciated by all.

STAFF.

There has been but one change and one addition to the official staff. Mr. H. J. Spence, Bursar for a number of years, was transferred to Cobourg and Mr. W. H. Tallman was transferred from Orillia to fill the position here. Miss Latham a graduate of Brockville Training School came in April as Assistant Matron and Chief Attendant, and has proven herself to be a most efficient officer. R. Demure, employed here since the opening of the Institution as Farmer, was transferred to Orillia and Fred Parker was promoted to the vacancy. I have to thank all members of the staff, artisans and employees for their loyalty to me as their official head and you, Sir, for the consideration and advice you have so cheerfully given.

I have the honour to be, Sir,

Your obedient servant,

W. T. WILSON,

Medical Superintendent.

ANNUAL STATISTICAL REPORT OF THE OPERATIONS OF THE
HOSPITAL FOR INSANE, PENETANGUISHENE, FOR THE YEAR
ENDING OCTOBER 31st, 1913.

HOSPITAL FOR THE INSANE, TORONTO.

OCTOBER 31st, 1913.

To E. R. ROGERS, Esq.

Inspector of Hospitals for Insane, etc., Province of Ontario.

SIR,—In accordance with your request I have the honour to submit the Seventy-third Report of this hospital for the twelve months ending October 31st, 1913:—

	Male.	Female.	Total.	Male.	Female.	Total.
Capacity of Hospital	426	426	852			
In Residence October 31st, 1912				473	479	952
Admitted during year 1913:

Total number discharged during year ...	79	97	176			
Died	42	32	74			
Deported	19	9	28			
Eloped	6	2	8			
Transferred	4	17	21	150	157	307
Remaining in Hospital Oct. 31st, 1913.....				491	500	991

ADMISSIONS.

There has been another increase this year in the admissions, which reached the total of 346 (168 men and 178 women). The warrant process accounted for 115 of these, 86 being men and 29 women. As prompt reception as possible, considering the accommodation of the hospital, was given to those who unfortunately had to come by way of the gaol.

It is gratifying to note that the provision afforded by the new act for voluntary admissions has been made use of in 41 cases—eight men and three women. In but one instance has the patient given the five days' notice in writing of his desiring to be discharged.

DISCHARGES.

The discharges during the year numbered 176 (79 men, 97 women). Of these 162 had either recovered or were very much improved. These figures do not include those who were discharged for deportation. There were 28 such cases—10 of these had recovered, 15 were much improved, and three unimproved. Including these deportations the discharge list would have reached 204.

FARM CAMP.

The camp at Whitby, which is carried on on the colony plan, has been a good feature of the hospital treatment. During the summer 36 male patients were in residence and engaged on the farm in various ways. It is wonderful what they accomplished, and how happy they remained while occupied in this way.

NURSING STAFF.

The interest has been well sustained in the Training School for Nurses both by the nurses and by the staff, who gave the regular course of lectures outlined in the syllabus. Although there was but one candidate for graduation, Miss Meta Parker, there were seven successful in the intermediate and ten in the primary examinations. Many of the graduates have taken up the work of private nursing, and in this way made it possible to treat many cases in their homes which would otherwise have come to one of the hospitals. The comments that have reached me regarding the work of our graduates have been very complimentary.

Mrs. Brock was promoted from the Toronto staff to take charge of the Training School in the Mimico Hospital.

LABORATORY WORK.

Doctor C. S. McVicar, as clinician and pathologist, has, whenever the consent of the relatives had been obtained, held post-mortem examinations in cases of interest, and records of these are attached to the case history.

I am indebted to Drs. George Strathy and Gordon Bates for reports on the Wassermann reactions both of the serum and spinal fluid in any case where these tests are desired. The doctors conduct these examinations weekly in the hospital laboratory, and the results tend to accuracy in the diagnoses of organic brain diseases.

BULLETIN.

Contributions have been made to the Bulletin by the various members of the medical staff, and many a case history is filed away as an ordinary record which might have been published in a medical journal with credit to the physician.

STAFF.

The medical staff meets in conference daily at 11:30 a.m. for one hour, at which several cases are presented and their histories read.

A new departure has been entered upon this year in devoting one of the meetings weekly to the reviewal of an article in one of the medical journals by each member of the staff.

A NEW DISEASE.

Two women were admitted in the month of June who presented unusual symptoms not conforming to any of the ordinary types of mental disease met with in hospital practice. Close observation was kept on their progress, and the diagnosis of Pellagra was made in both cases after the fullest investigation. The credit for being the first to recognize this disease must be given to Dr. George Strathy. Dr. C. S. McVicar later in the day made the same diagnosis quite in-

Entrance to Grounds, Hospital for Insane, Toronto.

dependently. Further confirmation of the diagnosis was afforded by the progress of the cases and by several medical men, some of whom were more or less familiar with this disease. Both cases ran a very similar course in the final stages, and died within a few days of each other. These cases did not bear out the popularly conceived idea of feeding on tainted maize. Both of these women were admitted from the city with the disease. With the exception of one other doubtful case there has been no indication of spreading.

CHANGES IN STAFF.

Several changes have occurred in the official staff during the past year. Dr. F. S. Vrooman was promoted to the post of Assistant Superintendent of the Brockville Hospital for Insane on the 1st of April, 1913. Dr. Vrooman's promotion was well earned by what can be termed "hard work and scientific interest" in the welfare of his patients. Dr. George C. Kidd succeeded Dr. Vrooman, and Dr. Thomas D. Cumberland was appointed Assistant Physician, filling the place formerly held by Dr. Kidd.

Miss Maude Cooke, trained nurse, resigned on the 28th February, and was succeeded by Miss Lena A. Davis, a graduate of the Western Hospital Training School.

On the 22nd of November last death removed a valued servant in the person of Mr. B. Winnifrith, who had been for the past eighteen years attached to this hospital as steward. His removal cast a gloom over the whole institution, and the staff and patients felt that they had lost a good friend and the institution a faithful worker.

The duties formerly exercised by the steward were assigned Mr. McGuire, and Mr. John Carson was made head supervisor of the men's department.

Mr. John Simons, who had been painter for the last seven years, died on the 7th of April, 1913.

I wish to express my highest appreciation of the efforts shown by the Assistant Superintendent, Dr. Harvey Clare, and the staff generally in maintaining the standard of the work on hospital ideals.

Thanking you, Sir, for your interest in the affairs of this hospital, and for your advice and help.

I have the honour to remain,

Sir,

Your obedient servant,

J. M. FORSTER.

Medical Superintendent.

ANNUAL STATISTICAL REPORT OF THE OPERATIONS OF THE

APPENDIX.

Report of J. P. Downey, Superintendent of the Hospital for Feeble-Minded, Orillia.	28-30
Statistical tables	31-40
Report of Dr. J. J. Williams, Superintendent of the Hospital for Epileptics, Woodstock	41-43
Statistical tables	44-53
Report of Dr. Helen MacMurchy, Inspector of Feeble-Minded.....	55-82

HOSPITALS FOR FEEBLE MINDED AND EPILEPTIC.

On the 31st October, 1913, there were in the Hospitals for Feeble Minded and Epileptic 1,034 patients divided as follows:

Orillia.			Woodstock.		
Male.	Female.	Total.	Male.	Female.	Total.
414	409	823	105	106	211

being a net increase for the year of 21 patients.

On the 31st October, 1913, there was an over population of 87 patients and 207 applications on file.

REVENUE.

The amount collected from paying patients for the year ending 31st October, 1913, was \$26,594.66 from farm and miscellaneous, \$3,578.50 making a total revenue of \$30,173.16 being an increase over 1912 of \$4,991.40.

EDWIN R. ROGERS,
Inspector

NOTES ON PER CAPITA STATEMENT.

Attached hereto is a statement of the cost of maintenance per patient per day for the twelve months ending October 31st, 1913, in the ten hospitals mentioned, as compared with the year 1912, being based on actual consumption.

It follows out the order of the sub-divisions of appropriations voted by the Legislature, and is calculated to two places of decimals of a cent. The figures in black-faced type represent totals.

Invoices for all purchases, properly certified by the Bursar and the Store-keeper, as to accuracy and receipt of goods, are checked in the Department before being submitted to the Treasury for payment.

A system of Daily Requisitions for all supplies, such as provisions, is carried out and these requisitions are forwarded to the Department semi-weekly. In case of coal, the amount consumed on each shift is weighed and weekly report of consumption made by the engineer.

Under headings "Provisions" and "Clothing" is shown only consumption by patients—the value of such supplies to officers, attendants, nurses and employees being included in the account "Employees' Meals and Uniforms" under the heading "Salaries."

Quarterly inventories of stock are taken at each Institution, and are checked with the ledger accounts of the Department.

Returns are made of all products of the Farm and Garden, as received, charges being made against the cost of maintenance, and the Farm and Garden given credit for the same; for this purpose a uniform price list is in use for all Institutions, regardless of size or fertility of farm. At the end of the year the value per patient per day of such products—fruits, vegetables, feed and fodder, meat and eggs—is deducted from the gross per capita cost and appears in the statement as "Farm Recoveries."

N.B.—The above is a Comparative Statement of the cost of maintenance per patient per day for the twelve months ending 31st October, 1913, in the ten Hospitals for the Insane, as compared with the twelve months ending 31st October, 1912, based on actual consumption and calculated to two places of decimals of a cent. The figures in black-faced type represent totals.

Under the headings "Provisions" and "Clothing" is shown the actual consumption by patients—the value of such supplies to officers, attendants, nurses and employees being included in the account "Employees' Meals and Uniforms."

Where no charge is shown for light or water, these are included in the cost of coal.

The produce of the Farm and Garden consumed is included in the gross per capita cost. The total crop being deducted as shown, gives the net per capita cost per day.

No. 14—Continued.

per Day for the Twelve Months ending October 31st, 1913. —Continued.

APPENDIX

TO FORTY-SIXTH ANNUAL REPORT UPON THE HOSPITALS FOR
THE INSANE, CONTAINING THE ANNUAL REPORTS OF THE
MEDICAL SUPERINTENDENTS OF THE HOSPITAL FOR IDIOTS,
ORILLIA, AND THE HOSPITAL FOR EPILEPTICS, WOODSTOCK.

HOSPITAL FOR FEEBLE MINDED.

Report for the Year Ending October 31st, 1913.

E. R. ROGERS, Esq.,

Inspectors of Asylums, etc., Toronto, Ontario.

SIRS,—I have the honour to present the Annual Report of the Hospital for Feeble Minded, Orillia, for the year ending October 31st, 1913.

The admissions for the past year were 37 males and 35 females, a total of 72 or 24 more than in the preceding twelve months. Discharges for the same period numbered three and the deaths 61. The unusually high death rate is largely attributable to an epidemic of pneumonia, which began with the year, and levied a heavy toll upon the aged and infirm of our population throughout the winter months. The daily average population for the year was 815, compared with 812 for the year 1912. It will therefore be seen that the population has been kept up to the extreme limits of the capacity of the Institution. In fact, it might be urged that for the health and comfort of the children there has been a too generous response to the constantly pressing demands for admissions.

It is gratifying to be able to report that substantial commencement has been made towards providing further accommodation. The new cottage for women, capable of housing nearly 200 patients, was begun during the summer. With our own staff and the labor of our patients we were able to do the excavation work, and carry the foundations to the grade line. We may, therefore, reasonably expect that by the autumn of the year 1914 this building will be ready for occupation. A similar building on the opposite side, for men will, we hope, be begun this summer and carried to completion in the year 1915. These new cottages will enable us to accommodate 1,200 patients, as large a unit as it is desirable to have under one administration. We have reason to hope that with our new buildings we shall be enabled to afford relief to the most distressing cases throughout the Province and satisfy the public demand for enlarged facilities for the training and custody of this unfortunate class.

With our new cottages completed we shall be able to better classify our population and separate the improvable from the custodial cases. The main building, capable of accommodating 400 boys and girls can then be devoted exclusively to the work of a training school for the children, while the four cottages, each with a capacity of 200 will house the workers who have grown beyond the improvable stage, the old people and the low grades.

In addition to the work on the women's cottage we were enabled during the past summer to build a modern dairy barn in place of the one destroyed by fire a year ago. This building is of the most approved plan. The frame is of plank and truss construction. The stable proper is well lighted and ventilated, and the arrangement of the silo, cutting room, feed room, and milk room provides for the most effective management of the herd and the sanitary handling of the milk.

The farm work has gone along smoothly. The drainage of a large area of the Dunn swamp has been completed and a considerable portion of this will be brought into the area of pasture and cultivation during the coming season.

An analysis of the patients admitted during the past year places 25 of the 72 among the high grades, 21 in the medium class and 26 must be classified as low

Main Building, Orillia.

grades. Over one-third of the admissions are men and women who have reached, or are approaching middle life, and the majority of these cases could be safely looked after in any House of Refuge. It is only natural that each municipality should seek to transfer the responsibility for the care of its poor to Government maintained Institutions, especially when within its borders no House of Refuge is maintained. It should be borne in mind, however, that this Institution was not designed to relieve the municipalities of any portion of their ordinary work of Charity. Its sole purpose is to train and care for mental defectives. The feeble minded boy and girl should have first claim to a place in this Institution, because the well-being of society particularly demands the segregation of the young people of this unfortunate class.

The schools have been conducted with marked efficiency during the past year. There has been considerable increase in the number of pupils over the year 1912, and a wider range of work has been taken up. The ages of the school children range from six to fifteen years, and the most marked improvement, it may be interesting to note, was observable between the ages of ten and fifteen years. Among the new branches in the Industrial Department are canvas mat making, coloring, basket making and warp weaving. An Industrial class for the children of more advanced years was established in the late autumn and has served to arouse the interest and increase the usefulness of those who have attended.

The musical classes are also increasing in number. As has already been pointed out, a very large proportion of our high grade children are readily proficient in music. In addition to their regular weekly concerts we were enabled to produce a Cantata, "Fairies of the Season," which in its movement and tableaux and the fervor and evenness of its choral work was exceedingly creditable. Very popular, too, and of much benefit to the children are the calisthenic exercises. The first class numbers fifty and is capable of putting on a fine exhibition of fancy marching and physical drill. In the second class there are but thirty and their training so far has been confined to setting up exercises. As these improve they are promoted to the first class and their places filled by recruits.

More and more the value of the industrial training of the feeble minded is borne in upon us. The field of labor in which this class can be trained to perform useful service is not as circumscribed as might at first appear. Among girls, needlework is one of the most interesting and beneficial occupations. From the sewing classes to the sewing room, where all the knitting and seamstress work for the female side of the Hospital is performed, our girls are graduated and many of them acquire a remarkable degree of neatness and thoroughness. We have girls who grade low in the mental scale and yet are capable of executing the most beautiful embroidery. Sewing as an occupation is not so popular nor so easily developed among the boys. In our tailor shop, however, we have some lads who can make a plain garment very nicely and they take great pride in their work. Mat making, weaving and basketry, etc., are lines of work which the feeble minded take up very readily. Once the fingers are trained to follow a pattern or go through a series of movements the mastery of more difficult and intricate combinations can be accomplished by easy gradations.

Outside employment must take first place in the industrial economy of an institution such as ours. The boys from the construction work, from the garden, the fields, the bush and the stables are the healthiest and the most contented. They swing through their day's work in a cheerful manner and at night they are tired and happy. Holidays and the days when weather conditions prevent out-

side work are productive, I believe, of more trouble in the wards than all the other days of the year put together. I think I am within the mark when I say that the working force of this institution has been increased three hundred per cent. in the past three years. Had it not been so, we could not have carried through successfully the many large enterprises that are to our credit. Three years ago, in the autumn of 1910, the working force of the entire place was engaged in unloading coal. This year the coal was unloaded without any interference with the gangs at the new cottage, ditching, the swamp clearing or other operations.

We propose this year to establish a school garden in order that our little ones may develop a taste for and a knowledge of plant life and all that it means in the beauty and economy of our establishment. We are encouraged to believe that our children will enter enthusiastically into this work and that it will add to the interest and happiness of their lives.

The Pathological laboratory has continued to be a most useful adjunct to the medical work. The examination of swabs, sputum, blood, spinal fluid, etc., has many times demonstrated the value of such a facility in an institution of this character. A series of blood specimens is being taken and serum prepared by Dr. Evans for the Wasserman reaction. This promises valuable results in connection with the clinical and psychological history of a number of cases. In the ordinary work of the care of the sick the laboratory has been in constant requisition and with our growing population will no doubt demand increased time and attention from the medical staff.

Two changes in the staff have taken place during the year. Mr. W. H. Tallman, bursar, was transferred to Penetang. and Mr. W. Cochrane, of the Hospital for the Insane, Cobourg, took his place. On the first of June, Miss Davey resigned and Miss Baker assumed the duties of stenographer. I am grateful to be able to report thorough harmony and good feeling throughout the institution. Loyal service and cordial sympathy with the work we have on hand have been given by every member of the staff. In particular I should mention Dr. Herriman, Medical Director, whose almost ubiquitous presence is a valued factor in the internal management of the Hospital. To you, sirs, may I also extend thanks for your counsel and co-operation.

I have the honour to be, gentlemen,

Your obedient servant,

J. P. DOWNEY,
Superintendent.

HOSPITAL FOR EPILEPTICS, WOODSTOCK, ONT.

ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT FOR THE YEAR ENDING
OCTOBER 31ST, 1913.

To EDWIN R. ROGERS, Esq.,

*Inspector of Hospitals for the Insane,
Parliament Buildings, Toronto, Canada.*

SIR,—I have the honour to submit to you the Eighth Annual Report of the Hospital for Epileptics, for the year ending October 31, 1913.

We had remaining in residence November 1, 1912, 196 patients. We admitted during the year 14 males and 23 females, total 37 patients. Total number under treatment during the year 233. Total number discharged 11. Discharged improved, 4. Unimproved, 7. Total number who died during the year, 11, being 4 males and 7 females. We had remaining in residence October 31, 1913, 211 patients. Number of applications sent out on request, 93.

IMPROVEMENTS.

One hundred and sixteen acres of land has been purchased for farming purposes. This property is separated by one hundred acres from our other land and within two miles of the City of Woodstock. We were able to secure this at the rate of Fifty Dollars per acre. The major portion of it is new land, having been ploughed but once. It is in a very good state of cultivation, fairly well drained, and with a little improvement in the way of fencing, draining, etc., will make a first-class farm.

The interiors of the cottages have been painted during the past year, which adds wonderfully to their appearance.

The superintendent's residence has been completed. This is a very substantial and satisfactory building. The work in connection with it has been done, as far as possible, by our own labor.

Quite a bit of drainage has been done, and the driveways and walks have been materially improved.

FARM AND GARDEN.

The crops of the farm and garden were splendid. We had the best results of any year since the Institution was opened. Both grain and roots turned out well in quantity and quality. The hay crop was extra heavy. From forty-eight acres, we stored one hundred and twenty tons, an average of two and one-half tons to the acre.

The following table shows the storage returns from Farm and Garden for this year:—

FARM.

2,196 bus. Oats.
 2,600 bus. Mangles.
 1,475 bus. Potatoes.
 140 tons Ensilage.
 20 tons Corn Fodder.
 30 tons Straw.
 350 bus. Barley.
 600 bus. Wheat.
 120 tons Hay.

GARDEN.

2,000 lbs. Beans.
 400 lbs. Citrons.
 3,500 lbs. Onions.
 150 lbs. Vegetable Marrow.
 700 lbs. Squash.
 17,500 lbs. Potatoes.
 600 lbs. Beets.
 5,000 lbs. Carrots.
 14,600 lbs. White Cabbage.
 3,500 lbs. Red Cabbage.
 1,500 lbs. Celery.
 100 lbs. Brussel Sprouts.
 8,000 lbs. Parsnips.
 15,200 lbs. Turnips.

In addition to this, we had a good supply of fruits and vegetables for table use during the summer.

We have our land in such a condition at the present, that we can depend upon good results if the season is at all favorable, and this state of cultivation has been attained by tile draining, freeing the land of all weeds, the removal of stones, a thorough working of the land, and the application of plenty of barnyard fertilizer. We also exercise great care in the selection of all seeds sown.

REQUIREMENTS.

An amusement hall is urgently needed. The only available place at present for holding church services, entertainments, and weekly dances is in one of the day rooms, which will accommodate less than half of our population, and even with this number, it is very crowded and unpleasant. Chairs and settees have to be carried from each of the other cottages for use at these gatherings, which is a great inconvenience, and in bad weather, a hardship. Then there is the drawback that only a portion of our people can attend church service on Sunday, or the entertainments during the week. This leads to murmurings from those so deprived, as practically all our patients are quite capable of enjoying gatherings of these kinds, and it seems too bad that we have to deny some of them on account of lack of room.

The clergy have been very faithful in their attendance on Sunday, but some of them have expressed themselves very strongly upon the necessity of a proper place to worship, where they would not be so crowded and huddled in a small room. Along these lines, I agree, as it would not only make it more pleasant for them, but it would wonderfully increase the comfort of the patients and employees, and add materially to the efficiency of the Hospital. It would also provide a place where the employees could hold a concert or a dance without disturbing the patients. As it is now, the day room, just off the dormitories where the patients are sleeping, is the only available place where a few of them can gather to spend an evening in games and amusements.

NEW COTTAGES.

We have been taxed to our fullest capacity during the past year and have a large number of applications, which we have had to place on file to await a vacancy. Most of these cases have been very urgent and the friends have written repeatedly to see if by any means a vacancy could be granted.

TREATMENT OF PATIENTS.

In this we have met with results that have been very gratifying. We have quite a number of patients making splendid progress. Seizures have lessened, and the patients are mentally brighter, and their general appearance improved. They are cheerful, bright, and full of hope, looking forward to the time when they will be able to take their places in the world, unfettered by the effects of Epilepsy, and in a small percentage of cases, these hopes will be realized, as some of them have not had a return of the trouble for almost two years, where previous to admission, the attacks occurred on an average of three to five per week, the mind being affected to a marked extent as a result of the frequent and prolonged strain. The mental faculties improve as the seizures abate, it being a gradual process to the normal. The treatment of Epilepsy at the commencement in the most of cases, is very difficult, as they are very self-willed, and their likes and dislikes very pronounced. Especially do we find this the case in reference to bodily exercise, that is so essential in the satisfactory treatment of this disease, as it may be safely said, "No work,—no improvement." The good effects from open air exercise can be seen almost from the beginning. The patients are less irritable, bright in appearance, digestion is better, they become more contented and settle down to Hospital life with a good will, realizing that the work is beneficial and necessary for their improvement. In cases afflicted with this disease, where no bodily exercise is demanded, one meets with difficulty all the way. Digestive troubles set in, the patients become depressed, irritable, dull and morose. Evil habits are practised, discontentment rules and the disease progresses more rapidly. We have kept in touch with a number of patients that have been discharged from the Hospital as improved after having remained for a full two years from the last attack, and we find the most of them are doing well. One case to which we will refer, is a young boy who had Epilepsy four years previous to entering the Hospital, with a history of an average of five attacks per week, mentally much affected, physically weak, of speech almost gone. He was put under treatment and watched closely. After a few weeks, we noticed some improvement. He had less seizures, grew much stronger physically, brightened mentally, and his speech returned. He remained in the Hospital for two years after the last seizure, the last four or five months being purely under observation. His mental state, when he left the Hospital compared favorably with boys of his age. Three years have passed since he was discharged improved, and there has been no return of the trouble whatever. This boy is now taking a course in the Calgary Collegiate Institute, and making a creditable standing.

CONCLUSION.

The officers and staff have rendered efficient service during the past year, doing their work with a willingness and satisfaction that has been very gratifying.

To you, Sir, we are indebted for the interest you have taken in all matters pertaining to the management of the Hospital. Your promptness at all times to discuss our requirements and your acquiescence in the securing of what was necessary for the comfort and happiness of all, have been much appreciated.

I have the honour to remain, Sir,

Your obedient servant,

J. J. WILLIAMS.
Medical Superintendent.

OFFICE OF THE
INSPECTOR OF THE FEEBLE-MINDED, ONTARIO.

PARLIAMENT BUILDINGS, TORONTO,

December 31st, 1913.

SIR,—I have the honour to transmit herewith, to be presented to His Honour the Lieutenant-Governor, the Eighth Annual Report upon the Feeble-Minded in Ontario for the year ending December 31st, 1913.

I have the honour to be,

Sir,

Your obedient servant,

HELEN MACMURCHY,
Inspector.

HON. W. J. HANNA,
Provincial Secretary of Ontario.

Report of Feeble-Minded

The year has been rendered memorable by the passing of the British Mental Deficiency Act on August 15th, 1913, (3 and 4 George V., Chap. 28) which comes into operation in England April 1st, 1914, and is an Act to make further and better provision for the care of the Feeble-Minded and other Mentally Defective persons, and to amend the Lunacy Act.

It is the first comprehensive legislation secured for the mentally defective. Other Acts have simply established single institutions or provided some permissive education, e.g. the Epileptic and Defective Children's Act of 1899. Unlike these, the Mental Deficiency Act of 1913 takes up the whole question and says that the feeble-minded must be cared for, states who is to care for them and where, and who is to pay for this, and how. It will help the cause of the feeble-minded all over the world. It has been secured by nine years of definite action directed to this one end.

In 1904 the Government was approached by The National Association for the Feeble-Minded and other powerful social organizations: the members were convinced that great and ever increasing evil and expense was being caused by the want of any care or control for a great host of the feeble-minded, young and old, at large or in schools, charitable institutions, poor houses, refuges, orphanages, homes for inebriates, reformatories, hospitals, gaols, prisons and asylums. As a consequence the Government ordered a conference of several Government Departments and officers as follows: The Local Government Board, The Education Office, the Prison Commission and the Lunacy Commission. This conference recommended the appointment of a Royal Commission.

ROYAL COMMISSION ON THE CARE OF THE FEEBLE-MINDED.

The Royal Commission was accordingly appointed by His Majesty King Edward in August, 1904. The terms of reference of the Commission were extended in 1906 to include the working of the Commission on Lunacy and the report was issued in 1908.

The evidence, given before the Commission by 248 witnesses, was of such a character that almost every intelligent citizen recognized immediate legislation to be imperative.

For the next two years the question was never allowed to be out of the public sight or the public mind. Meetings were held all over the country at which the burden of the feeble-minded was the leading subject discussed. Indeed hardly any measure of social reform or social justice can be considered apart from it. Letters and editorials, single and in series, appeared in *The Times*, *The Nation*, *The Lancet*, *The British Medical Journal*, *The Contemporary*, *The Englishwoman*, *The Fortnightly*, in the church papers, and in the local press. Men and women, boards of guardians, school boards, justices, judges, lawyers, physicians, teachers, churchmen, statesmen and the general public steadily pressed for legislation, until at last it was announced in June 1910 that a Draft Bill was in preparation.

THE BILL INTRODUCED.

In 1911 it was repeatedly stated in answer to questions in the House of Commons that the Bill would be introduced in 1912. Finally on May 16th, 1912, a Bill was brought down by the Home Secretary, the Right Honourable Reginald McKenna, and during the same Session two other Bills were brought forward by private members: the "Feeble-Minded Persons (Control) Bill" and "The Mental Defect Bill." Owing to the defeat of the Government on November 11th the Government Bill got no farther than the Second Reading.

No less than eight hundred resolutions in favour of this Bill, including resolutions from 14 county councils, 44 borough councils, 110 education committees, 6 urban district councils and 280 boards of guardians, and others had been received at the Home Office alone, and great disappointment was felt at the delay.

THE BILL BECOMES LAW.

Finally the Bill was re-introduced in the next Session, and became law on August 15th, 1913. A similar Act was passed for Scotland.

The Act as it now stands is stated by Sir H. B. Donkin and other eminent authorities to be one of the most important and useful legislative measures that have been passed in recent times.

THE MOST IMPORTANT QUESTION OF ALL.

As Prisons Commissioner he speaks of "the evils caused by the unconditional discharge from prisons of numerous mentally defective criminals who could not be certified insane under the existing laws." Even this experience, however, does not cause him to regard the question of the mentally defective criminal as the most important of all the important questions in the burden of the feeble-minded. He says, and in this those who have most studied the subject are all with him, that one other practical aspect of this Act—the care and control of the mentally defective children—"touches the most important question of all—the prevention of much harm—both suffered and done by defective persons who from the earliest childhood have been neglected and uncontrolled."

DEFINITIONS.

The Mental Deficiency Act gives legal definitions of the different grades of mental defect as follows:

1. Idiots: That is to say, persons so deeply defective in mind from birth or from an early age as to be unable to guard themselves against common physical dangers.

2. Imbeciles: That is to say, persons in whose case there exists from birth or from an early age mental defectiveness not amounting to idiocy, yet so pronounced that they are incapable of managing themselves or their affairs, or, in the case of children, of being taught to do so.

3. Feeble-minded persons: That is to say, persons in whose case there exists from birth or from an early age mental defectiveness not amounting to imbecility, yet so pronounced that they require care, supervision, and control for their own protection or for the protection of others, or, in the case of children, that they by reason of such defectiveness appear to be permanently incapable of receiving proper benefit from the instruction in ordinary schools.

4. Moral imbeciles: That is to say, persons who from an early age display some permanent mental defect, coupled with strong vicious or criminal propensities on which punishment has had little or no deterrent effect.

A PREVENTIVE MEASURE.

This Act is essentially a preventive measure and when its provisions come into force and are carried out it will show as nothing else could how very great the need for it was.

It has been well received. Steps were taken at once, both by officials and voluntary workers, to make it operative. Boards of guardians in England are taking joint action to provide for the feeble-minded in various counties and municipalities.

PRACTICAL HELP.

The Act brings practical help to the feeble-minded through Government departments and official channels, and enables benevolent persons to help the feeble-minded properly.

For example, it is well known that from 10 per cent. to 25 per cent. of children brought before juvenile courts and of all persons brought before other courts are feeble-minded. Hitherto the law did not recognize this fact. Though it might be perfectly clear to the courts and to all who had any charge of the prisoners or children that they were unable to care for themselves, and that in a very short time they would be before the court again for additional offences, still they were discharged on the expiration of their sentences to steal, assault, burn and murder. Under the Mental Deficiency Act of 1913 this is changed.

Judges, juries and magistrates with mentally defective criminals before them. Education authorities plagued and perplexed with feeble-minded children, helpless parents of idiots or imbeciles who on account of poverty cannot provide for them, the neglected, abandoned or abused defective person, feeble-minded persons who are in prisons, in industrial schools, reformatories, homes for inebriates and asylums, feeble-minded drunkards, feeble-minded girls or women who have borne or are about to bear illegitimate children—each of these is recognized and helped under the Act. It gives good citizens, many of whom have long asked for it, the legal power to see that such persons are cared for and controlled.

FEEBLE-MINDED CHILDREN.

The provisions for the care of mentally defective children under the Act are not yet adequate. It appears probable that the Defective Children's Act of 1909 will be made compulsory.

Mr. Pease stated in his address to the Conference of the Association of Education Committees, at Caxton Hall on June 6th, that he had charge of a supplementary Bill to call on Education authorities to provide for the education of the educable mentally-deficient children in the country. Mr. Pease further stated that it was proposed the grant already given for the education of those children should be raised from £4 4s. to £6.

A Bill to amend the Act of 1909 was accordingly introduced and read the first and second times but afterwards withdrawn. It is understood that the Bill will be re-introduced during 1914.

THE BOARD OF CONTROL.

The Act provides for a central authority or board of control of not more than 15 commissioners, twelve paid and three unpaid, including four legal commissioners and four medical commissioners, one of the paid commissioners and one of the unpaid commissioners to be a woman, also the paid commissioners in lunacy become, by virtue of their office, paid commissioners of the board of control.

LOCAL AUTHORITIES.

The local authority for the purposes of the Act is the county council or borough Council, as the case may be, and the local authority is charged to constitute a committee for the care of defectives, a majority of whom shall be members of the council and others of whom shall be persons having special knowledge and experience in regard to the care, control and treatment of defectives, some of whom shall be women. The local government board has power to order two or more local authorities to join for the above mentioned purposes.

The local authorities have power under the Act to provide for necessary expenses an amount which shall not exceed a rate of one half penny in the pound. They have also power to borrow for this purpose in a manner similar to that authorized under the Local Government Act and the Public Health Act.

INSTITUTIONS.

The institutions for the care of mental defectives are of four different classes and the Act (Section 51) makes it a misdemeanour to undertake the care and control of more than one defective elsewhere than in a certified institution or house or an approved home.

The classification of institutions is as follows:

1. State institutions for defectives of dangerous or violent propensities to be established and maintained by the Board of Control at the public expense. For this purpose any building now vested in the prison commission or otherwise under the control of the secretary of state may be used.
2. Certified institutions or houses, charitable institutions or private institutions. These are to be certified and inspected by the board who may also give the management powers of detention as provided in the Act.
3. Poor law institutions to be similarly approved, certified and inspected.
4. Private homes (without powers of detention) established by any person desirous of receiving defectives in his house for private profit. These must be approved by the board and shall be subject to such conditions as the board think fit.

Defectives may also be placed under guardianship by the provisions of the Act.

MUST FIND THE FEEBLE-MINDED.

It is specially to be noted that county councils and other local authorities must ascertain what persons within their areas are mentally defective, and that education authorities must ascertain what children within their areas are mentally defective, that is, what children are permanently incapable by reason of mental defect of receiving benefit from instruction in ordinary schools, and for notifying the names and addresses of the same to the local authority.

SAFE-GUARDS.

Adequate provision is made under the Act for proper certification of mental defect by two medical examiners, one of whom must be the physician specially appointed for this purpose by the board of control or the local authority, and no mentally defective person (not being an idiot or an imbecile) can be placed in any such institution without the medical certificates above mentioned, and an order from a judicial authority, a court of competent jurisdiction or from the secretary of state.

The Act does not interfere with any mentally defective person who is being adequately cared for and whose parents and guardians do not wish for a change.

Adequate provision is also made for re-examination at the end of one year from the first order and at the end of each succeeding five years.

A judicial authority for the purposes of the Act is a judge of county courts, police magistrate, or specially appointed justice under the Lunacy Act.

THE GOVERNMENT GRANT.

The Treasury Grant for the purposes of this Bill amounts to a total of £150,000. This sum is in addition to the maintenance of any institutions for mentally-defective criminals. The Lord Chancellor stated when the Bill was before the House that the apportionment of the Treasury Grant would be made according to the actual number of mental defectives cared for.

VOLUNTARY ASSOCIATIONS.

The voluntary associations, who had such a great part in securing this legislation now have an opportunity which they have not been slow to avail themselves of to reorganize and take up the new opportunities and duties which the Act presents to them.

Compulsory modes of dealing with mental defectives do not apply to all such persons, and the powers of the local authorities do not provide for all defectives.

The Act provides (Section 48) for grants to such voluntary associations, and the Board of Control has already communicated with the National Association for the care of the Feeble-minded intimating that they would welcome the establishment of some central body representative of all voluntary workers in the field with which the board could communicate and confer. A meeting was therefore called for November 15th, 1913, at the headquarters of the National Association for the Feeble-minded, Denison House, London, S.W., to which representatives of all such voluntary societies were invited. Steps were then taken to organize such a central association, Mr. Leslie Scott, K.C., M.P., having consented to act as chairman of the executive. The central council will consist of representatives of all county and county borough associations.

Mrs. Hume Pinsent, one of the Honorary Commissioners under the Act, who seconded the motion to form the association, said that the main difference in attitude between official and voluntary bodies was the tendency of the public local authority, when confronted with fresh legislation, to study an Act with a view to ascertaining what was the minimum that it must do: whereas the attitude of a voluntary body was to search the provisions of a statute with a view to finding the maximum that it might do. The harmonious co-operation of the voluntary agencies may in this work make good much that would otherwise be left undone, either as falling without the duties of the public authority, or as being beyond its reach in the first transitional period. It is in this spirit that the central association has been constituted, and for such purposes that it seems so eminently adapted.

LOCAL ASSOCIATIONS CAN HELP.

1. By undertaking the supervision (after-care) of defective children and adults leaving any schools, homes, or institutions, including State institutions.
2. By assisting in the provision of suitable guardians and visiting defectives under judicial guardianship.
3. By assisting in the boarding out of defectives under schemes approved of by local authorities.
4. By befriending or otherwise assisting defectives not dealt with under the Act.

The work devolving on the central council and its executive will be:—

1. To form a representative central body with which the Government can communicate and confer if so desired.
2. To distribute Government and other funds.
3. To organize the work of caring for defectives outside institutions.
4. To stimulate activities for the care and control of defectives.
5. To promote the formation of county and county borough associations.
6. To arouse public interest.

NOVA SCOTIA.

The Superintendent of Education for Nova Scotia, Dr. A. H. MacKay, of Halifax, states in his annual report that assuming the population of that province to be 500,000 there are likely about 1,000 more or less mentally defective persons in Nova Scotia and about 100 in Halifax.

The Nova Scotia League for the Care and Protection of Feeble-Minded Persons, founded at Halifax in 1908, continues its good work, and during the year 1912-13 some fifty local branches of the League were formed, representing all districts of the province.

In every school in the Province of Nova Scotia there is a blank in the register to be filled in by the teacher and to be copied in the Annual Return, indicating the number of persons who, owing to some defect of sight or hearing, or temperament or mental power, are unable or are prevented from attendance at the public school. This classification is required to be supported by a statement of the address and defects of each individual, so that definite information, as far as possible, may be sent to the officials interested.

Nova Scotia is now endeavoring to solve the question of the education of educable mental defectives and the care of the uneducable mental defectives.

NEW BRUNSWICK.

In New Brunswick the city of Moncton has had two special classes or Departments for Defectives, and St. John has the matter under consideration.

THE WESTERN PROVINCES,

The proposal was at one time made that Manitoba should provide an institution for the blind, Saskatchewan for the deaf, and Alberta for the mentally defective, British Columbia and the three other Western Provinces to have the privilege of sending the persons in need of care to these institutions respectively. This plan was not found to be practical, but it shows at least that the case of the mentally defective is being considered.

MANITOBA.

In Winnipeg the matter was brought before the Winnipeg School Board by a report from the Medical Inspection Department, and the matter of engaging a specially trained teacher is under consideration.

Mr. Baldry and other officials and friends of Children's Aid Associations are doing a great work in investigating this matter and bringing it before the province.

SASKATCHEWAN.

In Saskatchewan the province cares for some of the most serious cases of mental defect, and it is stated that more provision may be made in connection with the New Hospital for the Insane.

Mr. S. Spencer Page, of Regina, Superintendent of Neglected and Dependent Children for the Province of Saskatchewan, has long been familiar with the problem and realizes its gravity, both from the point of numbers and of the need of permanent care.

ALBERTA.

Mr. R. B. Chadwick, of Edmonton, Superintendent of Neglected and Dependent Children for Alberta, at the meeting of the Canadian Conference of Charities and Correction in Winnipeg in September, 1913, did much by his discussion of the question to awaken public interest and show the need of action to secure the permanent care and control of mentally-defective persons, especially children, in the Western Provinces and elsewhere in Canada.

The general discussion which followed this and other papers on the subject was encouraging.

Dr. Stanley, of High River, and other members of the Alberta Legislature are interested in the subject, and Alberta may be the first to legislate for permanent care of the feeble-minded.

BRITISH COLUMBIA.

In 1913 the Minister of Education for British Columbia, the Hon. Dr. Young, took the important step of appointing a teacher for a special class and paying the teacher's salary.

Both Vancouver and Victoria are making some provision for special classes in the public schools.

ONTARIO.

On February 26th, 1913, a deputation of 200 or more representing a large number of Ontario municipalities assembled at the Parliament Buildings and were received by the Hon. I. B. Lucas, the Hon. J. S. Hendrie, Hon. Dr. Pyne, Hon. J. O. Reaume and Hon. Adam Beck. Controller McCarthy, of Toronto, Alderman Dr. Davey, of Hamilton, Commissioner Starr, and others spoke, requesting consideration of the subject and presenting the following resolutions and suggestions from the Conference of Ontario Municipalities on November 8th, 1912:—

"1. More care at entry ports in the inspection and examination of immigrants to keep out mental defectives.

"2. To suggest to the Government the absolute need of a bureau to record the names of the mentally defective persons at large in Ontario.

" 3. To suggest to the Government the need of greater responsibility on the part of the municipalities in respect to the issuing of marriage licenses.

" 4. To suggest such amendments to the Marriage Act as will prevent the marriage of mental defectives.

" 5. That the Legislature be memorialized to provide institutions for the care of the feeble-minded in Ontario, and that municipalities be required to pay for inmates, making them wards of the State up to 21 years of age if necessary.

" 6. For the sake of uniformity and of efficiency the training schools to be conducted by the Government and a charge made upon the municipality. The municipality is under a charge to educate the child, and if it is not normal it should receive special care."

ONTARIO ASSOCIATION FOR THE CARE OF THE FEEBLE-MINDED.

In the afternoon of the same day a meeting of the Provincial Association for the care of the Feeble-Minded was held at the Council Chamber of the City Hall, Toronto, and Alderman Glass, of London, Lieut.-Col. Farewell, County Crown Attorney for Ontario, Sheriff Cameron, and others addressed the meeting.

Steps were taken to perfect the organization of the Association and arrange for the next annual meeting.

MENTALLY-DEFECTIVE CHILDREN IN THE JUVENILE COURT.

Every Judge of a Children's Court meets this problem. Mentally-defective children appear in these Courts constantly. Every day the Judge realizes the need of an Institution to which the feeble-minded could be sent.

The progressive and helpful work of Dr. William Healy, of Chicago, who is the Director of the Juvenile Psychopathic Clinic in which the delinquent children coming before the Juvenile Court in Chicago are carefully studied and helped, has been followed in many cities.

Boston now has a Psychologist, Dr. Victor V. Anderson, to assist in the Municipal Courts. New York has the same plan.

SIXTY-SIX PER CENT. MENTALLY-DEFECTIVE.

Dr. Goddard and Mrs. Garfield Gifford report an examination of one hundred children who were sent from the Juvenile Court at Newark, N.J., to the Children's Detention Home. They were not in any way chosen, but taken just as they came. Sixty-six out of the hundred were found mentally defective.

FIFTY PER CENT. MENTALLY-DEFECTIVE.

With this agrees the opinion given by Dr. Max G. Schlapp, of the Clearing House for Mentally-Defective Children in New York City. "Over 50 per cent. of the criminal type of children are feeble-minded." But it is the same in all Juvenile Courts. No Juvenile Court can do satisfactory work without some expert opinion as to whether or not certain children are Mentally-Defective.

There are a great many abnormal children who can only be understood by an expert. The careful examination of children who run away repeatedly from home brings out of the fact that the majority of such children are either psychopathic or Feeble-Minded. Out of 120 persistent runaways brought during the last three years to the Out-Patient clinic of the Charité Hospital in Paris because they had repeat-

edly run away from home, a large percentage were found by Dr. Stier to be markedly mentally-defective.

IT CANNOT WAIT.

Whatever part of the problem of the Mentally-Defective can afford to wait even another year, this problem of the Mentally-Defective child before the Children's Court can only wait at a cost to us and to our country too terrible to think of.

COMMISSIONER STARR.

The first Commissioner of the Juvenile Court in Toronto, the Rev. J. Edward Starr, said that before his appointment to that position he scarcely knew of the existence of Mentally-Defective children in Canada. He had barely entered upon his new duties before he recognized it, and among many cases which he asked the writer to examine he was not mistaken once.

The case of Benjamin Gilbert, a Feeble-Minded boy, who passed in school for normal but was finally brought before Commissioner Starr on a charge of manslaughter, was a striking example of his power of penetration into the problems before him, and his ability to reach the real truth of a situation.

Probation, Commissioner Starr used to say, will succeed with most children before the Court unless they are Feeble-Minded.

Commissioner Starr was one of the best friends the Feeble-Minded in Ontario ever had. He spent himself for them. Particularly did the situation of Feeble-Minded children committed to Industrial Schools appeal to his pity and arouse his wrath. His letters and reports to the Board of Control and the City Council were clear and powerful in statement, indignant and vehement in demand that justice be done to those poor, wretched, unhappy Feeble-Minded children and to the community who suffer from their follies, crimes and immorality.

HE BEING DEAD, YET SPEAKETH.

Surely the City of Toronto and the City Council will not let his name be forgotten until his request to them has been answered.

This—one of the things he had to leave undone—should be done before the anniversary of his death comes round. The Capital of the Province of Ontario should place herself at the head of those who are ready to do something to care for the Feeble-Minded.

TWO CASES IN POINT.

Two cases referred to-day from the Juvenile Court in Toronto will show how serious the problem of Feeble-Minded children is in the Children's Court.

R. C., a boy of eleven years of age, with a mental age of about eight years, who had set fire to his own home on more than one occasion, was accused upon some evidence of setting fire to a school. He had told four other boys he would do so by pouring coal oil into the waste-paper bag and using matches. The attempt was not very successful, as the Principal put out the fire with an extinguisher. R. C.'s record is as follows:—

March 11th, 1909.—Seven years of age. Brought to Police Court by mother, who stated that she "could do nothing with him."

May 17th, 1910.—Brought to Police Court charged with vagrancy.

May 28th, 1910.—A neighbor complains in Police Court of cruel treatment of R. C. by his parents.

March 6th, 1911.—Mrs. C. not well. Requests Children's Aid Society to care for R. C. for a few weeks. R. C. placed in Shelter.

April 24th, 1911.—Sent to Mimico Industrial School by Magistrate Denison as incorrigible.

This boy is seriously Mentally-Defective, probably a high grade imbecile. He is strongly built and is probably capable of improvement. He is very anxious to be a fireman, says he "likes to hear the bells ring." He will probably grow up, if he has any care, pretty strong, and might be made very useful. He would likely make a splendid stoker or fireman under constant supervision, and could in a village or farm colony do this work and ring the bells under orders, greatly to the benefit of the Institution and to his own happiness. It is not much that he needs to make him happy, and he could make a fair return for it. But in civilized society he is impossible. He is not a bad boy, and a good deal could be done for him and he could do a good deal for himself and others.

But he cannot do it till we get our Training School. It seems a pity, but in the meantime what can the Juvenile Court do with him?

After his last failure to burn down the School, on account of the activity of the Principal with a chemical Fire Extinguisher, he solaced himself by running to the nearest Fire Hall, putting his head in at the door and shouting: "You will have a fire at School yet."

It is not impossible that he will make his promise good. Meantime he has been sent back to the Victoria Industrial School at Mimico.

The other child, W. W., a girl, fourteen years old, sailed for Canada on September 23rd, 1911, by the S.S. Corinthian from England, with a Barnardo party. She came out to an Aunt who had offered to adopt her. She should never have been allowed to come. Her mental age is about two years. She is unable to guard herself from common physical dangers, and has even on several occasions put her fingers in the fire and burned them! Once she rested her chin on the hot stove and burned herself. She has more than once asked her Aunt "What would you do if I stuck a knife in your back?" And has an unpleasant habit of getting behind the Aunt's back.

The Aunt, who goes out by the day to work, is obliged to take W. W. with her to work wherever she goes, as she cannot leave her alone. The poor girl answers questions in monosyllables; not once in the course of a somewhat long conversation did she say one sentence. Her appearance indicates a great restlessness and there would appear to be no little danger in having her at large. She must be repatriated if possible. If not, where is she to go? And into whose back will she put that knife? The only plan is to care for her in an Institution where knives are not supplied for such purposes.

INDUSTRIAL SCHOOLS.

As indicated in previous reports a large percentage of children sent to the Victoria and the Alexandra Industrial Schools are Mentally-Defective. The work of these Schools is hampered, delayed and rendered more and more difficult—almost impossible—by the presence of Mentally-Defective girls and boys in the Schools. They should be removed, and every means should be taken to bring before

the Municipalities of the Province and the people of the Province as a whole, the urgent need for the permanent care of the Mentally-Defective. Those belonging to this class now in the Industrial Schools alone are numerous enough to fill an Institution. But there are many, many others.

THE FEEBLE-MINDED CRIMINAL.

The Feeble-Minded Criminal in Canada, as in other Countries, has been the cause of great expense to innocent individuals and to the community as well as much trouble and wickedness and even loss of life.

The attention of the Dominion Prison Commission has been drawn to this matter on more than one occasion during their investigations.

A recent investigation by the Russell Sage Foundation as to the number of Mentally-Defective prisoners in seven Correctional Institutions gives the following result. Per cent. of inmates who are Mentally-Defective:—

Bedford Reformatory for Women.....	37
Industrial School for Girls, Lancaster, Pa.....	50
Maryland Industrial School for Girls.....	60
Reformatory for Men and Boys, New York.....	37
Reformatory for Men and Boys, New Jersey	33
Reformatory for Men and Boys, Illinois.....	20

ONTARIO GAOLS.

There are few Gaols in the Province of Ontario in which one or more Feeble-Minded men cannot be found, often admitted in compassion by the Gaoler in order that they may be cared for. Sometimes there are Feeble-Minded women, usually convicted of petty larceny, vagrancy and similar offences. The situation is one that should be made known. Wherever it is known it is strongly disapproved of by the people of the Province.

OTTAWA.

By permission of the Minister the week of December 1st was spent at Ottawa, assisting in the examination of over 50 children who were seen at the request of the Principal and teachers, sometimes because the children were very backward, sometimes because there was something wrong.

The registration in the Ottawa Public Schools in December was about 8,000. At the school from which nearly all the 50 children came the attendance was about 600, and of the 50 children above mentioned about 15 were recommended for special teaching and about 10 of these were definitely Mentally-Defective.

The plans made by the Inspector, Dr. J. H. Putman, and the Ottawa School Board, have been extremely well-judged and prudent and will likely be of real benefit to the community. Much care was taken in the selection and appointment of two teachers who were interested in the work and possessed aptitude for it, Miss Taylor and Miss Patton.

It had been arranged that one of these ladies should go to Vineland, remain there some time and take part in the real work of the Training School for the Feeble-Minded there as well as visiting special classes in Philadelphia. The other teacher went to Waverley to study under Dr. Fernald and investigate the working of his

Training School for the Feeble-Minded and afterwards study the Special Classes in Boston and elsewhere. No one who has taken up this work in Canada so far has had such good opportunities to prepare for it, and it may be confidently expected that good results will follow.

On Thursday, December 4th, a large public meeting was held in the Hall of the Normal School with Controller Dr. Parent in the Chair. The Local Council of Women, under whose auspices the meeting was held, Mr. W. L. Scott, Ald. Foster and others of the City Council, and a large number of citizens were present, and after an address on the Problem of the Mentally-Defective was given an animated and practical discussion took place in which Mr. W. L. Scott and others took part. Mr. Scott told the audience that the Children's Aid Society of Ottawa now had as wards Feeble-Minded children whose parents were Feeble-Minded children, and wards of the Society twenty years ago when it began. An end must be put to such a state of affairs as that, said Mr. Scott, and the audience agreed with him.

SPECIAL CLASSES.

Nothing has accomplished as much up to the present time for the Mentally-Defective children as the establishment of special schools. It is also true, however, that if we are to have these classes, which cost about \$150.00 per year for each pupil, and then send these Feeble-Minded children out into the world, without care and control or any prospects except pauperism, wretchedness and crime we might much better have saved our \$150.00.

Special classes are the thing for backward children, to give them a helping hand over the stile into the place where normal children work and play, but the proper function and benefit of special classes to Feeble-Minded children is to secure them every chance, thorough and absolutely correct diagnosis and then, if they be proved to be Mentally-Defective, transfer them into a permanent and happy home for their permanent childhood, for they will always be children. The Special Class is properly only a "Clearing House" for Feeble-Minded Children.

TRAINING FEEBLE-MINDED CHILDREN.

Feeble-Minded children are almost always badly trained at home. The poor mother always dresses them—she is a slave to them. It is always easier—so she thinks—to put on the child's boots and lace them and tie the laces than to teach him to do it. That is a sad mistake. It is possible to teach nearly every child to dress, except the low-grade idiots.

Normal babies should not be taught to walk. They will walk when they are ready. But the Feeble-Minded child must be taught everything—even the thing that the normal child picks up.

Speech must be very carefully taught. Walking must be taught. Using the muscles must be taught.

The Mentally-Defective, then, should really not stay in a public school, not even in a special class, because they are not and cannot be made citizens. They are and always will be dependents, and when that is once certain, the sooner that a permanently happy home can be secured for them the better. Nothing is gained by delay, though the Golden Rule must always be remembered, especially in dealing with the parents, and great tact used even in trying to carry out the Golden Rule.

The Feeble-Minded child needs:—

Nursery and toilet lessons.

Lessons in expression—Speaking, drawing, etc.

Lessons in using the muscles—Grasping, etc.

Lessons in manners—How to behave at meals, etc.

Lessons from objects—e.g., Bell, bag, fruit, money, etc.

Lessons in manual work.

Activity and constant employment with recreation is the great essential in teaching the Feeble-Minded.

THE BOARD OF EDUCATION, TORONTO.

In November, 1907, Dr. John Hunter moved in the Board of Education, Toronto, for a return of the number of backward children, and information as to what help they needed to overcome the handicap which they might be suffering from. This was probably the first effort in this direction in the Schools of Ontario.

During the last six years the matter has been kept in mind by the Board and investigations as to the number and the needs of backward and Mentally-Defective children have been frequently made and have assisted in educating public opinion on the subject. It is evident that action to make proper provision for these children will not be much longer delayed, and it is frequently asked for by Charitable Institutions, Social Workers, the Local Council of Women and other organizations.

Mr. R. H. Cowley, Chief Inspector of the Toronto Schools is at present preparing a Report upon the whole subject, which will be laid before the Board early in 1914.

DR. JAMES KERR'S LECTURES.

The visit of Dr. James Kerr, School Medical Research Officer of the Education Committee of the London County Council, served to direct special attention to the education of Mentally-Defective school-children, as he referred to it frequently in his addresses to teachers and others when addressing them on the Medical Inspection of Schools.

Dr. Kerr, as Chief School Medical Officer to the Education Committee of the London Council, formerly directed the education of some 10,000 Mentally-Defective children in the London Schools, and has written valuable reports upon this subject. His visit to Canada was at the special invitation of the Minister of Education, the Honourable Dr. Pyne.

IMMIGRATION.

The Feeble-Minded immigrant is a great danger to us. In the report of the Minister of the Interior for the year ending March 31st we find in Sessional Paper No. 25, p. 125: Table 1. Total Detentions: Cause of Detention: Feeble-Mindedness: that the total number detained on account of Feeble-Mindedness is 47.

Number debarred	23
Number released	24

In view of the fact that *more than half* of the immigrants detained on account of Feeble-Mindedness were thus afterwards permitted to enter Canada, and of the

still more serious fact that the medical examiners of immigrants have at present but little opportunity to detect Mentally-Defective persons at all during the brief Medical Examination at the port of entry, it must appear to Canadians who consider the interests of the country that action should be taken at once about this matter. It is necessary that the press, public bodies and Associations of all kinds, as well as patriotic Societies and Municipal Governments act. The Toronto Board of Health wrote a letter about it in 1913.

MAJOR LORNE DRUM,

Secretary Canadian Public Health Association, Regina, Sask.

DEAR SIR,—As you are doubtless aware, the question of dealing with the Feeble-Minded and Mentally-Defective of every municipality is becoming a very necessary and important one, and with the increasing yearly influx of immigrants to this country, the number of this unfortunate class is likely to be very materially augmented.

Our Local Board of Health are unanimously of the opinion that valuable assistance could be rendered by the immigration authorities so increasing their staff as to enable them to make a more thorough examination of all parties entering the country. To that end I have been instructed by our Local Board of Health to ask the Canadian Public Health Association, when assembled at Regina, to take this matter into their serious consideration, with the hope that your organization will take concerted action thereon and memorialize the Federal Government as to the necessity of prompt action being taken along this line, in order that Mental-Defectives or diseased persons may not be admitted to this country.

Again soliciting your consideration and co-operation in this matter, I remain,

Your obedient servant,

(Signed) W. A. LITTLEJOHN,

City Clerk and Secretary Local Board of Health, Toronto.

EXAMINE BEFORE EMBARKATION.

Immigrants for Canada should be examined at their homes before embarkation, where the family history can be obtained. In this way, only, can undesirable immigrants be prevented from making trouble for us and for themselves.

DEEDS—NOT WORDS.

It is estimated (quoted by Goddard) that $3\frac{1}{4}$ per cent. of immigrants from Northern Europe and $7\frac{1}{2}$ to 9 per cent. of immigrants from Southern Europe to the United States are Mentally-Defective. Our immigration from Europe (British not included) in 1912-13 was 111,881.

If only one per cent. of these foreign-born European immigrants were Mentally-Defective that means that over one thousand Mentally-Defective persons were added to our population in 1912-13.

This is a situation so serious that deeds are more appropriate than words for it.

THE MARRIAGE OF THE FEEBLE-MINDED.

The marriage of Feeble-Minded persons continues to occur in the Province. Two cases may be mentioned.

The first was that of William J. Hutchinson, 37 years of age, said to be a Commercial Traveller, who married Eva Howard, a Feeble-Minded girl of 16 years of age, who was a ward of the Alexandra Industrial School.

Magistrate Denison described his conduct as shameful and sent him down for four months to the Central Prison on December 8th, 1913.

Within a week after this occurrence attention was drawn to a still worse case in St. Thomas, in which a Feeble-Minded girl 15 years old was married to a man, Albert Tagg, who is said to be more Mentally-Defective than she is. All the girl's family are said to be Feeble-Minded.

Within a few weeks afterwards both this man and his wife were apprehended as vagrants. He was sent to gaol for three months and she was placed for care and safe keeping in the Elgin County House of Refuge. She is apparently able to work and would have done well under proper care.

The man above referred to has already served two years in the Central Prison, and as he perjured himself by swearing that the girl was over 18 years of age when she was only between 15 and 16 years, he will probably be indicted for perjury on discharge.

This evil-doing and this expense would have been saved if these Feeble-Minded persons had been under care and control.

THE UNITED STATES.

Cities and States, as well as National Societies and Institutions, are beginning to deal with the problem of Feeble-Mindedness. At the New York State Conference of Charities and Correction it was shown that there are 30,000 persons in New York State known to be Feeble-Minded.

Where are they? Half of them at large—15,000—10,000 more confined in prisons, and other places not intended for them, and the rest—5,000—are in Institutions intended for them.

THE TRAINING SCHOOL AT VINELAND.

The Training School for the Feeble-Minded at Vineland has made a great advance during the year in the work of its Extension Department, of which Alexander Johnson, formerly of Hamilton, Ontario, is Director. This new Department aims at educating the public, and keeping them in touch, not only with the Institution but with the whole progress of the movement to care for the Feeble-Minded, and aims moreover at securing the help of the general public for the movement.

Two new Colonies have been started during 1913 by the Vineland Institution, one at Menantico, four miles from Vineland, 520 acres, which is being cleared and on which roads and buildings are being made, by 20 or 30 Feeble-Minded boys under foreman and supervisors.

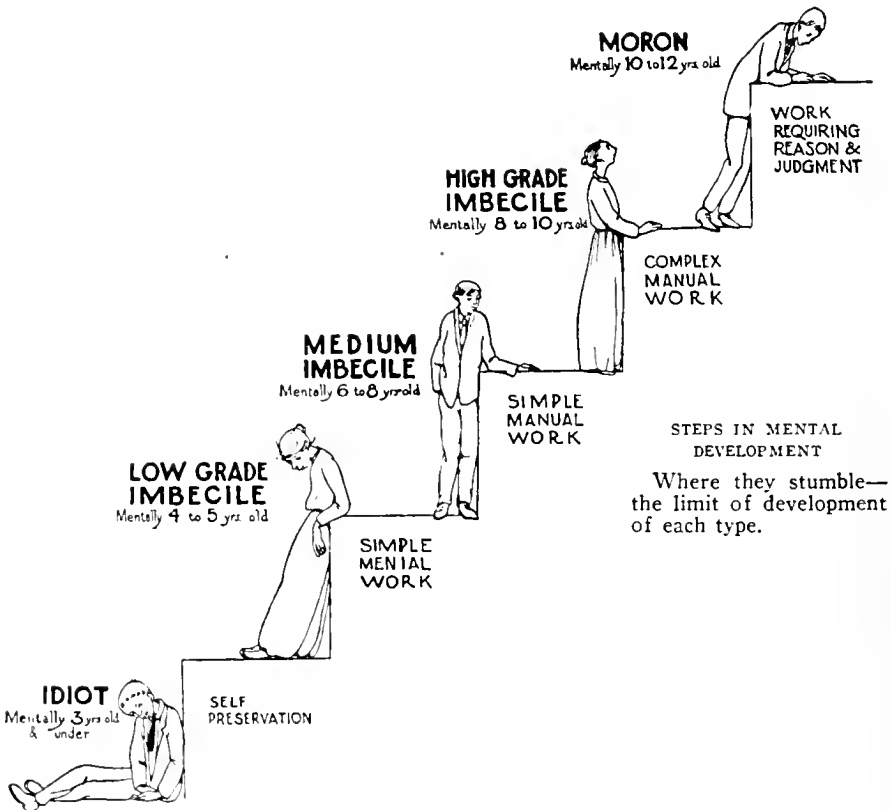

The other is the Burlington County Colony; for the buildings on which \$10,000.00 is needed. About \$5,000.00 has already come in for it. Ten of these dollars came from a workingman, who listened to one of the Extension lectures and said he had a Feeble-Minded boy at home. Fifty cents of it came from a thrifty washerwoman in Burlington who canvassed a city block where poor people like herself lived, and told them she hoped to have her own Feeble-Minded child cared for when the colony should be ready for residents.

A CLEARING HOUSE FOR THE MENTALLY-DEFECTIVE.

In New York the Commissioner of Charities, Michael J. Drummond, established in 1913 a "Clearing House for Mental-Defectives" which is held at the Post-Graduate Hospital. It is stated that children are sent to this Clearing House from 147 different sources in the City, such as Courts, Churches, Schools and Church Settlements. Dr. Max G. Schlapp is in charge, and is assisted by seven Assistant Neurologists and three Psychologists. Every help that medicine and surgery can give is made available for the children at the clinic. About 2,800 such examinations have been made. In October moving pictures at the Metropolitan Insurance Building showed the work of the "Clearing House," and a free exhibit with lectures took place during the whole of October. Valuable information and help is thus given to the public in an easily understood form.

A great many new cases have been sent to the Clearing House for help since the Exhibit opened, and the attendance at the latter has been sometimes over 2,000 per day.

The outline sketches below from *The Survey* show the places where different grades of Mentally-Defective persons stop and can go no farther.

NORTH CAROLINA.

In 1911 the Legislature of North Carolina gave a grant of \$60,000 to establish a School for the Feeble-Minded, and the citizens of Kingston gave a fine piece of land. In March, 1913, an appropriation of \$10,000 was made by the Legislature to complete the School.

The money on hand will provide the necessary accommodation for 130 Feeble-Minded children, at a total cost it is stated of \$1,000 per bed.

By using modern business plans for building such a school it has been found possible to erect simple but substantial and comfortable buildings for this purpose at a cost of about \$500.00 per bed. This is important, because economical business plans will greatly hasten the necessary provision for the Feeble-Minded.

A PROGRAMME.

The Russell Sage Foundation, like every other Social Institution, has long had opportunities to study the problem of the Feeble-Minded. Dr. Hastings Hart, the Director of the Department of Child-Helping, suggests:—

1. That in every new Institution for Feeble-Minded Children preference be given in granting admission to girls of child-bearing age.

2. That every Institution for Feeble-Minded Children shall cease to receive girls under the age of twelve and boys of any age until every Feeble-Minded girl of child-bearing age is provided for.

Much may be said in favour of this plan, but we must not forget that so far as the serious question of the procreation of Feeble-Minded children is concerned Feeble-Minded boys and men are also a grave danger to the community.

NEW YORK.

The New York Board of Education has this year appointed two visiting teachers for the Ungraded Classes. The interests of the children in the Special Classes, of their families and of the community will be helped by this step. So far as is known at present this is the first time that an appropriation has been made or such officers employed by a Board of Education, though last year the Public Education Association lent one of their Social Workers to do this work. She studied each child from every point of view and was able in this way to be of great use to the teacher and the child. The two visiting teachers are Miss Dorothy Brown, who has done School Nursing and also Visiting Nursing, and Miss Julia Culp, a Kindergarten teacher who has also been a social worker.

DR. MONTESSORI IN AMERICA.

Interest in work for Mentally-Defective children was stimulated by the visit of Dr. Maria Montessori to America in December, 1913.

It is well known that her methods which are derived and elaborated from the work of Seguin and others were first used in training Mentally-Defective Children in the "Casa Bambini" of the tenements in Rome. Then she devoted herself with great success to developing methods for training normal children based upon her work with the Sub-normal. Eminent gifts and personal charm, a scientific mind, and a wonderful capacity for work and for training assistants and fellow-workers have made the Montessori methods as developed by her of assistance and inspiration to others who can use them.

THE BUFFALO CONGRESS.

The Fourth International Congress on School Hygiene was held in Buffalo, August 25th-30th, 1913. The United States and Canada were well represented and there were a few delegates from Great Britain, including Dr. James Kerr and Dr. Crowley, of the Board of Education, London, as well as a number of delegates from other countries.

The time and attention given to the question of Mentally-Defective Children both on the programme and by the general public was far greater than at any previous Congress.

Five Sessions of over three hours each were devoted to subjects connected with the education and care of Mentally-Defective and Backward Children. In particular the minute discussion of the Binet-Simon Tests and other means of testing general intelligence and mental age were closely followed by a large audience.

The history of the Binet-Simon Scale and its usefulness as well as the development and standardization of these and other tests to assist the Medical Examiner and the teacher form a very important subject of enquiry.

In 1904 an educational order was passed in Paris that Mentally-Defective children must be educated, and it was to meet the need of tests for mental defect that Binet and Simon in 1905 first published the "Scale." Two Revisions have been issued, one in 1908 and the other in 1911. Other valuable tests have been proposed by workers in Europe and America and it is hoped that before long this subject will be dealt with in a satisfactory manner.

Nothing needs to be said to emphasize the importance of such an examination. The whole course of an individual's life may be profoundly affected by it and the irresponsible and unauthorized way in which ignorant people sometimes make statements as to supposed mental defect in someone of whom they know little or nothing cannot be too strongly repudiated by all right-minded persons.

PSYCHOLOGY AND FEEBLE-MINDEDNESS.

This Conference at Buffalo was important on account of the co-operation of Educators, Psychologists and Physicians.

The Physician must learn to use the Mental Tests. The Psychologist must not place too much reliance on Mental Tests. The teacher must not over-value practical school-room experience, nor must the other two under-value it. The Doctor can remove or improve defective physical conditions and so help. Positive findings are more valuable than negative findings.

Inasmuch as the earliest knowledge of the Mental Deficiency of Children must necessarily come to teachers and other Educational authorities, it must be remembered that the method of recognizing and dealing with the problem of the Mentally-Defective in Schools is by far the best. It is the only one which is distinctly preventive, and the only one which gives the Mentally-Defective child a chance for the development of what powers he may possess, especially of powers of self-support and self-development.

PRISON REFORM AND THE FEEBLE-MINDED.

In the Morals Court in Chicago, Dr. Dwyer, the Physician appointed as Assistant to the Court in 1913, has made a report on 759 women who have appeared before the Court from April to December, 1913. The examination took account both of the physical and mental condition of the woman.

The following are the occupations of the 759:—

House Workers	225
Waitresses.....	174
Laundresses.....	136
No occupation	106
Clerks or Cashiers.....	83
Cleaners.....	24
Dressmakers.....	6
Stenographers.....	4
Manicurist.....	1

759

Practically all of them needed medical care and attention.

TWO-THIRDS WERE MENTALLY-DEFECTIVE.

Two-thirds of them on examination were found to be Mentally-Defective. If they had been recognized in the Public Schools and placed under permanent care and guardianship how much money and time and crime and civic and national degradation and deterioration would have been saved!

NO OCCUPATION.

One hundred and six with no occupation. They could have been trained to an occupation they would have liked and partly at least supported themselves in an institution adapted for them.

HOUSE WORKERS.

Two hundred and twenty-five houseworkers! The occupation most necessary to home and family comfort and efficiency! The occupation that of all others needs social recognition and reorganization! What a chance for the Florence Nightingale or St. Theresa of the Twentieth Century!

HELP NEEDED.

To remove the Mentally-Defective from the delinquent class alone would be productive of much good to her and to Society. To make the best of the Mentally-Defective delinquent woman in the only place where she can "make good" that is, in an Institution, would be a wonderful help and relief to Judges, Magistrates, Juries, Gaols and citizens.

SOCIAL DANGERS.

The Feeble-Minded cannot be members of a normal community. Their crimes against Society proceed from want of sense, want of self-control and want of will.

Thus they set fire, as in instances above mentioned, to the house which shelters them, to the school where they are being taught, or to the barn where they have slept just because they are tired of monotony, or of their present surroundings and want to see the excitement and change produced by a burning building and the rapid assembling of people and horses accompanied by a noise and tumult. Normal people are interested in a fire, but they realize too well the loss, danger and wickedness of incendiarism to cause a fire. The Mentally-Defective, on the other hand, are mentally more or less in the condition of the baby attracted by the flames.

INTEMPERANCE.

Want of control in the Feeble-Minded leads often to intemperance. It is well known that a majority of chronic alcoholics are more or less Mentally-Defective. Sexual immorality occurs among Mentally-Defective persons to a fearful extent, and sometimes debases the community in which they live. More than one country district in Ontario has appealed for help against a Feeble-Minded family that was simply a centre of evil in the community.

CRIME.

Want of self-control among the Feeble-Minded leads not infrequently to murder.

Dr. Savage, Physician to Earlswood Asylum, tells of a Mentally-Defective boy who when slightly irritated by his little sister killed her. He had no sense of what he had done. It was a sudden uncontrolled impulse.

Mentally-Defective prisoners allowed to leave the Court on probation have been known to commit the same crime on the way home.

Other crimes endangering life and property such as the placing of obstructions on a railway track are committed by the Feeble-Minded partly because they have no will of their own and partly because they have no sense to realize the wickedness of wrecking the train and endangering innocent lives.

THE SOCIAL EVIL.

The cause of the so-called Social Evil is receiving more attention of late. Recent investigations in Toronto and elsewhere show that a considerable number of prostitutes in Canada are more or less Feeble-Minded. The estimated number is from 25 to 50 per cent. of the total, but all who have accurate information on the subject agree that the permanent care and control of Feeble-Minded girls and women in Institutions where they could be usefully and happily employed would prevent much evil by removing a cause that is constantly operating.

SYPHILIS AS A CAUSE OF FEEBLE-MINDEDNESS.

The discovery of the micro-organism causing this dreadful and shameful disease, the introduction of new and better methods of treatment, the highly important and accurate means of diagnosis, especially in obscure and para-syphilitic cases, known as the Wassermann reaction, and, above all, a marked change in public opinion, have all exerted a powerful influence on the present state of knowledge in regard to this matter, and foreshadowed a new and greatly improved mode of action on the part of the legislators, health authorities, physicians and the general public to prevent and where possible to cure this shame of civilization.

It is now known that syphilis in parents has a relation to mental defect in their children. Not that it is the cause of mental defect in very many cases. But the percentage is considerable enough to be important.

Dr. J. Leslie Gordon, of Aberdeen, Assistant Medical Officer in the Caterham Asylum, in a valuable paper on this subject (Lancet, Sept. 20, 1913) gives the number of Mentally-Defective children having congenital syphilis as 66 out of 400 examined, a percentage of 16.5. The stigmata of syphilis were present in 11 only out of the 66, but the Wassermann reaction revealed the true situation.

Dr. Sherlock, another observer, gives the number of mentally defective persons who suffer from congenital syphilis as 14.4 per cent. These results are sig-

nificant, and when known to our people will hasten the day when syphilis will be treated as a contagious disease, which it is. It will hasten the day when treatment for this disease, thorough, systematic and continued till cure occurs, will be insisted on by the community in self-defence.

"If some measures for the control of venereal disease were to be adopted in this country, and were to result, as I think they undoubtedly would, in a diminution of the incidence of idiocy, imbecility, and Feeble-Mindedness, they would, indeed, well justify their adoption quite apart from considerations of other beneficial results. This is clear when we take into account the ever-increasing burden which congenital Mental-Deficiency imposes on the community."—Gordon.

EUGENICS.

A sign of progress in these matters is the success of the new Study of Eugenics. The platform on which Galton, Major Darwin, Adami and other leaders stand has commended itself to the world at large. No plank in this platform is a stronger one than that which declares for permanent care and control for the Feeble-Minded so that they should not become parents.

The Mental Deficiency Act of 1913 is an advance towards eugenic ideals.

The Feeble-Minded have no right to become parents. This is a wrong to them, a wrong to their unfit, unhappy, wretched children, and a crime against the country. We now know that the greatest cause of Feeble-Mindedness is heredity. Legislation to improve the housing or the feeding or anything else about the Feeble-Minded is useless. The root of the matter is to prevent their birth.

DEVELOPMENT OF INDUSTRIAL COLONIES.

Three main reasons lead us to care for the Feeble-Minded.

1. The necessity of protecting Society from their inefficiency, crime and prolific procreation.
2. The need of protecting the Feeble-Minded from chronic poverty, misery, abuse, temptation and the consequences of the crime and wickedness of themselves and others.
3. The necessity of giving them employment so that they may be trained and developed and made as far as possible economically productive, as well as happy and useful.

These and other reasons that might be urged point to the establishment of the Industrial and Farm Colonies which have been so successful in Britain, the United States and other countries. It is now about 36 years since the first was established in Great Britain, and the history of their gradual development has been a record of steady progress and improvement. Much more can be done in the training of the Feeble-Minded than would appear possible until a fair trial is given each one at, if necessary, several different employments until the work at which he or she can do best is found. If perfect patience, great understanding, the power of making everything simple, analysing such a simple act as putting on and lacing up a pair of boots, and teaching one step at a time, and persevering to the end, are all employed by a Superintendent and staff who have the right spirit, it is marvellous what results can be obtained in such Colonies.

It may take months or a year to teach a girl to hold an ordinary sewing-needle and thread it and make a few poor stitches, but that girl, in course of time, may be an excellent operator on the sewing machine and earn her own living (but only *inside* the Institution—*outside* all goes wrong).

The Colony makes a community or world of their own for the Feeble-Minded. There they enjoy for the first time self-respect and the respect of others. Utter discouragement is replaced by confidence, they feel the effects of a healthy rivalry with others and of the stimulus of seeing that they can do something worth doing. "The call of the job" reaches them at last. Facilities for recreation and frequent change of occupation are a great means of carrying on successfully the work of a colony and the building up of the powers of the inmates.

Cheap and suitable land, situated within reasonable distance of the population which the Institution is to serve, is the prime requisite for such a colony. It must have a good water supply and be as far as possible self-supporting in regard to food and all other necessary supplies, including building supplies. These and all other plans for the care of the Mentally-Defective are of course useless without adequate powers of detention. Such are some of the lessons learned by a study of the Farm and Industrial Colonies in Monyhall and Darent, in England, or at the Princess Christian Colony in Kent, or at some of the Colonies in the United States, Templeton, Mass.; Menantico, N.J.; Fort Wayne, Ind.; Lincoln, Ill.; Faribault, Minn.; Columbus, Ohio, and Letchworth, N.Y.

These Colonies have worked wonders in converting to usefulness waste human material, in increasing health and happiness, in relieving many homes and families of grievous and intolerable difficulties and burdens, and in preventing the birth of a great host of Mentally-Defective children who would otherwise have been added every year to the burdens of the nation and caused deterioration of the national character.

The Templeton Farm Colony in connection with the Massachusetts School for the Feeble-Minded is on seven large "abandoned" farms comprising a tract of 2,000 acres in extent, three miles long and a mile wide, broken by hills and valleys and by a little river. This tract of land contains timber, wood, gravel, sand and building-stone and was bought for about \$10.00 per acre.

SELF-SUPPORT.

As time goes by and more and more is learned about the powers of the Feeble-Minded we shall become more business-like and economical in the care of them. At the very least, such an Institution should do *all* of its own work, even to the weaving of tweed and towels and the making of boots, stockings and nearly everything else. Raising flowers and vegetables may well be a means of income.

In about another century it will be found if we really take charge of most of the Feeble-Minded that the community is saving money, because they have cut off the supply of paupers and other costly luxuries, and that we are not building so many new Prisons, Orphanages, Refuges, Rescue Homes, etc., etc. Meantime the great thing to do is to find the Feeble-Minded instead of leaving them to waste our National capital in more ways than one behind our backs, then to keep them under the eye and management of some kind and capable person, happily occupied earning their living as far as possible.

How far is it possible for a Feeble-Minded person to earn his or her living? Not an easy question to answer. In the first place, they never can "pay house-rent" as it were. When the site is provided and buildings are put up, can they manage to make ends meet? This is a question which is arousing great interest in England at the present time, on account of the Mental Deficiency Act of 1913, and really no one can yet give an authoritative answer.

DARENTH.

Excluding rent or loan and special or central expenses, in fact "overhead charges," it seems that at Darenth, a great Industrial Colony, which is more like a first-class comfortable factory than anything else, the average weekly cost of each patient (given in *The Hospital*, October 11th, 1913) was 9s. 7½d., of which 3s. 4d. represented the cost of maintenance.

THEY LIKE TO WORK.

Dr. Rotherham, the Superintendent at Darenth, says that the hours are "From 9 to 12 and 1 to 5. No inducement is required to keep the patients at work, and they require little discipline in the schoolboy sense of the word. The punishment most dreaded by any of the patients is to be removed from the workroom back to the ward. The Feeble-Minded, however, differ markedly from those in full possession of their faculties in two respects which affect administration. They are not prone to play the fool, like schoolboys, or to be careless and scamp their work, like men who have grown beyond the stage of school-larking. Once they show signs of taking an interest in what they do, their patient persistence, industry, and care in the use of mechanical devices, like the knitting machines that you saw just now, are very striking. They like to be at work all day; and though they work more slowly than healthily developed people, they are more steady and sure than most, and it is very rare indeed for us to have an accident with any of the machinery that we use.

The work is necessarily run on commercial lines, with order-books, elaborate accounts and so on. The factory inspector pays us periodical visits, and though our products are not intended for the general market, we supply the largest part of what is needed for the forty-seven Institutions of the Board. The workshops include those of the tailors, the shoemakers, the upholsterers, the basket-makers, the carpenters, the bookbinders, the printers, the brush-makers, the wood-choppers, the mat-makers, a small tinsmith's, where twenty-one boys are employed, who last year made 3,581 new articles and repaired 345. The workshops for Feeble-Minded girls include weaving, straw-hat making and rug-making, and in the Training School a variety of occupations are taught, like flower work, macramé work (so beloved of English cottagers) Teneriffe and drawn-thread work and so on. Some of the Teneriffe work is exquisitely done, as also is the sewing, for which certain patients show a wonderful aptitude. You will notice that the patients are almost all smiling and cheerful.

HOW IS THE WORK DISTRIBUTED?

The Board has a central store in London to which many of the articles are sent, and frequently orders arrive from one or other of the Board's Institutions; "Can you let us have 100 mattresses at once?" and so on. Only a few days ago an order came for 30, and they went off the next morning. Though a certain amount of machinery is employed, for the most part the work is done by hand, and some perhaps would say that there is an irony in the fact that in the twentieth century hand work on a large scale survives mainly among the Feeble-Minded. How skilled much of their work is can be seen, from another point of view, in the fact that an Exhibition of industrial occupations is being held during October in London, for which many articles, furniture among them, are being made here.

Indeed, the work of this colony and its function in relation to the other institutions controlled by the same authority may be best described by calling Darenth the Supply Department of the Metropolitan Asylums Board. Innumerable forms, papers, ledgers, bed cards are necessary for its work, and the largest part of the printing of these is done here. We even print our own Prayer-books. The chaplain, Mr. C. M. Jenkins, finding that a shortened form of service was more suitable to the needs of the patients, obtained permission from the Bishop slightly to curtail the established use for morning and evening prayer, and this is now printed and bound here for use in the chapel services.

ALL THE ATTENDANTS AND NURSES SPECIALLY TRAINED.

Yes, in addition to their mental training the nurses are apprenticed for two months to brush-making or whatever may be the occupation in which they intend to become instructors. The industrial attendants, as the men are called, have additional leave, and their hours of work are less than those of the nurses—on the male side from 6 a.m. to 6 p.m. My experience has gone to show that it does not pay to have very highly-skilled instructors—men and women, that is, who are experts in the occupation in which they have to instruct the patients here. The reason is that such skill pre-supposes an interest in the work which militates against the unfailing patience that is required to teach the Feeble-Minded, and has been acquired without, as a rule, any experience in nursing. It is very important that the instructors should regard their pupils as patients first of all, and the habit of mind which produces this is that which a training in nursing can best provide. The teaching staff in the second building, known as the adult colony, which was converted from an ordinary mental hospital to its present use in 1904, and is capable of housing 1,166 patients, consists, on the male side, of a craft-master, Mr. Bickmore, his assistant, and sixteen industrial attendants, together with a master shoemaker and upholsterer. On the female side, under Miss Ferrier, the matron, are a head sempstress, her assistant, and eleven industrial attendants, together with a kitchen and laundry staff. The colony for adults is in part recruited from the training school and the record which was kept during the preliminary period indicates the sort of work which they are most likely to do well. Sometimes, of course, a patient is moved from shop to shop before a bent is found in him, and I can think now of one of our best carpenters who for six months seemed to make no progress at all in this work, which he now does with great skill. The fact that the patients know that what they make is going to be of practical use, or, in other words, that they are executing orders and not working merely to pass the time, stimulates them enormously, and gives a degree of self-respect difficult otherwise to find a means of inculcating. Physical drill has also been invaluable in this respect; they perform the exercises extremely well, and not only their physique, but their manners and appearance, have improved immensely from it.

WHAT IS THE FINANCIAL VALUE OF THE PATIENTS' WORK?

Roughly speaking, it may be said that the patients' work pays for the salaries of their attendants, and in addition contributes £2,000 a year towards the expenses of the colony. This figure is, of course, exclusive of the capital expended."

WHAT WE PAY FOR THE FEEBLE-MINDED IN ONTARIO.

1. For house rent, firing, furniture, food and clothes, medicine and medical attendance and nursing and care, while they do nothing for themselves.

Because they are maintained by night and day in hospitals, houses of refuge, refuges, orphanages, havens, rescue homes or by patriotic, benevolent, church and other societies, and municipalities and private persons, so that they shall not starve.

2. For the care of their children, largely illegitimate.

Because they have on an average twice as many children as normal people.

3. For enforcement of law and order and the care of them in prisons, and the cost of trials and all other legal and judicial processes.

Because they are continually committing crimes over and over again.

4. For the consequences of their crimes.

Because they burn houses and barns, wreck railway trains, commit indecent assault and commit murder.

5. For the constant supervision of them in respectable homes.

Because it takes one good citizen's time to care for one mentally defective person in a home.

6. For the moral damage they do.

Because they harm and corrupt others with their evil ways, and are a temptation to others, and centres of immorality.

7. For the national and social unhappiness, degradation and deterioration they cause.

Because they bring into being unfit and foolish citizens, and thus pass on to coming generations the curse of Feeble-Mindedness.

8. For the loss of happy home-life, the great security of national and personal well-being.

Because the normal children are really deprived of the mother's care—she must give all her time to the Feeble-Minded one. Because proper social intercourse with other families is thus rendered impossible. Other members of such families in Ontario have been forced to leave home, have threatened to run away, and have said their lives were ruined.

In other words, we pay more in cash now for the maintenance of the Feeble-Minded than their permanent care in Industrial and Farm Colonies would cost us.

Through the agency of teachers, public health officials, clergymen and others willing to help in protecting the Feeble-Minded every case should be reported to the Municipal Clerk of the township, village, town or city in which the Feeble-Minded person resides. A register of the names and addresses of all Feeble-Minded persons should be kept in each municipality. In that way alone will the municipalities be brought face to face with this responsibility, and gradually come to recognize the fact that to neglect providing custodial care for the Feeble-Minded in Ontario is a great economic blunder.

WHAT THE SCHOOL CAN DO.

Find the Feeble-Minded children in school and out of school. Give them a second chance in an Auxiliary or Special Class. If they are shown to be Feeble-Minded and incapable of attaining self-support and citizenship, notify the proper Municipal and Provincial Authorities in order that they may receive suitable training and permanent care.

WHAT THE MUNICIPALITY MUST DO.

Provide care, control and training for all its Feeble-Minded Children in Industrial Farm Colonies, so that they may be safe and happy, learn useful occupations and help in their own support. Parents to support their own children as far as possible. Where parents are unable to do this, the cost to be provided for out of Municipal taxes, Government grants and private generosity. Adults to be cared for in separate Institutions of the Industrial Farm Colony or Village type.

Appoint a Committee on the Care of Mental-Defectives.

In cities, organize a central "Vocational Clinic," "Clearing House" or "Social Service Clinic" in connection with a Hospital where the Educational Authorities, the Juvenile and other Courts, the Officers of Justice and all others concerned with the problem of Mental-Defectiveness could send children or adults for a confidential study and expert opinion as to their mental age and capacity.

I have the honour to be.

Sir,

Your obedient servant,

HELEN MACMURCHY,

Inspector of Feeble-Minded.

FORTY-FOURTH ANNUAL REPORT
OF THE
INSPECTOR OF PRISONS AND PUBLIC CHARITIES
UPON THE
Hospitals and Charitable Institutions
OF THE
PROVINCE OF ONTARIO

BEING FOR THE YEAR ENDING 30th SEPTEMBER,

1913

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO.

PARLIAMENT BUILDINGS,

TORONTO, DEC. 3RD, 1913.

To His Honour SIR JOHN MORISON GIBSON, Knight Commander of the Most Distinguished Order of St. Michael and St. George, a Colonel in the Militia of Canada, etc., etc., Lieutenant-Governor of the Province of Ontario,

MAY IT PLEASE YOUR HONOUR:

I beg to submit herewith the Forty-fourth Annual Report upon the Hospitals and Charitable Institutions of Ontario, being for the official year ending September 30th, 1913.

I have the honour to be,

Your Honour's obedient servant,

W. J. HANNA,

Provincial Secretary.

OFFICE OF THE
INSPECTOR OF PRISONS AND PUBLIC CHARITIES, ONTARIO.

PARLIAMENT BUILDINGS, TORONTO, NOV. 14TH, 1913.

SIR,—I have the honour to transmit herewith, to be presented to His Honour the Lieutenant-Governor, the Forty-fourth Annual Report upon the Hospitals and Charitable Institutions, etc., for the official year ending September 30th, 1913.

I have the honour to be, Sir,

Your obedient servant,

R. W. BRUCE SMITH,

Inspector.

THE HONORABLE W. J. HANNA, M.P.P.,

Secretary of the Province of Ontario,

Toronto.

Hospitals and Charitable Institutions

In presenting the forty-fourth annual report on the Hospitals and Charitable Institutions for the year ending September 30th, 1913, I beg to state that there are at present in Ontario:—

- 89 Public Hospitals, including 12 Sanatoria for Consumptives.
- 57 Private Hospitals.
- 37 Refuges.
- 33 Orphanages.
- 3 Homes for Incurables.
- 3 Convalescent Homes.
- 31 County Houses of Refuge.

These have received official visits of inspection during the year, and those entitled to Government aid in accordance with the Statute have shared in the grants voted by the Legislature for Hospitals and Charities.

THE HOSPITALS.

The record of the year indicates the continued success and progress of the Hospitals of Ontario:

Number of patients in the hospitals, October 1st, 1912	3,608
Number of patients admitted during the year	60,920
Number of births in the hospitals during the year	4,210
<hr/>	
Total number under treatment during year	68,738

The above figures do not include those who received medicine and treatment as outdoor patients.

Number of deaths during the year	4,058
Percentage of deaths to number under treatment	5.90
Total number of days' stay in the hospitals	1,406,677
<hr/>	
Provincial grant to hospitals	\$232,376 03
Amount received from all sources	2,026,035 05
Subscriptions, donations, etc.	231,515 88
Total expenditure for hospitals (including capital account, \$1,183,- 762.42)	3,155,340 09
Average cost for each patient per day	1.48
Percentage of Provincial grant to total maintenance expenditure...	.118

PROVINCIAL AID TO HOSPITALS.

1. A Provincial grant is made for all patients in a hospital during the first ten years of its existence at the rate of twenty cents per day, irrespective of what sum is contributed by the patients themselves.

2. After a hospital has been in existence for ten years the grant is paid only for patients for whose maintenance \$7.00 per week or less is contributed.
3. In all cases the limit is 120 days, and if the patients remain in the hospital longer than that period the refuge rate of seven cents per day is allowed.
4. Children over one year and under twelve years are allowed for at the rate of seven cents per day.
5. No allowance is made for infants under one year of age.

AID TO SANATORIA FOR CONSUMPTIVES.

1. A grant of \$1,000 on the erection and satisfactory equipment of the necessary buildings.
2. A grant of three dollars per week for the maintenance of each patient for whose support \$4.90 per week or less is contributed.

These grants to be in consideration of proper accommodation being provided, and only to assist in the maintenance of indigent patients coming from the Province of Ontario. There were 1,781 patients cared for in the 9 different Sanatoria for Consumptives during the past year.

THE YEAR'S WORK.

The progress made in the Hospitals of Ontario during recent years may justly be considered commendable. Twenty years ago there were only thirty-four hospitals in this Province; to-day there are eighty-nine such institutions.

The following table is of interest:

		Total number of patients.	Total expenditure for hospital maintenance.
1893.	34 hospitals.....	14,363	\$ 321,473 44
1903.	61 ".....	39,223	852,240 51
1913.	89 ".....	68,738	1,971,577 67

Ten years ago there was only one Sanatorium for Consumptives; to-day there are 8 Sanatoria for Consumptives in different parts of Ontario.

This splendid showing is a tribute to the philanthropy of the people through whose benevolence hospitals have been provided in every part of the Province. To the credit of Ontario, no public hospital has yet been compelled for lack of support to close its doors, and in many places where doubts were at first expressed regarding the likelihood of hospitals to be sustained experience has demonstrated that the local hospital is now looked upon as a necessity in every County. Some of the most thriving hospitals are located in the towns, and before long every physician in Ontario will be provided with hospital facilities for his patients within easy reach of their homes.

During the past year, Sir William Osler, in his address as President of the British Hospital Association, made reference to the system of hospitals in Ontario as an example to the whole world. Commendation from such an eminent authority must be regarded as highly satisfactory. The Ontario Hospital Act of 1912 has been pronounced by English Journals as furnishing a standard worthy of adoption by other countries. The Old Country hospitals have been

founded and exist solely for the treatment of people unable to pay for their maintenance. The result has been to encourage pauperism to such an extent as to render difficult the financing of many of the British Hospitals, notwithstanding their great endowments. The middle classes in England are not provided for and have to resort to Nursing Homes, many of which Sir William Osler declares are poorly equipped and indifferently managed. Instead of providing in General Hospitals, as is done in Ontario, for rich and poor with a system of graded charges, the poor alone are admitted, and, instead of all classes of the community being cared for, the hospital is regarded as an institution only for those in needy circumstances.

The Ontario Hospital Act provides that poor people shall have every necessary care, but that those able to pay for their maintenance shall be encouraged to do so. The Act further provides that the burden of caring for the poor shall not be placed wholly upon the hospital management, but a portion paid by the municipality from which the patient came to the hospital. On the other hand, accommodation is provided for those able to pay more than what it actually costs for maintenance and the surplus goes to assist in paying for those unable to contribute the full quota. In brief, the system in Ontario is that the rich help the poor, and everyone is encouraged to contribute according to their means. The result is that the total cost is so distributed that the hospital cannot be regarded as a burden to any community.

NEW TORONTO GENERAL HOSPITAL.

The completion of the new Toronto General Hospital, at a cost of \$3,500,000, must be regarded as the great hospital event of the year. It will afford accommodation for over seven hundred patients and its completion has been most satisfactorily accomplished. The members of the Hospital Trust have demonstrated what may be accomplished by earnestness and sincerity of purpose, deservedly meriting and securing liberal support in carrying out a great scheme for the public weal. Probably never before on the American Continent has any single Hospital Board succeeded in bringing to completion such an undertaking and enabling the hospital to open its doors, with practically no debt to encumber its future maintenance. Only those actively interested in hospital work can appreciate what has been accomplished. Probably there is to-day in many respects no better hospital in the world, and civic pride can justly be taken in the splendid pile located in the most central part of the city and made readily accessible by an efficient system of motor ambulances.

A few years ago, when the American Hospital Association was convened in Toronto, hospital conditions were such that the visitors expressed surprise. To-day if such a gathering was held the General and the Hospital for Sick Children and Nurses' residence could be pointed to with the satisfaction of knowing that these are institutions unsurpassed on this continent.

St. Michael's and the Western Hospitals have also, during the past year, made substantial additions to their equipment.

TORONTO'S GREATEST HOSPITAL NEED.

The necessity for having in Toronto a reception hospital for nervous and mental diseases is now a recognized requirement which cannot longer be delayed. Proper provision for the treatment of incipient insanity is most inadequate.

The barbarous custom of committing many suspected of being insane to gaol is now, by recent legislation, declared illegal. In a city of nearly half a million people, cases are daily reported for whose care and treatment some provision must be made. The City of Toronto has provided by by-law one hundred thousand dollars for such an institution. The history of every such Reception Hospital shows that a large percentage of the patients who were given the advantage of treatment in the early stages recovered without having to be sent to the larger hospital. The excellent work accomplished by Reception Hospitals was first demonstrated in Germany where, under the name of Psychiatric Clinics, it has for years been demonstrated that in the incipient stages mental and nervous diseases can be cured without having to commit such patients by legal process. Insanity, although one of the most dreaded diseases, is still little understood by the medical student at graduation. A Reception Hospital in a great University centre like Toronto, would afford facilities for the individual study of all that phenomena known as insanity and the future medical graduate would go forth with clinical advantages which would indirectly prove of incalculable benefit to the community at large. The Provincial Hospitals afford excellent provision for the insane and the scientific treatment of the patients in Ontario institutions is fully equal to that found in any other country, but the progress being made directs attention to the necessity for a special central Reception Hospital. Those who are specially engaged in the Provincial Hospitals have been the first in Ontario to point out the advantages that would come from having in Toronto a Reception Hospital where incipient cases might be kept under observation. Within the next two years the Provincial Hospital will be moved from Queen St. to Whitby, and in a city the size of Toronto what is now a great need will then be regarded as an absolute necessity. Toronto gaol will no longer be available and the emergency cases must be provided for. The time, therefore, seems most opportune for action. The needs for such an institution are fully recognized. A Reception Hospital might with advantage be organized by the city, but placed under Government control and management, and have the same financial relation to the municipality as a General Hospital under the terms of the *Hospital Act*. The City of Boston has now a Reception Hospital which might well be considered a model for Toronto. The State Hospital for the Insane is located at Dorchester, twelve miles away, and all emergency and incipient cases are first cared for at the Reception Hospital. Many of them are cured there without having to be certified and sent on to the larger State institution. The work that is being carried on so successfully at Boston and other American cities can be successfully inaugurated in Toronto. The notion that those manifesting the slightest symptoms of insanity form a special class of dependents and must be cared for by the Province in the large Provincial Hospitals is most misleading. The Province cares well for all suitable cases, but the necessity of taking care of the borderland cases, those in whom progress of disease may be prevented, will surely soon be recognized by local philanthropy.

SANATORIA FOR CONSUMPTIVES.

During the past year 1,781 patients were admitted to the local Sanatoria for consumptives. When that number is compared with the total number of cases which are known to exist in Ontario, it will readily be seen that only a small percentage of patients suffering from tuberculosis are receiving hospital care. More and more it is becoming apparent that it is desirable to have more local sanatoria

established in different parts of the Province. The consumptives of each county, or group of counties, should have separate provision made for them where they can be cared for near their homes, and be occasionally visited by their own physicians. The work already done in this respect at St. Catharines, London, Hamilton, Ottawa, Gravenhurst, Kingston and Toronto, is an example which other districts should follow. The new Sanatorium for Essex County was opened during the past year and is doing excellent work. Waterloo County will have completed its sanatorium during the coming year. In some places the idea has prevailed that in establishing local sanatoria it would be necessary to copy the usual methods of hospital construction, and the question of expense has stood in the way. Expensive and ornate constructions should not be thought of in preparing plans for the housing of consumptive patients. The one aim should be to provide for a maximum amount of pure air at a minimum expense in architectural outlay. A frame building with wide verandahs and a few shacks comfortably fitted up would surely be an investment that every county in Ontario could profitably make. The many instances that we have in Ontario where consumption has been cured is assuring evidence that should justify the establishment of municipal sanatoria, especially when the Government grant is liberal. The districts in Germany, England and Scotland that have had sanatoria established for several years demonstrate the fact that these institutions are never a menace to the community where they are located. On the other hand, it is clearly shown that there is less tuberculosis in the immediate neighborhood of the institutions than there was previous to their establishment. We know that Gravenhurst has not suffered in any sense by having the two hospitals for consumptives so convenient thereto. This country is gradually awakening to the proper methods of dealing with the white plague and the next decade will no doubt bring about greatly increased sanitarium facilities for the proper care of the consumptive individual. The establishment of these local institutions will not only effect a cure, or improvement, in patients under their shelter, but one of their great missions will be to teach a proper mode of life to the community in general and to the consumptive in particular. They will spread the gospel of a life in pure air as the only proper mode of life for every human being.

On account of the efforts made to educate the public regarding the nature of tuberculosis and the successful means which may be adopted for its prevention, the death rate in Ontario is year by year growing less.

This splendid result must be ascribed to the efforts made by the Provincial Board of Health through the efficient District Officers to bring its Exhibit with its striking educational features before the people, to the introduction of suitable text books in our schools, as well as the dissemination of suitable literature, to the work of the local sanatoria with their dispensaries, and visiting nurses, and to the fact that the people of Ontario are more than ever appreciating the fact that healthy homes and pure air are the great essential necessities to rid this country of the disease.

PRIVATE HOSPITALS.

There are now 73 private Hospitals under Provincial license in accordance with the Act. A private hospital is defined as a house in which two or more patients are received and lodged at the same time, and if any house is used as private hospital without a license the occupier and all persons concerned in its management shall incur a penalty not exceeding \$25 for every day during which

such use is continued. Every application for license to keep a private hospital must be made in writing to the Provincial Secretary, and shall furnish the full particulars as set forth in the Act. A fee of \$5 must accompany each application for a license which cannot be granted unless the house is approved by the Inspector as suitable for the purposes indicated in the application, and the Provincial Secretary is satisfied as to the character and fitness of the applicant. Every licensed hospital shall according to the tenor of the license issued be either: (a) a licensed maternity hospital; (b) a licensed medical and surgical hospital or; (c) a hospital licensed both as a maternity and as a medical and surgical hospital. Every license must state the maximum number of patients who may be received and lodged in the hospital at any one time. Every license must be renewed annually in the month of October and the fee of \$5 paid to the Provincial Secretary for the continuance of the license. The conditions under which a license may be revoked are clearly set forth and are sufficiently restrictive to render it absolutely necessary that a private hospital must be properly equipped, and conducted in a creditable manner. The superintendent of every private hospital must, under special exemption granted only by the Provincial Secretary, be either a legally qualified medical practitioner or a trained graduate nurse. Every private hospital must keep a register of patients open for inspection. If the Inspector believes or suspects that any house is used as a private hospital without being licensed he may at any time and from time to time, by himself or by any person authorized by him, enter and inspect such house and every part thereof, and any person who prevents or obstructs, or attempts to prevent or obstruct, any such entry or inspection shall incur a penalty not exceeding \$200. A licensed hospital shall not be used for any purpose other than the purposes in respect of which the license is granted, nor for a greater number of patients than that authorized, under a penalty of \$25 for every day during which it is so used. Births and deaths in a private hospital must be punctually registered. The deplorable condition that formerly permitted illegitimate children, born in private hospitals, sometimes designated maternity homes, to be secretly taken away to some isolated baby farms, is being gradually lessened. Every effort is being made to have these infants nursed by their own mothers and no departure from this rule should be permitted except under most exceptional circumstances.

FIRE PROTECTION.

Ontario has been most fortunate in freedom from fires in its hospitals and charitable institutions. The large majority are unfortunately not of fireproof construction, hence the absolute necessity of insisting on proper fire protection in every institution where the sick and helpless are cared for. This is constantly urged and made a subject of report in every inspection. The licenses of two private hospitals were cancelled during the year on account of failure to provide the conditions called for.

It is gratifying to note that there has been considerable improvement of late in the facilities for fire protection at the hospitals and public charities of Ontario. Too great caution cannot be taken to have constantly at hand not only simple and effective means for checking a fire, but also a recognized and well understood system for the quick removal of the inmates if danger should be threatened. Those in charge of these refuges have in nearly every instance cheerfully complied with the suggestions that have been given, and it is pleasing to record many observed incidents indicating faithful and conscientious devotion to duty in caring for the old and infirm committed to their care.

THE UNDESIRABLE IMMIGRANT CLASS.

Attention must again be called to the fact that a large number of undesirable and unsuitable immigrants have been induced to come to Ontario and have, shortly after landing, become a public charge on our hospitals and charities. There are no more benevolent and patriotic people to be found anywhere than those who so generously support the charitable institutions of this Province. They have just reason to complain of the unreasonably large number of dependants and defectives that some designing agencies have induced to seek shelter here. The most kindly spirit has been displayed by our charitable organizations to provide for the needy and the sick, but when week after week cases are reported that should have been kept at home and apparently were only sent to Canada to be gotten rid of, it is little wonder that protests are made. Any system that permits steamship, or any other agency to induce immigration, without proper discrimination, cannot be defended. During the past year it has cost the hospitals and public charities of this Province of Ontario many thousands of dollars to provide for people who should never have been allowed to embark for this country. The fault lies in the system that allows these poor people to have their little means taken from them on the other side of the Atlantic and told they will be well looked after in Canada. The time and place to check the undesirable immigrant is when proposing to leave his domicile in the Old Country and before he agrees to pay the steamship agent double what his fare under ordinary circumstances would be. The fact that the dependents who become a public charge may be deported affords a most inadequate remedy. Deportations are made weekly from Ontario, but no one will become a party to insisting on a poor advanced consumptive or a helpless epileptic or imbecile undertaking an ocean voyage to his home. Many of these people tell pitiable tales of the false hopes held out to them by the wary steamship agent to induce them to leave home and come to a land pictured as all sunshine and prosperity.

CITY REFUGES RECEIVING GOVERNMENT AID.

There are 43 Refuges and Homes in Ontario receiving Government aid. The total population during the past year was 6,176. The total expenditure for the maintenance of these Refuges for the year was \$480,378.83. Towards this expenditure the Government contributed \$85,878.48 to be divided among the institutions at the rate of seven cents per day, as provided for by the Charity Aid Act, according to the length of residence of inmates, the balance of the expenditure being contributed by subscriptions, bequests, municipal grants, etc. These Refuges have all been regularly inspected according to Statute, and suggestions made in some instances for their improvement. Often it was found that there was a tendency to crowd too many inmates in dormitories and thus limit the air space. The regulation demanding that in every dormitory there must be a space of at least two feet between each bed and that each sleeping apartment must be properly ventilated, is not observed as well in some institutions as in others. Those in charge of these Refuges are fortunately realizing more than ever before, the responsibilities resting upon them for the care and protection of the old and helpless people committed to their care. The municipal grant received by these Refuges from the cities and towns wherein they are located must hereafter according to recent legislation at least equal the Government grant. Unfortunately this has not been the case in some municipalities. For example, in Ottawa the

municipal grants to the Refuges of that city last year amounted to \$6,300.00 while the Government grants to these institutions were \$15,325.03. This is not as it should be and suggests the wisdom of the Act which now states that in no case shall the Government grant be greater than the annual municipal grant for the maintenance of these institutions which largely exist for the benefit of the Municipality in which they are located. This must in future be definitely understood. As soon as the local municipality appreciates that the local refuges must receive municipal aid equal to that coming from the Government the relief will surely not be withheld.

HOUSES OF REFUGE.

There are now 31 County Houses of Refuge in Ontario, a new one for the United Counties of Stormont, Dundas and Glengarry having been opened at Cornwall during the past year. During the past year the average number of inmates in the County Houses of Refuge was 1,810. Nearly all these institutions are well conducted and the inmates provided with comfortable homes. Those counties which hesitated for many years before complying with the statute, which compels each county to provide a home for its indigents, now recognize their local institutions are a necessity and that in making provision for the old people, a humane step has been taken. There are many Houses of Refuge in Ontario that do credit to the counties which have erected and are maintaining them. There are a few instances, however, where there is an apparent tendency on the part of the county councils to neglect the duty of keeping up the necessary repairs and improvements needful for the comfort of the old people committed to these institutions. The comfort of the inmates so much depends upon the management. The time has come when every House of Refuge should have an efficient nurse to care for the sick and infirm. The inmates should never be allowed to care for themselves. This condition, fortunately, is now confined to only a few counties. At some of the institutions where I have pointed out the necessity of reforms being instituted in order to have the inmates, their bedding and clothing, kept in a proper condition, the argument has been raised that the inmates were never as comfortable in their lives before. From that point of view such contention may in some instances be correct. But such a point of view is not the right one to take. These Houses of Refuge are public institutions, maintained and supported by the ratepayers, who have a right to expect and demand that abuses shall not be tolerated. It is not in any way encouraging extravagance to insist that these institutions should be kept clean and free from vermin, and that the inmates when sick should have some one employed to nurse them and minister to their needs. When proper help is employed there is no difficulty in conducting these Houses as they should be. The result of the past year's inspections affords gratifying evidence that in nearly all the Counties an earnest effort is being made to conduct the Houses of Refuge properly, and some of the institutions that were criticized in previous reports have been greatly improved.

The recent legislation, which has done away with the right to tax municipalities according to the number of poor sent to Houses of Refuge, is most satisfactory. The cost of maintenance is now levied on the whole county.

ORPHANAGES.

During the past year 33 Orphanages have received Government aid. These institutions had a total population of 5,261 children. The total expenditure for the maintenance of these charities during the year was \$217,605.42. The Govern-

ment grant to assist in meeting that expenditure was, at the rate of two cents per day, \$18,796.39, the balance being contributed by private donations, municipal grants, etc. An official visit of inspection was paid to each of these institutions. The domestic management was found in nearly every Orphanage to be carefully and prudently looked after. The funds contributed for the maintenance of these institutions are expended most carefully, and their financial returns compare most favorably with those of similar charities in other countries.

The number of children in the Orphanages of Ontario is 263 more than last year. This is not a hopeful sign, and on inquiry I find that the increase in the number of inmates is in many institutions ascribed to the many children belonging to the immigrant class, recently arrived in this country, who have had to be provided for. The best institution is a poor substitute for the home. The Children's Aid Societies throughout Ontario have more applications for children for adoption than can be supplied, and it seems peculiar that so many children should be kept in Orphanages who might be adopted into comfortable homes. Nearly all the institutions for the care of children in Ontario are well managed, but at best the life of a child therein is deprived of that broadening development that comes from intercourse with outside children. The environment in childhood has a potent influence in moulding character. No matter how kindly cared for they may be in these institutions, there is lacking some of the elements that make for rugged upbuilding of character. We are yearly providing in Canada comfortable homes for hundreds of children brought out from the Orphanages of Great Britain while keeping so many of our own native born young Canadians housed in our own institutions. The majority of people taking English children express a preference for Canadian born, but for some reason their wishes cannot be complied with. The fault lies, I am convinced, not nearly so much with the people in charge of our Orphanages as with the persons who commit children to these institutions with the expressed understanding that they must be kept there and not given out for adoption into private homes. I have expressed the opinion that the rules governing the admission of all inmates should be changed so as to permit the management of all our Orphanages, after a child has remained a certain period, to decide in regard to his removal for adoption.

My visits of inspection, and my daily communication in one form or another with the Hospitals and Public Charities of Ontario, impress me with the fact that these institutions are, with very few exceptions, conducted in a manner that deserves commendation. Those in charge generally esteem the duty and privilege of personal service, and appreciate the fact that whatever may be the nature of the work which engages their attention, however they may be absorbed in plans for the enlargement and betterment of one particular scheme and method, they seldom lose sight of the fact that it is the suffering and the necessitous for whom they are planning and acting, and that only in so far as this suffering is alleviated and these necessities relieved can they claim true success, or rest satisfied with their labors. Two thousand years ago it was said by Him who while on earth went about doing good, "The poor ye have always with you." This saying is equally true to-day, and the best results can be accomplished and the highest level of achievement reached only by responding with the best that is in us to accomplish the tasks duty and privilege have assigned us.

R. W. BRUCE SMITH, *Inspector.*

ORPHAN ASYLUMS

The statistical tables on the following pages of this report show an increase in the contributions to several of the Institutions, while in some cases there is a falling off as compared with last year.

The total number of children cared for in the Orphanages during the year was 5,261, as compared with 4,998 in 1912.

In the tables will be found full details of the receiving and discharging of children, etc.

The statistics relating to the sex and previous residence of the inmates are given in the following summary:

Sex.

Male	2,649
Female	2,612

5,261

Previous Residence.

Received from cities in which Orphanages are located	3,848
Received from counties in which Orphanages are located	364
Received from other counties in the Province	728
Immigrants and foreigners and unknown	321

FORTY-SIXTH ANNUAL REPORT

UPON THE

Gaols and District Lock-ups of Ontario

In presenting the Forty-six Annual Report of the Gaols and Lock-ups of Ontario, I beg to submit the following statistics for the year ending September 30th, 1913:

(1) Number of Gaols in Ontario	46
Number of Provincial Lock-ups	5

(2) Total expenditure for Gaol maintenance in Ontario:

In 1912	\$203,936 76
In 1913	203,074 82
Decrease	<u>\$861 94</u>

(3) The cash revenue from Gaol labour during 1913 was \$1,530.50, and was earned at Kingston and Perth.

Average cost per day for each prisoner in the County Gaols of Ontario was:

In 1912	24½ cents.
In 1913	24¾ cents.

(4) Number of persons committed to Gaols and Lock-ups during the past two years was:

In 1912	16,985
In 1913	19,250
Increase during the past year	<u>2,265</u>
Commitments for murder in 1912	24
Commitments for murder in 1913	31
Increase	<u>7</u>
Commitments for manslaughter in 1912	17
Commitments for manslaughter in 1913	12
Decrease	<u>5</u>

Commitments for crime against the person:

In 1912	1,087
In 1913	1,137
	<hr/>
Increase	50

Commitments for crime against property:

In 1912	4,142
In 1913	4,125
	<hr/>
Decrease	17

Commitments for crime against public morals and decency:

In 1912	781
In 1913	818
	<hr/>
Increase	37

Commitments for crime against public order and peace:

In 1912	9,983
In 1913	11,887
	<hr/>
Increase	1,904

Number of insane committed to Gaols:

In 1912	512
In 1913	491
	<hr/>
Decrease	21

Prisoners sentenced to the Penitentiary during the past year show an increase of 112 as compared with the previous year, and the number transferred to the Central Prison was 147 more than in 1912.

Number of prisoners sentenced in 1912	10,250
Number of prisoners sentenced in 1913	11,897
	<hr/>
Increase	1,647

The percentage of sentences to commitments was:

In 1912	60.3
In 1913	61.8

The number of prisoners sentenced to terms over one year was 92 more than during the previous year.

The number confined in penal institutions of Ontario was 95 more on September 30th, 1913, than on the same date last year.

Of these committed during the year, 7,549 were married and 11,701 were single.

Habits of life of those committed to Gaols:

In 1912, number of commitments 16,985; temperate, 3,747; percentage, 22.06.

In 1913, number of commitments, 19,250; temperate, 3,770; percentage, 19.59.

Ten and one-third per cent. of the prisoners committed to the gaols during the past year could not read or write.

Number of days' stay of prisoners:

In 1912	341,041
In 1913	313,271
	27,770

Showing a Decrease of days 27,770

Escapes and captures:

Eighteen prisoners escaped during the year, of whom five were recaptured.

Deaths in Gaols:

In 1912	20
In 1913	18

COMMON GAOLS.

The following table shows the number of prisoners committed to the Common Gaols in the Province in each year, from the 1st October, 1869, to 30th September, 1913.

Date of Commitment.	Men over 16 years of age.	Boys under 16 years of age.	Women over 16 years of age.	Girls under 16 years of age.	Total.
Commitments for the year ending 30th September, 1869	3,599	294	1,680	82	5,655

The disposition made of the persons committed to the gaols of the Province is set forth in the table printed below:

	1913.
Acquitted on being brought to trial, and discharged.....	4,261
Discharged without trial by order of judges, magistrates and courts, including remand cases	825
Detained for want of securities to keep the peace.....	61
Detained as witnesses	62
Detained as fraudulent debtors	24
Detained as lunatics, idiots and persons unsafe to be at large.....	491
Died before trial	9
Detained by civil processes other than above	170
Waiting trial and otherwise detained on 30th September, 1911.....	162
Found guilty and sentenced	11,897
Discharged under suspended sentence	1,288
	<hr/>
Total number of commitments	19,250

The places of confinement to which the convicted persons were sentenced are set forth in the following statement, and similar information is given as regards the sentenced prisoners of the previous year:

	1912.	1913.
Sentenced to Kingston Penitentiary	255	184
do to the Industrial School	29	29
do direct to Central Prison	1,027	1,139
do to the Common Gaols and subsequently transferred to the Central Prison	116	263
do direct to the Reformatory for Females.....	185	190
do to the Common Gaols and subsequently transferred to the Reformatory for Females	35	22
do to the Common Gaols and there detained until the expiration of sentence	8,584	10,056
Died while undergoing sentence	19	14
	<hr/>	<hr/>
Total	10,250	11,897

The summaries given below show the nature of the offence committed by the convicted persons:

1. Crimes against the Person.

	Total commitments for the year.	Number found guilty and sentenced.
Assault, common	537	337
Assault, felonious	156	108
Cutting and wounding, stabbing and shooting with intent	114	70
Rape and assault with intent	68	27
Murder	31	5
Manslaughter	12	7
Attempted suicide	29	8
Miscellaneous	190	85
	<hr/>	<hr/>
Total	1,137	647

2. Crimes against Property.

	Total commitments for the year.	Number found guilty and sentenced.
Arson and incendiarism	93	12
Burglary	56	36
Counterfeiting and passing counterfeit money.....	5	3
Destroying and injuring property	87	43

Threatening and seditious language	38	12
Vagrancy	2,907	1,713
Miscellaneous	25	15
Total	11,887	7,907
Contempt of court, lunatics, etc.	706	119
Other offences, not classified in foregoing.....	577	228
Grand total	19,250	11,897

The following tables show the period of sentence passed on the convicted prisoners and the sex, social conditions, habits, etc., of the total number of prisoners committed:

Periods of Sentence.

	1912.	1913.
For periods under thirty days	4,037	5,444
For thirty days and up to sixty days, or two months, not including the last term	2,829	2,906
For sixty days, or two months	781	766
Over two months to three months	623	670
Over three months to four months	302	283
Over four months to five months	105	119
Over five months to six months	843	759
Over six months to nine months	122	225
Over nine months up to one year, inclusive.....	160	185
Over one year and up to two years	167	292
Over two years and up to three years in the Penitentiary.....	137	89
Over three years in the Penitentiary	100	91
For periods of any length in the Industrial Schools	30	38
Sentenced to death and executed	1
Sentenced to death and commuted to imprisonment.....	1
Sentenced to imprisonment with corporal punishment.....	13	29
	10,250	11,897

Sex.

	1912.	1913.
Male	15,329	17,527
Female	1,656	1,723
	<u>16,985</u>	<u>19,250</u>

Social Condition.

Married	6,066	7,549
Unmarried	10,919	11,701
	<u>16,985</u>	<u>19,250</u>

Habits.

Temperate	3,747	3,770
Intemperate	13,238	15,480
	<u>16,985</u>	<u>19,250</u>

Educational Status.

Could read and write	15,113	17,256
Could neither read nor write	1,872	1,994
	<u>16,985</u>	<u>19,250</u>

Nationality.

Canadian	10,212
English	2,541
Irish	1,400
Scotch	1,406
United States	1,158
Other countries	2,533
	<u>19,250</u>

Religious Denomination.

Roman Catholic	7,364
English Church	4,305
Presbyterian	3,024
Methodist	2,297
Other denominations	2,260
	<u>19,250</u>

The number of prisoners confined in the various custodial institutions of the Province at the close of the past official year, and the year preceding, is exhibited in the following summary:

	1912.	1913.
In the Common Gaols	826	921
In the Central Prison, Toronto	623	755
In the Reformatory for Females and Refuge for Girls, Toronto	77	90
In the Dominion Penitentiary, Kingston	502	496
	<u>2,028</u>	<u>2,262</u>

GAOL EXPENDITURES.

TABLE No. 1.

Showing the cost of maintaining the Common Gaols during the past thirty-five years, under the heading of rations, clothing, fuel, salaries and wages, and repairs.

Year.	Total number of prisoners in custody each year.	Cost of	Cost of salaries	Cost of	Total gaol expenditure.
		rations, clothing, fuel, etc., each year.	and wages of gaol officials each year.	repairs.

A summary is given below showing the days' stay respectively of those prisoners whose maintenance was chargeable to the Province and of those who were a charge on the Municipalities:—

	Days' stay.
7,465 Criminal prisoners remained in gaol	132,110
11,785 Municipal " " " "	181,161
<u>19,250 Prisoners in all " " " "</u>	<u>313,271</u>

STATISTICAL TABLES.

Following this portion of the report will be found the tables named in the list given hereunder:

Table No. 2, showing the total number of prisoners in the several gaols on the 30th September, 1913, and the nature of their imprisonment; also showing number of cells in each gaol.

Table No. 3, showing the number of prisoners over and under 16 years of age, the number of recommitals, the number of persons acquitted on being brought to trial, and the number of persons committed under civil processes.

Table No. 4, showing the offences for which prisoners were sentenced.

Table No. 5, showing the number of prisoners, male and female, sentenced under each offence during the year.

Table No. 6, showing the social status and habits of the prisoners committed during the year.

Table No. 7, showing the number of prisoners upon whom sentence was passed, the nature of the sentences, and the operation of the County Judges' Criminal Courts.

Table No. 8, showing how the prisoners committed during the year were maintained, the cost thereof, and the salaries of officials.

Table No. 9, showing the number of escapes and deaths, the revenue derived from prison labor, the cost of diet, accommodation of the gaols, and the highest and lowest number of prisoners in custody in each gaol during the year.

Table No. 10, showing the daily cost per prisoner in each of the gaols of the Province for the year ending 30th September, 1913.

Table No. 11, showing the number of prisoners, male and female, sentenced during the year ending 30th September, 1913, and a comparison of the same with the previous year.

TABLE No. 2.

Showing the total number of prisoners who were in the several gaols of the Province on the evening of the 30th September, 1913, and the nature of their imprisonment; also number of cells in each gaol.

Name of gaol.	Classification.				Nature of Imprisonment.					Total number of persons who remained in custody 30th September, 1911-1912.	Total number of cells.	
	Men.	Women.	Boys under 16 years.	Girls under 16 years.	Waiting trial.	Under sentence for periods of 2 months and under.	Under sentence for periods over 2 months.	In default of sureties to keep the peace.	Insane, idiotic or imbecile persons.			Otherwise detained.

Forty-Sixth Annual Report

OF THE

INSPECTOR OF

Prisons and Reformatories

OF THE

PROVINCE OF ONTARIO

BEING FOR TWELVE MONTHS ENDING 31st OCTOBER

1913

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO

TORONTO :

Printed and Published by L. K. CAMERON, Printer to the King's Most Excellent Majesty

1914

PARLIAMENT BUILDINGS, TORONTO, January 31st, 1914.

To His Honour SIR JOHN MORISON GIBSON, Knight Commander of the Most Distinguished Order of St. Michael and St. George, a Colonel in the Militia of Canada, etc., etc., etc.,

Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

I beg to submit herewith the Forty-sixth Annual Report upon the Prisons and Reformatories, being for the year ending 31st October, 1913.

I have the honour to be,

Your Honour's most obedient servant,

W. J. HANNA.

Provincial Secretary.

TORONTO, January 31st, 1914.

SIR,—

I have the honour to submit herewith, to be presented to His Honour the Lieutenant-Governor, the Forty-sixth Annual Report upon the Prisons and Reformatories of the Province of Ontario, being for the year ending 31st October, 1913.

I have the honour to be, Sir,

Your obedient servant,

EDWIN R. ROGERS,

Inspector.

THE HONOURABLE W. J. HANNA, M.P.P.,
Secretary of the Province of Ontario,
Toronto.

NOVEMBER 1ST, 1913.

MR. EDWIN R. ROGERS,

Inspector of Prisons,

Parliament House, Toronto.

SIR,—In submitting the Annual Report for the past official year, permit me to say that we are able to look back on a year of substantial progress. The work on the Reformatory Farm and buildings has progressed most satisfactorily. We have averaged more than 100 prisoners at Whitby engaged in construction work on the hospital for the insane, and with most gratifying results.

In the latter part of the official year, a brick yard was established on the Asylum Farm at Mimico, where an average of 50 men are working. An excellent quality of brick and tile is manufactured at Mimico to be used in the construction of the hospital for the insane and other provincial buildings.

I regret to note a great increase in the number of commitments, an increase exceeding the previous year by more than 300. While the Ontario Parole Commission has rendered a valuable aid, infinitely better work could be done if we had a better Parole Act, allowing the Commission more freedom of action.

During the past year the Prisoners' Aid Association, under the presidency of Mr. Hamilton Cassels, K.C., and the energetic efforts of Mr. Findlay Spencer, has rendered us service more valuable than my words can express. The Salvation Army are ever with us, and Major Fraser is a tower of strength in this work. Under the guidance of our revered Father Walsh, the Roman Catholic Church works diligently on behalf of its co-religionists. The Rev. Mr. Seaborn is unsparing of his time and personal effort in aiding those of the Anglican Church.

Permit me to express my cordial appreciation of the assistance and support given me during the year by the Honorable the Provincial Secretary, the Assistant Provincial Secretary, the Prisons Inspectors and the Central Prison Staffs at our different institutions.

I have the honor to be,

Sir,

Your obedient servant,

J. T. GILMOUR,

Superintendent.

The first table shows the committals and discharges during the past three years:

	1911.	1912.	1913.
In custody at commencement of year (November 1st).....	425	555	628
Committed during the year	907	1,029	1,348
	<u>1,332</u>	<u>1,584</u>	<u>1,976</u>
Discharged on expiration of sentence	617	766	982
Discharged on payment of fine	4	17	13
Discharged by remission of sentence	8	1	8
Transferred to common gaols as unfit for labor.....	2	2	5
Transferred to Superintendent Neglected Children	1
Died in prison hospital	3	1	2
Transferred to lunatic asylum	1	1	3
Ticket of leave	118	163	163
Escaped	21	5	22
Conviction quashed	2
Released on Order-in-Council	1
Released on bond	1
Released on habeas corpus	3
Transferred to Kingson Penitentiary	2
Transferred to Industrial Farm, Thornhill	16
Remaining in custody	<u>555</u>	<u>628</u>	<u>755</u>
Total discharges, deaths, etc.	1,332	1,584	1,976

The number of prisoners sentenced direct to the prison, and of those sentenced to the gaols and afterwards removed to the Central Prison, is shown in the following summary:—

	1911.	1912.	1913.
Sentenced direct	866	907	1,083
Transferred from common gaols	41	120	244
To Industrial Farm, Fort William	2
To Industrial Farm, Thornhill	21
Totals	<u>907</u>	<u>1,029</u>	<u>1,348</u>

	Committed during the year.	Total com- mitments.
Social Condition.		
Married	456	7,999
Single	892	19,562
	<u>1,348</u>	<u>27,561</u>
Habits.		
Temperate	289	6,693
Moderate	276	484
Intemperate	783	20,384
	<u>1,348</u>	<u>27,561</u>
Educational Status.		
Could read and write	1,222	22,610
Could read only	11	1,308
Could neither read nor write	115	3,643
	<u>1,348</u>	<u>27,561</u>

The prisoners received during the year, who were reported to be of temperate habits, represented 21.43 per cent. of the commitments; in 1912 the percentage was 24.43.

The total uneducated men represented 8.51 per cent. of the commitments of the year, with 12.01 per cent. in 1912.

The table annexed shows how the prisoners were employed, and the number of days' work which was performed by them at the different industries:—

	1912.	1913.
In the woodenware shop	7,400 days	7,795 days
In the tailoring shop	5,398 "	6,046 "
In the shoe shop	2,811 "	2,843 "
In the machine shop, including blacksmith, tinsmith and engineer's shop	17,327 "	17,505 "
In the woollen mills	11,166 "	12,491 "
Broom shop	1,880 "	1,363 "
Work on the garden, grounds and in the greenhouse.....	4,077 "	3,668 "
Number of days of productive labor	50,059 "	51,711 "
Number of days of domestic work	18,413 "	18,436 "
	68,472 "	70,147 "

7TH NOVEMBER, 1913.

MR. E. R. ROGERS,

Inspector of Prisons,

Parliament Bldgs., Toronto.

DEAR SIR,—I am pleased to report that during the year ending on October 31st, 1913, the Central Prison has been free from any epidemic. There has been a considerable increase in the number of dispensary patients, and, owing to our supplying the camps at Whitby and Mimico, probably an increase in the amount of necessities and expenditure in dispensary work.

The number of dispensary patients was 4,144, many of the complaints being trivial, including minor accidents, etc. There were 64 hospital patients during the year, with a total of 1,125 days, or an average of 22 days per patient, including convalescent periods.

The patients have clean, comfortable beds; good food, well cooked, amply supplied, and as good ventilation as our situation and surroundings permit.

We have had only two deaths—one from appendicitis and one from suicide.

The stock of medical and surgical supplies at present on hand amounts to \$790.70.

My duties have been made pleasant by the untiring kindness and co-operation of the Warden, whom I must cordially thank, and I wish to express my appreciation of the courtesy of every member of the staff.

Respectfully submitted,

JAMES ALGIE, M.D.,

Prison Surgeon.

REPORT OF THE BOARD OF MANAGERS OF THE PRISONERS' AID
ASSOCIATION, SEPT. 30th, 1913.

MR. EDWIN R. ROGERS,

Inspector of Prisons, etc.

SIR,—In submitting our thirty-ninth annual report we have reason for gratitude when we take a retrospective view of our work. While there are a number of defects still to be remedied in reference to the Parole Law and its application to offenders we are thankful that considerable progress has been made in Prison Reform within the last decade.

For several years we have been asking for the Probation Law, applicable especially for first offenders, and in some instances even second offenders. We firmly believe that many boys and even men of maturer years are made, by process of law, members of the so-called "criminal class" by the seductive and pernicious influence of enforced association with criminals.

The experienced penologist looks with pity upon a boy who is being registered for the first time as a prisoner, for he fully realizes that the youngster is receiving an inefaceable brand which time cannot obliterate. In many cases the boy is more sinned against by those who sent him, than sinning.

To remedy this condition is what we urge, and the adoption of the Probation Law, properly carried out in connection with police courts, would accomplish more good than several reformatories could, after the mischief is done.

Both the religious and educational work under our care at the Ontario Reformatory and Mercer Reformatory have received our attention and earnest endeavor, as in preceding years.

In the matter of providing temporal assistance we have made an advance over the preceding year. In securing employment for discharged prisoners we have made our highest record. As the population of the prisons increases, so our opportunities of work increase and our financial obligations grow proportionately.

We are gratified to know that the government is making it possible for men at the Ontario Reformatory and also at the Gaol Farm, to permit a portion of their earnings toward the support of their families. Here we would repeat what we have stated before, that in the case of married men, especially, the families in most every case are the real sufferers. When the bread-winners are locked up, the innocent, helpless dependent women and children are left to struggle or starve.

There is a marked increase in the number of paroles issued through the recommendation of the Parole Commission, and the restraining influence of a Ticket-of-Leave is a strong factor in developing self-control and honest pursuits.

We have to thank the officials of the various prisons for their hearty co-operation and assistance, which have been most helpful in the work.

On behalf of the Board.

FINLAY SPENCER.

Acting Secretary.

HAMILTON CASSELS, *President.*

REPORT OF THE ONTARIO REFORMATORY NIGHT SCHOOL FOR
YEAR ENDING SEPT. 30th, 1913.

MR. EDWIN R. ROGERS,

Inspector of Prisons, etc.

SIR,—The school has been conducted five nights a week, from 6.30 until 8 o'clock.

The attendance has been very regular. The interest in the work has been sustained and the results have been, with few exceptions, most satisfactory.

Quite an increase in the number of foreign-born scholars is noticeable in the classes. In 1912 they formed 18 per cent. of the school, while this year they totalled 42 per cent. However, in several respects they are the ones who profit most by the opportunity afforded them, inasmuch as the larger portion of them learn to speak and read our language, while others are improved in their effort to speak English.

The total number of men registered was 232, of whom 63 were wholly illiterate, while 18 others who could read and write but very little might well be classed among the illiterate ones. Those who could read, write and cipher some numbered 151.

Of the total number attending school 84 were boys ranging in age from 16 to 20 years. 108 were from 20 to 35 years old while the remaining 40 were over 35 years old.

The aggregate of the daily attendance was 10,367, while the aggregate number of school hours was 15,550.

Dr. J. T. Gilmour, superintendent of the Reformatory, and his officers have at all times given the most hearty co-operation in this department of our work.

I have the honor to be,

Sir,

Your obedient servant,

FINLAY SPENCER,

Teacher.

SUMMARY OF PRACTICAL WORK DONE BY THE PRISONERS' AID ASSOCIATION
FOR THE YEAR ENDING SEPTEMBER 30TH, 1913.

Number of discharged prisoners aided with meals, lodgings, employment, railway fares, etc.	1,669

Number assisted from Reformatory	23
Number assisted from the Department of Police.....	240
Number of others assisted	161
Total number assisted during the year	478

NOVEMBER 13th, 1913.

R. W. BRUCE SMITH, Esq.,
Parliament Buildings, City.

DEAR SIR,—I beg to submit herewith a report and summary of men's and women's prison work done by the Salvation Army in Ontario for the year ending September 30th, 1913.

We trust that these facts will be interesting to you, and could be added to the other reports in connection with your annual report to the Government of Ontario upon the prisoners of the province.

We are very anxious to continue our good work and to extend it as far as ever possible, we also desire to thank you sincerely for all your kindly interest and help which has made much of our work possible and very fruitful.

Believe me to remain,

Yours faithfully,

SAMUEL REES,
Lieut.-Colonel.

SALVATION ARMY PRISON WORK IN THE PROVINCE OF ONTARIO,
1912-13.

BY LIEUT.-COLONEL REES, MEN'S SOCIAL SECRETARY.

I am pleased to submit the annual report for year ending September 30th, 1913. It is only possible to give a brief sketch of the work done by the Salvation Army Officers during the year just concluded: however, it is with great pleasure and thanksgiving to God we make this brief survey.

Our Officers have toiled incessantly in order to make the lot of the man inside the prison brighter, as well as trying to influence him to a better life.

We have also striven to keep in touch with the wife and family on the outside, while the husband has been serving his time.

The work during the past year has been carried on successfully both at the Central Prison and the Guelph Prison Farm by the Officers specially selected and appointed to this work, spending their whole time in the interests of the men, interviewing, advising, meeting them on their discharge, assisting them with meals, beds, clothing, and securing for them employment.

The personal touch of human sympathy counts much, as well as the regular Gospel meetings, in the reforming of these men. At Whitby the work has been maintained during the year, men have been interviewed, advised and assisted when discharged and two meetings have been held each Sunday, these the men enjoy very much.

The men at the Mimico Brick Yard also came in for a share of the services of our officers, a meeting every Sunday afternoon being conducted for their benefit; the men also who desire our help when discharged are readily assisted.

The Don Gaol and Industrial Farm are visited regularly and the men assisted as far as possible.

At Kingston Penitentiary our resident officer is nobly carrying on the work, interviewing, advising and meeting men on their discharge and if in need they are helped, also when leaving town they are seen off on the train with a word of advice and encouraged to make good in the future.

Our Officers visit the Police Court at the following places: Toronto (men's and women's Courts) Hamilton and Brantford. Numbers of men and women are handed over to us by the Magistrates and we take care of them, work being provided for them either in our own Industrial Departments or with outside firms.

Our aim is to make provision for every man until he is in a position to support himself, thereby doing away with the necessity of his returning to bad associations and surroundings.

In conclusion I would like to say that much of the success we have attained has come through the continued kindness and co-operation of the Prison and Police Court Officials, they are always ready to give us their valuable assistance without which the same amount of success could certainly not have been attained.

The accompanying figures will give some idea of the work done during the year.

SUMMARY OF PRISON AND POLICE COURT WORK DONE BY THE SALVATION ARMY IN ONTARIO FOR MEN.

FROM OCTOBER 1ST, 1912, TO SEPTEMBER 30TH, 1913.

Number of interviews with prisoners	25,785

ANDREW MERCER ONTARIO REFORMATORY FOR FEMALES AND
REFUGE FOR GIRLS, TORONTO.

EDWIN R. ROGERS, ESQ.,

Inspector.

DECEMBER 18TH, 1913.

SIR,—I have the honor to submit the Annual Report of the Andrew Mercer Ontario Reformatory for the year ending October 31st, 1913.

If advantage is taken of the new legislation permitting the sentencing to the Reformatory for an indefinite period not exceeding two years of "any female (who) is convicted of an offence against the laws of Canada punishable by imprisonment in the common gaol for a term of two months or for any longer term," then will soon be eliminated from the Annual Reports the record of women serving terms for the seventh, eighth—yes and for the nineteenth term.

Additional cell accommodation is needed if our separation of first offenders from others confined here is to be maintained; also if we are to continue to keep by themselves the class committed for keeping houses of ill-fame.

The grounds of the Reformatory are now completely surrounded by tall factory buildings while railway sidings are on three sides: a shunting yard to the north makes night hideous with the discordant shrieks and labored efforts of engines and trains. Toronto's prosperous growth must surely soon drive us into the country, where the aids to good living of varied work in the open, and freedom from city distractions, will encourage to still greater effort.

The night school is of great benefit to the many illiterate received at this institution, and great is the satisfaction of those attending in attaining there such instruction as will enable them to read and write: the teacher is provided by the Prisoners' Aid Association giving one hour five nights in the week. It is to be hoped that the benefit of a school of letters will be extended to all in the institution desirous of learning in the near future.

Gratifying letters are now received from all parts of Canada telling of the success many of our girls are attaining: it is not an easy life that a young woman faces when she leaves here, and all praise is due those who help her in her arduous efforts.

Many interested friends have given their services to the uplifting of those confined in this institution. Representatives of the different denominations have visited weekly, and the Prisoners' Aid Association and the Salvation Army continue their deep interest in the welfare of the inmates of the Reformatory. All these aids in the work are gratefully acknowledged.

I have the honour to remain,

Your obedient servant,

EMMA O'SULLIVAN,

Superintendent.

TWENTY-FIRST REPORT
OF
SUPERINTENDENT
Neglected and Dependent Children
of Ontario

PRINTED BY ORDER OF THE LEGISLATIVE ASSEMBLY

TORONTO:
Printed and Published by L. K. CAMERON, Printer to the King's Most Excellent Majesty

1914

Printed by
WILLIAM BRIGGS
29-37 Richmond Street West
TORONTO

To the Honorable SIR JOHN MORISON GIBSON, K.C., LL.D..

Lieutenant-Governor of Ontario.

MAY IT PLEASE YOUR HONOR:

The undersigned has the honor to transmit herewith the Twenty-first Annual Report of the Department of Neglected and Dependent Children of Ontario for the year ending December 31st, 1913.

Respectfully submitted.

W. J. HANNA,

Provincial Secretary.

PARLIAMENT BUILDINGS.

TORONTO, April 28th, 1914.

OFFICE OF THE
SUPERINTENDENT OF NEGLECTED AND DEPENDENT CHILDREN OF ONTARIO.

The Honourable W. J. HANNA,
Provincial Secretary.

SIR,—I beg to submit herewith the Twenty-first Annual Report of the work of this office, under the Children's Protection Act of Ontario, being for the year ending December 31st, 1913; also Reports on the Industrial Schools for the Province, and Juvenile Immigration.

I have the honour to be,

Sir,

Your obedient servant,

J. J. KELSO,
Superintendent.

PARLIAMENTS BUILDINGS.

TORONTO, April 26th, 1914.

TWENTY-FIRST ANNUAL REPORT.

TORONTO, April 3rd, 1914.

JUST twenty-one years ago this month the Children's Protection Act of Ontario was passed by the Ontario Legislature and to say that good results have followed would be altogether too mild a term. Thousands of neglected boys and girls have been helped through its instrumentality, and have attested by their useful and honourable lives that they have not been helped in vain. It has meant untold benefit to the Province in constructive social reform, lifting all Childhood to a nobler plane, and emphasizing as never before the sanctity of the home and home relationships. And yet through all these years it has been necessary, and is still necessary, to maintain an enthusiastic educational propaganda. Even with all that has been accomplished it is still imperative that the thinking and commercial world should be persuaded that there is such a problem as The Neglected Child, and that in its solution and eradication there remains a great work to be done. In the minds of many public men this is one of the least important of all the subjects that claim their attention. But a saner way of looking at things is coming as is evidenced in the wide-spread interest now taken in Social-welfare.

In the past twenty-one years it would be a conservative estimate to say that one hundred thousand children have been directly benefitted by the operations of the Children's Aid Societies, while the number legally made wards and provided with foster-homes is in the neighborhood of fifteen thousand.

CHILDREN MADE WARDS

DURING the past year 823 Protestant and 194 Roman Catholic children—a total of 1,017—were made wards and entered upon the records of this office. Of this number 780 Protestant and 192 Roman Catholics were committed to the societies and 45 to the Provincial Superintendent.

WHERE THEY CAME FROM.

Algoma	6	Norfolk	31
Brant	19	Ontario	10
Bruce	7	Oxford	25
Carleton	32	Peel	15

HOW CHILDREN WERE DEALT WITH.

The following table shows how Protestant children made wards in 1913 were dealt

Placed in foster homes	471	In Asylum	1
On probation with parents	133	In Deaf and Dumb Institute	1
On probation with other relatives...	67	In Hospitals	5
In Victoria Industrial School.....	12	Deceased	19
In Alexandra Industrial School	4	In Shelters at end of year	109
In Rescue Home	1		

VISITING OF CHILDREN.

Of the 3,687 names sent out on visiting lists, 3,471 were reported upon.

The foster parents of 328 children outside of the province were heard from and satisfactory reports of child's progress received. Other children adopted when quite young have, by special arrangement, been exempt from special visiting.

SCHOOL OVER.

APPLICATIONS FOR CHILDREN.

During the year 1913 some 262 applications were received; of this number 103 were for boys and 159 for girls. 34 were for boys and girls under 6 years of age; 64 were for boys and girls between 6 and 12 years of age; 164 were for boys and girls between 12 and 16 years of age.

SHELTER RECORD.

From January 1, 1913, to October 31, 1913, 67 children passed through—44 were girls and 23 boys. They were disposed of as follows:

Returned to parents	15	Sent to relatives in Scotland	1
Placed in foster homes.....	27	Placed in Haven	1
Placed in Alexandra Industrial School	7	Placed in Orthopaedic Hospital.....	1
Placed in Victoria Industrial School.	1		—
Placed with relatives.....	1	Total	67
Transferred to other Shelters.....	13		

Baby goes a-driving.

REPORT ON CATHOLIC CHILDREN.

During the year 194 children were made wards of Children's Aid Societies in Ontario. Of these 143 were placed in foster homes. The societies placing the children were: Ottawa, 13; St. Vincent de Paul, Toronto, 15; St. John's Industrial School, 30; Provincial Office, 2; Brockville, 2; Sudbury, 1; Sault Ste. Marie, 2; Berlin, 4; Peterborough Orphanage, 5; Belleville, 4; Temiskaming, 2; Thunder Bay, 8; The Haven, 1; St. Mary of the Lake Orphanage, 5; St. Vincent's Infants' Home, 5; Stratford, 1; Fort William, 1; Mount St. Joseph Orphanage, 4; London, 2; Hamilton, 7; St. Mary's Industrial School, 4; Kingston, 3; Kenora, 2; Pembroke, 2; Owen Sound, 1; Sacred Heart Orphanage, Toronto, 7; Renfrew, 3; Huron, 1; St. Mary's Orphanage, Hamilton, 6.

The replacements numbered 74, made up as follows: Berlin, 3; St. John's Industrial School, 19; Sacred Heart Orphanage, 4; Provincial Office, 7; St. Vincent de Paul, 4; St. Mary's Orphanage, 2; Hamilton, 2; Ottawa, 9; Sault Ste. Marie, 9; North Bay, 3; Renfrew, 2; and St. Catharines, Chatham, London, Fort William, Peterborough, Sudbury, St. Mary's Industrial School, Sarnia, Brockville, and Thunder Bay, one each.

The number made wards of Children's Aid Societies and returned to their parents on probation were: St. Vincent de Paul, 15; North Bay, 6; Guelph, 2; Ottawa, 2; Berlin, 3; Temiskaming, 2; St. Thomas, 1; London, 1. The number returned to parents last year who had spent some time in foster homes was 28; returned from foster homes, 42; removed from foster homes, 10; ran away, 36 (17 of these were placed from St. John's Industrial School); left foster homes, 12.

The parentage of the children again demonstrates that few of those dealt with by Children's Aid Societies are orphans in the true sense of the word. Only 9 had neither parent living, 10 were illegitimate, and no information given about 17. Both parents of 68 children were living; 22 had a father living and 16 had a mother living. That is, forty-eight per cent. of the children dealt with had both parents living; twenty-seven per cent. had one parent living; six per cent. had no parents living and seven per cent. were illegitimate. The suggestion, according to these figures, is that children whose parents are dead are less liable to neglect than those whose parents are living. The ages of the children were: Under 2 years, 20; 2 to 8 years, 32; 8 to 12 years, 39; 12 to 16 years, 45; over 16 years, 7.

The number of Roman Catholic children under supervision at the end of 1912 was 943. There were 143 new placements, 130 were released from supervision, 4 were married and 12 died. Leaving under supervision, December, 1913, 940. The number of deaths reported is abnormal. The reason is that five of the twelve deaths reported last year occurred in previous years and were not reported at the time they occurred. The number discharged from supervision is also large, because the lists were gone through carefully and, in addition to those who were eligible for discharge in the ordinary way, it was found that a number had not been heard from for a few years, and these were taken off the roll.

The total number of Roman Catholic children on the roll at present, exclusive of those who have been discharged from supervision, is 1,090. It is an interesting enquiry to try to learn where these children are located; 459 are at foster homes in the country; 301 are at foster homes in cities and towns; 180 are with their parents and 151 are at institutions. It is also interesting to learn in what parts of the province these children are placed. In Perth County 32 are placed in the country, 6 in towns, 2 with their parents and none in institutions. Huron County, 20 in the country, none in towns, with their parents, nor in institutions. Grey County, 30 in the country, 5 in towns, none with parents nor in institutions. Simcoe County, 24 in the country, 9 in towns, 8 with parents and none at institutions. Renfrew County, 42 in the country, 6 in towns, none with parents and 5 at institutions. Peterborough County, 37 in the country, 5 in towns, none with parents and 3 at institutions. Victoria County, 13 in the country, 1 in town, none with parents and 1 at an institution. Northumberland County, 16 in the country, none in towns, with parents nor at institutions. Nipissing District, 8 in the country, 11 in towns, 34 with their parents and none at institutions. Middlesex County, 9 in the

country, 17 in towns, 2 with parents and 13 at institutions. Wellington County, 17 in the country, 14 in towns, 4 with parents and 1 at an institution. Algoma, 4 in the country, 9 in towns, 7 with parents and 1 at an institution. Carleton County, 14 in the country, 23 in towns, 22 with parents and 9 at institutions. Quebec, 30 in the country, 26 in the towns, 6 with parents and 4 at institutions. York County, 11 in the country, 2 in towns, 7 with parents and 2 at institutions. Toronto City, 76 in foster homes, 44 with their parents and 77 at institutions.

It would tend towards the general improvement of the condition of children in foster homes in Ontario if the orphanages would take more liberal advantage of section 11 of the Children's Protection Act, which is as follows: "The superintendent of any Infants' or Children's Home, or other public institution, having the custody of children, may bring before the judge any child whom there is cause to believe has been neglected or deserted by its parents and the judge may make an order committing the child to the care of the Children's Aid Society, under the provisions of this Act." At the present time children are placed in foster homes from institutions under the authority of the "Apprentices and Minors Act," but not many of the institutions are properly equipped to supervise these children after they are placed in foster homes and in some cases the education of the younger children is seriously neglected. Also, instances have come under observation where foster parents have been notified by an institution to return a child and this notification has been evaded and the neglect of the child allowed to continue. A decided advantage that would accrue to the institution if the course above suggested were followed, would be that the institution would be relieved of the responsibility of defending the placing of the children against parents or other relatives who are quite willing that their children be maintained by public charity, so long as they can be visited frequently and reclaimed when old enough to contribute by their earnings to the family purse, but protest vigorously when these children are placed in homes where their prospects for honesty, decency and good citizenship are much better than they would be if left to their careless pauperized relatives. In the administration of the Children's Protection Act it is impressed upon Children's Aid Societies that children should not be lightly taken from their parents; that, ordinarily, a child's own home is the best place to rear that child, and similarly the institutions should not place in foster homes children who have been committed to their care because of temporary difficulties, such as loss of work, etc., in which parents are involved. Neither should the institutions be receptacles for the children of lazy, shiftless parents, who transfer to public charity the natural burden of their children's maintenance.

CHILDREN'S AID SOCIETIES

A REVIEW OF THE WORK CARRIED ON DURING THE YEAR

FACTS CONCERNING THE WORK.

The appropriation for Children's Aid work is \$10,000 for inside and \$20,000 for outside service. All thirty-eight counties are now organized and are doing more or less efficient work. Some counties have no paid inspector, and in consequence their work is unsatisfactory. There are societies also in twenty-four separated towns and cities. There are branch societies in nine judicial districts. Contribution is made through this office towards the salaries of 28 agents, the highest amount being \$480 per annum and the lowest \$25. Travelling expenses of visits to wards are paid by the Neglected Children's Branch. During 1913, 1,017 children were legally committed to the guardianship of the Children's Aid Societies. A file and record of each one is kept in the central office in the Parliament Buildings. Each child is visited at least once a year and suitable action taken to prevent neglect or ill-treatment. Societies are supplied with literature of general interest. All necessary forms used in the work are supplied by the central office.

ALGOMA DISTRICT AND SAULT STE. MARIE.

Board of Management, 1913-14: President, T. E. Simpson; First Vice-President, J. Bassingthwaight; Second Vice-President, M. A. Sheridan; Third Vice-President, Mrs. J. Pollard; Secretary and Inspector, J. P. Reed; Treasurer, R. G. Campbell; Treasurer Campaign Fund, Wm. Calder; Honorary Solicitor, P. T. Rowland Honorary Physician, A. A. Shepard, M.D.

The adjourned annual general meeting of the Sault Ste. Marie and Algoma Children's Aid Society was held in the Council Chamber on Tuesday, October 21st, at 4.15 p.m. The chair was occupied by Mrs. J. O'Boyle, and Mr. J. P. Reed acted as secretary.

INSPECTOR'S REPORT.

The great event of the year was the financial campaign to raise sufficient funds to remodel and enlarge the Shelter Building. Owing to the money stringency the matter was postponed from early in 1913 to see if a more convenient season would come. Finally the dates of June 17-19 were set, and, although more money was really needed, it was decided to ask the citizens of Sault Ste. Marie, Steelton and the Algoma district to contribute \$15,000 in three days. None of the campaign executive was any too sanguine of success, but with Mr. A. M. Peters as chairman and ably supported by Mayor Simpson, Mayor Lyons and many of the leading business and professional men of the two towns and the welfare of neglected and dependent children appealing to the sympathies and especially the noted generosity of the people of Northern Ontario, success was bound to crown the effort and a little over \$17,000 was received in cash and pledges. The work required careful planning and the campaign executive met quite frequently to arrange details.

On Sunday, June 15th, Mr. J. J. Kelso, Provincial Superintendent for Neglected and Dependent Children for Ontario, and Mr. William O'Connor, Inspector of Roman Catholic wards of the Society, addressed the congregations of Central Methodists, St.

Andrew's Presbyterians, Steelton Methodist and Sacred Heart Churches. The work of rebuilding has been rapidly pushed ahead and it is hoped that the building will be completed about Nov. 15. When finished the property will easily be worth \$25,000; the building will be practically new and there will be accommodation for upwards of 50 children. So far owing to lack of room many children have not been removed from evil surroundings, but it is expected that from now on all can be accommodated and large numbers of boys and girls will have reason to feel extremely thankful for the work of the Children's Aid Society in the Algoma district.

Summary for the year's work: Number of calls in interest of children, 435; personal interviews, 1,735; letters received, 421; letters sent, 469; complaints, 34; investigations, 29; applications for children, 28; court cases, 19 committals, 24; children placed, 16; children retaken, 4; public addresses, 17; children cared for in Shelter, 76; sent to St. John's Industrial School, 1; sent to Victoria Industrial School, Mimico, 1.

Treasurer's Report

The Treasurer's statement showed:

Total receipts (including campaign fund)	\$15,752 43
Total expenditures	15,596 36
	<hr/>
On hand	\$156 07

BRANT COUNTY AND BRANTFORD.

Officers for 1913-14: President, Jos. Ruddy; Vice-Presidents, Glad Whittaker, Richard Sanderson; Corresponding Secretary, J. Leslie Axford; Recording Secretary, Miss S. Brown; Treasurer, C. Cook; Honorary Solicitors, Harley & Sweet.

The 20th annual meeting of the Brantford Children's Aid Society was held at the S. M. Thomson Home, corner of Chatham and George Streets, Nov. 18, 1913. The secretary and agent, Mr. J. L. Axford, gave statistics showing that 97 applications for children were received, 129 complaints of neglect, involving 210 children, were investigated, 975 visits made, 192 visits to wards and 20 children made wards of the society. During the year 115 children were admitted to the Shelter. You will, no doubt, have noticed in the foregoing statistics that a much larger work has been accomplished, which would not have been possible had we not had this Shelter, and again we are grateful to Mrs. Peter Wood for making this possible for us. The work has been well supported, both in the city and the county, by contributions of food and clothing and many have opened up their hearts and their homes to receive a boy or a girl to cheer and to brighten both the child and the home.

I am also pleased to report the marriage of four of our girls, who now have homes of their own and are happy and prosperous. One other ran away from our care and she is now in the Mercer Reformatory. Some outings for the larger girls of the society were arranged during the summer, enjoyable times spent under the guidance of Miss Whitney and Miss Taber.

Of the 115 children at the Shelter we had all ages ranging from an infant to a mother and her children, and were able to assist some of these mothers to situations where they could care for their own child. This required the greatest patience and endurance and great credit is due Mrs. Craig, our former matron, and Miss Craigie, our present matron, for their untiring efforts under trying conditions, but they have never failed us when called upon. Also to Miss Brown belongs a goodly portion of our thanks, and that is the only pay she receives. She has at all hours labored diligently and exercised the strictest economy in her expenditures. Above all we are thankful to our Heavenly Father for His mercies and blessings.

SUMMARY OF TREASURER'S REPORT.

<i>Receipts.</i>		<i>Expenditures.</i>	
Brantford City Council	\$750 00	Deficit 1912	\$151 33
County of Brant (two years) ..	200 00	Interest	379 13

Township of Brantford	25 00	Miscellaneous	319 47
Building Fund	50 00	Mrs. York's Home	10 00
Other receipts	966 48	Travelling expenses	111 06
Deficit	138 30		
	\$2,179 78		\$2,179 78

COUNTY OF BRUCE SOCIETY.

Officers: President, J. Morgan, M.A.; Vice-President, Col. J. H. Scott, K.C.; Treasurer K. M. Taylor; Secretary and Agent, Rev. D. McLennan.

The report of the secretary for 1913 is as follows: Received 84 letters, mailed 184 letters and 120 postcards, placed 7 wards in homes, accompanied two wards to Mimico, one to Orillia, travelled 850 miles, made 32 visits, held 12 interviews; spent in all \$100.

PORT ELGIN BRANCH.

The annual meeting of the above branch of the Bruce County C.A.S. was held on November 28, 1913

The new officers are: President, E. Roy Sayles; Vice-President, J. J. Bushy; Secretary-Treasurer, C. E. Schwartz; Board of Management, the officers and Mesdames Wismer, Howe, McCallum and Chapman.

SOUTHAMPTON BRANCH.

Mr. McLennan, County Agent, reports that on the 26th February the above branch met and appointed their officers. Rev. I. Ferguson, retired Methodist minister, was chosen for President, and William Manley for Secretary-Treasurer.

A Championship Race.

CARLETON COUNTY AND OTTAWA.

Officers: Patron and Patroness, Their Royal Highnesses, the Duke and Duchess of Connaught; President, Mr. W. L. Scott Treasurer, Mr. P. B. Taylor; Secretary, Mr. John Keane; Probation Officers, Mde. J. Bruchesi, Miss M. Cassaday; Visitor, Mr. J. A. Raymond.

The annual general meeting took place on October 6th, 1913. Mr. W. O'Connor of Toronto addressed the meeting, and the various officers gave their reports.

TWENTIETH ANNUAL REPORT OF THE CHILDREN'S AID SOCIETY OF OTTAWA FOR THE YEAR 1912-13.

The secretary said: It is now nearly 20 years since the first meeting for the formation of a Children's Aid Society was held in this room. At that time it could scarcely be supposed that the work would grow and develop into the proportions that we find it has assumed to-day. Since that time over 950 children and young persons have been directly committed to our care, besides a large number of others who have come under supervision but not directly made wards.

Including transfers by parents and guardians during last year there were no less than 69 added to our number. Transferred by parents or guardians 36, and 33 by judicial order. Replaced with parents during the good behaviour of the latter numbered 27. Placed in foster homes during the year 39, including of course some who had been
2 N.C.

our wards previous to the close of last year, but who, owing to changes had been returned or withdrawn, 36 were replaced in new foster homes. Situations were found for 9 of the older wards and 8 were sent to Industrial Schools, a much larger number than has been for some years. At least half of these were mentally defective.

We had for a long time been seeking to find a man who would combine the position of inspector and visitor to our children that are placed in foster homes or with their parents. It was difficult to find one who had the necessary qualifications and interest in the work itself, but after various attempts we at last succeeded in getting Mr. J. A. Reymond, who has undertaken to do work for us along the lines indicated. He has been more or less busy since the middle of May and we have to record satisfaction in his activity, intelligence and zeal in the task assigned him.

During the year 17 of our wards were married, nearly all of whom proudly reported the fact to the secretary, knowing the interest and pleasure it would give to us all when such an event was announced. During the year play-grounds for the children have been successfully launched, giving free scope to the development of body and mind, becoming, as we hope, an established institution. Free skating rinks are now also seriously proposed.

Marbles.

Miss Cassaday read her report, showing that in her division of the probation work 93 children had been dealt with. A few had to be sent to the Industrial School, two of which were feeble-minded, but there was no other place for them.

Madame Bruchesi reported that the Juvenile Court had dealt with 147 cases of Roman Catholic children.

Since May, Mr. Reymond has visited 71 wards and investigated 60 cases, in addition to looking after other children.

In his address Mr. Scott, the president, touched upon many problems confronting the society—the problem of the defective child, the systematic examination of all children dealt with in the Juvenile Court, etc.

COUNTY OF DUFFERIN (ORANGEVILLE) SOCIETY

Officers: Hon. President, His Honor Judge Fisher; President, C. R. McKeown, Esq., M.P.P.; First Vice-President, R. A. Ricky, Esq., Shelburne; Second Vice-President, J. Watson, Esq., Grand Valley; Third Vice-President, Rev. Father Egan, Orangeville; Hon. Secretary, Rev. Geo. W. Tebbs, Orangeville; Hon. Treasurer, D. McCallum, Esq., Orangeville; Hon. Physicians, Drs. R. N. Kyles and Carson, Orangeville; Hon. Solicitors, Crown Attorney J. L. McKay, Mayor J. L. Island; Agent, High Constable Marshall; Auditors, Messrs. Elma Still and John E. Smith; Trustees, His Honor Judge Fisher, J. L. Island, Esq., Mayor, C. R. McKeown, Esq., M.P.P. .

This branch of the Children's Aid Society for the County of Dufferin was organized on November 4th, 1914. Three meetings have been held since the organization, and it is hoped soon to have branches opened in Shelburne and Grand Valley. No cases needing attention have yet been brought before the society. Applications for grants in aid will be made to the local and county councils.

ELGIN COUNTY AND ST. THOMAS.

Officers: President, Dr. C. W. Marlatt; Vice-Presidents, F. B. Holtby, Dr. A. Leitch, A. M. Hutchinson, G. H. Crocker, Thos. Groves; Secretary, W. J. Shaw; Treasurer, H. S. Gregg.

The annual meeting of the Children's Aid Society on Oct. 28, 1913, had the largest attendance in the history of the organization. The officers were elected as above.

William O'Connor, inspector from Superintendent Kelso's office, Toronto, who looked after the children of the Roman Catholic faith, spoke on the conditions and difficulties incident to the work, but he had never yet had a case of real cruelty to children by their foster parents and every child in foster homes had been benefited by the change.

SECRETARY SHAW'S REPORT.

The report of Secretary W. J. Shaw was very complete and was listened to with great interest by the members.

Two of the worst cases of cruelty with which we had to deal were those of Lily and Hazel, both from London, Ontario. Lily, a girl twelve years of age, was apprehended at Port Stanley and brought to the shelter as she was found wandering about. She said she had walked from London to Port Stanley. She had been in charge of her aunt since earliest infancy. That aunt had whipped her so that she was marked from head to foot. I had never before seen such evidence of cruelty. The London authorities entered a complaint against the aunt and she was sentenced to imprisonment and to pay a fine.

The child Hazel is eight years old. She is a pretty child and exceptionally bright. This child was placed on exhibition at Aylmer Reunion on August 4th, among snakes as a freak of Nature, captured in the wilds of Abyssinia. It was the most degrading exhibition that has ever come to my notice and a sad feature of the affair was that the show was conducted by her father and his brother-in-law. The show was closed and the two men were tried and convicted under section 18 of the Children's Protection Act and were fined \$60 each.

SHELTER STATISTICS.

County children in shelter at beginning of year (Oct. 15th, 1912), 5; county children received during year, 13; city children received during year, 16; other society's children received during year, 3. Total, 37.

OTHER STATISTICS

Complaints of cruelty or neglect in Elgin County investigated, 7; number of children involved, 27; complaints of cruelty or neglect in city, 3; number of children involved, 5; charges against children in police court investigated, 13.

For Mr. J. J. Kelso, Superintendent of Neglected Children of Ontario, I visited the children who have been placed by the various Children's Aid Societies in foster homes in Elgin County. It is very gratifying to be able to report that of the eighty children visited, all were well placed and making good progress, except three of one family who had been given back to their own erring mother. As children are placed out by the society after a careful enquiry, there is very little likelihood of complaint on account of the treatment they receive from foster parents. Indeed the greatest pleasure in making these visits is in witnessing the tender attachment shown by the majority of the children towards their foster parents, and the loving care bestowed upon the children. The children are not the only persons benefitted in such cases for they brighten the homes into which they go.

Inspector Hackney, Windsor.

WINDSOR, WALKERVILLE AND ESSEX COUNTY.

Officers: Hon. President, Mr. Linsell; President, Mr. A. McNee; Treasurer, W. C. Kennedy; Secretary, F. M. Allworth.

In his opening address the President, Mr. McNee, referred to the generosity of the municipalities and showed that this had enabled the society to purchase a shelter, as well as having a probation officer giving all his time to the work. This organization has all come about in the short space of eleven months and Windsor Society to-day is a remarkable tribute to the efforts of the officers.

Mr. W. F. Hackney, probation officer, read his report, showing that much good work has been accomplished.

During the past year, or rather since the reorganization of this society, the latter part of January, 1913, to December 31, 1913, we have been called upon to investigate 160 complaints of neglect and other wrongs against children, affecting the welfare of 410 children. In connection with these, 1,467 visits of warning and general supervision have been made. It has been found necessary, where warnings have failed, to institute prosecutions in 10 cases; 54 attendances have been made at the police court in the interests of children and 19 have been made wards of the society, whilst 37 have been successfully placed in good foster homes in the county. Out of the large number of cases dealt with, it was only found necessary to commit 4 children to the industrial school for delinquency; 9 others have been placed on probation by the magistrate. We have also dealt with 9 runaway girls and 8 runaway boys, who have been brought back and restored to their parents or have been otherwise placed. Seven children have also been cared for at the Shelter, which was opened in October, 1913. Prior to taking up my duties here on February 1st, there were already over 30 wards placed in the county and to these I have paid 140 visits and reported such to the provincial superintendent at Toronto.

SUMMARY OF FINANCIAL STATEMENT.

Children's Shelter, Windsor.

AN ADDRESS TO SOCIAL WORKERS AT WINDSOR.

While in Windsor to formally open the Children's Shelter on March 23rd Mr. Kelso delivered the following address at an evening meeting of social workers:—

Mr. Chairman and Friends,—I fully appreciate this opportunity of meeting the Social Workers of Windsor, and of discussing the problems of social service and charity in which we are all interested.

The longer I remain in your city the more do I feel encouraged to remain, for in the past two days I have met many of your citizens who are interested in philanthropy and who have given some thought to the social welfare of the community.

This assembly reminds one of a happy family gathering, and it is even better than that for it is a gathering of those who are engaged either directly or indirectly in the unselfish work of improving the social conditions of the district.

Windsor is rapidly becoming an important city with population flowing in from all directions, and as a city grows new problems spring up for solution. Your Council is engaged in planning for new drains, new pavements, extensions of the water-works, gas, electric light plant, etc., providing for material needs. Now I have been wondering, as I went about, who is thinking of the social needs of your people? The answer, I think, is in your attendance this evening on the invitation of Dr. Carney, and your response speaks well for the future.

In my opinion the social needs of the community should receive first consideration. We are not here simply to make a living, to spend all our days in work. We are here to enjoy life, and I believe that the Lord intended that everyone should lead a well-rounded life, with time for recreation and mental and spiritual development. He has placed on this earth everything that is necessary for our well-being and comfort, and it should be the aim of the fortunate to see that the less fortunate get a share of these good things.

As a people we should be socially organized to carry on this welfare work, which means so much to those who are struggling in the lower ranks of life—the working classes.

Our governments are bringing people, in great numbers, to this country, but there is no one whose business it is to see that there are proper houses for new arrivals to live in. This is a very serious problem to Canada, for the reason that it leads to over-crowding with all its attendant evils and those who should be as added strength may actually become a menace, for in my own department of labor it has been clearly demonstrated that many of the evils of child neglect and depravity have their origin in this congestion of population due to the shortage of individual homes. When forced into slums and tenements adults, both male and female, resort to drink, girls go astray, boys get into evil companionship, and even mothers lose their maternal instincts owing to the vile associations and misery of their surroundings.

Every family should have a house of its own with abundance of room, fresh air, and sunlight, so that, as a family, they can live their own natural life, have their own amusements, enjoy themselves thoroughly, and instruct and train their children, and guard them from the dangers of street life. Housing accommodation is one of our greatest needs as a growing nation, and calls for the earnest consideration and co-operation of our best citizens.

Another necessity, especially in the cities, is that of free recreation grounds for our young people. Amusements are becoming commercialized, entertainment houses of a doubtful character are springing up all over the country. To counteract this, instead of the school houses and churches being closed most of the time we ought to be using them for social and recreation purposes. That fine drill hall across the way should be occupied every evening by boys and young men who need amusement and relaxation after the day's labors. Young people need change of scene, exercise, companionship, opportunity for self-expression, and will be sure to get them in some form, somewhere, somehow. It is surely our business to see that their natural cravings are met and supplied in a wholesome and uplifting way.

In cities, where children are always numerous, there should be a small playground on every residential street. What comfort it would be to poor mothers, burdened with household duties, were they sure that, within a block or two, there was a clean, respectable playground in charge of a good woman where her children would be safe and in good company!

Windsor has one of the finest rivers in the world flowing past its doors, and yet I am given to understand that no provision has been made for a proper bathing and swimming place. This is something that should be taken up by public-spirited citizens, for there should be a well-equipped bathing-place where boys and girls could learn to swim under an instructor appointed for that purpose.

Turning to the matter in which Dr. Carney is so greatly interested—the proper distribution of charitable aid—I would first say that I dislike intensely the idea of doling out charity to the poor, believing, as I do, that no charity should be

needed in a socially adjusted community. What the unfortunate need more than anything else is true friendship, good advice, encouragement and guidance. When you go to those in distress with money in your hand you become The Lady Bountiful and he the poor dependant.

Very few self-respecting individuals desire mere charity or alms. What they want is opportunity, recognition, goodwill. Those who look for charity and accept it unblushingly have already lost their self-respect and have sunken to the lowest depths of degradation. They suffer from a disease, a blight, and what they probably need most is to be lifted up; to be given a new vision of manhood. They may require judicious starving, be made to suffer a little, and to realize that "if they will not work neither shall they eat."

My experience among the poor is that their greatest need is to have someone come to them on an equal footing—not with patronizing airs, but to encourage them, in a true brotherly spirit, to point out ways in which they can help themselves. Often a poor family only needs to be assisted to move to a better neighborhood, or to be introduced to people who will afford them the example which they are in need of. We should help them to plan their lives rather than give them money, which too often does more harm than good. A genuine friend can give the encouragement and assistance that, without the outlay of one cent, will put that family on its feet. To help a timid father or member of the family to find employment at higher wages may be all that is necessary to make the home independent of charitable relief.

For these, and various other reasons, there should be an organized Charity Society well supported and established on a business basis. Its aim should be to carefully study social needs and to unite all social workers in a common cause. We should see that deserving families are sifted out from the unworthy ones; that the latter are compelled to work and society should have suitable work ready for them; that the sick are properly cared for and made well as rapidly as possible; that those in trouble are aided with intelligence and discretion; and to all those submerged the message should be borne, we desire to lift you up, to put you where conditions are better, to relieve you of the disabilities under which you suffer, to give you a fresh start with the understanding that you will be expected to strive honestly to keep up, and no longer require charitable relief.

I have no doubt that here, as in other places, there is room for such an organization, studying the whole situation, the labor market, the housing problem, the home environment, recreation, etc., and that will seek to effect the co-operation of those bodies that are already occupying some portion of the field of social service.

FRONTENAC AND KINGSTON SOCIETIES.

Officers: Hon. President, Mr. W. F. Nickle, K.C., M.P.; President, Rev. Douglas Laing; Vice-Presidents, Rev. Dr. Macgillivray, Rev. Dean Starr, Rev. A. J. Hanley; Secretary, Rev. John Fairlie; Treasurer, Mr. Geo. E. Hague, Merchant's Bank; Inspector, Rev. A. E. Smart.

The annual meeting of the Children's Aid Society was held in the Police Court room on Wednesday, Nov. 5, 1913, at 4.30 o'clock, Rev. D. Laing, President, in the chair.

The minutes of last meeting were read and confirmed.

The treasurer, Mr. G. E. Hague, made his report for the year, showing a balance of \$176.21; yet urging, that with the increased claims of the society, a larger balance in favor should be aimed at.

The Inspector, Rev. A. E. Smart, made his first report: A feature of our work, which has been very carefully gone into during the past year, has been the Juvenile Court. Too much praise cannot be given to Magistrate Farrell for the careful attention and sympathy given to this work. Quietly, confidentially, yet effectively, the court works; no names are given to the press; no one, except the inspector and immediate friends

interested in the case, are present, and a spirit of helpfulness, with friendly advice, is given to the offender, in reference to the future. Chief of Police Baillie and every officer of the police force have been most willing to co-operate with the society's officer in his work. We have had several difficult cases to contend with, but have had good results. Your officer has been trying to secure better conditions regarding truancy, and during the past year, the County Council and some of the township councils, have been addressed upon the matter. We have been seeking better equipment for the enforcement of the Truancy Act, to compel negligent parents to send their children to school. Several children have had to be sent to the Industrial School during the year.

Alas, the problem of intemperance has added its list to our troubles; often the call comes that father or mother—or both—are drunk and the children are in danger. Good workers, some of them, kind-hearted, but when under the terrible influence of drink, much suffering is caused to the children.

Feeble-minded children seem now to be part and parcel of our work and seemingly we are in a great need for a government institution to receive the same. Applications have been made to Orillia, but the same reply comes back—no room for admittance.

STATISTICS.

Number of children dealt with, 1,113; number of county families, 62; number of county children, 187; immigrant families, 41; immigrant children, 43; Roman Catholic children, 87; children made wards of society, 39; placed in foster homes, 34; placed in industrial schools, 5; police court attendance, 73; letters received, 932; letters sent out, 1,123; warnings given, 291; visits made, 2,197.

GREY COUNTY (OWEN SOUND).

Officers: Hon. President, R. B. Miller; president, H. H. Burgess; First Vice-President, Rev. W. J. Cadman; Vice-Presidents, Mr. M. Fornan, Mr. Jas. Shaw, Mrs. D. R. Doble, Mrs. Bridgewater, Mr. H. H. Miller (Hanover), Mr. N. W. Campbell (Durham), Mr. E. Y. Godfrey (Meaford), Mr. Huff (Meaford); Treasurer, Owen Sound, Sheriff C. H. Moore; Secretary, Owen Sound, Miss A. P. Doble; Hon. Solicitor, Mr. John Armstrong; Special Constable, Mr. S. G. King; Shelter Matron, Mrs. A. E. Winter; Inspector, A. E. Trout.

Executive: Mrs. H. H. Miller, Miss Julyan, Mrs. E. Y. Godfrey, Mr. J. C. Ryan, Rev. Father Burke, Mrs. H. H. Burgess, Miss M. Fox, Mr. J. E. Doyle, Miss Spragge, Mrs. A. E. Trout, Mrs. Robt. Shaw, Mrs. D. M. Butchart, Mrs. J. C. Forester, Miss May Notter, Mr. J. Manning, Mrs. R. Doyle, Mr. R. G. McKay, Mr. John Parker.

Corresponding Members: Mrs. Robt. Edmonstone, Kemble; Dr. Hamill, Meaford; D. Knechtel, Hanover; Miss Breese, Mrs. John McDonald, Chatsworth; Mrs. Pickle, Markdale; J. O. Rourke, Shallow Lake; Mrs. J. B. Egan, Dundalk; Carson Price, Holland Centre; Mrs. W. H. Thurston, Flesherton; Mrs. N. W. Campbell, Durham; Miss M. Moore, Clarksburg.

The annual meeting of the County of Grey Children's Aid Society took place on Jan. 13 at the W.C.T.U. hall and the report of the secretary and superintendent of the work,

Picnic in the Yard.

Mr. A. E. Trout, was of such a nature as to demonstrate beyond any sort of doubt the sort of good work that is being done by the society in the town, yes, and throughout the county as well. The meeting was presided over by the president of the society, Mr. H. H. Burgess, who had the pleasure of introducing to those present, Mr. J. J. Kelso, the provincial superintendent of children's work. He outlined the progress which had been made in the twenty-five years in which he has been connected with the work. And the work was not fully developed as yet. He hoped in the years to come that they would have it so efficiently systematized that not one child would have to be reared in surroundings which were uncongenial and under circumstances which would go to prevent them from being good citizens when they reached maturity. The report of the secretary and superintendent of Grey County, Mr. Trout, was devoted to illustrating the progress made within the past year in the county, and was a most hopeful document, breathing enthusiasm and warmth in every line. In addition there was a short programme, consisting of solos and instrumental, those taking part being Prof. Geen's boy chorus, Miss Helen Fleming, little Miss Foster and little Master Nash, all of whom were heartily applauded by the gathering. The annual business meeting of the society will take place at which the plans for the ensuing year will be mapped out.

HALTON COUNTY (MILTON).

Officers: President, J. M. Denyes; First Vice-President, Miss Anna C. Ruddy; Second Vice-President, C. H. Stuart; Secretary, Mrs. Fred Dewar; Treasurer, T. F. Little.

In November of 1913 a Children's Aid movement was started in Milton by the formation of a temporary committee, which obtained a charter and arranged for the real organization. In February, 1914, Mr. Tovell, Inspector at Guelph, went to Milton and assisted by addressing church congregations, etc. There has hardly been time for this society to do much work, but several cases were dealt with when Mr. Tovell was in town. It is hoped that this society will now go forward and obtain funds for the salary of an inspector to look after neglected children in Halton County.

HALDIMAND COUNTY (DUNNVILLE).

During the year past the Society at Dunnville was made a County Society and it is hoped that Children's Aid work in Haldimand County will press forward. Mr. R. A. Harrison (Dunnville) is secretary.

CAYUGA BRANCH.

The following are the officers at Cayuga: President, Rev. F. C. Walling; Vice-President, Sheriff McConnell; Secretary, J. W. Sheppard; Treasurer, W. C. Quinsey; Agent, D. E. McIntosh (Simcoe).

Hamilton Shelter.

HAMILTON SOCIETY.

Officers: Honorary President, Adam Brown; President, W. H. Wardrope, K.C.; Vice-Presidents, Col. A. H. Moore, W. A. Robinson and H. L. Frost; Recording Secretary, Mrs. Urquhart; Financial Secretary, Mrs. Dixon; Treasurer, J. M. Burns; Inspector, J. C. Pinch.

Many incidents drawn from the lives of the children were given on October 8, 1913, at the annual meeting of the Children's Aid Society, which showed what a splendid work is being done by the society. The meeting, held in the hall of the Y.W.C.A., was presided over in a genial manner by W. H. Wardrope, K.C., who was elected president.

Mrs. Urquhart, Corresponding Secretary, read the report of the year's work, concluding with praise for the matron, who seemed to be the right one in the right place, and to the inspector for his kind, patient, prompt and willing help to those in trouble.

The treasurer's report was presented by J. M. Burns, and showed that the subscriptions amounted to \$290.90, donations \$985, city grant \$500, quarterly allowance \$600, and with other receipts brought up a total of \$3,504.21. The chief item of expenditure was \$882.89 for repairs to the shelter, and there was a balance on hand of \$846.52.

Miss Forbes, financial secretary, gave a statement as to the children's money which they earned, which was handed to them when they became 18 years of age. Last year \$481.99 was returned in this way.

Adam Brown, who responded for the officers who had been re-elected, spoke of the satisfactory outcome of their work, and said it was a society that he should always do his best to support. Mr. Brown also paid a warm tribute to the work of Inspector Pinch.

Secretary's Report: In bringing before you the report of the work done by the Children's Aid Society of Hamilton, from October, 1912, to October, 1913, our 19th year, we feel that we have been able to do much more for big boys and girls than ever before, while the work for the little ones has been well looked after.

Many of you may remember that at the last annual meeting the keys of the old McIlwraith House, which the city purchased for our Shelter, were handed to the president by Mayor Lees. It was found necessary to add a second bathroom, do some painting and papering and put in proper sewer connections. This took more time than we expected, but we were able to install our matron a week before Xmas. We then began to furnish and our very heartiest thanks are given to the many friends who helped us so very generously. We had our formal opening on the 18th of January and were honored by the presence of Sir John and Lady Gibson, together with many well-known and influential people.

We have been able to handle many cases that, without our Shelter, we could not have managed at all. Quite a number of boys and girls would have probably slept in the police cells instead of being taken to the Shelter and coming quietly before the police magistrate next morning, or in some cases where it was not necessary to go to court they were placed out to work—in a few days.

The little girl mentioned last year as being in the Mountain Sanitarium was, at the end of ten months, sent to the Shelter as cured, but still frail, and the doctor's instructions were faithfully carried out by our good matron. Now she is perfectly well, is in a fine foster home, where she will have all the good milk and fresh air she needs. If they do not spoil her I feel sure she will be exceedingly happy.

We have a ward, a girl of over 20 years, who has been at the Mountain Sanitarium off and on for three years. She is still there and what a blessing this institution has been to those two girls, we would like everyone to know.

STATISTICS.

The following extracts are from a synopsis of work done by Inspector J. C. Pinch for the year ending Sept. 30th, 1913: Complaints against parents received, 191; children involved in the complaints, 378; visits made, 742; applications for girls received, 102; applications for boys received, 35; children placed in foster homes for the first time,

30; children placed in the Shelter (and five adults), 69; children made wards of the society, 49; children at Juvenile Court, 216; children committed to the Industrial School, 1; Juvenile Court attendance, 127; total number of cases investigated, 308; wards visited at foster homes, 25; total number of children involved, 937; deaths (boys), 2; marriages (girls), 1.

Wards in residence in institutions, October 1st, 1912, 18; wards transferred by parents, 6; made wards by police magistrate, 43; returned from foster homes, 27. Total, 94.

The feeble-minded are filling up the institutions all over the country. The Government should care for them as they do for the deaf and dumb, blind, the lunatics, epileptics and idiots. The feeble-minded are more detrimental to the community than most of the other classes, but in proper institutions they can be made self-supporting.

HASTINGS COUNTY AND BELLEVILLE.

Officers: President, J. J. Farley; Secretary, C. B. Scantlebury; Treasurer, H. F. Ketcheson; Agent W. H. Wightmyer.

A goodly number assembled at the Baptist Church Nov. 7, 1913, the occasion being the annual meeting of the Children's Aid Society. Dr. J. J. Farley, President, occupied the chair, and filled that position in a most acceptable manner. After devotional exercises the reports for the year were presented and they were of an encouraging nature.

TREASURER'S REPORT.

Mr. H. F. Ketcheson, Treasurer of the Society, presented the following report:

<i>Receipts.</i>		<i>Expenditures.</i>	
Balance	\$145 17	Maintenance of Shelter	\$1,648 67
Donations	932 12	Salaries	1,550 17
Municipalities	2,125 50	Balance on hand	3 95
	\$3,202 79		\$3,202 79

The greatest need of the society at the present time is a new and up-to-date Shelter. A school room has been fitted up and a teacher employed with satisfactory results. The Daughters of the Empire are paying the salary of the teacher and the Board of Education provided the furnishings for the schoolroom.

AGENT'S REPORT.

Number of children committed to the society during the year, 25; number of children to industrial schools, 13; number of children returned from foster homes, 42; number of applications for children, 206; number of children placed in foster homes, 64; number of children in the shelter, Oct. 31st, 1913, 27; number of complaints received, 95; number of complaints investigated, 85; number of court cases, 37; number of calls made in the interest of children, 1,535; number of interviews, 1,748; number of pieces of mail received, 934; number of pieces of mail sent, 1,505.

One hundred and eighty visits have been made to children in foster homes, and we are pleased to report conditions most satisfactory.

Mr. T. Ritchie moved the adoption of the report.

TWEED BRANCH.

President—Rev. F. G. Kirkpatrick.

First Vice-President—O. M. Algers, Esq.

Second Vice-President—Mrs. Black.

Agent—Dr. P. T. Bowlby.

Secretary-Treasurer—Mrs. J. G. Frost.

Committee of Management—Mesdames Wallace, Tuttle, E. R. Huyck, Leeworthy and Meiklejohn; Messrs. Chas. Clark, S. B. Rollins, Jos. James, Dr. Farrell, Revs. Rattery and Coon, and F. F. Naftel.

The Treasurer reported \$52.96 on hand. Several cases had been looked after, but none sent to shelters or homes. One boy had been sent to the Children's Hospital, Toronto, for eye treatment and had been greatly helped.

HURON COUNTY (GODERICH).

COUNTY EXECUTIVE.

Honorary President—Judge Doyle.

GODERICH—President, James Mitchell; Secretary, John Pollock.

CLINTON—President, C. D. Bouck; Secretary, Dr. C. W. Thompson.

SEAFORTH—President, A. D. Sutherland; Secretary, John Wilson, Town Clerk.

WINGHAM—President, Abner Cosens; Secretary, John Groves, Town Clerk.

BLYTH—President, E. Bender; Secretary, James Cutt.

BRUSSELS—President, James Fox; Secretary, W. H. Kerr.

County Treasurer—Sheriff R. G. Reynolds.

County Secretary—G. M. Elliott.

The annual meeting of the Children's Aid Society for the County of Huron, held in the court room, Goderich, on Monday evening, November 17, 1913, was fairly well attended, and proved to be full of deep interest to all as the excellent work accom-

plished during the past year was told. The President of the Society, Mr. James Mitchell, occupied the chair, and the following business was transacted.

The Secretary, Rev. John Pollock, made a short verbal statement regarding the importance of the work, and Mr. Kelso was present and gave an address.

County Agent Elliott gave a report, extracts from which follow:

In looking at our last year's report, we found there were seventeen children given over to the care of the Society during the year. I thought I would take my record book and see just how these children are situated, and what they are costing the county. I find fourteen of them are in good foster homes, getting good care and training; the other three are in the care of their mother, with conditions improved. Thirteen out of the seventeen never cost the county a dollar, the other four cost a few dollars for temporary placing in the shelter.

During our second year, since last November, 22 children have been made wards of the Society. In dealing with the different cases we have tried to act wisely, and we have now no cause to regret hasty action. If we have erred it has been on the side of leniency. Thirteen of these children are placed in good homes, seven of the thirteen are permanently placed in homes that are all that could be desired; four are placed with relatives under agreement; two are working for wages; one has been given to parents on probation; two are still in the shelter. I do not wish to paint any dark pictures regarding the former condition of these children, but I know some of them who were in a fair way for getting into the criminal class are now doing well in good homes.

Complaints received and investigated, 75. Number of children affected by investigations, 179. Letters received, 457; letters sent out, 786. Meetings attended in the interests of the work, 30. Visits made, 391. Interviews, 459. Court cases attended, 21. Applications received, 36. Children made wards of the Society, 22. Wards placed or replaced, 30.

KENORA.

President—Mrs. R. J. N. Pither.
First Vice-President—Mrs. H. A. C. Machin.
Second Vice-President—Mrs. W. G. Cameron.
Secretary—Mrs. J. P. Earngey.
Assistant Secretary—Miss Fife.
Treasurer—Mrs. W. J. Chapman.
Assistant Treasurer—Mrs. S. S. Scovil.
Agent—Chief Gordon.

The annual meeting of the Humane and Children's Aid Society was held Tuesday afternoon, October 14th, 1913, in the Council chambers. Mrs. Pither, President of the Society, read her annual address, detailing the objects of the Society and reviewing the work of the year.

In regard to the Children's Aid section of our work too much cannot be said. The children, when reported, are looked after, and there is a steady moulding of public opinion in regard to the work being done by the Society. This certainly is the children's age. The child's welfare engages the attention of all classes, and more good is being done to-day for children than ever before in the history of the world. The prospects for their future are exceedingly bright, and it is they who are to take our places some future day. I was pleased to have a visit from the little one who was found on Coney Island five years ago. She is pretty and bright and loved by her foster-parents who will give her every advantage.

SECRETARY'S REPORT.

I have much pleasure in presenting my eighth annual report as secretary of the Humane and Children's Aid Society. The object of the Society is well known, and every year a greater interest is taken in it by the citizens in general. As you are all well aware, the funds of the Society are mostly spent in assisting aged persons who have no other means of support. Also in assisting neglected and dependent children.

Through the persistent efforts of our local member, Captain Machin, a bill was passed whereby a grant from the Government would be given if the districts joined in building a Home of Refuge. Up to the present time there has not been any united effort to take the matter up. The Children's Aid Society has accomplished a great deal of good in looking after neglected and orphan children. One boy was made a ward of the Society and has been adopted by a couple who had no children of their own, and from recent reports this boy has been particularly fortunate in securing a good home. His older brother is with the same family, although they have not adopted him.

A girl of six, who is an orphan, has also been made a ward of the Society.

The very generous response from the citizens on Tag Day, when \$664.58 was realized, is ample proof that the Society has the appreciation of the citizens.

ANNIE C. EARNGEY, *Secretary.*

GERTRUDE C. HORAN, *Treasurer.*

KENT COUNTY AND CHATHAM.

The annual meeting of the Children's Aid Society was held September 8th, 1913, in Harrison Hall. Reports were read by the Executive Officer, Treasurer, Secretary and Chairman of Furnishing Committee, telling of the work, expenses and donations of the year. D. S. Patterson, of the Chatham Collegiate Institute, was the presiding officer.

Two thousand dollars of the capital fund was invested last week in a city debenture, which pays 5 per cent. interest and there is also \$300 drawing 6 per cent. interest. The balance on hand in the capital fund is now \$2,300.

The old board, consisting of Dr. Hall, Dr. Bray, Mr. Gemmill, Mr. Patterson, Mr. Cornelius, Mrs. Hadley, Mrs. Sheldon, Mrs. Sandys and Mrs. Stephenson, was re-elected. The Secretary, Dr. R. V. Bray, gave the following report:—

One year ago our Society was incorporated, and a Board of Directors elected to manage the affairs of the Society. This Board has held twenty meetings during the

The starved child as he appeared later.

year, twelve regular and eight special, with an average attendance of seven members, and the different committees were Finance, Building and Grounds, Supply, Furnishing and Sewing.

The attendance at the opening of the Shelter, at which the Lieut.-Governor gave an address, was very large, and all expressed themselves as more than pleased with the building and the equipment.

The Women's Institutes throughout the county are deserving of much praise for their interest in, and donations to, the Society.

Several of the Township and Town Councils in the county have given a grant during the year, as have our City and County Councils, but we are of the opinion that they do not yet recognize as fully as they should the benefit of our Shelter for the neglected and homeless children of the city and county; and we hope to stimulate their interest during the coming year.

TREASURER'S REPORT.

Treasurer's statement of receipts and disbursements, September 12th, 1912, to September 6th, 1913:—

<i>Receipts.</i>		<i>Disbursements.</i>

Total	\$1,807 75	Total	\$1,807 75

AGENT'S REPORT.

The following is the report of Executive Officer, W. R. Baxter. During the year I have made 275 investigations of various kinds. I also investigated two cases in Raleigh, where the School Act regarding attendance was being violated. The Act is a good one, and I have given this matter my special attention, fully realizing its importance to the children of our county. No child under fourteen years of age is allowed to enter any place of employment, factory or store, under a heavy penalty to the employer. This provision needs careful watchfulness, and I am pleased to state that the Truant Officer for the City of Chatham is doing his work faithfully, sometimes under difficulties, in enforcing the Act. There are too many boys and girls running the streets at night.

I have attended the City and County Police Courts numerous times in the interest of children who were arrested for stealing and other offences. Only two boys have been sent to the Mimico Industrial School, but many others have been warned that they will be sent there if they do not amend their ways. Three boys have lately returned from this institution, having spent a term of three years in each case.

I have placed in foster homes no less than eighteen children. Two little brothers, aged three and 6 years, have been placed in one of the best families in the county, and a brother and sister are now living with a very respectable family in the County of Essex. I always endeavor to keep brothers and sisters together where I can possibly do so. For the others suitable and comfortable homes have been provided, and these homes have been visited, and I am pleased to report satisfaction on the part of the foster parents, and evident contentment and even happiness on the faces of the children.

My work has led me into all parts of the county. Some cases prove to be trivial, others of a nature too disgusting to report.

Our Shelter is one of the finest in Ontario and one of which we are justly proud. The building is of brick, of Gothic architectural design, three storeys in height, and contains all the modern conveniences. Moreover, we have it well furnished throughout, thanks to the kindness of our many friends both in the city and the county. The grounds, too, are beautifully arranged with ornamental shrubbery and evergreens, while in the rear a splendid kitchen garden and orchard contribute to beauty as well as economy in management. The barns and outbuildings are also a credit to the Shelter.

LAMBTON COUNTY (SARNIA).

Officers:

President—George A. Proctor.

First Vice-President—G. L. Phillips.

Second Vice-President—J. F. Elliott.

Secretary and Agent—John Wilkinson.

Treasurer—F. C. Watson.

Solicitor—R. V. Le Sueur.

The annual meeting of the Children's Aid Society was held on Friday evening, Nov. 28th, 1913, in the school room of the Central Baptist Church. In attendance and interest this was one of the best meetings ever held and indicated that the work which the Society is doing has the good-will of the citizens generally.

The President made a few introductory remarks with regard to the large amount of work done and the successful year.

The Secretary was then asked to read his report, which was as follows:—

The Secretary submits this fifteenth annual report with gratitude for the blessings of the year, and for the good that has been accomplished for the children who have been added as wards this year. Twenty-three have been added to the list this year—twelve boys and eleven girls—twelve from Sarnia, five from Petrolea, four from Wyoming and one from Point Edward and one from another Society. Five of these were babies.

All have been satisfactorily placed and there were no children in the Shelter at the close of the year.

One girl at the request of the Society was sent to the Industrial School. Two other girls were sent by order of the magistrate, but these were not wards of the Society.

Last year only nine new wards were reported as against twenty-three this year.

An Improvised Playground.

There have been twenty-nine replacements and four have been restored to parents. This represents fifty-two homes secured during the year. It will be of interest to know that the little girl whom it was necessary to keep so long in the Shelter last year and who had frequently been returned, was placed again and has since been getting along very well.

The baby kept at the hospital for about seven months was finally restored to his parents and was doing very well when last heard from.

The last baby cared for at the hospital secured a prize at the grocers' picnic, and through that circumstance came to the notice of a lady residing in Winnipeg.

The Society was pleased to have the advantages of such a good home offered, and the lady came all the way from Winnipeg to get the child. A friend gave sufficient money to purchase a fine outfit of clothing. The hospital staff took much interest in his send-off and the lady was very happy indeed in the possession of the child.

Two sets of brother and sister were placed in the same homes. This was a happy event for the children, who showed much affection for each other.

The Secretary fully believes that the prospect of the wards of the Society, in education, training and equipment for life are fully up to the average Canadian home, and that there are few inferior homes and these usually because the children are not able because of natural ability to hold better ones.

An important part of the work of the Secretary is the visitation of children in their homes, and about three hundred and sixty such reports have been sent the Superintendent, J. J. Kelso, Toronto. On the whole these are favorable reports.

The following summary of work is given, even the agent does not know all the good that may have been woven into the lives of those dealt with. It is still largely the time of sowing. Number of wards received, 23; number transferred to other homes, 29; restored to parents, 4; interviews *re* children, 340; applications, 57; complaints reported, 25; visits, 440; attended court, 17; letters received, 325; letters written, 387, besides cards, etc.; helped with clothing, 30 cases; number placed in Shelter, 17; number of other children than wards dealt with, 74; married, 4. No deaths to report.

JOHN WILKINSON.

Following this the Treasurer, F. C. Watson, Esq., read the Treasurer's report, as follows:—

<i>Receipts.</i>		<i>Payments.</i>

	\$1,701 42		

On motion of H. Ingram, seconded by H. Conn, these reports were adopted.

A Children's Aid Problem.

LEEDS AND GRENVILLE AND BROCKVILLE.

Officers.

Hon. President—A. C. Hardy.

President—W. H. Kyle.

Vice-President—D. M. Spaidal.

Secretary—R. J. Driver.

Treasurer—C. E. Baynes Reed.

Hon. Solicitor—H. A. Stewart, K. C.

Hon. Physician—Dr. W. F. Jackson.

The annual meeting of the Children's Aid Society of Brockville was held February 4th, 1914.

After a brief prayer by the Rev. Mr. Woodcock, the Secretary, Mr. Driver, read the minutes of the last annual meeting. Following this came the annual reports of the President, Treasurer, Woman's Auxiliary and the Agent, and lastly the election of officers for 1914.

The record of the work done during the year bears eloquent testimony to the untiring efforts of the members of the Society, and especial credit was justly given to the work of the Agent, Mr. Traill, and of the Woman's Auxiliary. Naturally, there is usually an unpleasant aspect of this philanthropic work, but the responsibility has been borne cheerfully and willingly by the active workers.

The report of the President of the W. A. was presented by Mrs. G. E. Smart.

Mr. A. T. Wilgress, the retiring President of the Society, dealt with some outstanding features in his report, which he made as follows:

The Brockville Branch of the Children's Aid Society has completed its first year of occupancy of the admirable Shelter provided by the generous practical charity of Mr. and Mrs. A. C. Hardy, and the record must be a source of gratification to all concerned. The satisfactory results are due to the wise course mapped out by the preceding Board, and the activities of the Agent, the Ladies' Auxiliary, and the Board.

As the report of the Agent, Mr. A. J. Traill, will deal with the practical details of the philanthropic work of the Society, it will only be necessary for me to draw attention briefly to a few outstanding features of the past year's work in connection with the Society.

The thanks of the Society and the whole community are due to the Ladies' Auxillary for the substantial gift of \$800 presented in December last to the Board for an endowment investment. This has duly been invested in the Toronto General Trust Co. at five per cent., payable half-yearly.

Woman's Auxiliary Report.

To the Officers and Members of the Children's Aid Society:

During the past year the Woman's Auxiliary has held eight meetings, all of which were most interesting to the members. The different committees have been most arduous in the performance of their duties. Many improvements have been made to the interior of the Shelter under the direction of the House Committee, who have been indefatigable in their efforts. The Shelter has been visited almost daily by some member of this Committee, thus keeping in close touch with the inner working of the Home, and arranging menus of simple and wholesome food for the children, realizing that if the body is not properly nourished the brain will not develop.

Agent's Report.

It affords me much pleasure to present to you the annual report for the year 1913. During the past twelve months seventy-two cases were investigated by your agent, and as a result seven children were committed to the care of the Children's Aid Society.

Nine cases of neglect on the part of parents to send their children regularly to school were reported. In each case the homes were visited and the agent found that sickness, lack of school-books and suitable clothing were the contributing cause.

Two girls, ages fourteen and eighteen, were placed in the Alexandria Industrial School for Girls. Recent reports are very encouraging indeed.

Two children were removed from foster homes by the agent on account of not being sent regularly to school. New homes were secured.

During the year twenty-nine children have been placed in foster homes—fifteen girls and fourteen boys, ages from eighteen months to sixteen years.

At the request of our Superintendent, Mr. J. J. Kelso, I visited a number of the children in their foster homes during the past summer. Knowing the past history of those children, words fail to express the satisfaction and pleasure it was to me to meet them and observe how they are responding to kind Christian training. "I am head of my class," "I was on the honor roll last month," "I was promoted," were the greetings I received from a number of our wards. It was also gratifying to hear the expressions of affection from foster parents such as—"I'd rather part with all I have than part with my sweet little girl." "I do not know how we could get along without our little lad now." We have deposits in the bank to the credit of some of our children, sums ranging from \$6.25 to \$140.00.

Much is being accomplished for the children, but I feel much more could be done if there was some more effective way of reaching those who contribute to child's neglect.

The Act regulating children out at night is being fairly well enforced by our chief and officers, but there are a number of parents who are not doing their duty in this respect.

A. J. TRAILL, *Agent.*

Following is a summary of the Treasurer's report:—

Balance brought forward.....	\$443 76	Expenditures: salaries	\$481 64
Maintenance fees	1,085 25	Maintenance	743 20
Donations	347 75	Sundries	225 69
Bank interest	9 96	Balance	436 19
	<hr/>		<hr/>
	\$1,886 72		\$1,886 72

GANANOQUE HUMANE AND CHILDREN'S AID.

Since our last annual meeting, November 4th, 1912, there have been twelve executive meetings, all of which were fairly well attended.

Early in the year the Society directed its attention to several cases of children suffering from diseased feet, with the result that one little girl was sent to the Toronto Hospital for Sick Children, and received benefit so that she is now able to attend school. The parents of four other children suffering similarly have been interviewed by our President, Mr. J. C. Luklater in regard to having their little ones undergo treatment.

A petition was forwarded to Hon. C. J. Doherty, asking that amendments be made to the Criminal Code. In two instances the attention of the Society of King's Daughters and Sons was called to places where clothing was needed.

During the year three children have been made wards of the Society. One is in the Industrial School at Mimico. A little girl is in a temporary home with acquaintances awaiting agreement for adoption. A little boy of six will be taken to the Shelter in Brockville on Saturday next.

At present the Society is, through a committee, investigating the case of three little girls, whom it is thought are living in unsuitable homes.

There are Bands of Mercy in the three Public Schools:—King Street School, 91 members; West Ward School, 136 members; Stone Street School, 180 members. Meetings of the Bands are held monthly and the children show much interest, and we believe much good is being accomplished.

N. LAKE, *Secretary-Treasurer.*

LINCOLN COUNTY AND ST. CATHARINES.

Officers.

President—Rev. J. H. Ratcliffe, D.D.

First Vice-President—Mayor Merritt, M.D.

Second Vice-President—John Lymburner, Attercliffe, Warden of the County.

Secretary—Mrs. (Judge) Carman.

Treasurer—Mrs. Howard Rogers.

Agent—R. E. Boyle.

Travelling Secretary—James Webb.

The Children's Aid Society of Lincoln County and St. Catharines held an interesting annual meeting Nov. 20th, 1913, in Library Hall. Rev. Dr. J. H. Ratcliffe occupied the chair and opened the meeting with prayer.

The minutes of the last annual meeting was read by the Secretary, Mrs. Carman. R. E. Boyle, Agent for the Society, then gave a report of his work during the year, which was enlightening in many ways. He spoke of the dreadful conditions existing in some of the homes in the city, and advised the ladies that there was a great opening in this city for the teaching of housekeeping.

Rev. James Webb's report was then given, showing a splendid and encouraging year's work done by the Shelter.

Summary:—One hundred and twenty-seven complaints about children, 75 children involved. 426 interviews held, 377 visits made, 143 applications received, 71 children placed or replaced in homes, 95 wards visited, 36 children made wards of the Society, 81 total at the Shelter; 4½ the average number of children in Shelter per day.

The report of Treasurer E. Poole was then read, and showed a balance of over \$200 on hand, and the city grant not yet in, which gives the Society a fair start for the year's work. This is a deserving cause, and it is a pity more do not come forward with material help. Mr. Poole remarked. The income from all sources amounted to \$1,275.33, the expenses being \$1,029.31, leaving a balance on hand of \$246.02.

LONDON AND MIDDLESEX.

OFFICERS.

President—Sheriff D. M. Cameron.

Vice-Presidents—Mrs. Leonard, Mrs. Regan, Mrs. Yarker.

Treasurer—J. I. A. Hunt.

Secretary and Inspector—Joseph Sanders.

Assistant Secretary—Helen Tufts.

Assistant Inspectors—R. H. Sanders, Adam Maguire.

Honorary Solicitors—Messrs. McKillop & Murphy.

The Twentieth Annual Meeting of the London Children's Aid Society was held in the city hall yesterday afternoon, with Sheriff D. M. Cameron presiding. Inspector Joseph Sanders, who has been the Society's executive officer for nearly twenty years, submitted his annual report showing that 101 children had been cared for in the Society's Shelter during the year.

A finance committee was appointed to consider several plans suggested for raising finances to insure for the Society a definite annual income.

INSPECTOR'S REPORT.

I respectfully beg to submit to you the report of the operations of this Society for the year ending November 30th, 1913. On that date the Society completed the twentieth year of its history, and as we glance back we feel a justifiable pride in the fact that the progress and advancement of the work has gone steadily forward from the time of its inception right up to the present. There has been no break, no setback; we have so far on the journey met no obstacles that we were not able to surmount. And we believe that the success that has attended the Society's operations in the community is in a large measure due to the fact that we have always had an ideal, to the fulfillment of which we have pressed steadily forward. To be sure the goal is yet a great way off and very frequently the burden of the everyday trials that beset us in this work blur the vision for a moment, but again we see it brightly shining, and with renewed vigor go forward, striving constantly to put our best endeavor into the great effort that we believe will eventually result in healthful, happy surroundings for every child in the community—when every little life will be loved, cared for and safeguarded as it should be, and so given the opportunity for the development of all that is good in its nature and to make possible the elimination of whatever tendencies may be evil. This is our hope of a future citizenship worthy of this land of promise.

And with this ideal constantly in mind, the Society can claim that it has never become custom-bound. It has been a power for good in the community—a moving force for advancement and improvement in regard to all conditions touching child-life, and it has during the whole twenty years of its existence enjoyed the unbroken confidence and support of the public.

Statistics.—City children in Shelter, 7; city children in Catholic Home, 2; city children returned, 10; transferred to Society's guardianship by parents, 28; made wards of the Society by magistrate's order, 16; received from Juvenile Court until settlement of cases, 25; cared for in Shelter, 12; infant left on Shelter's steps, 1. Total, 101.

Middlesex Children.—In Shelter, 3; returned from foster-parents, 3; made wards by judge's order, 3; received from Juvenile Court, 1.

Disposal.—Placed in foster homes (first placements), 41; placed in foster homes (first placements, and subsequently died), 3; replaced in foster homes, 14; returned to parents, 39; returned to outside societies and homes, 7; committed to industrial schools, 7; in Victoria Hospital at end of year, 1; in Salvation Army Home at end of year, 2; in Roman Catholic Home at end of year, 2; in Shelter Home at end of year, 17. Total, 133.

In addition, figures were given showing that 472 children had been helped without coming to the Shelter.

TREASURER'S FINANCIAL STATEMENT FOR YEAR ENDING NOVEMBER 30TH, 1913.

Receipts.

Balance on hand December, 1912.....	\$424 25	
London grant	1,000 00

		\$4,108 29

GRAND JURY REPORT.

That the work of the Society in Middlesex County is appreciated is evident from the following:

J. J. KELSO, SUPERINTENDENT CHILDREN'S DEPARTMENT, TORONTO.

Sir—I have the honor to inform you that the presentment of the Grand Jury at the present sitting of the General Sessions of the Peace for the County of Middlesex, held at the Court House, London, contains the following clauses:—

"We visited the Shelter of the Children's Aid Society on the Wharnclyffe Road. What impressed us most in this institution was the admirable system that prevails for finding the young waifs and strays of our community with good foster homes. The length of stay in the home is comparatively short as these young charges are readily found foster homes where they are made welcome at the same time that the community is relieved of the cost of their maintenance, and they are given a chance to become good citizens."

NIAGARA FALLS.

OFFICERS.

President and Inspector—Mr. Chas. Black.

First Vice-President—Mr. John Logan.

Second Vice-President—Mr. Jas. Morden.

Secretary—Miss E. Smith.

Treasurer—Mr. J. G. Cadham.

Honorary Solicitor—Mr. D. B. White.

Veterinary Surgeon—Dr. D. M. Robertson.

Executive—Messrs. J. H. Stewart, Dr. F. W. E. Wilson, J. E. P. Rothwell, Thos. Berriman, E. R. Dewart, H. P. Stephens, Robt. Gay, F. Taylor, C. E. Dores, C. C. Cole, Mesdames J. H. Stuart, Geo. Payne, Frank Anderson, John Mears, Jas. Barry, D. J. Nichols, Misses A. L. Butters, M. Black, M. A. Henderson, J. T. Bush, S. Chrysler, and the city clergymen.

January 22nd, 1914, the annual meeting of the Humane and Children's Aid Society was held in St. Andrew's Church, when a splendid address was given by Mr. C. R. Miller, Inspector for the Society in Berlin.

The question of establishing a Children's Shelter, also public playgrounds, was brought up.

Mayor Dores said that this question has been under discussion for the last four or five years, but that the time must come, and come soon, when a Children's Shelter must be established. He spoke also in favor of a public playgrounds or park for the children, and said that the question had been before the City Council at the latter end of the year, and would probably be brought up again in the near future.

Mr. Barber moved a vote of thanks, seconded by Mr. Thos. Berriman, to Mr. Black for the work he was doing. Mr. Black, in responding said it was a labor of love and that he hoped to be spared to keep it up.

The number of cases investigated during the year now closed are as follows: Boy forced to sleep under hay stack, 1; boys sent to Industrial School, 2; girls sent to Alexander School, 3; girls returned from Alexander School, 1; mothers left their children, 2; transfer of guardianship, boys, 8; indecent assault upon girls, 2; incest, 1; settled troubles in families, 2; babies furnished homes, 3; excessive cruelty to boys, 2; children placed in Shelter, 3; applications for children, 27; deported from Buffalo, 2; special visits to families, 189; letters written in behalf of the work, 210.

Since the annual meeting Mr. Logan appeared before the City Council and asked that the Council appoint a committee to meet the committee already appointed by the Welland County Council to confer on the question of building a children's temporary Shelter in Welland. On motion, the Mayor, Ald. Ward and Dixon were appointed a committee to act in the matter.

NORFOLK COUNTY (SIMCOE).

OFFICERS.

President—Mr. Frank Reid.

First Vice-President—Mr. H. S. Macpherson.

Second Vice-President—Mr. Elias Boughner.

Secretary—Mr. M. L. House.

Treasurer—Mr. Geo. Williamson.

Agent—D. E. McIntosh.

The Children's Aid Society of the County of Norfolk held its annual meeting on December 9th, 1913, in Simcoe, at which the above officers were elected.

Mr. D. E. McIntosh, Agent, gave the following report of the year's work:—

In reviewing the work of 1913, I have thought it best to notice some of the pessimistic, or more discouraging, features at first, reserving the more optimistic, or encouraging, for our closing references. In travelling over the county I have found an alarming condition of moral depravity existing—men and women living in adultery, men committing indecent assaults upon females, grave immoral conduct of men toward girls of tender years and weak minds. In those cases coming within the scope of my jurisdiction or authority as Agent of the Children's Aid Society, I have endeavored to bring the guilty parties to justice, but in some instances have been confronted with strong opposition from those whose duty it was to maintain the law and punish the guilty, and, therefore, in some instances, a miscarriage of justice resulted. During 1913 we have taken in charge thirty children as being neglected within the meaning of the Children's Protection Act of Ontario, all of whom were committed to our Society.

One little boy, whose foster parents were extra worldly, who was ploughing near the highway, doing a man's work, accosted me as I was passing, and said, "Mr. McIntosh, can't you fix things for me so that I can go to school." I answered, "Why, certainly. You ought to be there now." The next day that boy was at school. Strange that so many parents are regardless of the compulsory clause of the school law.

I visited 101 children in foster homes in Norfolk during 1913. Some of these I have visited for four consecutive years, and have thus been enabled to note their growth and development. The results as noted in these visits fully justify me in saying that the Children's Aid movement pays a thousandfold. A few boys have been sent from Simcoe to the Victoria Industrial School at Mimico. Some of these have lately been allowed on parole. A young man called on me a few weeks ago and thanked me for placing him at Mimico. He was wearing a pair of new shoes, and said, "I made these shoes; every part of them." I placed him at Mimico less than a year ago. We meet with an occasional disappointment in our work, but this is the exception, and not the rule.

A NORTH COUNTY CONVEYANCE.

ONTARIO COUNTY (OSHAWA).

OFFICERS.

- Hon. Presidents*—Messrs. John Cowan, F. L. Fowke and Col. J. E. Farewell, K.C.
- President*—Mr. G. W. McLaughlin.
- First Vice-President*—Mr. J. D. Storie.
- Second Vice-President*—Mr. Fred. Bull.
- Hon. Solicitor*—Mr. W. E. N. Sinclair, M.P.P.
- Chief Executive Officer*—Chief Hind.
- Auditor*—Mr. A. Black.
- Treasurer*—Miss Maud Mothersill.
- Secretary*—Mr. W. B. Puckett.
- Organizing Agent and Collector*—Rev. E. C. Hall.

Good work is being done by the Society in looking after the welfare of children throughout the county. The Shelter also is found to be of inestimable value:

Statistics.—Children cared for in Shelter, 52; applications for girls, 26, placed, 14; boys sent to Mimico, 2; lost children returned, 3; ward married, 1; temporarily cared for, 9. Meetings held, 9; wards visited, 11; families visited and warned, 8; involving 50 children.

SUMMARY OF FINANCIAL STATEMENT.

<i>Receipts.</i>		<i>Expenditures.</i>	
Cash, November 1, 1912.....	\$12 21	Hospital attendance	\$37 50
Membership, etc.	435 85	Printing, salaries, etc.	600 03
Grants from councils	325 00	Shelter expenses	884 71
Maintenance of wards	799 15	Cash on hand	175 50
All other sources	119 78		
Bank interest	2 75		
	\$1,697 74		\$1,697 74

WOODSTOCK AND OXFORD COUNTY.

OFFICERS.

- Honorary Presidents*—Rev. Dr. McMullen, the Mayor, the Warden of the County, and the Police Magistrate.
- President*—Peter Johnson.
- Vice-Presidents*—J. R. Shaw and C. E. Hendershot.
- Treasurer*—S. L. Cork.
- Secretary*—C. S. Pedley.
- Auditors*—E. J. Coles, H. B. Sproat.

J. J. Kelso, Provincial Superintendent of Neglected and Dependent Children, delivered an interesting talk before the members of the Children's Aid Society, December 10th, and incidentally gave some valuable advice on the care of wayward children.

The Secretary, Rev. C. S. Pedley, being ill, and unable to be present, the report was read by Rev. R. B. Cochrane and showed the work of the Society to be rapidly increasing.

TREASURER'S REPORT.

The Treasurer's report showed a balance on hand of \$1,844.52, which would be all or nearly all eaten up by the liabilities.

Mr. B. Blair, the retiring President, was in the chair. He expressed pleasure at the good work that had been accomplished during the past year.

SECRETARY'S REPORT.

In the general work of the Society each year sees expansion. Four years ago the number of wards living in the county was sixty or sixty-five. It is now more than double. Visiting the wards, keeping track of changes, straightening out difficulties and in some instances looking after their money affairs becomes a constantly heavier task.

Altogether there have been a hundred and four children dealt with. Nineteen children have been added to the number of wards during the year, eight girls and eleven boys. Of these nineteen, only two have found foster homes, four are in the Shelter here and others are boarded out, some in Woodstock and some in London. One is in Mimico and three are with their mother.

One ward is in the Alexandra Industrial School and three in Mimico.

Refreshments.

The 124 children dealt with include some who have not been made wards, but only put under the supervision of the Society.

During the year there have been 34 children boarded in the Shelter and 11 children boarded in London or in homes in this city.

I have paid 420 visits in the city and county, had 832 interviews, sent 60 reports and articles to the press and preached 23 times in the interests of the Society. I have also attended police court 25 times. I have addressed 20 public meetings for the Society, attended and prepared reports for 14 Board meetings, and attended 19 committee meetings.

IMPROVEMENTS TO SHELTER.

Since the Shelter was occupied on October 21st of last year a great many improvements have been made on it. A small furnace was installed to heat the back part of the building and five radiators were put in. This year the heating system is all being changed, the small furnace is used for heating the water for baths, etc., and a new furnace is being put in at the present time for the hot water system all over the house.

On March 11th, 1913, there was a conference of men at the Shelter on the new constitution, giving all the smaller societies in the county representation on the new management. A delegation from Woodstock was appointed to meet an Ingersoll delegation and discuss the union of the two societies. It did not prove possible to arrange a meeting, and eventually the Ingersoll Society decided to remain a separate institution and confine its work to the town. In view of what followed later in the year, and which we must now notice, this action of the Ingersoll Society was quite correct and the only action that could be taken.

FORMAL OPENING OF SHELTER.

After a considerable period of agitation, canvassing and active co-operation by various organizations in the city, the Shelter is now an accomplished fact. Although the work of rescuing homeless children, and those with bad surroundings, has been going on for years in Oxford County, first under the care of the late Daniel Larke, and latterly in charge of Rev. C. S. Pedley, backed up by an organized Children's Aid Society, the organization has for a long time been hampered through lack of a proper shelter in which to house the little ones that were taken as wards of the Society.

The new home of the Society is admirably adapted and equally well located for carrying on the work of the organization. It was formerly among the old historic homes of Woodstock, the house being formerly owned by J. H. Nellis, City Solicitor. The building now offers every facility for the caring for of the children. Its equipment includes all the necessary features required to make the lot of the little ones as happy as the circumstances will allow.

To mark the event the Ladies' Auxiliary gave a formal opening reception at the Shelter on February 12th. Nearly three hundred people visited the Shelter during the afternoon and thoroughly inspected the premises, which evoked considerable surprise and admiration. A formal opening ceremony took place in the Board room under the chairmanship of B. Blair, acting for the President, Peter Johnson. Brief congratulatory addresses were given by J. J. Kelso, of Toronto, Superintendent; G. R. Pattullo, Lieut.-Colonel White and Mayor Hobson—all of them active workers on behalf of the Woodstock Society. In the course of these addresses the Ladies' Auxiliary was congratulated and thanked for the excellent work they had done in promoting the Shelter, while the various gifts from the different societies and private individuals were acknowledged.

Where poverty-stricken family resided.

PARRY SOUND DISTRICT.

OFFICERS.

President—Rev. R. A. Cowling.

Vice-Presidents—W. J. Copesey, J. Binnie, A. P. Latter, Salvation Army Captain, Father Artus.

Treasurer—Mr. W. G. Cameron.

Agent and Secretary—Joseph Ryder.

The Secretary writes: Many children have been saved from being disgraced through the timely efforts of our officers, and by preventive measures and warning to parents to assume their parental responsibilities. Our Society is in good condition, and our citizens' interest in the work is unabated. We have several boys under probation—our first experiment—and so far good has resulted. Many girls have been brought to court to receive a timely warning to prevent, if possible, future misconduct. Six children have been made wards of the Society. Many children were visited in foster homes and in only one case were conditions poor. I had one girl removed, and she is now in a first-class home. I wish to thank many of our citizens for their willingness to help, although at times the seamy side of life is repugnant to their fine sense and feelings. I think the time has arrived when we should have a Children's shelter for this northern district. If the public realized our needs in this direction, subscriptions would be freely made.

BURK'S FALLS BRANCH.

OFFICERS.

President—Dr. J. J. Wilson.

Vice-Presidents—Resident ministers.

Secretary—Miss Prior.

Assistant Secretary—Mrs. Jos. Spears.

Treasurer—Mrs. C. W. Sharpe.

Agent—Mr. F. Metcalfe.

The annual meeting of the Children's Aid Society was held in the Baptist Church, Thursday evening, January 22nd. The President in his address gave a review of the past year's work, giving particulars of some cases dealt with. The Society has done much preventive work by assisting those in need, and giving help and advice wherever possible.

Here the Society may thank their Agent, Mr. F. Metcalfe, on whose readiness, faithfulness and good judgment has depended much of the success of its work, and remember that all service in this Society is given freely.

The President also dwelt upon the law of children being out at night. This is no longer a by-law but a statute on the books of the Legislature of Ontario.

After all business was transacted, Rev. Andrew Smith, of Barrie, gave a helpful, inspiring and entertaining address, his topic being "The Greatness of Our Work."

SUMMARY OF TREASURER'S REPORT.

<i>Receipts.</i>		<i>Expenditures.</i>	
December, 1912, balance	\$15 89	Sundries	\$10 00
Dues and donations	37 00	Needy case	5 76
Bank interest	0 92	Balance in bank	38 05
	<hr/>		<hr/>
	\$53 81		\$53 81

PEEL COUNTY (BRAMPTON).

OFFICERS.

Honorary President—Richard Blain, M.P.

President—Sheriff N. Henderson.

Treasurer—Walter S. Morphy.

Secretary and Inspector—C. W. Norton.

Recording Secretary—Miss Bessie Dale.

The second annual meeting of the Brampton and Peel County Children's Aid Society was held in the Public Library, Brampton, on the evening of October 30th. A large number of people interested in the Society were present, and were surprised to hear the Secretary's report of the great work carried on during the past year. The chair was occupied by the President, Sheriff Henderson.

A Wretched Interior.

Many of the cases investigated by the Inspector were fully explained for the benefit of those present. During the past year forty-five calls were made in the interest of neglected children, seventy-five personal interviews took place on behalf of the wards of the Society, and one hundred and two letters were received. Three hundred and fifty-six letters were written, including answers to those received, and annual reports distributed through the county. There were eighteen complaints received, twenty cases investigated, and fourteen children committed as wards of this Society. Five children were taken to the hospital suffering from a very contagious disease. Five cases in which parents had neglected children had to be heard in court. Two children were taken away from homes which were not satisfactory, and placed in more suitable surroundings. We also had the misfortune to lose one of our wards who died from acute pneumonia.

Addresses were given during the evening by C. D. Gordon, Rev. McEachren, Sheriff Henderson, and Chas. Norton. Many present became members of the Society that evening, and a very successful meeting closed with prayer by Rev. McEachren.

STRATFORD AND PERTH COUNTY CHILDREN'S AID SOCIETIES.

OFFICERS.

Honorary Presidents—His Honor Judge Barron, the Mayor of the City of Stratford, and the Warden of the County of Perth.

Honorary Vice-Presidents—Police Magistrate O'Loane and Mr. William Buckingham.

President—Thomas Magwood, Sheriff of Perth County.

Vice-Presidents—Mr. J. H. Smith (Inspector of Public Schools), and the city clergymen.

Secretary and Inspector—Rev. Hugh Ferguson.

Recording Secretary—Mrs. J. Bottomley.

Treasurer—Mr. R. T. Mussen.

Truly, one-half the world does not know how the other half lives. It came as a revelation to those who attended the annual county meeting of the Children's Aid and Humane Society, November 18, 1913, that such depravity and neglect exist in our midst as were instanced in the report of Inspector Hugh Ferguson.

The meeting was the most encouraging and significant in the Society's history.

The President, Sheriff Thos. Magwood, opened the meeting with a brief address on the prosperous condition of the Society and its improved status.

The minutes of last annual meeting, read by Mrs. J. Bottomley, were duly adopted, and the report of Rev. Hugh Ferguson given to the meeting. In the course of his reading, the Inspector deviated to give the meeting the good news that little Jimmy Bugg is doing splendidly in his foster home, and has gained seven pounds, and four and one-half inches in height since January last.

The financial report, submitted by Mr. R. T. Mussen, was very encouraging.

An inspiring period was devoted to brief, but enthusiastic, verbal reports from the branches in Listowel, St. Mary's and Mitchell. Mrs. T. L. Hamilton, the Secretary, brought good tidings of the active work being done in Listowel, \$225 having been turned into the general funds this year. Mr. Hamilton was also called upon and challenged St. Mary's and Mitchell to keep up with Listowel for the incoming year. He also paid tribute, from personal experience, to the joy of adopting a ward of the Society.

Mr. D. Grant Anderson spoke for St. Mary's and Mr. T. H. Race for Mitchell branch. Both emphasized eloquently the good work of the Society.

Various speakers praised the energy, tact and faithfulness of Inspector Ferguson, and the matron of the Shelter, Mrs. Pugh.

The fitting closing feature of the meeting was an address by Mr. C. R. Miller, of Berlin, on the care of feeble-minded and other women in Waterloo County, where he is Inspector.

INSPECTOR'S REPORT.

The annual report of Rev. Hugh Ferguson, Inspector of the Society, for the year ending November 1st, 1913, was given as follows:

To the Executive.—Time at this annual meeting does not permit the giving of the whole year's work in detail, but it has already all been passed upon by the Society in their regular monthly meetings.

It is not our aim to make the children that we look after wards of our Society. We aim to save them from abuse and neglect and to secure for every child not merely a chance to grow up, but a chance to grow up to be a good citizen of our county. In the greater number of cases that we deal with, we are successful in obtaining these results without making the children wards. This part of our work known as prevention is a very important part.

The following statistics from the Inspector's day book will give some faint idea of the proportions of the work and of the almost endless detail attended to by him in the twelve months under review: Addresses delivered in the interests of the work, 40; police court attendance in the interest of the work, 52; children admitted wholly to Society's guardianship, 22; children placed or replaced in approved homes, 61; wards in foster homes visited or heard from, 150; complaints affecting children investigated and dealt with, 232; children benefitted by visits and investigations, 376; neglected children sheltered at the Shelter, 65; average stay in the Shelter, 23 days; aggregate days in the Shelter, 1,464; calls and visits in the interest of the work, 1,706.

LISTOWEL.

The Listowel Branch of the Perth County Children's Aid and Humane Society held its annual meeting on Thursday evening, with a large number of townspeople present. Mr. George Melrose presided.

The reports presented showed that excellent progress was being made in the work in Listowel. Rev. Hugh Ferguson, Inspector of the county work, spoke on the work of the Society as a whole and praised the Listowel Branch for the important assistance which the members are giving the county work. The officers were re-elected as follows:

- President*—George Melrose.
- Recording Secretary*—Mrs. T. L. Hamilton.
- Treasurer*—Mrs. J. J. Foster.

A strong committee on work was appointed, as well as a representative delegation to attend the annual meeting of the county society in Stratford in November.

PETERBOROUGH AND PETERBOROUGH COUNTY.

Honorary President—Mayor Buller.

President—R. W. Travers.

First Vice-President—Mrs. Birdsall.

Second Vice-President—E. A. Peck, M.P.P.

Secretary and Honorary Solicitor—E. L. Goodwill.

Treasurer—Horace Walkey.

Honorary Physician—Dr. Amys.

Agent—Geo. Cochrane.

Mr. Peter Campbell resigned his position as treasurer, which he had held for fifteen years. He was urged to continue the work, but he stated that while he would take an active interest in the Society he did not wish to hold office.

Mr. Goodwill intimated that this would be his last year, unless it would be possible to provide an assistant. His report stated that at the close of the year 1912 we had three children in the Shelter, and during the year our books show that in addition to these thirty-eight children were registered in the Shelter, making a total of forty-one. Of this number, twenty-three came from the city, thirteen from the county, and two from outside places. It is of interest to note that of the total forty-one children in the Shelter during the year twenty-one were girls and twenty boys.

In addition to the children registered in the Shelter, thirty-two were dealt with direct in the Secretary's office without being placed in the Shelter.

The work of the Society continues to increase in volume. We found this especially so during the latter part of the year, when we were called upon to assist a number of families deserted by the husbands. These deserted mothers earn barely enough to supply food and pay for the rent, and when they become ill or incapable of working situations occur which call for the immediate attention of your Society's officers.

The increased cost of living and the present industrial situation necessarily mean the production of a large number of cases for the attention of your Society this winter. Reports are made to us of a number of cases which will probably need early assistance on account of the wage earners of the families being out of employment, and these wage earners have failed during years of prosperity to provide for the period of depression.

We regret to find in the prosecution of our work the number of defective and feeble-minded children passing under our observation; also to learn from time to time of marriages of this class of people. A prominent writer, speaking on this subject, says: "It makes one ask, Will the time ever come when this danger of the future well-being of society can be better safeguarded than at present? A long line of weakness, incapacity, drunkenness, immorality, and crime follows in the train of these marriages." It is impossible to place these defective children in foster homes when they are far below the moral standard—mentally, morally and physically. These children, if placed in foster homes, are soon returned because of various faults and defects, many disgusting beyond description. It is a matter well worthy of being seriously pressed upon the attention of the Legislature of this Province, and that some provision and some means be provided to meet this unfortunate social condition.

Your officers are in constant attendance at the Juvenile Courts, and I am pleased to say that the provisions of the law governing the trial of juvenile offenders are strictly observed.

I am glad to say that we have received on the whole very encouraging reports from the inspectors. The condition and conduct of the children of the Shelter and their education, together with their physical condition, will be reported on by Mr. Henry and Dr. Amys.

Mr. Wm. Henry, Superintendent of the Shelter, said that all of the children cared for in the Shelter during the year have enjoyed good health, and there has been no serious illness nor any deaths during the year.

All children admitted to the Shelter of school age are regularly sent to school as soon as properly clothed and cleaned. I am pleased to report that our wards do remarkably well at school, and during the year I received no complaints from any teacher respecting them. On the contrary, several teachers have spoken to me, stating how pleased they were with the deportment of the children.

A number were placed in the Shelter by the Chief of Police pending trial. This applies more in particular to the cases of several young girls. Four were placed in the Shelter pending charges and trials for theft, all of whom were convicted. Two were escapes from foster homes. One child was committed to the St. John's Industrial School. A number of children were placed in the Shelter due to charges against parents for neglecting to send children to school. These were afterwards returned to the parents on condition that the children were sent regularly to school in the future. A number of the children made wards of the Society were allowed to return to their parents pending probation by the parents.

I am glad to report that as a result of my visits to these families all are continuing to do well.

During the year I was appointed by Mr. J. J. Kelso, Superintendent of the Society, to visit the wards in Peterborough city and county. I find on the whole that your wards are well placed.

Mr. Geo. Cochrane, Agent of the Society, stated that he had travelled 226 miles and visited 35 children outside of the city. Until about five or six weeks ago there was not a great deal of attention required in the city, but since the coming of winter there have been a number of cases.

On the whole there has been an improvement throughout the county. The difficulties of a few years ago are disappearing. "We have got rid of many of the rough people and the hard drinkers in Belmont Township. I don't know where they have gone. Someone else possibly has to deal with them. I don't know why the law allows idlots to marry." Mr. Cochrane mentioned a family, the father and mother of which were practically degenerates, and of the five children, who were no better than the parents, three had married.

The financial statement presented by the Treasurer, Mr. Peter Campbell, shows a comfortable balance. It is as follows:

<i>Receipts.</i>		<i>Disbursements.</i>	
Balance on hand Dec. 1, 1913...	\$1,201 98	Board account	\$1,184 65

PRINCE EDWARD COUNTY (PICTON).

OFFICERS.

President—J. A. Shaver.

Secretary—Lena Monaghan.

Agent—H. C. McMullen.

The Secretary writes: The past year has furnished us perplexities, some of them trying for the Agent.

We have found some peculiar people, as well as neglected children. We are not hunting homes for model children—at least as a rule. The homes or places from which we get them are not models. These young creatures in most cases know little of good

life. Their experience has been with the rough side of it. We are trying to place them in homes where they will get an uplift, a start, and favorable chance to become worthy, intelligent people, instead of criminals.

There are abundant suitable homes, but many of them have a good supply of children. The response from them is, "No more needed." But there are good homes without children, which formerly had plenty. The aged parents are lonesome—need help and company—but not children that will try their patience. These conditions have been forcibly presented to us during the year.

One boy was sought for by them and placed with elderly people. He had no companions, and was soon made to feel he was not wanted. Finally he ran away and came to town. After several brief placements, he was taken by a young farmer last February. In this home he has been kindly treated, is very fond of these people, and they are well satisfied with him.

A girl of ten has been in three temporary homes, and in four supposed to be permanent. She is now in the fifth of the latter kind. The prospect of permanency seems good.

It has been necessary to take only four cases before the police magistrate, but we have aided in various ways thirty others, in addition to continuing assistance to those who came under our care in previous years.

The Agent's correspondence has amounted to more than 250 letters. He has visited our wards several times throughout the county and assisted with those placed here by other branches.

Our membership was handsomely increased at our annual meeting in November, and the efforts then made greatly increased public interest in our work.

Happy in the midst of squalor.

RENFREW COUNTY.

OFFICERS.

Honorary President—The Right Rev. P. T. Ryan.

Hon. Vice-Presidents—Hon. George P. Graham, M.P.; T. W. McGarry, K.C., M.P.P.

President—Rev. W. M. H. Quartermaine.

Vice-Presidents—Messrs. John Devine, W. H. Kearney, I. E. Pellow and W. E. Smallfield, and the clergy of the town.

Secretary-Treasurer—E. J. Stewart, Esq.

The work of the Children's Aid Society throughout the county has been exceptionally heavy during the past twelve months. In the towns of Pembroke, Renfrew and Arnprior special cases have had to be dealt with, and so far success has crowned our

efforts without intervention of courts. That we have been the means of bringing joy and happiness to households, that we have lifted some out of the mire and dirt of wretched surroundings and placed them on a better footing, that we have come to the aid of unfortunate young girls and assisted them at a time when help and advice were sorely needed, that we have taken the semi-imbecile children under our direct wing and are witnessing a daily improvement in their life and actions—these and many other things are some of the fruits of the Society's labors done in the name and for the love of the Divine Master. At the same time much remains to be done and in some of the outlying districts of this large county there is great need for the Society's efforts, and the greatest wisdom and kindness will have to be exhibited and a large amount of patience required and instruction given before social conditions can be improved with any true lasting benefit.

Our first twelve months in the Shelter has come to an end, and how deeply grateful we are to the donor, J. A. McAndrew, Esq., words can scarcely express. It was then considered advisable to rent a small house for a family of seven who had to be cared for. Although we were not responsible for the rent, we had to furnish the house, placing a responsibility upon the Society of an extra \$110. Since September our average number has been eleven. In all forty-six children were received.

It was decided by the Executive Committee at its meeting in the spring to have the Shelter raised two and one-half feet, a solid stone foundation built, cement flooring laid in basement, paint the building and other necessary interior improvements made which we thought could be accomplished for \$650. The present condition of the building proves how well and how satisfactorily that work has been carried out. We suggested raising the amount required by asking 650 people to donate one dollar each, so bringing the work in touch with a large number throughout the county and strengthening thereby the interests in the Society's labors. The people responded most heartily, and the money was raised without any burden being placed upon any one person. It is extremely encouraging to note the deep interest that has been shown in various parts of the county towards the furnishing and maintenance of the Shelter.

The following municipalities have made grants towards the maintenance of the Shelter: Pembroke, \$100; Renfrew, \$75; Arnprior, \$50; Cobden, \$20; Eganville, \$20; McNab, \$25; Horton, \$25; Admaston, \$25; Ross, \$20; Bromley, \$15; Grattan, \$15.

PEMBROKE BRANCH.

OFFICERS.

Honorary President—Judge A. A. Fisher.

Honorary Vice-Presidents—G. V. White, M.P.; E. A. Dunlop, M.P.P.

Honorary Solicitors—W. H. Williams, K.C.; Peter White, K.C.

Honorary Physicians—The town medical men.

President—J. H. Reeves.

Vice-Presidents—The local clergy.

Secretary—A. J. Grigg.

Treasurer—S. S. Walker.

Representative—E. D. Otter.

The annual meeting of Pembroke Branch of the Children's Aid Society was held on 8th December in the Council Chamber, with a good attendance.

Mr. Otter, the local representative, gave an outline of the past year's activities and was followed by Rev. Mr. Quartermaine, the County Superintendent, who gave a splendid report of the County Shelter and its work, sixty children having been cared for in the past two years. The maintenance of the Shelter involves an annual expenditure of about \$800, part of which is contributed by the municipalities of the county,

while for the remainder it is dependent upon the good-will of the public. Rev. Mr. Quartermaine commented very favorably upon the good work done in Pembroke, the preventive work being well started and the rescue work well under way also.

Several lines of activity were outlined for the ensuing year, among them being co-operation with other agencies for the medical inspection of every child in our schools; arrangements for meetings of parents for the purpose of emphasizing the value of school and home relationship, supervised play, etc.; co-operation with other agencies for a public supervised playground, and assistance in the arrangements for the consumptive hospital campaign banquet.

A year ago some careful and thinking people had said that it was very doubtful whether we needed a Children's Aid Society in Pembroke, but with the progress of the year and the self-evidence of so many needy cases, these same individuals are among our best supporters.

Last fall a partial town house to house survey-canvass helped to reveal a number of needy cases. The Y. W. C. T. U. assisted very materially in this work. ,

In the spring a number of representative local ladies arranged a Donation Day for the County Shelter. About \$200.00 in cash and supplies were given by the citizens.

The absolute need of a proper County Shelter has well justified itself. As the report below indicates there were nine cases from Pembroke alone placed in the Shelter during the year.

While Pembroke has sent nine children to the County Shelter in Renfrew, It has also done considerable toward their support. In December, 1912, your agent and Rev. Mr. Quartermaine appeared before the Town Council on behalf of the Shelter, and a grant of \$100 was made by that body. The same has been provided again this year. A few prominent Pembroke citizens also gave substantial amounts to this needy institution, and it is hoped that others will follow.

Much assistance has been rendered to the Public and Separate Schools by co-operation with them in cases where education was being neglected. We found one case of three children of 8, 10, and 14 years, where the family had lived in Pembroke 7 years and the two younger children had not attended school at all, and the older child only about four months, and that over a scattered period of time. These are now regular school attendants. Many cases of juvenile delinquency are the direct result of non-attendance or irregular attendance when the children are from 8 to 12 years old.

Causes of cases investigated.—Neglected education, 29; vagrancy, 4; deserted by parents, 3; incorrigible, 3; destitute, 7; drunkenness and immorality in homes, 4; parents unable to support, 5; weak-minded, 1—total, 56.

How cases were disposed of.—Committed to Society, 5; committed to Industrial Schools, 3; placed in foster homes, 5; placed in County Shelter temporarily, 9; sent back to Province of Quebec, 2; on probation with parents, 15; warned for improvement, 14.—total, 56.

Summary of work.—Visits to homes, 107; warning notices, 43; personal interviews, 74; cases investigated, 56; children assisted in homes, food, clothing, etc., 9; moving picture investigation and visits to, 15; agitation and lecture on Medical Inspection, 3; Donation Day, netting \$200.00. Survey canvass of the town.

Of the cases investigated, 42 were boys, 14 were girls, 11 had father dead, 9 had mother dead, 1 had both parents dead.

RUSSELL AND PRESCOTT COUNTIES.

OFFICERS.

Officers—

President—Jas. Brock.

Treasurer—D. S. McInnes.

Secretary and Inspector—Rev. Jno. Galt.

The Secretary reported as follows:—Our Society having been organized but a short time, there is but little to report in the way of things accomplished, although a good deal of foundation work has been done. Our efforts have been mostly in Vankleek Hill and immediate neighbourhood where we have sought to excite the interest of the better class of citizens in the work of the Society. Attention has been called to the provisions made by the powers that be for the protection of children and the Act to restrain the use of tobacco by young persons has been circulated among merchants and others, with, I believe, really good results.

We have taken action in the case of one family in which the children are not being properly provided for nor properly trained in any sense. Warning has been given and action threatened but with no good results as yet. Domestic conditions prevent our seeking the custody of the children for a short time, but such action must be taken unless very great improvement takes place soon.

SIMCOE COUNTY (BARRIE).

OFFICERS.

President—Hampton E. Jory.

Vice-Presidents—Rev. Dr. McLeod and Rev. W. Hipkin.

Secretary-Treasurer—Rev. Andrew Smith.

The annual meeting of the Children's Aid Society was held on December 19th. The President, Mr. Hampton E. Jory, presided. We have applied and received from the Lieutenant-Governor, through Mr. J. J. Kelso, a charter giving us an extended jurisdiction, so that we now conduct our work as the "Children's Aid Society of Simcoe County." The secretary presented a brief report, as follows:

In presenting this annual report I am glad to say that we have had a successful year. We have so far as finances are concerned, sailed practically on an even keel. The work is certainly growing and demanding the untiring attention of the officers

in charge, and the society at large. We feel grateful to the workers and officers who have without exception, never saved themselves so far as interest and co-operation is concerned. Our new president has taken hold of the work with vigor, and we are to be congratulated on having a president who is in such full and active sympathy with us. The same may be said of the vice-presidents who are always at the service of the children and society. Our horizon is widening and in the new order of things we look forward to the best year in our history.

During the year six children have been made wards of the society. Those placed in foster homes number twelve.

Complaints concerning the treatment of children are always numerous, and promptly investigated. Only where the conditions warrant it, is any action taken.

In the County of Simcoe, the Barrie Branch of the C.A.S. have between 40 and 50 wards, while altogether, reckoning those placed within the bounds of the County from all branches, there is in the neighbourhood of 160.

At present, Mrs. B. Steer, of Napier Street, is in charge of our shelter.

ORILLIA BRANCH.

The annual meeting of the Orillia Branch Children's Aid Society was held in the Council Chamber, on Monday evening, November 10. In the absence of the President, Mr. H. T. Blackstone, Mr. C. J. Miller was appointed to preside. The attendance was small, but included some of the prominent men of the town.

The treasurer, Mr. Wm. Grant, presented a report of the receipts and expenditure showing a balance on hand of \$32.84. The Secretary's report of the year's work was read, and a motion thanking Mr. Knox was passed on motion of Rev. Mr. Anderson and Mr. G. H. Hale.

Secretary's Report.

The report of the very efficient secretary, Mr. J. D. Knox whose death we now lament, was as follows:

Another year has passed away, and it is my privilege to report to you how the time has been used in the advancement of the work for which we are banded together. The field is large, and the opportunities many for carrying on the grand labour of love by caring for the helpless, housing the destitute, improving home conditions, and endeavouring to create a public sentiment in favouring and aiding every movement tending to improve the social life, and moral natures of the children of our community whose natural guardians have failed to do their part, or whom the adverse fates have left destitute or in distress. One of the failures of our local organization is the fact that so many of our willing and able citizens remain outside of its membership. Activity on the part of every broad-minded person would soon result in a purer social atmosphere, and at the same time prove economical in the management of the various branches of civil government. With regard to those actually engaged in child helping and saving it may be said that the satisfaction arising out of the consciousness of having helped even one little child is ample reward for all thought or trouble put forth. Let one of the chief objects of the future be to enlist not only the sympathy but also the active help of the people of the town by having them report cases of neglect, or hardship to the society so that the powers vested in it may be exercised. At one time we seemed in danger of not having a shelter, but when necessity arose our kind hearted matron came to the rescue once more, so that the Society have always had a place for the unfortunate. Among the conditions which no doubt have made our work lighter during the year is the enforcement of the temperance law, The use of liquor always intensifies suffering among the poor, and adds to crime and delinquency among the children of inebriate parents. A few cases of juvenile misbehaviour have come into court. These trials have been attended by representatives of the C. A. S. and the results were generally beneficial to the culprits, good advice

accompanied with warnings. The school authorities have appointed a regular truant officer, whose duties require him to visit the homes and if necessary prosecute parents who neglect to send their children under fourteen years to school regularly. It is to be regretted that cases are frequently brought to our notice of employers engaging boys under fourteen year to work during school hours. Steps should be taken to enforce more rigidly the Curfew Law. It is openly violated and parents should have a proper warning. Several meetings of the Executive have been held but much of the work has been done through consultations among the officers. The correspondence has been large, amounting to a good many hours work on the part of the Secretary. This is caused by the belief that we always have children for adoption in our shelter. Many persons also think that our shelter is open to all classes of helpless little ones. So it is under certain conditions and with narrow limitations. The matron is a volunteer, paid only when she has a charge on hand coming to the Society incidentally. Notwithstanding these facts, however, several applications for the care of illegitimate infants have come to us from physicians and police who were aware of the circumstances, and who were looking to the care of the poor unfortunates.

The following summary may be of interest: Children provided with homes, 3; children changed, 2; visits to wards, 6; warnings to parents, 10; applications for children, 54; letters received, 50; letters written, 40; attendance at court, 4; helped with clothing, 6.

Since the above report was prepared the regrettable news has been received that Mr. J. D. Knox, the efficient secretary for some years past, had died rather suddenly. At much personal sacrifice Mr. Knox engaged in the work of child saving and often devoted his Saturdays and holidays to investigating reports of neglect and ill-treatment and to the work of helping and encouraging young people to lead useful lives. His memory will long be cheirshed by those who knew his real worth in our community life.

Gathering Fuel.

STORMONT, DUNDAS AND GLENGARRY (CORNWALL).

President—J. C. Alguire.
Secretary—Mr. Robert Pelyea.
Treasurer—H. B. Fetterley.
Agent—A. Maclaren.

The report of Mr. A. Maclaren, Agent, showed that the Society is gradually coming before the people.

At the request of our Society the council re-enacted the curfew by-law and passed a cigarette vendors' license by-law. Your agent was appointed assistant truant officer and in two months investigated 20 cases, and secured the return of 7 boys to school. Thus we are laying our hands on boys at the first sign of criminal tendencies, viz., truancy. Medical inspection has also been agitated for and we hope to secure it in the near future. How much this will mean for physical, mental and spiritual efficiency in the lives of future Cornwall citizens cannot be measured. Co-operation has been established with Alexandria, Morrisburg and Monkland, and prospects are bright for further extension. The United Counties have been circularized well, covering school teachers, ministers, police, and magistrates. Twenty visits to wards of the Society have been made.

Three cases involved the taking over of children. Several parents have also been consulted and advised as to the control of wayward boys.

A growing sympathy is felt between the chief of police, the magistrate and your agent which has led to co-operation in dealing with several boys. Four boys accused of petty stealing have been placed on probation and eight others brought up and warned.

Twenty-six cases have been dealt with involving between fifty and sixty children. We now have fourteen wards, nine in homes and five at home on probation. There are six cases now on our hands which will be dealt with at once.

In closing let me urge upon the new committee the question of securing some place of detention for juvenile offenders. At present, contrary to law, the boys are locked up in the police cells.

 SUDBURY SOCIETY.

Honorary President—Chas. McCrae, M.P.P.
President—George Elliott.
Vice-President—R. H. McCarten.
Treasurer—Dr. W. R. Patterson.
Secretary—Mrs. P. S. Frawley.

The situation in Sudbury has been rather discouraging during the past year. While an earnest effort was made to secure a shelter and land was given on which such a building could be erected, apparently no effort has been made by the local friends to secure the necessary funds to complete the movement. Consequently the Society is still without a shelter and a number of cases of neglected children have been allowed to drift. What is needed is a district inspector to organize the work and sustain enthusiasm and interest from week to week. Mrs. Frawley as secretary has accomplished a great deal in spite of many discouragements and was able through an entertainment to secure a fund for the Society of over \$600. The appointment of a man to devote all his time to this important work in the Sudbury district is one of the pressing needs.

TEMISKAMING DISTRICT (HAILEYBURY AND COBALT).

Honorary President—Col. A. M. Hay.

President—E. C. Kingswell, re-elected.

Vice-Presidents—Clergymen of District.

Secretary—N. J. McAulay.

Treasurer—T. C. Wood, Manager Canadian Bank of Commerce, Cobalt.

In addition to the above the Mayor or Reeve and one representative from each Municipality in the District are also members of the Board of Management.

A fairly large crowd attended the annual meeting of the Children's Aid Society in the Parish Hall last night, when the officers for the ensuing year were elected. The society had a favourable year and have accomplished much good in the district.

Mr. N. J. McAulay, inspector of the society for Temiskaming, spoke on the organization of the first Children's Aid Society at Toronto, in 1891, and the wonderful progress of the movement since that time.

The Temiskaming branch of the society, Mr. McAulay said, dealt from its organization three years ago until the present time with seventy-three children, made wards of the society and 32 placed in foster homes, while others have been placed with relatives and sent to Industrial Schools.

Mr. McAulay's review of the 1913 year's work was as follows:

We are more than ever convinced that the work of the Children's Aid Society in this district is of the utmost importance to the future developments of this newer part of the Province of Ontario in rescuing children from conditions of abuse and neglect, which are being placed in foster homes where they are brought under the influence of Christian training, which will enable them to grow up good citizens. The work of the Society in this district has not been carried on as effectually as it should have been owing to the fact that there is no Children's Shelter at the present time, and I may say that it is impossible to do the work properly without having a home to bring children to, where they can be looked after temporarily until arrangements can be made to have them placed in foster homes. I think the time has come when the matter of providing a Provincial Shelter for the whole district should be brought to the attention of the Government, and I have no doubt that if this matter is properly placed before the Government, showing the need of an institution of this kind for the better protection of children, it will receive their very serious consideration.

Number of children's cases dealt with, 125; involving the interests of 210 children.

Complaints received, 105; cases attending court, 57; made wards of the Society, 10; returned to parents, 12; placed in foster homes, 7; sent to St. John's Industrial School, 6; sent to Victoria Industrial School, 2; fined, 6; suspended sentence, 22; assault, 65; non-support, 6; number of truants, 12; dismissed, 4; notice of warning served, 73.

RESOLUTION *RE* SHELTER.

Resolved, That whereas the work of the Children's Aid in rescuing children from conditions of abuse and neglect in this northern portion of the Province cannot be carried on as effectually as it should be owing to the fact that there is no Children's Shelter at the present time;

And whereas conditions in this newer portion of the country make it almost impossible to provide local accommodations for the care of neglected children;

Therefore it is hereby resolved that the proper Government authorities be interviewed in the matter of providing, at the expense of the Province, a central Children's Shelter suitably located to care for neglected children in this northern part of Ontario, and that a copy of this resolution be forwarded to Mr. J. J. Kelso, Superintendent of Neglected and Dependent Children of Ontario.

TORONTO SOCIETY.

Officers.—President, J. K. Macdonald; Treasurer, A. M. Campbell; Inspector, Wm. Duncan.

REPORT OF BOARD OF MANAGEMENT.

With the 31st December, 1913, the Society completed twenty-two years of strenuous effort in the interest of the unfortunate, neglected, destitute and often cruelly treated Protestant children, of the City of Toronto, and for any measure of good accomplished, the members of the Board, and the devoted helpers through whom the work was done, desire to record their heartfelt thanks to Almighty God for His leading and guiding hand throughout the years.

Forty meetings of the Board, and committees of the Board have been held during the year.

The members find that having in their hands some days before the monthly meeting a copy of the report of the Secretary, they are able to make themselves acquainted with the work being done, and also often a knowledge of details not otherwise possible. These reports covering from eighty to one hundred cases, generally families that have called for special dealing, with a synoptical history of each, could not be read in full, for want of time, while under the system adopted the time of the meeting is saved, and each member can become fully seized with the facts of what is being done, and is introduced to each case.

The work of 1913 greatly exceeds in volume that of any year in the history of the Society. A comparison with the previous year will be of interest:

	1912	1913
Average number per day	51	67
Number of complaints	912	1,370
Involving the interests of children to the number of	2,531	3,171
Children placed in foster homes	82	174

The number of cases in the Juvenile Court increased 25 per cent. during the year. It will readily be seen that the large increase in the outside work entails an equally increased amount of work in the office where complete records are kept.

The Receiving House was opened February last, and has been most beneficial in safeguarding the health of the inmates of the Shelter. One hundred and sixty-three children passed through the Receiving House in the last eight months.

Minding the Baby.

EXTENSION WORK.

The Board, as early as it was possible to do so, proceeded with the erection of a pavilion on the Society's property near Bronte. It was not, however, till the early part of August that it, and the water supply system were completed. The pavilion is a handsome and commodious structure well suited to the purpose for which it is to be used. It is 62 by 64 feet, capable of seating 175 persons, with a verandah twelve feet wide on three sides. Its primary use is as a dining room for all parties there, having complete kitchen appointments attached and, also, temporary accommodation for the man and wife in charge. The secondary use will be as a shelter in wet or cold weather. Complete water supply system has been installed by the use of compressed air. The cost of these was \$9,032.80. Late as the season was, a beginning was made and two parties of tired mothers and children were taken out and each given an outing of two weeks. The total number of days spent by mothers and children was 465. This was greatly enjoyed, and all returned to the city benefitted and happy. The sleeping accommodation was in tents, ten of which were provided with wood floors, and affording bed room for a mother and two or three children. Arrangements are being made looking to a large, helpful work being done during the coming summer.

MENTALLY DEFECTIVE CHILDREN.

With the increase in the city's population the increase of this unfortunate class keeps equal pace. Attention has been drawn by this Society several times to the need for a suitable institution, where they could be cared for, and where an opportunity could be given for such mental development as they are capable of, but so far the Government has done nothing in the way of providing such an institution. Allowing this large class to go uncared for is a serious menace to the race, as it is sure to bear bitter fruit. Closely allied to this is the need for some law that will reach and lessen, if it cannot stop, the unholy immoral relations between men and women who disgrace themselves and humanity, and to whose unholy and unlawful intercourse very largely may be traced the unfortunate class just referred to, as well as a large proportion of the other children falling to the care of this, and of other Children's Aid Societies.

The number of complaints received and attended to was 1,370, being 458 more than last year, affecting the interest of 3,171 children (640 more than last year).

Since the organization of the Society 22,961 cases have come under its supervision, involving the interest of 33,296 children.

THE SHELTER.

As was anticipated, the erection and opening of the Receiving House last year, where the children are kept for the first fourteen days, has been the means of keeping the Shelter comparatively free from sickness. There were, during the fall and winter, several cases of chicken pox. When it is realized that there is approximately half an acre of floor space to go over every day, and keep clean, besides caring for, and preparing food for, an average of 80 souls, some idea is gained of the work to be done each day. The total number of days represented by the children in the Shelter during the year is 24,521, or an average of 67.18 per day.

The following statement shows from whence the children enter the Shelter and how discharged:—

Admissions.—Made Wards (excluding 7 in residence).....	165
From Court.	675
From Foster Homes.	34
Lost.	23
For Shelter.	156
From Various Homes.	30
From County.	1
From General Hospital	2
Returned Runaways	3
From Jail	1
 Total	 1,143

HOME-FINDING.

One hundred and seventy-four children were placed in foster homes during the year 1913. This is an increase of 92 over the previous year. This branch of the work has called for much time and attention. On an average twelve letters are written in connection with each child adopted. The letters received from foster parents and children, some of which are printed in another part of this report, will show that much care has been taken in selecting good homes for the Society's wards. The total number of children placed by the Society since its inception, in foster homes, now amounts to 938.

FINANCIAL REPORT.

The following is a summary of the statement of the Treasurer:

<i>Receipts.</i>	<i>Disbursements.</i>
Received from various sources \$19,153 65	Expenditures \$23,945 72
Extension work acct. from 1912 8,129 44	Extension Work account 4,170 47

Cash on hand, Jan. 1, 1913. 600 25	
\$28,116 19	\$28,116 19

In a poor district.

ST. VINCENT DE PAUL SOCIETY, TORONTO.

OFFICERS.

- President*—Matthew O'Connor.
- Secretary*—William T. Kernahan.
- Treasurer*—Daniel Miller.
- Agent*—P. Hynes.

The Agent sends in the following report: In compliance with your request, I herewith forward to you a statement of the work of this Society for the year 1913, but as the fiscal year of this Society terminates on the 31st of March, this report is not complete in all respects.

The Agent's special report of the work of this Society for the year 1913: During the year 585 cases were brought to the Agent's notice, affecting the interests of 685 children; of these cases 525 were from the Juvenile Court, and 60 were private cases reported to the office.

How Disposed of.—Placed on probation, 130; fined (many suspended), 118; remanded till called on, 80; placed at Good Shepherd's Home, 6; committed to Jail Farm, 12; committed to hospital, 1; ordered to pay \$5 a week each to their children or go to the Jail Farm, 8; committed to Central Prison, 3; committed to St. John's Industrial School, 40; committed to St. Mary's Industrial School, 4; made wards of this Society, 25; committed to the Mercer Reformatory, 7; discharged on suspended sentence, 19; placed in St. Vincent's Infants' Home, 5; discharged, 34; returned to parents, 18; committed to jail, 2; committed to Blantyre Shelter, 13. Total, 525.

THUNDER BAY DISTRICT (FORT WILLIAM, PORT ARTHUR).

PORT ARTHUR BRANCH OFFICERS.

President—Mr. Geo. Gibbon.
First Vice-President—Mr. J. Bowman.
Second Vice-President—Mrs. A. Mooney.
Treasurer—Mr. F. W. Bell, Fort William.
Secretary—Mr. Frank Blain, Fort William.

FORT WILLIAM BRANCH OFFICERS.

President—Mr. A. Snelgrove.
Vice-President—Mr. W. A. Armstrong.
Treasurer—Mr. F. W. Bell.
Secretary—Mr. Frank Blain.

SCHREIBER BRANCH OFFICERS.

President—Mr. A. McGregor.
Vice-President—Mr. E. J. O'Brien.
Secretary—Mrs. James Coughlin.

The Secretary reports: We received from municipalities as follows:

Fort William	\$1,800 00
Port Arthur	1,300 00
Schreiber	100 00

A branch of the Society was formed during the year in Schreiber.

During the year 1913 the work of this Society has grown both in the number of cases reported and investigated, and in the broadening of our work since the opening of the Shelter. In July the Shelter was opened to children, and during the half year we have cared for thirty-eight children, some of whom were in the Shelter more than once before being placed permanently. The admissions and dismissals are as follows: July—Admitted, 16; dismissed, 9. August—Admitted, 14; dismissed, 8. September—Admitted, 9; dismissed, 4. October—Admitted, 6; dismissed, 9. November—Admitted, 6; dismissed, 4. December—Admitted, 1. In Shelter on December 27th, 1913, 18.

In addition to the care of wards committed to the Society by the courts, we have found it necessary to accommodate children whose mothers from one cause or another are forced to maintain themselves and who desire to support their children. Of the eighteen children in the Shelter on December 27th, nine are babies, six being fed with the bottle. This work has necessitated the engaging of a trained nurse to take charge of this department.

Surgical and medical treatment for our children has required a considerable part of our attention. In this we have the hearty co-operation of physicians, dentists and hospitals in Port Arthur and Fort William.

The health of the children resident in the Shelter has been good. It is quite the usual thing for them to rapidly gain in weight after admission, wholesome food, regular meals, and early hours are insisted on. We are thankful that while measles were at one time on every side of us, and some of our children were attending school, we escaped infection. We are to be congratulated upon the remarkably low death rate with our infants, both in the Shelter and among those placed in foster homes.

While so much is being done with the present equipment, when one realizes that there have been at least as many more who have applied for admission and have necessarily been refused, the need of adequate accommodation is to be conceded. The time has come for definite forward action in the interests of child welfare; while final arrangements have not been completed we have the personal assurance of one who is interested in our work that a suitable site will be available for our use if we wish to

build this year. It would be well if the Society were in a position to at once accept such an offer. The securing of plans of a suitable building, with specifications and an estimate of cost, would enable us to proceed with the necessary canvass for finances immediately upon such an offer being received.

In the work of investigation of complaints, we find an increase from 91 cases in 1912 to 166 cases in 1913; 78 of these were handled more than once, while 88 were disposed of with one interview. There were 259 children whose interests were involved by these investigations and of these 21 became wards of the Society, and three were sent to correctional institutions. In this department of our work the emphasis is placed upon prevention of delinquency and the conservation of the home. In addition to the 21 children who became wards of the Society during the year we had returned to us from employment or from foster homes ten children, making a total of thirty-one to be accounted for. Twenty-four of these were placed in homes during the year, leaving seven in the Shelter to be placed. It is one of the pleasures in our work to visit the homes that have been opened to our children and to note the improvement in health and general appearance, in conduct and in education, that has resulted from absence of a Shelter.

VICTORIA COUNTY (LINDSAY).

OFFICERS.

Honorary President—Dr. A. W. Vrooman, M.P.P.

President—Dr. E. A. White.

First Vice-President—John Rogers, Esq.

Second Vice-President—Mrs. H. G. Whiteside.

Third Vice-President—Geo. E. Rea, Esq.

Fourth Vice-President—Wm. McWatters, Esq.

Secretary—Mrs. E. E. Sharpe.

Treasurer—Mrs. Geo. A. Milne.

Solicitors—Messrs. L. V. O'Connor and L. R. Knight.

Auditors—Messrs. A. L. Campbell and Newton Smale.

The annual meeting of the Children's Aid Society was held in the council chamber on Friday afternoon, January 9th, at 4.30 o'clock, with an attendance of thirteen. Dr. White, President, occupied the chair until called away. The features of the meeting were the re-election of the old officers and the report of the Secretary, Mrs. E. E. Sharpe, which was adopted.

During the year nine meetings were held; average attendance, seven. Much work, necessitating a great deal of arduous visiting through the county, was done by the Secretary. Many children were benefitted. Little can be done, however, owing to the absence of a Shelter.

FINANCIAL STATEMENT.

<i>Receipts.</i>		<i>Expenditures.</i>	
Balance, ending year 1913.....	\$1 93	Board for children in temporary homes	\$257 45
County grant of Victoria	400 00	Clothing for children	12 69
Donation from H. J. Lytle.....	5 00	Boots for children	4 45
		Travelling expenses	4 50
		Printing and fillings report.....	10 78
		Miscellaneous	2 50
		Secretary's salary	60 00
		Loan from Children's Shelter Fund	47 00
			\$399 37
	\$406 93	Balance on hand	\$7 56

Audited and found correct.

A. L. Campbell, N. Smale, Auditors.

Children's Shelter Fund.—Bank interest, \$3.62; Tag Day receipts, \$210.18; Total, \$213.80.

WATERLOO AND BERLIN.

OFFICERS COUNTY ORGANIZATION.

President—James E. Kerr, Galt.

Vice-President—Rev. Theo. Spetz, Berlin.

Secretary-Treasurer—J. R. Strickland, Berlin.

Preston Representatives—W. B. Ziemann, Mrs. Woershing.

Hespeler Representatives—D. N. Panabaker, Mrs. W. Kribs.

Ayr Representatives—Rev. Ellison, Mrs. Goldie.

Waterloo Representatives—Mrs. G. Wegenast, Mrs. Dr. Bauman.

Elmira Representatives—Rev. F. B. Meyer, G. Klinck.

Wellesley Representatives—Charles F. Ottman, Miss Burdocks.

New Hamburg Representatives—John G. Wing, Mrs. S. Merner.

Berlin Representatives—Miss Snider, Mrs. J. Kaufman.

Galt Representatives—Mrs. J. R. Cavers, Mrs. T. Carscadden.

Inspector—Rev. C. R. Miller.

The annual meeting of the Children's Aid Society of Berlin and Waterloo County was held in St. Mary's Hall on Thursday afternoon. It was the largest annual meeting ever held, which, however, was quite natural, as the work is increasing rapidly each year, as shown by the reports presented to the meeting by the Inspector. While the balance of \$125.50 was not as large as the balance one year ago, it is worthy of mention that no requests have been made to private citizens for subscriptions, as the different municipalities in the county have made grants, some of them being for the first time.

TREASURER'S REPORT.

<i>Receipts.</i>		<i>Expenditures.</i>	
Balance from last year.....	\$240 37	Expenses annual meeting, 1912.	\$9 75

AGENT'S REPORT.

It has unfortunately been our lot to deal with more criminal adult offenders against children during this year than any other year in our history and among the crimes committed were the most heinous imaginable. A number of cases of suspected crime were thoroughly investigated, but according to the advice of the Crown Attorney and our honorary solicitors we took no action because of lack of evidence.

When I state that we are directly superintending over 360 children that are wards of the Children's Aid Society in our county it will in itself prove that there is considerable work in properly looking after their interests.

What has augmented our work considerably is that children who were committed to us when young, and now have grown up to be young men and women, are manifesting their apparently inherited weaknesses, and, being of an age when you cannot deal with them as with a child, yet are, in many respects, determined to gratify their own desires. This makes it very difficult to know how to deal with them.

It is not out of place to state that the time has come when accommodation must be provided for the feeble-minded young women who are incapable of looking after themselves and not safe to be at large. At present there are steps being taken to bring about the organization known as the "Big Sister Movement," and we hope that every church in the city will extend its sympathy and co-operation in this much needed work.

The Children's Aid Society is greatly indebted to the different organizations who have assisted in this great work and among the number we wish to state that the matron and workers of the Berlin Orphanage have done everything in their power, and might state that without their assistance we would have been unable to do our work satisfactorily. The number of applications for, and girls apprenticed, together with the many visits by Mrs. Clark, of Bethany Rest Home for Girls, would convince any critic that this work has been a most remarkable help to us.

The Children's Aid Society desires to give credit to Mr. and Mrs. Martin, of the House of Refuge, together with Mr. H. J. Bowman, under whose supervision they are laboring, for their excellent work, taking over many young women who are feeble-

mind and a nuisance to the municipality in which they live. The work accomplished under their very able leadership goes only to demonstrate that every municipality throughout the Province could well look after its feeble-minded women and thus save the public from great financial and moral losses.

C. R. MILLER.

Children Dealt With.—Made wards of the Society, 34; placed in foster homes, 83; girls apprenticed by Bethany Home, 68; total children placed or apprenticed, 151. Boys and girls in mischief, 56; children disciplined in detention room, 14; children placed under our parole by court, 5. Children placed in institutions: Home of the Good Shepherd, 2; Father Baker's Institute, 1; Sanatorium for Consumptives, 1; Hospital for Feeble-minded, 1; Alexandra Industrial School, 1; child sent to V. I. S., 1; founding children provided for, 4. Total children dealt with, 283.

Slum Houses—Trying to keep cool.

WELLAND COUNTY.

OFFICERS.

President—J. W. Marshall.

Secretary—John Flower.

Representatives—Welland, J. Gilmore and Mrs. Hardison; Bertie, E. O. Disher; Humberstone village and township, Charles Steele; Chippawa, Dr. Grey; Willoughby, W. A. Dell; Crowland, Alex. Asher; Stamford, John Gallinger; Thorold Township, John Kottmeier; Thorold, J. H. Thompson; Pelham, B. A. Pattison; Wainfleet, Rev. Mr. Younger; Port Colborne, Mrs. MacDonald; Fort Erie, Mr. Dodds; Bridgeburg, J. G. Rathvon.

Some of the matters dealt with by the Welland Society during the year were as follows: Girl of fifteen living with mother and stepfather had for several years been ill treated, beaten, poorly clad and fed and not sent to school. Parents brought before magistrate, home found for the girl who was not satisfied in it, and was placed in the Alexandra Industrial School in Toronto.

Family living in county, complaints received that mother is immoral and drinks, children not sent to school, home ill kept. This home was visited, the parents summoned before magistrate, children committed to care of the Society and subsequently fewer complaints received from neighbors.

A home in town slovenly and forlorn, caused by drink, mother worse than father. Children irregular at school. This home visited and parents warned. Some improvement thereafter in appearance of children and their attendance at school, though not much improvement in the character of the home.

A husband deserted by wife wished to have homes found for two children, but reconciliation of parents effected and family now apparently doing well.

On January 30 the President and Secretary waited upon the President and Vice-President of Niagara Falls branch to discuss the problem of a shelter for Niagara Falls City and the County of Welland.

On Feb. 4, the above mentioned officers of Niagara Falls presented the case to the Welland County Council. A committee of the County Council and a committee of Niagara Falls City Council have been appointed to confer with committees of both societies regarding the matter of a shelter.

A WARM NIGHT.

WELLINGTON COUNTY (GUELPH).

Honorary President—Dr. Brock.

President—Sheriff Allen.

First Vice-President—Mrs. Goldie.

Second Vice-President—Mr. Buckland.

Secretary—Miss Mahen.

Treasurer—T. G. McMaster.

Solicitor—W. E. Buckingham.

Auditor—Geo. Chapman.

Physicians—Dr. Walsh, Dr. W. O. Stewart, Dr. D. Foster.

Veterinary Surgeons—Dr. Davidson, Dr. Harvey, Dr. Grenside.

The children of to-day are the men and women of to-morrow. Upon them will rest the destiny of the nation, as upon us it now rests. To care for these green shoots and train them to grow up able to bear through the storms of life and its temptations is the noble work of the Children's Aid and Humane Society of Guelph and the County of Wellington, which held its annual meeting November 25, 1913, in the Y.M.C.A.

Mrs. O'Sullivan of the Mercer Reformatory; Mr. J. J. Kelso, and Mayor Samuel Carter were there to inspire and encourage the workers with interesting addresses descriptive of the need for the society and the progress it has made.

The Treasurer, T. G. McMaster, presented his report, as follows:

<i>Receipts.</i>		<i>Disbursements.</i>	
Balance on hand	\$476 52	Inspector's salary (part)	\$519 96
Young Ladies' Auxiliary	1,222 18	Toward expenses	109 10
Inspector	428 90	Matron's salary	499 92
County grant	700 00	Office rent	75 60
City grant	700 00	Shelter maintenance	1,906 84
Sundry societies	62 30	Printing, etc.	255 46
Sundry parties	45 07	Balance	293 51
Mite boxes	25 42		
	\$3,660 39		\$3,660 39

Mr. McMaster drew attention to the very excellent work being done from year to year by the Young Ladies' Auxiliary. He also expressed his satisfaction that the county grant had been raised to the same amount as the city grant, and hoped that in view of the increasing number of children who had been dealt with, both in the city and the county, the municipalities would see their way to make at least a small increase for the coming year.

MENTAL GYMNASTICS.

Inspector Amos Tovell gave an interesting review of the year's work:

The field is a large one, including the County of Wellington, as well as the City of Guelph. One general visit to reach one hundred and sixty wards placed in foster homes, called me into every corner of these counties. Each child was seen personally. Enquiries were made about health, conduct, school attendance, Sunday school and church habits, etc.

Children in the Shelter, November 31st, 1912, 13; received during the year, 57; total 70. Of this number 37 belonged to the city, 29 to the country and four to other places.

These have been disposed of in the following ways: Placed in foster homes, 21; returned to their parents, 22; died in hospitals, infants, 2; sent to industrial schools, 2; discharged, 2; ran away, 1; sent to Scotland, 1.

During the year 18 children were committed to the Society as wards. Five were sent to the Shelter for discipline. Many were admitted to help their parents in time of sickness or for other reasons. By much the greater number of children dealt with do not come to the Shelter. One hundred and eighty-five cases relative to school attendance received attention. Twelve cases of children working in factories were brought to my notice and were dealt with.

About 135 visits were made to homes during the year and about 560 children received more or less attention.

HARRISTON BRANCH.

The committee in charge of the work at Harriston is as follows: Mrs. James McMurchie, Mrs. J. J. Lavery, Mrs. W. F. Brisben, Mrs. Found, and Miss Gertrude Leighton, and Messrs. J. J. Lavery, James McAuley, A. H. Lambert, F. G. Blackhart, the Mayor, and the resident ministers.

PALMERSTON BRANCH.

President—Rev. R. F. Nie.

Vice-President—Rev. Geo. T. Watts.

Secretary—Miss M. McCaughrin.

Treasurer—G. Y. Donaldson.

WENTWORTH COUNTY.

President—Sheriff Middleton.

Secretary—John S. Fry, Dundas.

A Society has been formed to cover the work in the County of Wentworth (outside Hamilton) and they have already had many families visited and are keeping them under supervision. There is, however, great need for an agent giving all his time to looking after neglected children and organizing the work throughout the county.

YORK COUNTY.

President—G. S. Henry, M.P.P., Oriole.

Secretary—R. W. Phillips, Toronto.

Treasurer—W. D. Annis, Scarboro.

Inspector—R. P. Coulson, Stouffville.

A forward step was taken by the City Council, when after repeated requests they agreed to make a grant toward the salary of a Children's Aid officer. Mr. Coulson was appointed and has done some good work during the past few months. He reports as follows:

Some time ago the County Council appointed a committee or board, giving them power to organize a branch of the Children's Aid Society for the County. I was asked to attend a meeting of the committee in the County Council Chambers on the first of October last, with the result that I accepted the appointment of Inspector for the County, largely as an experiment to begin with, and since that time the work has been mostly that of organization, and the consideration of ways and means to carry on the work. So far, the County has done nothing in the way of providing a temporary shelter for children. I may say I have secured one or two places where children can be placed for a short time.

I find that the great bulk of the work is, and will be, in what is known as the shack districts lying contiguous to the city. Owing to large families (mostly English) who are landed in Toronto by over zealous emigrant agents, and having very little means, and where cheap labour (foreign) and high rents, drive them into the townships bordering on the city, these districts soon become thickly settled with no attempt at sanitation whatever, and where whole families are huddled together in one to three roomed shacks. As a result, the environment is bad, the water impure, and as a matter of fact, many of these districts are veritable hotbeds of disease and immorality. The Township Council should secure legislation whereby they can control building restrictions, and until this is done, matters will be worse instead of better.

CHILDREN IN FOSTER HOMES.

The past three weeks I have been visiting and reporting upon the different wards who are placed in homes throughout the county. Children ranging in age from 15 months to 18 years of age, and I may say the result has been most gratifying indeed, with the exception of possibly 3 or 4, the children have exceptionally good homes; are being well treated, well educated, and many of them have bright futures before them. As a result of my visits I have come to the conclusion that there is no work that a man, or body of men, a community, or a government could enter into that would give better results to future generations, or to the present welfare of communities, than that of rescuing from bad environment and evil associations, and placing them in good homes, those children, who of necessity, are growing up in ignorance and vice. I sincerely hope that York County, that is noted for its pure-bred horses and cattle, will at least take the same interest in the improving of and upbuilding of the human race, which is of vastly more importance, to the world at large.

Improved Shelter at Sault Ste. Marie.

Industrial Schools

INDUSTRIAL SCHOOLS

WHEN the Industrial Schools were established in the suburbs of Toronto they were considered safely removed from city influences, but to-day they are almost within the city limits. Sooner or later they must be moved farther away and be provided with ample farm acreage. The Victoria School, with its average of three hundred pupils is heavily handicapped by its proximity to the city and its chronically overcrowded cottages. The need for removal to a farm of three or four hundred acres is growing acute, and some action looking to a change should be taken at once.

POPULATION OF SCHOOLS.

On Dec. 31st, 1913, the population of the four schools was as follows:

Victoria	293
St. John's	73
Alexandra	102
St. Mary's	31

499

MAINTENANCE.

Amount paid by Government to Industrial Schools for part maintenance of children, at the rate of twenty-five cents per day. In addition, various municipalities paid at the rate of eighteen cents per day for each pupil.

VICTORIA INDUSTRIAL SCHOOL.

J. J. Kelso, Esq., Superintendent Neglected and Dependent Children of Ontario.

SIR,—I have the honour of presenting the following report for the year ending December 31, 1913.

SCHOOL ATTENDANCE.

The number of boys in attendauce on December 31st, 1912, was 291. During the year we received 179, including several who had been returned; some to await new situations and others for a further period of detention for purposes of discipline and education. It is sometimes difficult to keep boys in country homes, especially when their parents live in the cities. They find some excuse for leaving and eventually find their way back to the school.

I regret to have to report the death of four boys during the year. We transferred 3 boys to other institutions, deported 2 and 168 left the school, 43 of the latter were sent to foster homes. The number in the school on December 31st, 1913, was 293. It is the intention of the Board of Management to try to keep the attendance down to 275, as this is about the maximum number for which we have accommodation.

CAUSES OF COMMITTAL.

65 were sent for general incorrigibility.	5 were sent for Indecent Assault
67 " " " Theft.	9 " " " Vagrancy.
11 " " " Burglary.	1 was sent for Incest.
2 " " " Incendiarism.	1 " " " Drunkenness.
3 " " " Horse stealing.	

AGE AT THE TIME OF COMMITTAL.

1 was 8 years of age.	48 were 14 years of age.
5 were 9 years of age.	30 " 15 " "
16 " 10 " "	10 " 16 " "
17 " 11 " "	4 " 17 " "
21 " 12 " "	1 was 18 " "
11 " 13 " "	

The average age was 13 years.

We have had a fairly successful year in our work. The industrial departments have been conducted under capable and painstaking instructors and the quality of the work done by the boys has been uniformly good. Many of them have received a training which should prove of great service to them. They have also had the opportunity of receiving instruction in the school of letters in the more important subjects of the public school curriculum. Unfortunately, we are hampered for the want of room in this department, two of the classes are taught in the basement of our school building. Owing to the presence of several feeble-minded boys in the junior classes the best results are not possible. In order to accomplish good work, there should be added two more rooms where a small number of this class could be taught. In teaching them with the normal boys we are unfair to both. However, in spite of these handicaps, our teachers have done admirable work. The system that gives a boy the half of each day at school, and the other half in shop, is an excellent one for boys who have not taken kindly to school.

NEW WORK.

Our heating system has been entirely overhauled and the vacuum system installed. The result has been entirely satisfactory and we have now a heating plant quite adequate for all our needs. The cost of these changes has been \$4,046, taken from maintenance revenue.

For many years we have tried to get the means to build a swimming pool. It is now an accomplished fact owing to the generosity of the late Mr. Herbert Mason. A wing has been added to the gymnasium containing the bath. Every week the boys have a plunge. It is the intention of the management to add a director of sports to the staff; a part of his duty will be the teaching of swimming. In addition to our ordinary expenditure on maintenance we have expended \$6,594 on permanent improvements as will be seen in the appended statement of receipts and expenditures.

I have the honour to be,

Sir,

Your obedient servant,

C. FERBIER.

ALEXANDRA INDUSTRIAL SCHOOL.

J. J. Kelso, Esq., Superintendent Neglected and Dependent Children, Ontario.

SIR,—Allow me to submit the following report of the Alexandra Industrial School for Girls, East Toronto, for the year ending December 31st, 1913:

Number of girls in attendance January 1st, 1913.....	102
Number committed during the year	75
Number returned, having broken parole	12
Number returned from Courts	2
Number returned temporarily for change of situation.....	15

Total number of pupils during the year..... 206

The number paroled during the year was 85.

Number in School January 1st, 1914, 121.

WHY COMMITTED.

Insane	3	Immorality	15
Feeble-minded	12	Incorrigible	16
Theft	5	Bad homes, with impossible condi- tions	23
Arson	1		

The parentage of those committed is as follows:—

Canadian	44	Russian	1
English	18	Colored	4
Scotch	1	Indian	1
Hungarian	1	United States	4

AGE COMMITTED.

Twenty-one were 16.
Thirty-two were 15.
Ten were 14.

Seven were 13.
And five were under 12.

Of the 48 girls paroled for the first time this year, 32 are doing well, 11 fairly, while only 5 have failed absolutely to make good, three of these last being of defective mentality, who should never be exposed to life's dangers.

The work of the School has been, on the whole, progressing favorably. There is a very good spirit among the girls in general, and more enthusiasm is shown for honest work and healthful sport.

The School of Letters, though much disturbed all through last winter by the building operations, is holding its own, and since the reopening in September the teachers are finding their work much pleasanter on account of the bright, well-ventilated rooms. The girls as a whole are also doing much better work and seem anxious to make the most of their opportunities for education. There are at present 26 pupils in the Fourth Class, 28 in the Third, 28 in the Second, and 26 in the lower grades. It is in this latter class that we have most of the mentally defective.

We are also finding the benefit of our new laundry building, as better work is possible there, and better supervision. The work is also pleasanter, and all educators will understand that to accomplish good work one must succeed in making it *happy* work.

We were informed by the inspector for the insurance company that our risk of fire was minimized by our style of building and our laundry arrangements, and that in this respect ours is one of the best laundries inspected.

The improvements and changes made in the Administration Building are altogether most satisfactory, giving us rooms for the isolation of new comers, a small hospital wing where complete isolation can be secured if necessary, a dental and medical room,

good storage for the central stock of dry goods and groceries, a domestic science classroom, and several other conveniences. The new flat of bedrooms over the schoolrooms gives us better sleeping accommodation, so that we can now house 116 without crowding.

Not the least in our list of improvements is our gymnasium. This large basement room is of insufficient height for much fancy apparatus, but gives us good ground space for excellent work, and room for games and exercise in stormy weather, which is much appreciated and of great value educationally. All our girls are drafted into physical culture classes twice each week, and we already see the benefit of this work in more ways than one.

During the summer we have done a great deal towards fitting up our playgrounds. We have now two sets of five good steel swings, two basket-ball grounds, and graded space for croquet, bowling, etc. We have two fairly roomy outdoor rinks and a fine toboggan slide for winter weather, though we shall not be able to give our girls the skating we would wish till we are made more independent of the weather by a covered rink. Several of the cottage officers have done good work in organizing games and sports, so that in this respect we have had a good year.

From 50 to 60 girls daily were out fruit-picking in the neighborhood for about six weeks of the summer vacation, and the money thus earned has been spent in the purchase and installation of a very good lantern, which is a source of joy as well as a means of education. There was also sufficient money earned to supply every pupil in the School with Sunday School papers for the year 1914.

Another great undertaking of the summer was the painting and decorating of the interior of most of the buildings—in all 81 rooms and 13 large halls. This work was all done by our girls under an instructor, and has been pronounced excellent work.

A glimpse of the way in which we try to train our pupils in industry and a well-ordered life, flavored with normal and innocent recreation, may be had by one or two extracts from the girls' time-tables, which are revised three times a year.

A. B.—Rise, 6.30; breakfast, 7; prayers, 7.30; bedroom work, 8 to 9; school, 9 to 12; dinner and short outdoor recreation; dressmaking, 1 to 4.30; outdoor sports, 4.30 to 5.30; tea, recreation, free time (indoors in winter, outdoors in summer), 6 to 7; supervised study, 7 to 8.30; prayers and bed.

C. D.—Rise, 6.30; breakfast, 7; prayers, 7.30; laundry, 8 to 12; dinner and short recreation; school, 1 to 3.30; mending, 3.30 to 4.30; outdoor sports, 4.30 to 5.30; tea; evening recreation, 6 to 7; supervised study, 7 to 8.30; prayers and bed.

The Sewing Department is steadily progressing. More than 700 dresses have been made during the year, besides over 1,500 undergarments and aprons, and an infinity of mending. Thirty-two girls have been instructed in dressmaking through the year. Forty-six girls have had training in cooking, 70 in laundry work, and all in house-work and elementary sewing.

The majority of the pupils improve remarkably in health, with good care, good food and a well-ordered life. Dr. Wells looks after our dentistry, and 96 cases have been treated by her during the year.

We have now 160 pupils out on parole, and all are kept in close touch with the School by regular visits from our Visiting Inspector, by monthly letters from the Superintendent, by small presents at Christmas, and by occasional visits to the School when at a distance, and monthly visits when near by. We had twenty-five of our outside girls "at home" with us for some part of the Christmas holidays.

Ten of our girls were married during the year—all, except two, with our consent and approval. One very pretty wedding was at the School and was the occasion of a greatly enjoyed festivity to the girls. Our festivals throughout the year have been greatly enjoyed, and in many cases of decided educational value. We believe that the best way of eliminating the evil is to supply the good and pure and interesting in recreation. We have had about twenty parties, picnics, concerts and entertainments during the year.

We still have many needs in connection with our work. We should be baking our

own bread, both for the sake of food value and training—but we cannot afford the bake-oven. We should have a special dressmaking room, where that work could be carried on with the older girls without being subject to the interruptions of the ordinary cottage sewing-room—but we cannot afford the salary.

We should have an absolutely separate cottage for the older and more hardened returned girls, or else special provision made for them in the Provincial Reformatory.

We should have more land for outdoor employments, which have the greatest possible regenerating influence, and would become in course of time a source of revenue to the School—but these are all as yet Castles in Spain, for we have scarcely the wherewithal for our daily needs. At the present high rate of living, and at our present per capita income, we shall soon have to get into debt or to fall behind in our work of making over young citizens for our country.

I have the honor to be, Sir,

Respectfully yours,

LUCY W. BROOKING.

ST. JOHN'S INDUSTRIAL SCHOOL.

Mr. J. J. Kelso, Superintendent of Neglected and Dependent Children of Ontario.

SIR,—I have the honor to submit the following report of the St. John's Industrial School for the year ending December 31st, 1913:—

Number of pupils in attendance January 1st.....	73
Number committed during the year	56
Number re-committed	11
Number returned temporarily	13

Pupils placed, 90, 44 of whom were returned home.

There were 65 pupils in the School on December 31st, 1913.

Average age at entrance, 13 years.

Average time in the School, 10½ months.

AGE.

1 was 8 years of age.	8 were 13 years of age.
4 were 9 years of age.	6 " 14 " "
5 " 10 " "	13 " 15 " "
9 " 11 " "	2 " 16 " "
6 " 12 " "	2 were over 16 years of age

Of the 56 new pupils, 21 were from Toronto.

Why Committed.—For intemperance, 1; for burglary, 2; for vagrancy, 2; for destitution, 3; for theft, 15; for incorrigibility, 16; for truancy, 17.

The number of pupils on the register at the close of the year is smaller than hitherto. But the reason for this deficiency can be satisfactorily accounted for.

With a deep feeling of gratitude to the Giver of every perfect gift, there is much to be thankful for and but little regret in the results for the year. There was no case of infectious disease, and in only two instances was there a prolonged sickness.

Work in the classrooms was carried on with zeal and perseverance. Most of the children being backward in schooling and lacking ambition, a heavy burden was thrown upon the teachers; the report of the Inspector, Mr. Power, was favorable, and he was satisfied that much substantial work was being done.

His Grace Archbishop McNeil, not unlike his predecessors, takes a great deal of interest in the School. At the beginning of this year he assigned to the institution a resident priest in the person of the Very Rev. W. R. Harris, LL.D. This was a singularly happy appointment. Deau Harris has no difficulty in winning the good-will of the boys and of inspiring them with confidence in themselves. Excellent results both for time and eternity have been achieved since his coming.

It is hardly necessary to add that the aim of the School is the reformation and the moral training of boys with a view to their ultimately becoming good citizens and worthy members of society. The character of a boy who had been for two or three years associated with bad companions cannot be successfully changed in the course of a few months' discipline. More time is required, coupled on the part of the staff with tact and patient perseverance. The results of the past are gratifying. Boys placed in foster homes, as well as those returned to their former abodes show, with exceptions of course, the efficiency of discipline. The Superintendent keeps in touch, so far as possible, by correspondence and by Inspector's reports, with outside pupils. He is pleased to be able to state that the percentage of boys getting along satisfactorily is large. A few days ago an ex-pupil wrote: "I have a good job and am making \$1.50 a

day. I can assure you that I feel greater enjoyment in recreating myself with this than by spending stolen money." The father of another ex-pupil writes with deep feeling of gratitude for the welcome change he notices in the boy's conduct.

I am, faithfully yours,

BROTHER ABNIS.

February 9th, 1914.

ST. MARY'S INDUSTRIAL SCHOOL.

Mr. J. J. Kelso, Inspector Industrial Schools.

SIR,—In December, 1912, there were in residence 29 pupils. During the year 1913 13 pupils were received and 11 were discharged, leaving 31 pupils in the School December 30th, 1913.

Mentally and physically these 31 children are much the same as in former years. We should say that 15 are feeble-minded, 5 bordering on imbecility, 10 diseased in body, while 11 might be considered sound mentally, morally and physically. This we should consider a fair and reasonable estimate.

The pupils are, during school hours, under the tuition of a First Class professional teacher. Their course of studies follows the prescribed course for Public and Separate Schools. Mr. J. F. Power makes his inspectoral visit each school term.

The pupils outside of school hours and on Saturdays are assiduously trained in all womanly duties. This includes plain and fancy needlework, dressmaking, millinery, cooking, housekeeping, personal cleanliness, music, mending and darning.

Their hours of recreation are spent in healthful plays and games, while on rainy days and holidays a well stocked library of interesting books makes the time pass all too quickly.

Of the eleven discharged during the year 1913, one was transferred to the other department by order of her father, a hard-working, respectable man, who does not at present want his daughter to leave the convent; two were returned on account of immoral conduct, and the remaining eight are doing well so far as we know.

At present there is no sickness among the pupils. They are trying hard to do well and give satisfaction to their different mistresses. A number of them are respectably connected and their improvement traced by fond parents, who are glad to know that they are safe with the nuns.

We trust that this summary will be quite satisfactory, and we remain,

Yours respectfully,

ST. MARY'S INDUSTRIAL SCHOOL.

Juvenile Immigration

COLONIZING YOUNG BRITONS

THERE has been no increase in the number of agencies bringing children to Ontario from the Mother Land and there has been a slight reduction in the number of children brought out during the past year. The inspection of these homes is conducted by Mr. G. Bogue Smart, for the Dominion Government.

The following table will show at a glance the extent of the operations carried on:

Agencies	Boys	Girls	Total
The Dublin Coombe, Hespeler.....	18	12	30
Dr. Barnardo's Homes	460	353	813
Catholic Emigration Society	193	59	252

DR BARNARDO'S HOMES.

February 5, 1914.

J J KELSO, Esq.,

Superintendent Neglected and Dependent Children.

Parliament Buildings, Toronto.

SIR,—I beg to report with reference to our operations for the past year that we received from our Institutions in England and placed in Ontario a total of 813 children, including 460 boys and 353 girls. These young people crossed the Atlantic in three detachments, sailing on the 12th March, 12th June and 25th September respectively. Every child sent out had been under training in one or other of the Homes in England, and the majority of them had been for long periods under the care of the Institutions. All had passed a strict and searching medical examination with the object of assuring that every young emigrant was sound and healthy, and neither weak-minded or constitutionally defective. With the arrival of our second party we passed the 25,000 limit and our Institutions have now brought to Canada and placed out that number of young people since the commencement of our operations thirty-two years ago. During the year we have maintained in full operation the system of after-care of the children placed out in situations or foster homes. We are now employing a staff of fourteen individuals, men and women whose time is exclusively devoted to visiting children in their homes, inspecting the surroundings in which they are placed, and reporting upon their welfare. Cases of ill-treatment or of unsuitability of homes have, I am glad to say, been exceedingly few, and we have, I think, been generally very fortunate in our selection of places for the children. There has been no diminution in the demand and if we could have brought out as many thousands as we have brought hundreds there would have been no difficulty in providing well for all the newcomers. Our children do not contribute to the

congestion of population in the cities and towns, but they go to the country and in most cases remain there. The health of the children has been remarkably satisfactory during the year, and in cases where there has been any breakdown in health, such cases have been treated and cared for at our Home for Boys in Toronto, or for Girls in Peterborough. At both these Institutions trained nurses are employed and we have our own Medical Officer whose time is exclusively occupied in caring for the health of the members of our large family.

A small number of children have been returned to England during the year, either on account of their having failed in health or having seriously misconducted themselves. These deportations are effected in accordance with the principle which has always been adhered to that any child who has been brought out by Dr. Barnado's Homes and who has proved or seems likely to prove a failure and a burden or source of trouble to the community, shall be sent back at the expense of the Institutions.

A. B. OWEN,

Superintendent.

MRS. SMYLY'S HOMES, DUBLIN, IRELAND.

Hespeler, January 25th, 1914.

DEAR SIR,—In reply to your letter of Feb. 3rd, we have received from Dublin, at the above Home during the year 30 children altogether, 12 girls and 18 boys. The average age would work out at over 14 years. The children placed out in the past seem to be doing well or to have found favor with the people if we may judge from the number of applications received. During the year 1913, we received 180 written applications for boys and 90 for girls. I say written, because this does not include the number who are constantly calling at the Home and making verbal inquiries.

During the year all the children under our care for whom we are directly responsible were visited and in nearly every case were found to be doing well. We also make a point to keep in touch with those over the age thus helping and advising them as they grow up.

Yours sincerely,

ARTHUR PULLAM.

CATHOLIC EMIGRATION ASSOCIATION.

St. GEORGE'S HOME, 1153 WELLINGTON STREET, OTTAWA, ONT.

February 11th, 1914.

J. J. KELSO, Esq., Toronto.

DEAR SIR,—During the year 1913, we received in all 252 children, comprising 193 boys and 59 girls. The average ages of these children were boys 15 years, and girls 14 years. Of the boys 83 were placed in the Province of Ontario, and 110 in the Province of Quebec. Of the girls, 10 were placed in the Province of Ontario, and 44 in the Province of Quebec, the majority of these going to Montreal, and 5 were sent to relatives in this country.

The total number of children under supervision on the 1st January, 1913, was 1,348. The new arrivals brought the number up to exactly 1,600, which is the number of visits made during the year.

253 children having attained their eighteenth year during 1913, their names have been removed from our Registers, leaving the total number under supervision on January 1st, 1914, at 1,307.

The number of applications received during the year was, for boys, 579, and for girls 315. Apart from these a good number of children of both sexes have been placed with old employers from whom by reason of our intimate knowledge of their homes, circumstances and personalities no formal application is exacted. Further, owing to the very small number of children received this year, and our inability to satisfy the demand, we have refused and are constantly refusing applications.

The visiting is done by Mr. E. J. Collingwood, and two of the Sisters, who are practically always on the road. Their reports on the children are mostly very satisfactory. A few employers have been reported as neglecting to clothe and care for the child in a proper manner, a few more neglecting to send the child to school. In each case the child has been recalled and replaced to better advantage.

The wages received on behalf of the children during the past year amounted to \$22,237.00. The amount repaid to the children who attained their eighteenth year, during the same period was \$18,708.00.

Yours truly,

MOTHER EVANGELIST O'KEEFE,
Agent.

ORPHAN HOMES OF SCOTLAND.

Brockville, February 9th, 1914

Mr. J. J. Kelson, Toronto.

DEAR SIR.—In April, 1913, we received from Scotland 94 boys, of whom 33 were under 14 years and 61 over 14 years. In June, we received 88 girls, of whom 47 were under 14 years and 41 were over 14 years old. These children have practically all been placed within 100 miles of Brockville.

The year has been especially marked by the effort we have made to get 9 months schooling for all our children under fourteen. This has involved much work and many removals; but we have felt it to be a very necessary work. It has caused a decline in applications for younger children.

The applications for older children are, as usual, many times greater than we are able to supply. Wages paid are far better than in the past and the class of homes where children are placed is improving.

ROBERT GRIERSON,
Superintendent.

MR. FEGAN'S HOME.

295 GEORGE STREET, TORONTO.

January 4, 1914.

DEAR SIR.—We brought out in 1913, 117 boys. The average age was 15 years, and all were placed on farms in Ontario within a radius of 100 miles from Toronto. The demand for this help is as great as ever, and we always have far more applications than we can fill. Our boys have received good wages and have voluntarily sent a New Year's gift to the Governor, of \$50.20 to help other poor boys out to Canada.

GEO. GREENWAY,
Superintendent.

KNOWLTON DISTRIBUTING HOME.

Knowlton, Que., 10th February, 1914.

During 1913 we received 164 children, 101 boys and 63 girls. Average age 10 to 17, though 5 or 6 were younger. Suitable homes were easily found for all, and even for the younger ones little difficulty was found in getting good homes without boarding out.

In addition to the above, three of our old girls who had been back to England on visits, returned with our parties and were soon happily settled either in their old places or elsewhere.

Our children are settled in the English speaking portions of Quebec and in Eastern Ontario.

JOHN S. ROUGH,
Superintendent.

MANCHESTER HOME, BELLEVILLE.

The number of boys received was 47, average age 14, and the number of girls received was 15, average age 13. They have been placed out in the eastern part of the Province around Peterborough. Boys are out as far east as Iroquois.

Regarding the visiting, I expect to do that myself.

Rev. Robert Wallace the superintendent for many years past withdrew from the work on July 1st, 1913, on which date I began the duties of superintendent under the Manchester and Salford Boys' and Girls' Refuges and Homes, England.

HEBBERT O. KNIGHT.

MACPHERSON HOME, STRATFORD.

As in the year before, we brought to this country from London, England, three parties, containing in all 215 young people. The first party arrived in Quebec on the Allan S. S. "*Corsican*," on 13th May. This first party consisted of 68 boys and 31 girls, or 99 altogether. The second party arrived at Quebec on the Allan S. S. "*Tunisian*," and consisted of 45 boys and 56 girls, a total of 101 souls. The third party was smaller, just 15 young folks in charge of one of the lady workers from England. There were 5 boys and 10 girls, and they arrived at Quebec on the Allan S. S. "*Virginian*." The total number of boys for the year is 118; that of the girls is 97.

The average age for both boys and girls, we find, is slightly over 13—more than a year above that of 1912. Only one of these children—a little girl—has been sent out of our regular and easily reached territory of Western Ontario. This little girl is in Ontario Province still, on Manitoulin Island, and has been adopted by very kind folks there. Nearly all of the boys and girls have gone on to farms, a few only of the girls going into towns and cities as servants. We do not "board" children out.

One gentleman and one lady have composed our visiting staff this year. Mrs. Merry, however, has visited a number of girls in the larger cities this year. Three boys were deported by us during the year. They all were in need of medical treatment that could be more easily secured in the Old Country, and we accordingly sent them back.

There have been the usual number of family re-unions, again this year, and we have heard of or been present at the marriages of several of the boys and girls. We still find that quite an appreciable number of the older children out of our care, go to the West and homestead. Several children passed the Entrance Examination last June. One boy, who has been adopted by a couple, secured the highest marks in Perth County, and gained a County Scholarship. He is attending the Collegiate Institute. We know of other children, through the country, who are thus extending their education by attending High School.

W. H. MERRY,
Superintendent.

SALVATION ARMY.

The total number brought to Ontario under the auspices of the Salvation Army was 121; average age, 10-15; number placed in foster homes, 50; sex, male, 93; female, 28.

Inspection.—Visits are made periodically to all homes by members of our staff here, under the direct supervision of our Major, J. McGillvray (an officer of wide experience in the placing of children) who has recently been appointed to this branch of our work, assistance also being given by our representatives at Montreal and London.

Visiting Representative from England.—Each year a representative of our Boys' Department, from International Headquarters, London, England, visits Canada, securing reports in detail as to the well being of all boys and girls brought out to this country, under our auspices.

Where Placed.—North and West Ontario, including City of Toronto, comprises district in which these children are placed.

Foster Homes.—In securing foster homes, three references are asked for, together with other information in detail. Homes being visited prior to, or very shortly after the placing of children therein.

D. L. CREIGHTON,
Assistant Immigration Secretary.

STEPHENSON HOME, HAMILTON.

The National Children's Home and Orphanage (founded by Dr. Stephenson); Chief Offices, 104-122 City Road, London, E.C., England; Principal, Rev. W. Hodson Smith; Secretary, Mr. Charles N. Barns.

DEAR SIR.—In reply to your enquiry I beg to say that we have received through our agency during the year 86 children; boys, 83; girls, 3. The average age is 15 years.

All the boys were placed in farm homes with one exception; the girls going to domestic service.

The party was distributed through the following Counties: Elgin, Middlesex, Lambton, Oxford, Perth, Huron, Bruce, Wellington, Halton, Peel, Simcoe, Haldimand, Norfolk, Brant, Welland, Wentworth.

We have received over five hundred applications and the demand for our boys is greater than ever. The rate of wages is higher and we receive prompt payments under our yearly contracts and to-day have no outstanding delinquents among employers.

According to our standing rule all boys under eighteen years of age have been visited by a representative from the Home at least once and in special cases two or three times; many boys over eighteen years of age have been visited when in our judgment such visit would be of any benefit to the boy.

Our reports show our boys to be well placed and to be receiving good fair treatment in the community in which they are placed. Our staff remains the same as previously reported.

FRANK HILLS.

Superintendent.

OUR WESTERN HOME (NIAGARA ON THE LAKE).

This work is carried on by the Church of England Society for providing homes for waifs and strays under the direction of Rev. Prebendary Rudolph.

The number of girls brought out during the year 1913 were one party of 29. All the girls average age 15. The majority coming from the Emigration Home at Peckham, London, arriving here on the 29th of May. All but three of the party have been placed out in good homes, and are getting on well; having with one or two exceptions been visited, and found satisfactory; those not doing well are a very small percentage, and only one has been returned. We have had during the year several marriages, but not so many as usual. Our applications, as usual, exceed by at least 300 the number of our available girls.

MRS. S. D. MANNING,

Visitor.

PLAYGROUNDS

One of Our Greatest Needs

A Plea for Future Generations of Children.

Encourage Recreation

BY means of play and wholesome recreation the spirit of youth is perpetuated and the routine of daily life is brightened with the quality of joyous exhilaration. In this way the sum total of human happiness may be vastly increased.

Countless generations of children will yet inhabit this great Dominion, and if our statesmen and philanthropists consider for a moment the claims of posterity, and wish to be regarded as of blessed memory they will advocate and carry out a more generous and far-visioned playground policy in the towns and villages now springing up on every hand, and destined in the years to come to expand into great cities, with teeming multitudes of boys and girls needing play facilities.

There is not a city or town that is at present doing anything like its full duty in this respect.

Men's thoughts have been occupied with other things, and they have to be frequently reminded that there are interests in life beside material prosperity, that health and happiness are as worthy of serious thought as any other policy of national development.

ORGANIZATION.

The best results can usually be obtained by organizing a Playgrounds Association. A comparatively small number of our large cities have done anything in this direction, and there is a big field here for enthusiastic workers. The plan of procedure is somewhat as follows: Get up a petition headed like this:

PLAYGROUNDS ASSOCIATION.

We, the undersigned, heartily approve of the organization of a playgrounds association, to secure greater recognition and appreciation of play activities, and in the event of the association being formed we pledge our support:

NAME	ADDRESS.
JAMES SMITH,	83½ King Street.
ARTHUR THOMPSON,	Chamber of Commerce.

Forty or fifty influential and representative signatures will ensure the success of the movement.

The next step would be to request the mayor or president of the Board of Trade to call a public meeting, at which three or four citizens would be prepared to advocate and explain the proposed action.

A resolution could then be submitted along these lines:

RESOLVED, that this public meeting of citizens held on this 20th day of January, 1915, do hereby unanimously decide to proceed with the organization of a playgrounds association:

That the name of the said association be— — — —

That in general its object shall be TO PROMOTE HEALTHFUL RECREATION.

That the board of management consist of a president, two vice-presidents, a treasurer, a secretary, and a council composed of ten ladies and ten gentlemen, with power to appoint such other officials as they may deem expedient.

And that the following be now elected as the first board of management:
President—
Etc.

A constitution and working by-laws can easily be adopted from the rules in use by other benevolent organizations. (See page 21.)

OFF FOR A COUNTRY VACATION.

OFFICERS SHOULD BE ENTHUSIASTIC.

People should be selected for office who are really interested and willing to exert themselves to make the movement a success. Too often men are elected to office in such societies because of their prominence, and without any expectation that they will be more than figureheads. Enthusiasm can only be sustained by frequent meetings and zealous, active service.

MAKE A CAREFUL SURVEY.

Probably the first step would be to have a careful survey made of the existing playground facilities, and aim to have these supplemented by the securing of more grounds, and the better equipment and supervision of the playgrounds in use. It is a sad reflection that there are in every town splendid natural parks, groves, streams, hillsides and play spaces that are privately owned when they should belong to the whole people and be the happy meeting-place of hundreds of children. Through the force of public opinion and judicious negotiations carried on by an association, some of these beauty spots could be secured for public use, and what higher service could be rendered the community than this?

CHILDREN LOVE TO WATCH THINGS GROW.

BEAUTIFYING THE NEIGHBORHOOD

Then, too, very little expense is involved in the creation of free skating rinks, toboggan slides, bathing and swimming ponds on a river or lake-side, the conversion of unused public property into a neighborhood park or playground, the planting of trees and flowers, the organization of free bowling and tennis clubs, play festivals, open-air band concerts, social centres in schools, armories and other public buildings, encouraging the study of natural history, the importation of song birds, and, in short, giving full expression to the innate love of the beautiful, the aesthetic, the artistic. Life has a constant tendency to become prosaic and commonplace; the playgrounds association can introduce a hundred counteracting influences, and be of untold benefit to the community. Even the purchase and judicious distribution of flowering shrubs and vines would change the whole appearance of a dull neighborhood and give pleasure and inspiration to thousands.

THEREFORE, by all means, get a playgrounds association started, and take up some of these much-needed improvements.

NOTES.

FOLLOWING will be found some random thoughts and suggestions intended for the help and encouragement of playground workers. Use these ideas freely, in schools, pulpits and press, and, as a result, may playgrounds, properly equipped, and supervised by genuine child-lovers spring up everywhere, diffusing health and joyousness among all the young people of our country!

The revival of folk-dancing is one of the beneficial results of the playground movement.

No better way of doing good than to buy and present to your home town a few acres of land to be used forever as a playground.

STARTING ON LIFE'S VOYAGE.

A supervised playground was opened in a certain neighborhood where juvenile crime had been prevalent. In a week or two this evil had practically disappeared. Idleness leads to wrongdoing. Busily and pleasantly occupied, and with leaders interested in their welfare, the boys will usually be found responsive to good influences.

We are not here to work all day.
But need a little time to play.

Children will always desert the playground that is not under the constant direction of enthusiastic leaders. Vide, the average schoolyard after hours. They want the excitement and variety of action—the quick succession of interesting events.

Not infrequently one sees a fine tract of public ground used only as a dumping place for rubbish, while a short distance off hundreds of children are loitering on busy streets and hanging about the doors of motion-picture theatres.

A morbid, nervous condition in a child is deplorable. Too often this results from a sedentary indoor life, and the forming of wrongful habits, through ignorance. The remedy, or better still, the preventative, is the active open-air life, under the guidance of a play leader.

Some day the qualified and trained supervisor of play will be the popular children's doctor. His prescription will be made up of fresh air, sunshine, activity and laughter. Old-fashioned physic will then be thrown to the dogs (poor dogs! why should they be punished thus?).

Proper organization of social effort would eliminate much of the misery and expense involved in charity work. Thoroughness is needed in locating and attacking the causes of distress.

DOES YOUR MEMORY Go BACK THIS FAR?

Any wealthy person who wishes to leave behind him an honored name should donate a playground to his town or city.

Why are people sick? Ignorance of nature's laws, unsanitary methods of living, overheated rooms, lack of fresh air, poorly arranged work rooms and factories, poisonous gases and dust, foul air, exclusion of sunlight—sure forerunners of consumption.

Look around and pick out a good spot for a playground. Then organize an agitation for its purchase.

With a good play-leader the smallest space may be turned into a children's paradise.

Every city should provide its young people with free grounds for football, baseball, cricket, bowling and tennis. Reward comes back in a citizenship possessed of better health and greater efficiency.

"Evil communications corrupt good manners." The unregulated playground offers "the gang" a convenient meeting-place for lawless plotting. The enthusiasm for clean sport evoked by the supervisor turns the gang spirit into useful channels.

Not repression or suppression, but expression, is the thought that fits in here.

BOYS PLEASANTLY EMPLOYED.

To persuade is better than to compel.

We conquer by loving.

Twenty-five boys used to gather in a vacant lot to play. One day thirty cents worth of window glass was broken, the police were notified, the lads were chased off and now there is the ominous sign on the fence, "Trespassers will be prosecuted."

A citizen one day noticed two little fellows with skates hanging on their arm looking wistfully through a crack in the fence at the other fellows having a good time. They didn't have the requisite fifteen cents. The result—over thirty free skating rinks in Toronto to-day! Glory be!

Happy children at play saves a city from falling into the abyss of sordid selfishness and pessimism.

Robert Louis Stevenson wrote of happy faces and grassy places—naturally the former is the result of the latter.

The old-fashioned church used to be surrounded by a graveyard. Why should not the modern church be surrounded by a playground? This would be a good way of interpreting and proclaiming the church's message.

You who have a summer-house in Muskoka—or some other favored spot—remember the thousands of children who live in the same crowded neighborhood all the year round. Do something for them.

Put your money into a movement that crowds sunshine and happiness into the lives of boys and girls. A playground once secured, can never be diverted from its original purpose.

The best type of citizen can be evolved only from the hearty, robust child, who has had a full and well-rounded youth, spent in cheerful and clean moral environment.

Physical training, properly regulated, stimulates the intellect, and arouses the moral qualities of courage, loyalty, self-reliance and initiative. It helps to fit the individual for the primary duties of life—those of a good citizen.

The playground movement leads in the fight against tuberculosis. It makes the child a lover of fresh air and the outdoor life, teaches chest expansion, and spreads the knowledge of hygienic principles.

The playground movement adds healthfulness, hopefulness, vivacity and buoyancy to the childlife of our populous centres.

Directing children's play opens up a new and interesting vocation for young women.

A fifty-foot lot with a sand pile and a few swings would be a big relief to tired mothers in a congested neighborhood.

Dancing is one of the most healthy and joyous of exercises. Therefore it should be under the supervision of the community, and not left in the control of unprincipled people.

A social centre stands for sympathetic neighborliness and intelligent helpfulness.

An up-to-date school should have an assembly hall, a gymnasium and swimming tank, manual and domestic training, special classes for foreign and backward children; evening classes for working children, choral classes, entertainments for parents, boys' clubs and literary societies. A social leader and the social spirit.

Children like to be usefully employed, and boys can readily be taught carpentering, plumbing and other industries as part of their play life.

CHILDREN'S FRESH AIR FUND PARTY.

Cicero recognized the dependence of the mind upon the body, and the relation of exercise to both, when he said, "It is exercise alone which supports the spirits and keeps the mind in vigor."

In a city government there is nothing that gives more satisfaction to the public and joy to the children than broadly-conceived playgrounds, rinks and toboggan slides.

If the body is weakened by disease or by inactivity the intellectual powers become enfeebled and the morals are apt to degenerate.

No one would think of turning a public building over to a mob. There must be some one in charge. A director on the playground is equally essential. Unless held in restraint, the strong oppress the weak, and mob rule prevails.

Why not substitute vines, flowers and shrubs for ash heaps, bill boards, rubbish and other things offensive to sight and smell?

Physical training, under a capable leader, and with the proper diet, will do more to build up and reform delinquent youths than any amount of moral or mental instruction. Nearly all crime is due to physical deterioration.

Provide for the children of to-day a pleasant, happy and healthy childhood, and thus materially reduce crime, misery and physical deterioration.

Let children get a sane mind in a sound body and clean heart in a clean body.

Small children wearing glasses are getting to be a common sight in this country. A traveller in Germany writes that at a children's picnic, where twelve hundred boys and girls were assembled, only two wore glasses. This he attributed to the open-air play life.

The child must have room, means and opportunity to play, or its physical being suffers and its mental faculties are correspondingly affected. As well deny air and space to the growing plant as deny the same advantages, together with active bodily exercise, to growing boys and girls.

Those who have the fewest natural advantages are those upon whom the loss of a place in which to play bears most heavily.

The larger our cities become, the more and more does the danger to the cities' children increase. The vacant lots get gradually occupied, the "commons" disappear, and the children are driven into the streets.

Boys' Clubs organized by the right people and with the right ideals can do much for future citizenship. They hold the youth at a time when the natural tendency would be toward wildness and excess. Boys must have companionship and play.

Apart from the beautiful environment which ample playgrounds afford, will not our children and those of our foreign-born citizens best learn to work together in concord, if first they have learned to play together in peace?

In addition to the many corners of public parks that could be turned to good account, there are also a large number of gardens and vacant lots whose owners would cheerfully assist if approached in the right spirit. Thousands of children are now debarred from harmless outdoor pleasures because of a three-foot fence and a locked gate on some unused property.

There should be a play specialist appointed in every large city to put intelligence and enthusiasm into the movement for helping young people to secure proper outdoor enjoyment.

A boy's character is formed as much on the playground as in the school-room, perhaps even more so, for in amusements his individuality comes out more strongly.

SAVE THE SHORES FOR THE CHILDREN.

School buildings should be opened more extensively to the people for social centres.

The hearts of children go out in grateful affection to those who show a willingness to participate in their amusements, and through directed, well-organized play they can often learn more than in the classroom.

The success or failure of the playground movement depends not so much on the size of the grounds or their equipment as the spirit that animates the management. Just as there is energy and enthusiasm on the part of the youthful participants, so also must there be a kindred spirit in the supervision and direction. While it is important for the Parks Commis-

sion to provide the grounds and fit them for their purpose, it is equally necessary to have supervisors to encourage and guide the children and growing youth in their amusements.

Orphanage Boards can do a good work both for the children and the community by providing equipped and supervised playgrounds.

The supervised playgrounds already established have fully demonstrated that youthful happiness can be easily doubled by a small expenditure for swings, slides, etc., and the appointment of a supervisor who can enter into the spirit of the delightful games that from disuse have almost passed out of existence.

Play is at present almost the only method of physical development for city children, and we must provide facilities for it if we would have the children strong and law-abiding.

EXERCISE DISPELS HEADACHES.

VALUE OF PLAY.

Play is essential to proper physical development, and moral growth depends to a large extent on free and healthy exercise. It is the right of childhood and it is only reasonable to ask that all the necessary facilities should be provided. To be beneficial it should be wisely encouraged and directed and the undesirable elements eliminated. There should be swings, see-saws, sand piles, wading pools and gymnasia in addition to grounds for baseball, cricket, football and tennis. These playgrounds should be numerous enough to be within easy reach of every city child, and amateur athletics should be given a high place in public estimation. In this way stamina may be acquired that will carry many a youth safely through the stress and strife of dawning manhood.

MISTAKES OF THE PAST.

VERY LITTLE PROVISION MADE FOR PLAYGROUNDS BY TOWN COUNCILS.

In the rapid development of Canadian cities and the eagerness of its citizenship for wealth and commercial success, little thought has been given to the city beautiful. Few realized that the vacant lots on which their boyish pastimes were held would disappear so rapidly. Thoughtful men now see the mistake that has been made and are earnestly striving to restore the children's heritage. Much remains to be done, but public sentiment is sound on this question and will endorse the necessary expenditure.

Four or five district playgrounds will not by any means meet the need. Better three small playgrounds than one large one. The tendency is to establish playgrounds in the suburbs where land is cheap, but they should be just as numerous in the heart of the city where congestion of population breeds moral and physical degeneracy. A playground should be within five minutes' walk of every child, and if we allow a playground for each twenty thousand of a city's population we can see how far behind this standard most of our cities are at the present time.

SUPERVISION.

Equipment is essential, but far more important even than that is the supervision given to the children in their play. If enthusiastic directors with the proper moral viewpoint are given charge of these playgrounds they can do a truly national work in the development of a sound physique and high character. As much, if not more, can be learned from play than from books, though there need be no rivalry, and it is undoubtedly true that play diverts from crime and low pursuits; creating contentment and cheerfulness and inspiring youth with noble ideals.

PULL DOWN ROOKERIES.

If here and there a few old rookeries were torn down and the land devoted to play space more than one useful purpose would be served. Two hundred feet frontage with the ordinary depth of one hundred and fifty feet would make a good neighborhood playground. Too many children gathered in one place is not desirable.

PLEASURES OF COUNTRY LIFE.

WINTER SPORTS.

Children need outdoor amusements in winter as well as in summer, and if there is the willingness to provide for their needs it can be done without great expense. Free skating rinks should be numerous. Thousands of children have been denied the pleasure and benefit of skating because they could not pay for admission to rinks. The civic government, as the guardian of children should be interested in the welfare and happiness of future citizens, and should make recreation and simple sport as free as the air. Healthy enjoyment should never depend on the possession of wealth. The fact of being a child is the all-sufficient reason why play should be encouraged, and every facility provided.

CREATE PUBLIC INTEREST.

To secure the proper number of playgrounds, rinks, toboggan slides, gymnasiums, bath houses, etc., will require constant agitation for years to come. If the enthusiasm lags they will not be provided, for large expenditure will be necessary. Therefore may we not appeal confidently on behalf of the children to men in authority, aldermen, school trustees, editors, business men, educators—to keep the playground movement constantly in view, giving it their endorsement and advocacy whenever possible, remembering that the best type of citizen can be evolved only from the healthy, robust child, who has had a free and well-rounded youth spent in cheerful and clean moral environment.

BEAUTIFUL HOME SURROUNDINGS, BUT NO CHILDREN IN SIGHT.

LIFE ON THE OCEAN WAVE.

NATURE'S PLAYGROUND.

REGULATIONS FOR PLAYGROUNDS ASSOCIATION.

THE OBJECTS OF THE ASSOCIATION ARE:

1. (a) To promote healthful recreation.
- (b) To stimulate public opinion in favor of establishing playgrounds and social centres in the municipality, especially in the more congested districts thereof.
- (c) To familiarize ratepayers generally with the advantages of supervised playgrounds and social centres as part of our educational system.

MEN IN THE MAKING.

- (d) To accept voluntary contributions, and to obtain funds from other sources for the following purpose, namely:—

To acquire land in suitable districts and to equip the same for the purpose of playgrounds in Summer or Winter, or both, and to equip playgrounds generally, as well as social centres.

2. The fees for membership shall be as follows:—Active members, \$1.00 per annum. Sustaining members, \$5.00 per annum. Life members, \$100.00 per annum.
3. The Annual Meeting of the Association shall be held in the month of of each year, on such day, and at such time and place as may be fixed by the Executive Committee. Special meetings may be called at any time by the Executive Committee, or by the President or Secretary on the requisition of ten members. Notice of the

holding of any Annual or General Meeting shall be sent to each member by mail, at least two days previous to the holding of same, and shall also be announced in the newspapers.

4. The officers shall be elected at the Annual Meeting in each year, and shall consist of a President, two Vice-Presidents, Secretary, Assistant-Secretary, Treasurer, Auditor and Solicitor, who shall compose the Executive Committee, with the addition of members, making twenty in all, to which shall be added ex-presidents, who shall be ex-officio members of such Committee. Sub-committees for various special duties may be elected at any monthly meeting of the Executive Committee. Vacancies occurring in the Executive Committee during any year may be filled by the remaining members thereof.

AWAY FROM CITY TEMPTATIONS.

5. Meetings of the Executive Committee shall be held on the last ——day in each month, at such time and place as may be determined by that Committee. Five members thereof shall constitute a quorum. Special meetings may be called at any time by the President or Secretary upon the request of any five members of the Committee.
6. The Executive Committee may appoint such other officers and agents as they may deem necessary to further the objects of the Association, and in the appointment of sub-committees shall not be restricted to members of the Executive Committee, but may appoint thereto other members of the Association as they may see fit.

7. The Executive Committee may enact by-laws for the transaction of the business of the Association, for the regulation, control and management of playgrounds and social centres, as well as defining the duties of paid officers and others, and for all requisite purposes in connection with the Association, and shall generally during their term of office have full and complete management, control and disposal of the affairs, property and funds of the Association.
8. The President, or in his absence, one of the Vice-Presidents, shall preside at meetings of the Association, and of the Executive Committee, or in their absence by a chairman, to be elected by a majority of the members then present.
9. It shall be the duty of the Secretary to keep minutes of all the proceedings of the Association and Executive Committee, and he shall record the same in books to be provided for that purpose; also conduct all correspondence and perform such other duties as may be assigned to him by the Executive Committee.
10. The Treasurer shall receive and have charge of all funds belonging to the Association, and shall forthwith deposit same in some incorporated Bank, to be designated by the Executive Committee, to the account of the Association. All cheques thereon shall be countersigned by the President, or, in his absence, by the Secretary. All accounts are to be passed before payment by the Executive Committee, and the Treasurer shall report to the Board from time to time, and present financial statements, as may be required, and shall submit at the Annual Meeting detailed statement of receipts and expenditures made up to the close of each financial year of the Association which shall be the 31st day of December. Such Annual Statements shall be duly audited by the Auditor of the Association.
11. No alterations or additions shall be made to these Regulations except at a meeting of the Executive Committee, at which at least seven members shall be present, and provided also that written notice of the proposed change shall have been given at least one month previous to the consideration of the same, and such alterations or additions, if passed, shall have effect only until confirmed at the next following Annual Meeting of the Association.

EXCELLENT PROGRESS IN TORONTO.

After a good deal of agitation the Toronto Playgrounds' Association was formally organized at a meeting held in the City Hall, on June 2nd, 1908. What has been accomplished since then was admirably set forth by Mayor Hoeken in his inaugural address to the City Council on January 11, 1914:

"The position of Toronto with respect to the encouragement of outdoor recreation is second to no city of like size in America." Such was Mayor Hoeken's declaration in his Inaugural Message.

"During the past four years," he said, "we have expended the sum of \$1,472,978 in the purchase of park lands and playgrounds, increasing our holdings in that period from 1,546 acres to 1,845 acres, and to-day these lands are valued at \$13,000,000. There is still pressing need of more park

AN OLD-TIME LACROSSE FIELD.

lands in the east, north and northwest portions of the city, but this need being fully recognized, it is intended that at an early date these districts shall be amply provided for in this regard.

"Every reasonable effort is being and will be made to further the cause of good citizenship represented in properly supervised healthy outdoor games and exercises, and to this end the parks of the city are being fully utilized. We have now established thirty-two baseball diamonds, thirty-five football fields, sixty-five tennis courts, six bowling greens, three lacrosse fields, and two quaiting grounds, and this winter are operating thirty-four skating rinks, thirty-one hockey rinks, and five toboggan slides. The annual outlay upon these classes of sport totals \$31,000.

"The supervised playground movement, while still in its infancy in our city, is being rapidly developed, and an idea of its growth may be had from the fact that while in 1909 our expenditure upon playground maintenance amounted to only \$1,134, the outlay for this purpose during last year was nearly \$18,000. It is proposed during the present year to establish seven additional supervised playgrounds in various parks, which will give a total of fourteen play-centres distributed throughout the city.

“The establishment of a system of boulevards and parkways is an important feature of our park development, the initial steps towards which have been taken in the building of a considerable section of the lake front boulevard, and the completion of the first section of the Humber river boulevard. Plans for the construction of forty-two miles of this system are in course of preparation, and with such of this work carried on from year to year as our resources will permit, and with our needs in the future acquisition of parks, squares and playgrounds and their development carried out as planned, Toronto should, in a comparatively short time, be possessed of a splendid parks system.”

Toronto, April 3rd, 1914.

Thoughts
ON
Social Welfare Work

Social Welfare

A NEW NOTE is being sounded in public affairs—one that awakens hope in the breasts of many thousands, who on account perhaps of obscurity and lowly surroundings have not been regarded as entitled to more than a passing regard—it is that of SOCIAL WELFARE—the recognition of the rights of every human being no matter what the conditions of birth or material possessions. The spirit of Brotherhood—the desire to spread more generously over our race, the comforts and happinesses of life—is taking possession of the hearts of men, and is manifesting itself in a thousand ways—all tending to lighten the burden that rests upon the poor, and to make possible for them to enjoy advantages and opportunities that hitherto were beyond their reach. Because of this advancing tide of humane sentiment it is necessary that there should be wise legislation and administration, and that social work should be given the status of a profession, calling for ability and special preparation.

In social customs and in the administration of great public enterprises for the benefit of the poor, the unemployed and the unfortunate, we have been inclined to follow time-worn pathways that lead nowhere, instead of originating new and better highways to social happiness and prosperity. Charity has too often been made the excuse for social shortcomings, and a blind for the exploitation of human distress and weakness. That a better remedy is needed all will admit, and the following thoughts are merely by way of suggestion to those who have the interests of humanity at heart.*

*This general review of Social Welfare work was written in 1909 at the request of a group of University students, but has not been published hitherto. J.J.K.

CULTIVATE SELF-RESPECT.

IN the Administration of Charity the aim always should be to preserve normal conditions, to disturb the family relationship as little as possible, and to incite all who are in need to work out their own salvation with only such guidance and encouragement as will enable them to regain a position of independence. Self-respect is essential to true manhood; the gift of money in any form without adequate return is degrading; to patronize is to insult.

There is no man or woman, however humble their origin or surroundings, who has not some latent pride or ambition. It may be almost extinguished owing to discouragement, disappointment and wrong methods of relief-giving but it can be revived and it is the business of the true worker to fan the spark into a flame, and to make the environment such as will tend to the development of all that is best and most worthy in human character.

SPECIAL TRAINING NECESSARY.

The need for systematic social work and the value of trained expert service has not been recognized in the past. There has been vast waste of effort and means because of inexperience and careless administration. Appointments as agents and secretaries of charitable and philanthropic societies have been made largely on the ground of friendship or to provide a place for someone out of work, or the office has been given out of sympathy for some worthy citizen who has been trained to no particular calling. "No experience necessary." "Anyone can do it." has been the general impression. Is it not true that many worthy movements have ended in failure or have struggled on under a burden of contempt because there was no guiding principle, no steady safe hand at the wheel, no definite knowledge as to results or adequate return for expenditure?

A SCHOOL OF PHILANTHROPY.

There are of course exceptions to every rule and some men and women have, without special training, made a notable success of their work—good judgment and careful observation have taught them the better way. But to secure the best service an educated class of men and women should be encouraged to devote themselves to the serious study of social problems, and this can best be done in a School of Philanthropy affiliated with the University and working in harmony with existing philanthropic movements so that theoretical and practical training may go hand in hand.

A course of study could be outlined suitable to the capacity of all who desire to enter, for a prime requisite is that every student should feel the call to social service as imperative as to the ministry or the mission field—all heart and no head has characterized many failures heretofore; to substitute all head and no heart would be the greater calamity. The work could be entered upon in a small way until, as would certainly happen, some wealthy philanthropist felt inspired to endow the school as a worthy and much needed addition to university equipment.

SPECIAL LECTURE COURSES.

In addition to this special course in philanthropy, there is no reason why all colleges and boarding schools aiming to prepare young people for careers of usefulness should not give instruction on such broad subjects as charitable relief, protection of children, housing of the poor, sanitation, causes of insanity, crime, pauperism, dependency and the care of the defective classes. A knowledge of these subjects is useful at all times and may have a far-reaching influence in checking human misery and promoting happiness and contentment throughout the

THE MUNICIPALITY.

Every municipality should have a Social Welfare Department, either an adjunct to the Health Department or under a Municipal Committee. This Department would have the supervision of charitable and social endeavor, and guide both effort and expenditure so that the best results would be secured. In a large city the office might well be a distinct branch of the service, not so much to engage in active work as to gather the loose threads together, provide a medium of communication, a bureau of information, a centre of inspiration and encouragement to both paid and volunteer workers. To be effective there is the essential implication that the director should be a man capable of meeting all the needs of such an office, qualifying himself by special research for authoritatively advising all engaged in benevolent service. In the smaller cities and towns a committee of educated social leaders might be delegated by the Council to exercise supervision over organizations, and this committee, acting as a friendly critic, could bring about co-ordination of social effort. No municipality itself should undertake to dispense charity.

CHARITY ORGANIZATION.

Before dealing directly with the problems of charity it is perhaps well to consider another branch of educational work, namely the Charity Organization Society, or as it is sometimes called, The Associated Charities. Thoughtful people are recognizing to-day more than ever before that indiscriminate charity and haphazard methods constitute a real menace, not only to the recipients, but also to the community at large. Generous instincts and a highly cultivated Christian sentiment prompt a ready response to the cry for aid. Throughout its whole history the world has never known such vast fortunes devoted to public benevolence as prevails to-day. Therefore there is urgent need for deliberation lest good intentions be turned to evil account.

The Charity Organization Society is not a relief-giving agency. Its mission is distinctly educational. It surveys the whole field; brings into play the business and scientific aspect of charity, rather than the emotional; advocates co-ordination among the multifarious charities, so that each may cover a distinct branch of work thoroughly; deals with causes rather than effects; directs attention to the value of friendly visiting without alms-giving; frowns beggars out of existence by

seeing that their excuse is unfounded; urges public care for the blind, the deformed and the defective; employment for the unemployed; and diffuses sound information on all the varying phases of modern philanthropy.

Such a society is usually composed of the most advanced social workers, and it can never be a popular organization with the masses since it does not aim to give anything away but good advice. For its support it must depend on the liberality of the few, and for those who wish to give a portion of their wealth to public uses, no better or worthier object could be found. The strength and influence of a Charity Organization society is a good indication of social efficiency.

CO-OPERATION ESSENTIAL.

Unless it has the hearty co-operation of all the specialized charities of the city, the Charity Organization Society cannot accomplish the best results. It aims to be the clearing house of all charitable and social effort; maintains a library and information bureau for all the workers and societies; and if it is strong enough should assist any deserving society to secure all the funds necessary for the maintenance of its work.

RECIPIENTS OF CHARITY.

The Charity Organization Society invites all relief-giving agencies to register in its office the names and history particulars of all, who, after receiving charitable aid twice, continue to apply for help. If properly carried out this method would effectually prevent imposition and the fostering of paupers. The accredited agent of any Society or the pastor of any church could apply to this central office for information concerning any particular applicant and ascertain at once how often a man has applied; how often he has been helped and how many different Societies are devoting their attention and money to his needs. Where this system is followed it is surprising how much chicanery and fraud is revealed. Or it may be the records will show that a continued effort to get suitable employment would obviate further charity; or a term in jail stop the brazen effrontery and mendacity of unworthy sots and drunkards.

REGISTRATION OF APPLICANTS.

The registration of these cases has often been opposed by well-intentioned workers and societies. They would rather go on helping blindly all who apply lest one should be wronged or offended. "Let not thy right hand know" etc., is often quoted in this connection. But there need be no undue publicity—registration is only intended for the habitual applicants; and they need not know that they are being reported for investigation. It is simply a reasonable business precaution and applies more generally to the drifting, shiftless class of population that prey on clergymen and guileless optimistic workers, and spend in drink the money obtained as charity. That the humiliation of respectable people who are temporarily embarrassed should be carefully guarded against will be referred to more fully under the heading "friendly visiting."

GIVE ADEQUATELY IF AT ALL.

A cardinal principle in charitable relief is that when assistance is given it should be adequate to the need. Usually one Society gives so very little that the person or family in distress is compelled to resort to other agencies. Thus the charge of overlapping often arises. Better to help a fewer number and put them fairly on their feet than to partially aid a large number and leave none of them permanently relieved.

DOORSTEP CHARITY.

Giving charity on the street or at the door is always unsatisfactory because the truly deserving will seldom resort to that means of obtaining aid. From a long experience it can safely be said that three-fourths of the money given to these applicants is won by deception and is put to unworthy uses. But there will always be this careless giving of largess because human nature loves to patronize and many excuse themselves with the plea that it is better to fee a dozen rogues than turn away one who may possibly have good excuse for begging. If people will persist in favoring the importunate mendicant let them at least resolve never to help a child in this way for in so doing they invariably perpetuate a wrong standard and destroy the character and future usefulness of the boy or girl.

EMPLOYMENT BUREAU.

To be out of work and to honestly desire employment is to live in the depths of despair. Many a man has committed crime and even taken his life because of this one thing. How important it is then that there should be nationally-organized depots so that men and boys having labor to sell can be quickly brought into touch with employers. Every municipality, every church, every moral agency should be in active co-operation with the labor exchange movement. When men are idle the whole social machinery is out of gear and charity has to step in and carry an unnecessary burden. The providing of employment should never be looked upon as a charitable undertaking for it is vital to the welfare of the whole community. In every large centre of population there should be a municipal committee or commission planning winter occupation for those whom cold weather deprives of their usual employment. Action is usually postponed until the problem is acute and then the only solution is charity.

THE CHURCH AND CHARITY.

There seems to be a consensus of opinion that charity is best administered by a special organization covering the whole field rather than by an individual church acting on its own responsibility. Originally the great bulk of relief was dispensed by the church but conditions have been steadily changing. If one could get a socially-educated church membership then it would be safe to say that there should be parish districts allotted, and each church held accountable for the poor within its bounds, but with so many different denominations having no close bond of

union, and with lack of knowledge as to right principles so prevalent among the members, it is generally conceded that the less giving of promiscuous charity under church auspices the better. Frequently it has been found that families seeking aid as a regular income claim membership in two or three different churches and succeed for years in drawing pensions from these as well as other sources. There has, in fact, been widespread imposition upon clergymen and churches because of hesitancy in asking questions and thoroughly investigating the causes of poverty. The growing popularity of the deaconess movement and the appointment of a pastor's assistant to manage the business part of church organization will in time restore the church's prestige as the true friend and helper of the poor, for with education in best methods such workers will see the wisdom of maintaining records and uniting rich and poor in the common bond of brotherhood.

THE CHURCH AND SOCIAL SERVICE.

In every church there are employers of labor and there are young people out of work. There are the prosperous and happy and there are the sorrowing and afflicted. There are idle young women and there are over-burdened mothers. There are the old who have much experience of life and there are young people who would appreciate friendly counsel. In addition to the sermon should there not be, occasionally, a real church conference on Sunday to bring these elements together and do some actual Christian work as well as talk about it? Unemployment is recognized as one of the greatest sources of misery to the individual and loss to the community. The church can bring capital and labor together better than any other organization and fulfil its mission at the same time. A pastor in despair ventured to announce from the pulpit that two young men were in need of work and he was anxious about their welfare. As a result employment was offered at once. In another case a little boy was left homeless and was about to be sent to an orphan asylum when the pastor decided to tell his congregation about it and three excellent families expressed a willingness to take him. This is vital Christianity and can be multiplied indefinitely.

THE CHURCH AND RECREATION.

Without any loss of dignity or departure from its high calling, the church can also take an interest in the recreation of young people. Wordly amusements of a doubtful character are constantly seeking to lure the young away from church influence and they have the advantage that they are catering to an instinct that is not only natural but imperative. It is not necessary that the church edifice should be turned into a dance hall or gymnasium, but it is desirable that the church should be the powerful advocate of clean, wholesome amusements and neighborhood playgrounds, and should vigorously stamp out all that is low and sensual and unhealthy. Not long ago a leading church arranged for some special week-day meetings. Only a few middle aged people attended, while across the road a low place of amusement was crowded to the doors with young people and many were

unable to obtain admission. The world, the flesh and the devil were laughing at that powerful church that was too spiritually minded to cope with the evil. Might not the church imitate with advantage the Cromwellians of old who "prostrated themselves before their Maker but set their foot on the neck of kings," whom they believed to be enemies of their country and their religion. Happily there are signs that the church is awakening to a knowledge of its power and will ere long not only denounce but sweep out of existence the manifest social evils that confront and overcome the individual.

FRIENDLY VISITING.

The ideal friendly visitor is the one who goes into a home in the pure spirit of friendship without alms and without condescending airs. The mistake is often made by good people that the poor always want money whereas nothing could be further from the truth. Their very poverty usually makes the respectable poor keenly sensitive and they resent with bitterness of soul the thoughtless caller who with the best intentions in the world thrusts money or provisions on them. The world judges and honors a man according to the amount of money which he possesses. This should never be the standard of the church or the social worker. The poor are slighted, ignored and assigned the lowliest places, and yet the noblest manhood, the highest Christian life, the finest feeling, the most chivalrous instincts, are found more highly developed among this class than any other. It is for this reason that almsgiving is so delicate and dangerous a mission. To give money graciously and acceptably calls for the best judgment and tact of which a human being is capable. But the cordiality of greeting, the pressure of the hand, the sympathetic advice, the suggestion how to repair broken fortunes—these things are priceless and will be treasured up as the sacred confidences and grateful mementoes of life.

Friendly visiting in a general way can be done as a branch of any charity organization but it can be best done as an adjunct of church work, for Christianity, whether acknowledged or not, is the inspiration of neighborly service. No guide to action can be better than the Golden Rule and the constant recollection of the fact already stated that the poor are not necessarily one whit less respectable or worthy of respect than the prosperous.

THE PAUPERISTIC SPIRIT.

The average poor family should not be confounded with that wretched class of people who seek to live by charity and who have long since lost all pride, self-respect or decency of conduct. We should pity rather than despise this class, for experience goes to show that they have been in nearly every instance reduced to helpless beggary by misfortune, oppression and unwise giving. The aim should be to restore them to self-respect by steadfastly withholding charitable aid and adopting drastic measures to force them to self-exertion and support. They should be provided with employment even at a loss until they acquire the habit of

work and gradually become more or less skilled. Even if it is necessary to send a few to jail for a time that would be a greater kindness than the continuance of charity. For pauperism is hereditary. Children are quick to learn that it is easier to beg than to work and they grow up to continue the same vicious life as their parents. Charity breeds paupers, fosters and pampers them and inflicts upon the community a long and ever-increasing succession of degenerates to fill the brothel, the poor-house and the prison. It is truly a deadly disease that can only be cured by extermination.

ORGANIZATION IN SMALL TOWNS.

All the widely-varying social needs are to be found in the small town, with the added difficulty that there is not sufficient demand in any one line to warrant separate organization. There might, with advantage, therefore, be one general society fairly representative of the whole community, with small committees to handle different branches of work. To ensure good results there should be one trained, experienced person-employed to give all his time to the direction of social effort, and the municipality would find its money well expended if they gave a yearly grant of \$1,000 for operating expenses. Much more than that amount is frittered away in useless almsgiving, while a society properly financed would not only lift up careless families to a higher plane, but would materially benefit the town in a dozen directions. An experienced agent with the intelligence and benevolence of the town behind him would see that the right thing was done for the poor and the sick; maintain an employment agency; secure the admission of the insane and feeble-minded to appropriate institutions; reason with and endeavor to reform the erring; look after neglected and homeless children; supervise the sanitary condition of the town, especially the housing of the poor; direct and encourage friendly visiting; supervise the enforcement of the school law, and generally educate the community in all that makes for communal health and happiness.

SOCIAL WORK FOR WOMEN.

The importance of social welfare work is becoming so increasingly recognized in these recent years that there is bound to be a great demand for trained social workers in the future. Young women especially will find in this new profession of social service, ample opportunity for the development of their talents of heart and brain. They will be increasingly needed as pastors' assistants, school nurses, play leaders, health inspectors, school attendance officers, charity organization visitors and investigators, police matrons, park attendants, probation officers, and as officials in the various charitable and correctional institutions of the country. As already pointed out the need of the moment is a School of Philanthropy where those looking forward to social service as a profession can receive correct and adequate preliminary training.

WAGES AND HOURS OF LABOR.

The opinion used to be commonly expressed that to shorten the hours of labor would simply be giving the workingman more time to spend in the bar-room. If there ever was ground for such a statement it is absolutely false to-day. The workingman has long since emerged from slavery and he is now through the diffusion of education, the strength and bulwark of the nation. It has been amply demonstrated that good wages and short hours stimulate men to build and own their homes, and to educate and maintain their families decently and respectably. Men who are crushed down by long and hard toil and mean wages become careless, drunken and cynical, and no wonder—despairing and hopeless, they find in the saloon their only solace. But with good wages, the day's work over at five o'clock and the Saturday half-holiday, they find some joy in living and the whole community experiences at once the benefit. The widespread recognition of the rights of the working classes is indeed one of the most hopeful signs of the times.

COLLECTION OF CHARITABLE FUNDS.

There is much duplication and haphazard work in the collection of funds to carry on the charities of a large city. Certain men, whose generosity becomes known, are daily overwhelmed with requests for money; others equally wealthy, by a few curt refusals, are classed as hopeless and thenceforth they escape much of the begging that goes on. Some large firms never know a forenoon to pass without at least one call on them for a charity contribution, and various subterfuges have to be resorted to by heads of the firm to escape these wearisome and painfully pathetic interviews. Occasionally one sees in the vestibule of a large office building, the legend "No Charity Collectors Admitted" while in many large offices the appearance of a good lady with her little book, immediately sends all the officials into the most hidden recesses. The ladies dislike it about as much as their victims, but the money must be raised somehow, and so they make themselves martyrs to the cause. Some charities pay as much as forty per cent. to hired collectors.

Now, what is the remedy! Easier asked than answered, but there are two or three suggestions that might be thrown out. This is a day of over organization in charity. The humane sentiment is so highly developed that almost everyone wants to start some new enterprise for the good of humanity. Without unduly checking this kindly impulse there should be some central authority to sanction or stop new movements of this kind, particularly where charitable relief is the object. In a town where there were already four children's homes, a lady started out to collect subscriptions for a fifth, and an absolutely unnecessary institution was only prevented by a serious illness making it impossible for her to continue. In this way there are frequently several institutions doing the same kind of work, while another branch of charitable endeavor, not quite so popular, is ignored.

ENDOWMENT FORGOTTEN.

Then again, some business man, who has perhaps not given much in his lifetime leaves say ten thousand dollars to found an orphanage in perpetuation of his memory. The newspapers laud him to the skies, forgetful of the fact that the citizens have to provide the yearly maintenance, and thus contribute for all time to the glorification of the individual. There are a dozen institutions ready to take the orphan, who rarely needs public care, while there is not one institution available for the defective or the cripple, who stands in pressing need of such protecting care. There should be a central board, not only to pass on the establishment of new institutions but also with authority to assign to each its distinctive work so that all the needs of the community may be adequately met.

SYSTEMATIC GIVING.

But even under the best conditions there must be two or three hundred thousand dollars provided annually for the maintenance of legitimate charitable work. A good plan would be for all business men and wealthy citizens to pay whatever they are disposed to give to a central committee having power to allot to each charity its fair share in proportion to the work it is doing, taking into consideration the amount received from municipal and government sources. This plan has been adopted with success by church denominations. The abolition of house to house collectors would be hailed with delight by all concerned.

FAMILY DESERTION.

There is no more prolific cause of child dependency and delinquency than the desertion of their families by able-bodied men, and yet, until quite recently, there was neither law nor adequate machinery to cope with this long-standing and growing evil. To secure justice for her-self and helpless children, a timid and sensitive mother has to make a charge in open court against her recalcitrant husband, and if he leaves the city there is rarely any effort made to bring him back and compel him to shoulder his obligations. The consequence is that the poor mother has to struggle along in penury and toil, her children either in public institutions or neglected on the streets while she is trying to earn their support. If, as we often say, the family is the pillar of the state, should not every possible precaution be taken to prevent the wholesale breaking up of families by parental desertion. A drastic law, and its proper enforcement with a private court of domestic relations would save many families from ruin, for if society were more severe in its condemnation fathers would not so lightly shirk their responsibilities. Heavily handicapped though they are there are many noble mothers all over the land who, while they lack many things—often food itself—still strive to keep their children together, giving them that priceless boon of love which no money can buy or institution provide, God bless them all—their children shall rise up to call them blessed!

FRIENDLY SOCIETIES AND CHARITY.

Patriotic and fraternal societies do a great deal of charitable work among their fellow-countrymen and less fortunate brethren, and this is laudable and proper so long as it is confined within their own immediate circle and all the facts of the case are fully known. But when relief is given promiscuously and the needy poor are publicly invited to come and share the society's bounty positive harm is sure to result. Unfortunately the evil results are not apparent to the generous donor, any more than when a quarter is handed carelessly to a street loafer. It is in the weakening of moral fibre that the harm consists and only the close student of human weakness and social wreckage pauses to trace in the besotted life the contributory cause of downfall. If the benevolent society wishing to have a part in relief work would carry out their good intentions through a central relief bureau or charity organization society the worthy poor might be helped and the unworthy rigorously eliminated, bearing in mind, what cannot too often be emphasized—that the maintenance of self-respect and the cultivation of honest industry and thrift is a sacred duty resting upon every individual or organization that is truly loyal to the state.

KNOWLEDGE THE BASIS OF POWER.

Every social worker, no matter what his or her position, should be fully acquainted with the social machinery of the community. Power for good is limited through lack of knowledge. Many officials and volunteer workers, while fully posted in their own particular line of interests, are quite ignorant of what other organizations are doing, and have never studied the laws and by-laws of their city and country to know just what powers they had in carrying on their work. An influential deputation of philanthropists waited upon the government to ask that a certain measure be enacted. To their surprise they found that for over twenty years there had been a law on the statute books fully covering their request. Many laws dealing with public health and with social work generally have never been put into operation through ignorance of their scope and usefulness. What is needed is not more law, but more careful research and more enthusiasm and determination in carrying out existing legislation. Through frequent conferences also, each worker and society should know what other workers and societies are doing and all should work together so that the best results may be obtained with the least expenditure of money and effort. Nowhere should the friendly spirit of co-operation have a higher exemplification than among social workers. Here there is absolutely no place for rivalry or jealousy.

WOMEN AND POLICE COURTS.

An evil that is almost universal in the administration of police courts is the public trial of female offenders at the same time, and in the same manner as men. This imparts a salacious flavor to the proceedings and accounts in some measure for the motley throng of spectators that gathers day after day in the expectation

of hearing something the little fact. The practice is degrading in the extreme, not only to the unfortunate women, who are still further humiliated and dishonored, but to the male audience whose fine sense of chivalry and respect for womanhood is blunted if not destroyed. There should be a complete and radical change in this respect. Greater privacy of trial and more thorough effort to shield and reclaim erring women is one of the reforms that should engage the attention of the many influential women's organizations throughout the land. (Since the above was written a Women's Court has been established in Toronto.)

WHITE SLAVE TRAFFIC.

One hears a great deal about the white slave traffic and vigorous efforts are being made to protect women from the insidious attacks made against their honor by unscrupulous men. The fact is usually overlooked, however, that the low class theatre, with its suggestive and sordid portrayal of life, is responsible for much of the lustful tendency that characterizes its patrons. This great evil flaunts itself boldly in our large cities and until there is a more vigorous stamping out of indecency in public performances there will be a necessary continuation of immorality and the white slave traffic.

SOCIAL SETTLEMENTS.

It is a significant fact that the idea of a social settlement first originated among university men who realized the potency of education and culture in solving some of the intricate social problems that affected the daily life of the poor. There was, first of all, the influence of example: a little group of educated workers of high vision and purpose might, by taking up their residence with the poor, raise the standard of living and inspire even the lowliest to an effort at self-improvement. Then there was the power of initiative. The poor need leaders to secure and maintain their rights. Civic rules of health and cleanliness that are scrupulously observed in aristocratic neighborhoods are scandalously abused and ignored in poor districts. With leadership and effort, good lighting may be obtained—more prompt and efficient scavenger service, less crowding and better sanitary conveniences; a limitation of the saloon evil, etc. Then, too, there is the great opportunity to create a social atmosphere. The Social Settlement becomes the centre of attraction for young and old, because the varying social needs of all are catered to in a spirit of comradeship and goodwill, and with an entire absence of the charity or patronizing spirit.

In these days of eagerness for social service there should be a well equipped social settlement in every poor district, for no other agency is so well calculated to touch fundamentally and yet acceptably the problem of congestion, poverty and social distress. There is a great work here for cultured men and women. It is well to bear in mind also that the social settlement is not a dispenser of charity. Worthy cases may be referred to the proper authority, but emphasis must always be laid on the neighborly spirit.

THE CHILD. CHARITY.

In no branch of philanthropic endeavor is sanctified common sense more essential than in work for the care and protection of children. Many a life has been rendered hopelessly unhappy; many a girl or youth has drifted into profligacy and crime through the unwise breaking up of the family, and the consequent loosening of the most sacred and helpful ties of affection and kindred. An all-wise Providence has decreed that not only should parents be the natural guardians and protectors of their children, but that the children themselves should be powerful agents in the saving and upbuilding of parents. Conversely, it is equally true that many children, by education and example, have grown up to follow the parental footsteps into the bar, the brothel, the poorhouse and the prison. Just as on the one hand it is sometimes the worst thing imaginable to break up the family, so on the other it is necessary at times to have the firm hand of the surgeon that cuts deep in order to save. Only after the most painstaking effort and when other remedies patiently and persistently applied have resulted in failure, should children be removed from the parental roof. There should be the fullest investigation, warning, entreaty, friendly assistance, constant supervision, and when all these have failed then there should be drastic action. For this special and all important work Children's Aid Societies ought to be well organized and equipped, and a trained director appointed at adequate remuneration to guide well meant effort. Improving the social condition of the family is the best way to permanently help the child. Nearly all these organizations are at present struggling half-heartedly along because of the lack of generous financial support. It is far easier to get money for six additional policemen than for the salary of one man to save children from wrongdoing.

WIDOWS AND THEIR CHILDREN.

Bitter in the extreme is the fate of a mother who is left a widow with young children to rear and her entire source of income cut off. Even though she may have been delicately reared she is forced to go out and work for her children's support and usually the only employment open to her is washing or scrubbing— toil that soon tells on her health and makes her a subject for the hospital. In the meantime her children are left without care or home training, and to her other sorrows is added the great sorrow of seeing her loved ones learn evil ways and drift into prisons or reformatories. Fully fifty per cent. of dependents and delinquents are created under just such conditions. Surely the time has come when public aid should be given to widows with young children so that they may remain at home as the natural guardian and protector of these future potential citizens. There are admitted dangers of pauperization, but a wise and careful policy could surely be devised so that incidental evils might be minimized.

THE CRÉCHE A COMPROMISE.

The Crèche is society's apology for compelling poor mothers to go out working by the day to support their children. It is fundamentally wrong to take a

mother away from the little family circle that depends so much on her guidance and inspiration. Fathers should be rigorously required to maintain their offspring, even if it is necessary to follow them to other districts and garnishee their earnings. Widows should be given financial aid until the boys and girls are old enough to do their share in maintaining the home. An absentee mother means untrained and delinquent children. Ask any juvenile court judge or reform school superintendent if this is not correct. The Crèche is merely a compromise and while it may be necessary as a temporary expedient social workers should not give it too much prominence, but continue to plead for the rights of the children and the struggling mothers.

YOUTHFUL OFFENDERS.

The widespread popularity of the juvenile court movement in recent years is the reflection of public sentiment that the suppression of crime can best be accomplished by more advanced methods of dealing with the first offender. Too often the child is made the victim of wrong social conditions and is punished by law when what he needs is sympathetic study and education in right living. Parents and guardians are not held sufficiently accountable, nor is the environment that created the wrongful act given sufficient consideration in devising a remedy. Before sentence is passed on any child the agents and committees of child-protection societies should be given every possible latitude in their laudable efforts to reclaim and befriend, while at the same time attention should be steadily directed to the contributory causes of youthful delinquency. Where this is faithfully done it will be surprisingly evident how much the youth demands compassion and protection rather than punishment. The child heart is always open to good impressions and success or failure depends very largely on the class of persons who undertake this greatest of all responsibilities.

THE JUVENILE COURT.

The principle underlying the Juvenile Court movement is one of love. Without this the most perfect law in the world will prove a failure, while with it the poorest law may be attended by satisfactory and permanent results in young lives reclaimed from error. It is not the law but the administration that is effective. The fatherly spirit should prevail throughout the procedure and all who have to do with the administration should be chosen for their special fitness as child experts. The mission of the Juvenile Court is to reach the heart of the child and to so influence his affections and ambitions that he will henceforth be guided and controlled by forces within himself rather than by outward bondage or punishment.

Improving the homes of the poor and providing better social conditions will help childhood and the family generally to attain health, happiness and a reasonable degree of prosperity.

INSTITUTIONAL LIFE.

Institutions for children abound, not because that is the best method, but because it is the easiest. Ordinary children who are left homeless and dependent from any cause are better provided for in village and farm homes. A hot house existence does not produce a thrifty, industrious type of citizen nor does it supply the freedom of action and simple pleasure that the period of childhood requires. The safe rule to follow is: first, to keep children in their natural homes if at all possible; and second, to replace such as are unavoidably homeless in family homes, under careful supervision. Even for delinquents boarding in country homes would be better for the average child than the herding together that is inevitable in the institution. Such children always learn more badness from each other than they can possibly learn good from their teachers. In the family home, with its great variety of interests and occupations, the thoughts are diverted from evil and the examples of those around them help to reshape the life and character.

But as there is no likelihood that institutions for children will ever be entirely abandoned, they should be built and conducted on the family plan, imitating, as nearly as may be, the natural home.

SLUMS AND PLAYGROUNDS.

The congested slum districts in large cities are responsible for much youthful wrongdoing. Deprived of their reasonable share of home comfort and happiness, parents as well as children become discouraged. Discontent leads to carelessness and drunkenness. The streets are more attractive than the hovel or crowded flat. The saloon and the cheap theatre cater to the craving for sociability and amusement, and an indifferent community pays dearly for its neglect of the poor. Decent sanitary homes on streets and not in lanes and alleys; playgrounds and recreation centres; fair wages and shorter hours of labor; more friendly intercourse between rich and poor—these and other social advantages, will, when systematically undertaken, lessen very materially the work of the juvenile and criminal courts. Many more small neighborhood playgrounds in charge of responsible persons are needed in towns as well as large cities. Numerous social settlements should be established where educated and devoted men and women of unselfish purpose could live with and among the poor, to inspire them by noble example. Churches everywhere should lend their great organization, wealth and influence to a more practical study of social needs, and to a defence of the poor against the aggressions and tyranny of avarice and greed.

PROBATION.

In order to bring about the reformation of law-breakers without the necessity of imprisonment a system of probation in all criminal law courts is advocated and has been successfully tried in many countries. Probation means the conditional release of the offender after conviction in order to enable him by restitution and

good conduct to earn a complete discharge. It is held that many offenders against the law are already sufficiently punished by the exposure and disgrace of conviction and that the intention of the law has been vindicated if they show real contrition and a willingness to compensate the person they have wronged, since the great bulk of offences are theft. The ancient Jewish law, which is the foundation of modern jurisprudence, laid great stress on restitution, but this has been largely lost sight of. The probation system implies the appointment by the court of special agents who act as guardians, and see that the terms of provisional release are properly carried out, reporting regularly to the court concerning the person so dealt with. Under this humane system it is claimed that reformation is the rule and that the benefit to all concerned is infinitely greater than the fixed sentence of imprisonment. The more general adoption of probation is advocated by many leading social workers, and significantly also by prison wardens and officials who come most in contact with the criminal class.

PRISON REFORM.

We are gradually coming to see the futility of the fixed sentence as a cure for crime. If it is necessary to send a man to prison then the one aim should be his rehabilitation as a good citizen with as little delay as possible. This is not a matter of time but of treatment. One does not dream of requiring the cure of physical diseases in a fixed time, and in dealing with moral malady the time required for cure is even more uncertain. Judges are not as a rule sufficiently familiar with a man's character and antecedents to fairly estimate the length of imprisonment he should undergo, and the inequality of sentence involved in this guesswork is regarded by students of penology as one of the main factors in the prevalence and repetition of crime. In the industrial school legislation of most civilized countries we have a guide that should prevail also in the case of adults. A boy whose conduct indicates his need of discipline is committed to an industrial school without definite sentence. He thus becomes a ward of the Institution until twenty-one years of age. Full provision is made for early release under supervision and every inducement is offered pupils to earn parole. A visitor's record is maintained and if there is evidence of relapse the lad can be returned to the school without further warrant or trial. Properly carried out this law is an undoubted success and conscientious prison officials everywhere would rejoice if they had the same kind of law for adults. At present they are compelled to detain reformed prisoners for an unnecessarily long term, while at the same time they are forced to release on a given date impenitent criminals who immediately resume their warfare against society. The indeterminate sentence of three months and under two years, with the parole system is now in force in Ontario and should be advocated for adoption in Canadian penitentiaries.

THE WEAK-MINDED AND DEFECTIVE.

It should be borne in mind that a large percentage of habitual criminals are defectives who drift into crime from sheer inability to take care of themselves.

These should be carefully sifted out and placed in custodial institutions where with suitable employment they could earn at least a reasonable share of their cost of maintenance. They are now sent to prisons and penitentiaries, not because they ought to be there but because no other provision has been made for them. Their frequent arrest, trial, conviction and re-incarceration constitutes one of the heaviest items in the cost of criminal administration. It would be a great relief from constant menace and great economy to the state, as well as simple justice to those unfortunate creatures if special institutions were provided for them.

THE DRUNKARD.

The thirty day sentence for habitual drunkards has been amply demonstrated to be perfectly useless as a deterrent and yet it continues to be administered in many places. Drunkards often come under the heading of defectives and should be given indeterminate sentences in special homes as already outlined, and there should be in every large community at least one institution for the mentally sound victims of alcohol, where they could be sent for a sufficiently long term to enable them to overcome the habit. As a matter of business it would pay the distillers and brewers to maintain such institutions at their own expense but as this is not likely to be volunteered the state would be fully justified in imposing such an obligation.

MORAL HOSPITALS.

When the problem of crime, poverty and human misery is more thoroughly and scientifically grappled with the daily police court will be re-organized into a moral hospital—not as at present to merely punish guilt, but primarily to study the causes of wrong doing, and to attempt the restoration and upbuilding of those who have fallen, often from causes beyond their own control. Then will the constable be given a higher status as a moral and social reform agent, and not regarded solely as the avenger of a broken law. Less publicity will also be given to human frailty and the weak and defective more fully regarded as adult children needing guidance and protection instead of punishment.

THE MOTIVE.

In all work for human beings, whether of a preventive or reclamatory character, the thought should run through all our efforts, like a golden thread, that it is not law, or system or institutions that save, but only the personal influence of good men and women, thoroughly imbued with the spirit of love and compassion for the children of misfortune and temptation. As the Christ of Calvary gave his life for mankind, so must the successful social worker be inspired by that great example to fully consecrate his life and talents to the fulfillment of his Divine Task—and with such a consecration who can doubt what the results will be?

REPORT

ON THE OPERATION OF THE

Liquor License Acts, Ontario

FOR THE YEAR

1913

PRINTED BY ORDER OF

THE LEGISLATIVE ASSEMBLY OF ONTARIO

TORONTO,

Printed and Published by L. K. CAMERON, Printer to the King's Most Excellent Majesty.

Preface	5
SCHEDULE A.—Statement of the number of Licenses issued from 1874 to 1912 inclusive (by Counties and Cities)	8
SCHEDULE B.—Statement of the number of Licenses issued, extensions and transfers, amount received for license fees, amounts paid to municipalities and to the Province out of License Duties for license year 1912-13	59
SCHEDULE C.—Statement of the amounts received for fines and transfers by license districts for 1912-13	110
SCHEDULE D.—Statement of amounts paid for Expenses of Commissioners, Inspectors' salaries, postage and stationery, printing, advertising and legal expenses for year 1912-13	113
SCHEDULE E.—Gives names and addresses of Distillers, Brewers, Brewers' Warehouses and Wholesalers licensed by the Province	116
SCHEDULE F.—Statutory fees and duties payable for Wholesale, Tavern and Shop Licenses	118
SCHEDULE G.—Showing municipalities in which Prohibition is in force in year 1913	119
SCHEDULE H.—Showing number of cases of infraction of the Liquor License Act for year 1912-13	126
SCHEDULE I.—Statement showing number of cases for violation of Local Option By-laws in year 1912-13	128
SCHEDULE J.—Showing fines collected where Local Option is in force.....	130
SCHEDULE K.—Table showing number of commitments to each gaol for drunkenness during years 1885 to 1913, both inclusive	132A
SCHEDULE L.—Names and post office of Inspectors of Licenses	133
Statement* of Revenue for financial years 1911, 1912 and 1913	135

REPORT
ON THE OPERATION OF THE
LIQUOR LICENSE ACTS, ONTARIO
FOR THE YEAR 1913

PROVINCIAL SECRETARY'S OFFICE,
LICENSE BRANCH.

TORONTO, 2nd JANUARY, 1914.

To the Honourable SIR JOHN MORISON GIBSON, K.C.M.G.,

Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

I have the honour to submit the Thirty-eighth Annual Report and accompanying Schedules, respecting the operation of the Liquor License Laws of the Province.

The total number of Tavern and Shop Licenses for the License Year, ending the 30th April, 1913, has been reduced by 70, as compared with the previous year, and for the current License Year 1913-1914 up to date there have been issued only 1,383 tavern and 217 shop licenses, which represent a further reduction of 88.

The appendix at the end of this report shows that a further reduction in licenses will take place on the first of May next.

Schedule "A" is a statement of the number of licenses issued in the several counties and cities during the past thirty-nine years.

Schedule "B" gives in detail the amounts received for licenses from each city, town, incorporated village and township and unorganized territory of the Province, the amounts divided between the Municipalities and the Province, and the number of licenses, extensions and transfers granted.

The licenses issued during the past eight years are as follows:—

Years.	Licenses.										
	Tavern.				Shop.	Wholesale.	Club.	Total.	Extensions and transfers of licenses.		
	Yearly.	Six months.		Extensions.					Transfers.	Total.	
	Ordinary.	Beer and wine.	Ordinary.	Beer and wine.							
1905-6.....	2,366	18	51	3	283	24	2,745	144	751	895
1906-7.....	2,197	10	47	3	267	23	24	2,571	54	281	335
1907-8.....	2,102	8	43	3	265	25	35	2,481	52	420	472
1908-9.....	2,002	8	48	3	253	23	42	2,379	39	319	358
1909-10.....	1,866	7	40	3	245	33	50	2,244	43	315	358
1910-11.....	1,621	9	21	8	226	31	51	1,967	47	264	311
1911-12.....	1,531	6	30	2	221	30	52	1,872	27	258	285
1912-13.....	1,464	5	23	2	219	29	57	1,799	41	265	306

REVENUE.

The total amount paid to the Municipalities for the license year 1912-13, as shown by this Shedule, was \$339,459.18.

The revenue received by the Province for the license year from retail licenses, transfers and fines amounted to \$414,816.09.

A recapitulation of the receipts and expenditures for the year will be found on page 115.

SCHEDULE "C."

The fines collected during the past year, as shown by this schedule, amount to \$37,433.05, and in the Local Option municipalities, as shown in Schedule "K," the amount collected was \$14,764.00.

SCHEDULE "D."

The cost of commissioners and local inspectors for operating and enforcing the Act in the several districts is given in this Schedule.

The provincial inspectors, with the assistance of special officers, have energetically enforced the License Act.

The expenditure for this service for the financial year 1912-13 amounted to \$31,100.03.

COMMITMENTS FOR DRUNKENNESS.

Schedule "I" shows the number of Prisoners committed for drunkenness during the years from 1885 to 1913 inclusive. The number committed during the year 1913 as compared with 1912 shows an increase of 1,750.

The average yearly commitments for each period of five years from 1876 to 1910, inclusive, are as follows:—

From 1876 to 1880 inclusive.....	3,812	From 1896 to 1900, inclusive.....	1,920
1881 to 1885 ".....	4,016	1901 to 1905 ".....	3,186
1886 to 1890 ".....	3,311	1906 to 1910 ".....	4,974
1891 to 1895 ".....	2,703		

ONTARIO PROVINCIAL POLICE.

The report of the Superintendent of the Ontario Provincial Police for the year ending October 31st, 1913, shows that the members of the Force have initiated or assisted officers of the Liquor License Department in 235 prosecutions under the Liquor License Act. In 179 cases convictions were obtained, 33 persons were discharged, 6 cases were withdrawn, and 17 remained to be dealt with.

The fines imposed, in addition to sentences of imprisonment in a number of cases, amounted to \$18,949.00.

During the year, the following seizures were made: —

4,730 bottles of whiskey.	13 gallons of wine.
160 gallons of whiskey.	50 gallons of high wine.
186 bottles of gin.	91 barrels and cases of ale.
2 barrels of wine.	2,108 bottles of beer.

The statement of receipts for liquor licenses, etc., for the fiscal year ending October 31st, 1913, will be found in the last page of this report.

Respectfully submitted,

W. J. HANNA,
Provincial Secretary.

SCHEDULES.

SCHEDULE A.

COMPARATIVE STATEMENT BY COUNTIES AND CITIES, showing the number of (Provincial) Tavern, Shop, Wholesale and Vessel Licenses issued in the several Counties of the Province, and the Cities separated from Counties, for the license years 1874-5-6-7-8-9-80-1-2-3-4-5-6-7-8-9-90-1-2-3-4-5-6-7-8-9-1900-1-2-3-4-5-6-7-8-9-10-11-12.

County.	Year.	Tavern licenses.	Shop licenses.	Wholesale licenses. ***	Vessel licenses.	Remarks.

The Six Months' Licenses and the Licenses *extended* do not appear in the above Schedule or recapitulation. Beer and Wine Licenses are included with the ordinary licenses, under the heads of Tavern Licenses and Vessel Licenses respectively. An *extended* License is good for a period not exceeding three months. It is not in the nature of a new License, but simply a permission, granted by the Board of Commissioners to the holder of a License expiring in April, to continue his business under the old license for the specified period, that he may be able to dispose of his stock on hand and quit the business without loss. Six Months' Licenses run from the first day of May to the thirty-first day of October, and are not valid after the latter date. They are granted to localities which are largely resorted to in summer by visitors, where the Board of Commissioners is of the opinion that increased tavern accommodation for the summer months is necessary.

* A change in the Act, compelling firms outside of the Province to take out a License to sell to the trade in Ontario, is the cause of the increase. Eleven Wholesale Licenses were issued to firms and chartered companies, who formerly sold to the trade in Ontario without having to procure a license in this Province.

SCHEDULE B.

SCHEDULE B.

STATEMENT BY MUNICIPALITIES, showing the number of Provincial Licenses, whether ordinary, Beer and Wine, or Club, issued; the number extended or transferred; number of bartenders' licenses issued; the sums deposited to the credit of the License Fund Accounts for licenses only; the revenue paid over to the Municipal treasurers, and the amounts received by the Province from licenses for the license year 1912-13.

SCHEDULE F.—Showing Statutory Duties payable for tavern, shop and wholesale licenses
in the Province of Ontario.

In a city having a population of more than 200,000:

For a tavern license	\$1,600
For a shop license	1,600

In a city having a population of more than 100,000 and less than 200,000:

For a tavern license	\$1,200
For a shop license	1,000

In a city having a population of more than 30,000 and not more than 100,000:

For a tavern license	\$700
For a shop license	700

In a city or town having a population of more than 10,000 and not more than 30,000:

For a tavern license	\$500
For a shop license	500

In a city having a population of 10,000 or less and in a town having a population of more than 5,000 and not more than 10,000:

For a tavern license	\$450
For a shop license	450

In a town or incorporated village having a population of more than 2,000 and not more than 5,000:

For a tavern license	\$350
For a shop license	350

In a town or incorporated village having a population of 2,000 or less:

For a tavern license	\$250
For a shop license	270

In a township:

For a tavern license	\$120
For a shop license	200

Provided that in any locality in a Provincial Judicial District other than an incorporated city, town or village there shall be payable:

For a tavern license	\$120
----------------------------	-------

And provided that in a city, town, village, or other municipality, or a locality without municipal organization in a Provincial Judicial District, there shall be payable:

For a shop license	\$500
--------------------------	-------

For a beer and wine license a fee of three-fourths of that imposed for a tavern license in the municipality or unorganized district in which the beer and wine license is issued.

For each wholesale license	\$500
For each sample and commission license	300

For every transfer of a tavern or shop license a fee amounting to one-third of the fee payable for the license transferred.

Provided that the Lieutenant-Governor in Council may increase the duties payable for tavern or shop licenses in any Provincial Judicial District or in any municipality or locality situated therein to such an amount as may be deemed proper, and such increase shall take effect as may be directed by Order-in-Council or from the date of the publication thereof in the *Ontario Gazette*.

In addition to above fees for tavern licenses there shall be paid a sum equal to five per cent. on all daily sales of liquor and receipts of the bar in excess of \$60.00 in cities of 100,000 population and over, and in excess of \$50.00 in all other municipalities.
